No. 874 *of* 1861.—The following paragraphs of Military letter from the Right Hon'ble the Secretary of State for India, No. 304, dated 2nd August 1861, are published for general information:—

No. 86.

1. Your letter dated 3rd June last forwards an application from Lieutenant D. MacIntyre, 2nd in Command Sirmoor Battalion, that the leave of absence for six months granted him to visit Europe on private affairs may be extended to eighteen months on the same account, with retention of his appointment under the 93rd paragraph of your General Order, dated 10th April last.

2. The privilege of retaining appointments during periods of absence not exceeding twenty months, as announced in my Despatch, dated 18th January last, applies only to Officers returning to this country on Medical Certificate. It was intended as an extension of the privilege of fifteen months' leave allowed by the new Furlough Regulations to Staff Officers quitting India on account of the state of their health. With this exception Officers of the Staff Corps, it was stated, would be under the new Furlough Regulations. By these Regulations, Furlough on private affairs with retention of staff appointment is restricted to six months.

3. The Furlough on private affairs of the Officers of the Staff Corps, with the right of retaining appointments, is to be limited to the same period.

4. The application of Lieutenant MacIntyre cannot therefore be complied with.

MARINE DEPARTMENT.

No. 107.

Fort William, the 1st October 1861.

The following Notification is published for general information :—

Notice to Mariners.

Hobart Town, 20th August 1861.

Light House, Cape Wickham, King's Island, Tasmania.

Notice is hereby given, that a Circular Stone Tower, One hundred and forty-five feet high, and painted white, has been erected for a Light-house on the hill near Cape Wickham, at the North end of King's Island, in Bass's Straits, and from which a *fixed White Light* will be exhibited on or after the first day of November next.

The Light is of a first class Catadioptric description, at an elevation of Two hundred and eighty feet above the level of the sea, and, in clear weather, will be visible from the deck of a vessel about eight leagues on an arc of the horizon to seaward from S. S. W. ½ W. round the compass northerly to E S. E.

The attention of Mariners is also earnestly called to the following extract from the Report of the Light-house Commissioners appointed by the Governments of New South Wales, Victoria, South Australia, and Tasmania :—

"In advising the erection of a Light-house on this Island, the Commissioners wish to guard themselves from affording the public any reasonable supposition that this Light can be at all considered in the position of a great highway Light for the navigation of the Straits. The south coast of New Holland, at the western entrance of Bass's Straits, being free from danger, affords, in their opinion, the safest shore for the prudent Mariner to approach; and they conceive that the Light on King's Island is only to be regarded as a Beacon for warning Navigators of danger, rather than as a leading Light to a great thoroughfare."

The bearings following were taken in 1855, by Commander Ross, *R. N.*, from the site of the Light-house :—

Western extremity of Harbinger Reef, N. 69° W.; distance, 4½ miles.

Eastern extremity, N. 54½° W.; distance, 4 miles.

Navarino Shoal, N. 34½° E.; distance, 2½ miles.

Southern extremity of New Year's Island, S. 39° W.; distance, 9 miles.

Northern ditto, S. 49½° W.; distance, 7½ miles

The bearings are magnetic; variation 10° east.

C. M. Maxwell,
Chairman, Marine Board.

By Order of the Right Hon'ble the Governor General of India in Council,

John G. Reddie,
Offg. Secretary to the Govt. of India.

Military Department.

Report on the progress of the Cantonment Garden at Rangoon.

From LIEUTENANT-COLONEL A. P. PHAYRE, Commissioner of Pegu, and Agent to the Governor-General, to MAJOR-GENERAL SIR R J. H. BIRCH, K. C B., Secretary to the Government of India, Military Department, Fort William,—(No. 14, dated Rangoon, the 26th July 1861.)

SIR,—I HAVE the honor to submit, to be laid before His Excellency the Governor-General in Council, copy of letter to my address, No. 279, dated 8th instant, from the Assistant Commissary General of the Pegu Division, containing his Report on the Cantonment Garden at Rangoon for the year 1860-61.

2. In the Report on the transactions of the Government of India in the Military Department for 1855-56, the objects for which that Garden was established by the Most Noble the Marquis of Dalhousie are fully stated. For ready reference I beg to annex a copy of the paragraph which refers to it.

3. It is with much pleasure that I now am able to report that the objects which the Most Noble the Governor-General had in view in establishing this Garden have, from the indefatigable care and judicious arrangements of the Superintendent, Captain F. Harris, been fully realized. Those objects were,—

First.—To supply fresh vegetables to the European Troops.

Second.—To afford occupation and the healthy recreation of gardening to the Soldier.

Third.—To furnish a place of pleasant resort to all the residents of the Cantonments.

4. How the above objects have been attained during the past year are stated in detail in the letter, of which a copy is attached.

5. It will be observed that Captain Harris, as required by the Madras Government, has drawn out an account current shewing the value of departmental labor expended on the Garden during the year. In that is shewn the value of the labor given by Establishments at irregular intervals when their services were not required elsewhere. Of course such an account cannot exhibit the benefits derived from the Garden; but I feel justified in stating that the health of the British Soldier, which is so remarkably good in Rangoon, may be attributed in no small degree to the employment and the recreation afforded thereby, and also to the wholesome vegetables raised therein, which in this climate could not be otherwise procured.

6. I trust the Report will meet with the approval of His Excellency the Governor-General in Council.

From CAPTAIN F HARRIS, Assistant Commissary General, to COLONEL A. P. PHAYRE, Commissioner of Pegu, and Agent to the Governor-General,—(No. 279, dated Rangoon, the 8th July. 1861.)

SIR,—I HAVE the honor to forward two Statements of the accounts of the Cantonment Garden No. 1, shewing that the Institution is Company's Rupees 658-13-5 at credit without debiting the Garden with the cost of Government labor expended on it.

II. Agreeably to the Orders of the Madras Government, I annex account No. 2, which shews that with the full hire of all the Government labor (Commissariat bearers and carts) debited against the Gardens, that the Institution is in debt Company's Rupees 16,771-6-7.

III. It is evident, as the value of the labor exceeds the total amount that I am able to realize from the Garden, that it is not possible to keep up the Institution in any form, if it be not, as it was originally intended by Government, permitted that labor be given, where it can be spared, gratis.

IV. Hereafter when the site of the Garden,—formerly a filthy fever-breeding swamp, the burial ground of the Burmese Government, and the Cantonment cloacina of ours, dead to leeward and close adjoining to the European Barracks.—becomes, as it is now gradually year by year becoming, drained, cleared, and turned into pleasure grounds, it may be possible to keep up the Garden and pay for all labor; but such an unpromising locality cannot without gratis labor or great expense be made into a Garden. I trust therefore I may be right in supposing that Government only desired the labor expense to be fairly shewn without any wish to exact actual cash payment.

V. Keeping in view the remarks of Sir Charles Trevelyan and the Madras Government of 1860, respecting the desirableness of an increase in the number of Soldiers cultivating,—and deeming this to be the main object of the Garden,—I have afforded the men every encouragement, with the gratifying result of having had this past year 119 men so employed, *viz.*, 107 of the 68th and twelve of the Artillery: this increase has been gradual and progressive, for in 1857 we began with no men, increasing

in 1858, to 20 men.
„ 1859, „ 50 „
„ 1860, „ 119 „

The annexed Statement shews the number of lbs. of vegetables the men have raised and sold to the Commissariat, exclusive of private sales and what they ate.

		Radish.	Lettuce.	Knolkol.	Turnips.	Cabbage.	Beetroot.	Carrots.	Tomatoes.	Total.
November	457 lbs.	433	24	...	...	...	...	...	...	457
December	1,356 „	565	284	56	451	...	...	...	...	1,356
January	4,786 „	1,171	797	2,088	523	114	78	15	...	4,786
February	5,910 „	189	361	2,489	540	1,777	497	57	...	5,910
March	2,880 „	1,263	25	1,148	...	...	392	...	52	2,880
Total ...	15,389 „	3,621	1,491	5,781	1,514	1,891	967	72	52	15,389

That increase in the quantity of vegetables raised has also been progressive is shewn by the following Statement:—

1857 No. of lbs. of vegetables raised by Soldiers.
1858 „ „ „ „ 2,861¼
1859 „ „ „ „ 12,869
1860 „ „ „ „ 15,389

All the seeds necessary were supplied to the Soldiers, under fair rules, by the Garden.

VI. The usual Horticultural show for the men came off with such success that there was not this year the slightest necessity to heighten the interest and competition of the Exhibition by athletic sports, which were discontinued.

VII. The part of the Garden cultivated by the Commissariat produced this year 16,754 lbs. of vegetables as follows:—

Radishes ...	lbs. 6,604	..	Knolkol ...	lbs.	1,202
Turnips ...	„ 3,207	.	Lettuce ...	„	1,121
Mustard ...	„ 53	...	Cabbage ...	„	3,202
Carrots ...	„ 928	..	Beetroot ..	„	191
Celery ...	„ 211	...	Total ...	„	16,754

against 19,780 lbs. grown last year; this diminution is easily accounted for and tells in favor, instead of against the Garden, for every inch of available ground is now under cultivation, and as the number of Soldiers requiring ground increases, the Commissariat has to relinquish to the men plots it formerly held.

VIII. The Commissariat raised this year 15,120 lbs. of country vegetables, being an increase of 1,082 lbs. over last.

Up to April 1861.

IX. I leave it to your own personal observation to record how far the conversion of the locality into a park or garden progresses step by step.

X. The Chief Engineer, always anxious to assist as far as his Budget will allow him, has this year greatly helped us by permanently strengthening and repairing the bunds, a most necessary work ably executed by Captain Leeds, Executive Engineer.

XI. I trust you will consider that the three objects originally proposed by Lord Dalhousie have been fairly gained:—

1*st.*—To afford the means of raising vegetables for the European Troops.

2*nd.*—To give the men an opportunity of amusing themselves in gardening.

3*rd.*—To furnish a place of pleasant resort for the Soldiers in common with the rest of the Cantonment.

XII. The Madras Government by their Minutes of Consultation, No. 3049 of the 23rd August 1860, paragraph 2, and Sir Hugh Rose, the Commander-in-Chief, by his General Order by the Commander-in-Chief No. 153, dated 8th October 1860, both evidently take a warm interest in inducing European Soldiers to amuse themselves by gradening; and as I have shewn that I

have succeeded not only in keeping up, but in exciting considerably an increased desire on the part of the men thus to employ themselves, I trust you may be pleased to urge on the Government to grant the employment gratis of available departmental labor, for that boon withdrawn, the whole Concern must inevitably and at once fall to the ground.

P. S.—You may remember that you asked Mr. O'Riley to procure me some roots of the Karen Potatoe, and that you wished me to try it. I planted them in May and they are now flourishing, and will, I expect, give a crop about October. Dr. Mason states this to be "the best vegetable we have, more like a potatoe than a yam," and styles it the *dioscorea fasciculata*; if the cultivation is successful and can be introduced into Rangoon, I have every hope this esculent may prove a most valuable and seasonable addition to the limited varieties of vegetables we are enabled to procure for the European Troops in these Provinces. No one has ever seen it in Rangoon, I believe.

Extract of Report on the transactions of the Government of India in the Military Department, in 1855-56.

"PARA. 2.—When Lord Dalhousie visited Rangoon at the beginning of 1851, the condition of things in the Province of Pegu struck him as being peculiarly favorable for instituting an experiment at that place, to be afterwards made general throughout the Province.

The term 'Soldiers' Gardens,' however, was, in His Lordship's opinion, too restricted to describe correctly what the Gardens ought to be; the objects to be accomplished by them ought, he considered, to be,—

First.—To afford the means of raising an ample supply of fresh vegetable for the European Troops.

Second.—To give to the men the means of occupying and amusing themselves with gardening if they choose.

Third.—To furnish a place of pleasant resorts for the Soldiers in common with all the residents of the Cantonments.

Lord Dalhousie was of opinion that the culture and maintenance of the Gardens could not be safely left to the Soldiers themselves alone, and that every Cantonment Garden should have a permanent Establishment kept up by Government, sufficient to ensure its being maintained in proper order and due cultivation; that it should not be merely a "Kitchen Garden" but such a spot as could be rendered an attractive resort, varied with shady trees, with trellised alleys, with skittle and quoit grounds, gymnastic poles, and all such things as the experience of Commanding Officers might suggest as likely to divert the men; that, in short, it should be like the Annarkullee Garden at Lahore, upon which Sir Henry Lawrence bestowed such unwearied pains and with such signal success; and that a portion of each Cantonment Garden should be reserved, so as to be at the disposal of each European Regiment, in which the men, if so pleased, must occupy themselves in gardening, while a pleasant resort would be provided for all in Cantonments, both Officers and Soldiers, as well as their families."

From the Secretary to the Government of India, Military Department, to the Commissioner of Pegu,—(No. 997, dated Fort William, the 25th September 1861.)

SIR,—HAVING laid before His Excellency the Governor-General in Council your letter No. 14, dated 26th July last, submitting the Report of Captain Harris, Madras Commissariat, on the Cantonment Garden at Rangoon for 1860-61, which shews that the number of Soldiers whom the encouragement offered to them has induced to engage in the cultivation of vegetables has increased from twenty men in 1858 to 110 men in 1860, and the quantity of vegetables sold by them to the Commissariat Department (exclusive of what they have consumed themselves, or disposed of to private individuals) from 2,861 lbs. in the former to 15,389 lbs. in the latter year, I am directed to convey to you the expression of the warm approval of Government of the exertions of the Authorities who have aided, and of those especially of Captain Harris who has carried out these excellent arrangements.

2. His Excellency in Council observes that the financial results appear very creditable, and shew what can be done where due interest is taken in, and due encouragement given to them by the Officers upon whom the success of such undertakings usually depends.

3. The Governor-General in Council has directed that your letter, Captain Harris's Report, and this reply, shall be published in the Supplement to the *Calcutta Gazette*.

Appointment of a Commission to enquire concerning the recent outbreak of Cholera among the European Troops in Upper India.

DR. MCLELLAND, *Deputy Inspector-General of Hospitals,* ...
LIEUTENANT-COLONEL GAWLER, *Officiating Deputy Adjutant-General, British Forces,* ...
MAJOR P. STEWART, *Bengal Engineers,* ...
} *Members.*

Dated 31st August 1861.

GENTLEMEN,—I AM directed to acquaint you that His Excellency the Governor-General in Council has been pleased to appoint you a Special Commission of Enquiry, to investigate and report on the recent outbreak of Cholera among the European Troops in the several Stations in the North-Western Provinces, and at Meean Meer.

2. The Governor-General in Council desires that the Commission shall meet at Lahore, at the earliest practicable date, and that, after completing

their enquiry at that place, they shall proceed to Umballah, Delhi, Meerut, Agra, and Gwalior, taking these Stations in such order as may appear to them convenient, and reporting by Telegraph when about to proceed to any of them, diverging to Futtehgurh and to any other Stations at which the European Troops have been attacked by this disease, and which are at no great distance from the places named.

It is to be remembered that the chief means of arriving at a practical result will be a careful comparison between the points of resemblance and difference in the circumstances of each place afflicted.

3. The Governor-General in Council desires that a full and searching enquiry shall be made into particulars of every description, which can throw light on this severe and fatal attack of Cholera among the European Troops at so many Stations, and more especially among those at Meean Meer.

4. The points to which your attention is more particularly required are such circumstances as may tend to develop the characteristics of the attack; its line of progress from one place to another; the mode in which its virulence has been checked, whether by moving the Troops into camp or otherwise; the situation of the Barracks, and whether the disease has been general in the Regiment or confined to particular Companies or Barracks or to portions of Barracks; the cubic space per man in each Barrack, the nature of the ventilation in the Barracks, and of the drainage in the neighbourhood; the description of privies, whether cesspool or surface, and how situated as regards their distance from the Barracks, and the direction of the prevailing winds, and whether the effluvia from the urinaries enter the Barrack rooms; what precautions are taken to have men who are ailing, though not ill or unfit for duty, brought before a Medical Officer; whether the men are allowed to sleep outside or in the verandahs in the damp without covering, or have been in the habit of exposing themselves to the rain in walking out or in going to and from the Canteen or Bazar, and of wearing damp clothes; what amount of night duty the men have had to perform; whether they are exposed much in their night duties, and whether spare Great Coats are kept in the Sentry boxes, so as to insure a dry Coat when the one in wear is wet; whether the men are provided with Cholera belts and wear them, and whether the Clothing is of a nature suited to the season of the year.

5. The sanitary history of the Regiments for the last two or three years years should be ascertained, and the Stations they were at during that period.

6. The nature and amount of drill should also be a subject of inquiry;—at what hour the men are turned out, whether kept on damp ground for any length of time, or exposed to wet, or to heavy dews, or to the influence of the sun; whether it seems better that the men should turn out before or after sunrise, at certain seasons, so as to avoid exposure to fog and dews, and malaria, which prevail most in the early morning.

7. Another point of inquiry is, what class of men have chiefly suffered, whether old Soldiers or young ones; acclimatized men or men newly arrived in India; men of good or bad character; spirit or beer drinkers, or water drinkers; those who use vegetables abundantly, or others; men who have been on night duty, or others.

8. Attention is especially required to the nature and diet of the Soldiers; the descriptions of bread and meat and vegetables supplied; what attention is paid to the cooking; the nature of the small articles supplied by the cook-boys, and whether the food is properly cooked, the tea and coffee properly made, and whether a change is daily made in the cooking, and what measures are adopted to insure this; whether the men are in the habit of drinking Country Liquor, Ginger Beer, and other similar beverages; and whether any precaution is taken to insure the Ginger Beer and drinks of that kind being of good quality and free from acidity.

9. It is important to know what protection the men have against being furnished with indifferent rations; whether the Commissariat Officer and the Quarter-Master of the Regiment, or any other Officers, make it a rule to point out when any article of food is objectionable, without waiting for objections being made by the men.

10. A further object of inquiry is what amusements are available for the men; what games out of doors and in-doors; and whether the men generally employ their spare time in these games, and in amusements, such as theatricals, &c., and in reading.

11. There will be other points of inquiry which will probably suggest themselves to you; and I am desired to observe that no point should be considered too minute or trivial, the investigation of which may tend to shew how the attack of the disease may be in any degree warded off, its virulence diminished, or its recurrence prevented.

12. It will be requisite that your Commission should draw up a full Report of your proceedings and investigations; and you will have the goodness to transmit that Report to this Department, for submission to His Excellency the Governor-General in Council.

From Major-General Sir R. J. H. Birch, K. C. B., Secretary to the Government of India, Military Department, to J. Strachey, Esq., C. S., President, Special Committee, Lahore,—(dated 7th September 1861.)

Sir,—With reference to my letter No. —— of the 31st ultimo, I am directed to acquaint you that one point of enquiry overlooked, when my letter of instructions was written, is the comparative immunity of Officers at Stations where the Soldiers have been very severely attacked.

The Governor-General in Council requests that the Commission will investigate this point with the others.

From Secretary to the Government of India, Military Department, to J. Strachey, Esq., C. S., President, Special Committee, Lahore,—(dated 14th September 1861.)

Sir,—I am desired to acquaint you that the Hon'ble the Lieutenant-Governor of the Punjaub has been informed that the Special Commission of which you are President will gladly receive any evidence or opinion on matters within the scope of your enquiries which any Officers under the Government of the Punjaub may be able usefully to furnish.

Public Works Department.
The 2nd October 1861.

Public Works Expenditure for 1861-62.

Last year with the *Calcutta Gazette* Supplement of October 3rd, was issued a Sheet shewing, in a Tabular Form, the Expenditure of the Public Works Department under the several Local Governments, for the year 1860-61, as sanctioned by the Government of India, compared with the area, population, and revenue of the respective Presidencies and Provinces.

A similar Table has been prepared to represent the sanctions of this year. The whole estimated Expenditure chargeable to the British Government, exclusive of Local charges, falls little short of three and three-quarter Millions Sterling, *viz*:—

Disbursed in the Public Works Department	...	£ 3,408,940
Disbursed in the Home Department for Electric Telegraph Charges	...	„ 65,895
Government outlay for Railway control and purchase of land	...	„ 200,165
Total British, Public Works Expenditure	...	£ 3,675,000

Besides this there is an estimated Foreign Expenditure in Mysore and the Hyderabad Assigned Districts, chargeable to those Provinces, but disbursed by the Public Works Department, amounting to £ 111,600. Thus the total Public Works Expenditure in India, under the control of the British Government, will amount, during the year 1861-62, to £ 3,786,600.

The allotments to the several Governments, the per cent. on revenue, and outlay per square mile and per head of population, are shewn in the following Table :—

Governments.	Allotments.	Per cent. of Revenue.		Area in Square Miles.		Population.	
		Total Revenue.	Per cent.	Total Miles.	Per Mile.	Total.	Per head.

Coorg	¼ „	400,000	6·2	2,204	1 2 8	118,464	0 0 5

Including the sum set down for unforeseen requirements and petty works, the Expenditure on new works is 53 per cent. of the whole; 25·5 per cent. is for repairs, and 21·5 per cent. for supervising Establishments, consisting of Engineers and their Subordinates, with the Offices for Correspondence, Drawing, Estimating, Accounts, and Audit.

The outlay in the Public Works Department in Pounds Sterling is thus classified :—

	New works.	Percentage of total outlay.	Repairs.	Percentage of total outlay.	Total.	Percentage of total outlay.

Grand Total					3,436,100	100

On the reverse of the Comparative Table is a list of the most important works on which expenditure is being incurred, with the amounts it is intended to expend on each during the current year.

The authorities on which the area, revenue, and population of each Government or Province are stated will be found explained in a note at foot of the Table.

FORT WILLIAM, GENERAL TREASURY,
The 30th September 1861.

J. I. HARVEY,
Sub-Treasurer.

No. 907 *of* 1861.—His Excellency the Governor General in Council is pleased to restore to Commanding Officers of Native Regiments the powers they formerly possessed of dealing summarily with cases of Native Soldiers who may not be within the limits of the power of disposal by an Invaliding Committee, but, who being short service men, may be pronounced by the Regimental Surgeon physically unfit for the service.

2. To men of above seven years' service discharged on the report of Medical Committees or by Commanding Officers under the above authority, gratuities will be allowed on the following scale:—

Above seven and under fifteen years' service, Rupees (21) twenty-one, equal to three months' pay.

Above fifteen and under twenty years' service Rupees (42) forty-two equal to six months' pay.

3. No man who within twelve months of his being entitled to a pension becomes incapacitated from performing the duties of a Soldier will be allowed a pension, but such men will be discharged with gratuity.

4. Commanding Officers are to take care that this rule, which is intended to prevent pension being obtained by Malingerers, is not evaded.

5. In all cases where men are discharged with gratuity under the provisions of this order, Commanding Officers will first obtain the written opinion of the Medical Officer of the Regiment that the Soldier is physically unfit for the service and is not likely to become fit from treatment in Hospital or from a change of air, or sick leave to his home; and that he is not a Malingerer, or suspected of being so. This will be attached to the Monthly Return of each Corps sent to superior authority when any Native Soldier has been, during the past month, discharged under these circumstances, together with a copy of the Certificate of the Medical Officer on which the discharge of the man was directed, and statements of the periods during which the Soldier has been incapacitated from performing his duty during the two preceding years, and of his general character; and it will be the duty of the superior authorities who receive these Returns to see that the wishes of Government to have no inefficient men in the Army are attended to.

6. Inspecting Officers of Native Corps will carefully observe whether any men, obviously unlikely to make efficient Soldiers, are retained on the Rolls, and any instance of the kind will be marked by the severe disapprobation of Government.

7. This order is to be applicable to the three Presidencies.

No. 908 *of* 1861.—With reference to the Notification issued from the Foreign Department, No. 5684 of the 30th ultimo, re-placing the services of Lieutenant W. E. M. B. Ramsay, of the late 17th Native Infantry, Assistant Commissioner in Oudh, at the disposal of the Military Department, at his own request, the services of Lieutenant Ramsay are placed at the disposal of His Excellency the Commander-in-Chief.

Foreign Department.

Report of the relief given at Goonah to the starving Poor from the North-West Provinces.

From COLONEL SIR R. C. SHAKESPEAR, KT. and C. B., Agent, Governor-General for Central India, to COLONEL H. M. DURAND, C. B., Officiating Secretary to the Government of India, Foreign Department,—(dated Indore Residency, the 16th September 1861.)

SIR,—IN the letter of your Office, No. 874 of date 28th February 1861, Government authorized the disbursement of a sum equal to that which may be raised privately by monthly subscriptions for the relief of the starving Poor who may pass through Goonah.

2. I have the honor to forward, in original, together with its enclosures, letter No. 549 of date 11th instant, from Colonel James Travers, V. C., from which it will be seen that on the 31st July it was found unnecessary to give any further aid.

3. Between that date and the 7th February 19,460 men, women and children obtained relief at a total cost of Rupees nine hundred and ninety, and as the private subscription fully equalled that sum, it has been found unnecessary to take advantage of the liberal offer of Government.

Rupees 990.

4. From paragraph 3 of Colonel Travers' letter it would appear that the great bulk of Emigrants who fled to Malwa have returned to the North-West Provinces. Their return seems to have commenced about the beginning of May and apparently caused by the Emigrants hearing of the measures adopted by the Government at their own homes.

From COLONEL JAMES TRAVERS, V. C., Commandant, Central India Horse, to COLONEL SIR R. C. SHAKESPEAR, KT. and C. B., Agent, Governor-General for Central India,—(dated the 11th September 1861.)

SIR,—I HAVE the honor to inform you that the Fund established at this Station for the relief of the starving Poor flying from the North-West Provinces and brought to your notice in my letter No. 69 of 7th February 1861 closed its proceedings on the 31st of July, there being no further occasion for its operations.

2. The whole distress at this Station was fully met by the benevolence of individuals, and there has therefore been no occasion to take any advantage of the Government's liberality.

3. Judging from the apparent numbers that passed to the cheaper Districts of Malwa during the great strength of the famine, and that have since re-passed to their homes, the great bulk of the Emigrants have returned to the Provinces.

4. As the Government may desire to know the amount of relief afforded and the number of Poor relieved throughout the Upper Provinces during the late distress, I enclose the Report of Lieutenant James, the Secretary of the Relief Fund at the Station, together with his forwarding letter to my address as the President of the Committee.

5. Lieutenant James has performed his duties as Secretary with care, zeal, and ability.

6. Since the 29th January last to the date of closing the operations of the Fund 19,460 men, women and children (not including infants at the breast, on whose account an extra ration was given to the mothers) have been relieved at a cost of Rupees 990.

From LIEUTENANT C. JAMES, Secretary, Goonah Famine Relief Fund, to COLONEL JAMES TRAVERS, V. C., President of the Committee, Goonah Famine Relief Fund, —(dated the 1st September 1861.)

SIR,—I HAVE the honor to annex a copy of a Memorandum circulated to the Subscribers to the Goonah Famine Relief Fund on the 2nd August last.

In view of your perhaps desiring to inform Government of what has been done in this quarter, it may be as well to add a few explanatory remarks which was unnecessary in a Report addressed to the Subscribers only.

As early as the month of January we saw the effect of the great famine in the largely increased number of beggars, but they were not then in such numbers as to be beyond the efforts of ordinary charity.

In February, however, the number of fugitives from the Famine Districts passing daily through Goonah was, on an average, about two hundred, (200) many of these arriving here, according to their own account, sadly borne out by their emaciated appearance, after a fast of three or four days.

It was then evidently necessary to resort to some systematic mode of relief, and at a meeting of the Officers, the only European residents at the Station, a Committee was appointed with that object.

The formation of the Committee and the details of its first operations have, I believe, been already reported to the Agent of the Governor-General.

The daily applicants for relief in the month of February being so numerous, sometimes indeed exceeding 400, the Committee felt justified in applying to Government for the same proportion of aid as given in the actual Famine Districts.

It was given as soon as sought, but happily the Committee have not found it necessary to avail themselves of the liberality of Government.

In the month of March there was a rapid diminution in the number of applicants for relief.

The efforts made in the Northern Provinces and everywhere on their behalf made it quite unnecessary for the unfortunate inhabitants to resort to flight, aid in abundance was on the spot.

After the beginning of May the Committee had the satisfaction of witnessing the gradual return of the Emigrants to their homes and of assisting them on their way.

MEMORANDUM.

For many days past no persons of the class for whose benefit the Famine Relief Fund was established have presented themselves for relief.

It will be seen indeed, by a reference to the "Diary of Expenditure," that food has been distributed up to the last day in July to daily varying numbers; these people however were not from the Famine Districts, but consisted of the ordinary Poor of the land who, whilst the Fund was in operation, generally applied in vain to the native inhabitants of the Town of Goonah. "Go to the Sirkari Relief Fund" was the natural and ready answer to all applicants.

To continue the distribution of food from the "Relief Fund" would, under these circumstances, be simply to continue to stop the ordinary exercise of charity; it has therefore been discontinued from the 31st ultimo.

There is a small balance of Rupees 8-5-10 in the hands of the Secretary, who will be happy to expend it upon any proper subjects for relief who may be brought to his notice by Subscribers.

As a short abstract of the operations of the "Relief Fund," it may be stated that since the 29th January last 10,460 men, women and children (not including infants at the breast, on whose account an extra ration was given to the mothers) have been relieved at a cost of Rupees 990 realized from subscriptions and donations.

Soon after the Fund was first established, it seemed, from the number of famine stricken wretches then passing daily through Goonah, that it would be necessary to obtain from Government the same support as was given to all similar Funds in the North-West Provinces and the Punjab. The support was accordingly sought for and at once conceded, but happily we have not required to avail ourselves of it.

(Signed) CHARLES JAMES, *Lieut.*,
Secretary to the Committee.

MILITARY DEPARTMENT.

Fort William, the 11th October 1861.

No. 910 *of* 1861.—His Excellency the Governor General in Council is pleased to make the following appointment:—

Hyderabad Contingent.

4th Infantry.

Lieutenant C. Jameson, 25th Bombay Native Infantry, Adjutant, 6th Infantry, and Officiating Second in Command 4th Infantry, to be Second in Command, *vice* Captain Adey, appointed Commandant 2nd Infantry, Hyderabad Contingent.

No. 911 *of* 1861.—Subadar Shekh Dayanut Ally, of the 9th Regiment Native Infantry, is promoted to the rank of Subadar Major with effect from the 6th June 1861, *vice* Subadar Major Lalla Ramdyal, invalided.

No. 912 *of* 1861.—The undermentioned Officer is permitted to proceed to Europe on leave of absence on Sick Certificate:—

Captain George Faithfull, of the late 68th Native Infantry, First Class Deputy Commissioner of Arracan, Akyab.	For seven months, under the new Regulations, embarking at Madras.

No. 913 *of* 1861.—His Excellency the Governor General in Council directs the publication of the subjoined Questions on subjects of general interest, and the Answers given by Government, in continuation of those published in Government General Order No. 833 of the 17th September 1861 :—

Question 114.—With reference to the reply to Question 83, published in Government General Order No. 681, in which it is stated that "all authorized leave" will reckon towards promotion under the Staff Warrant, enquiry is made if by "authorized leave" only two years in twenty, &c., is intended?

The Officer has had only about 1¾ years leave in sixteen years' service; but sickness may send him home. Suppose, under the circumstances, he was obliged to spend eighteen months at home, would all in excess of two years count against him for his promotion to a Majority?

If it would not count against him for promotion, what is intended by the term "authorized leave?"

Answer 114.—No leave except privilege leave is to reckon towards promotion, except in the case of Lieutenant-Colonels. See Despatch from Secretary of State No. 315, published in General Order No. 824, dated 17th September 1861.

The answer to question 83, in which these words occur, has been cancelled by the Despatch above quoted.

Question 115.—An Officer left India, having completed ten years' service on the 9th of March 1857, on furlough to England for three years on private affairs. Ordered to return before the expiration of his furlough on account of the mutiny, he left England on the 2nd July 1858, in charge of Recruits;—he has thus only had one year, three months and twenty-three days of his furlough. As all Officers joining the Staff Corps are compelled to take the new Furlough Regulations, he wishes to know how he should be situated as regards the unexpired portion of his furlough, whether he shall be permitted to take it, or whether he shall be allowed the difference only between the time he has already had and the two years to which Officers who have completed ten years' service in India are entitled under the new Furlough Regulations?

Answer 115.—He will be allowed to take such portion of the unexpired period of his furlough, as will make his absence equal to the time allowed by the new Furlough Rules.

Question 116.—Will an Officer of Artillery having volunteered for General Service, and having already declared for the old Furlough Regulations, be bound to take leave under the new Furlough Regulations in consequence of declaration for General Service?

Answer 116.—No, he will retain the Rules he has elected.

Question 117.—With reference to answer to Question 15, published in Government General Order, 9th July 1861, No. 598, whether Artillery Officers electing to serve out of India, under the provisions of the Government General Order, 10th April 1861, No. 332, para. 30, will be allowed to succeed by seniority to the receipt of Colonel's allowance in the Indian Artillery?

Answer 117.—Yes; their promotion in their own Corps is not affected by their volunteering for General Service.

Question 118.—By Government General Order No. 332, there is no rank recognized in the Staff Corps between that of General Officer on Rupees 1,295 a month, and Lieutenant-Colonel on Rupees 827-11-0, but that of *Brevet* Colonel, the pay of which is the same as that of Lieutenant-Colonel.

The Bombay Government ask whether an Officer of the Staff Corps, not being a General Officer, on obtaining the Colonel's allowance would receive only Lieutenant-Colonel's pay, with Colonel's allowance, or Colonel's pay as well as allowance, notwithstanding that there is no substantive rank of Colonel in the Staff Corps?

Answer 118.—No instructions have been received from the Secretary of State respecting Colonel's allowances in the Staff Corps.

Question 119.—Supposing an Ensign of the General List volunteers for General Service, but is not posted to one of these new Regiments now being raised, what will become of him?

Answer 119.—He will be available for general duty like all other Local Officers.

Question 120.—Supposing an Ensign on the General List remain "with the Locals," will he be posted to the Cadre of some Corps and get his promotion in that Corps; or will he get his promotion by the General List?

Answer 120.—No, he will not be posted to any Regiment. His promotion will continue as at present.

Question 121.—Can an Officer of the Staff Corps, not entitled to his furlough, obtain six months' leave of absence to England on urgent private affairs without pay and allowance, retaining his appointment?

Answer 121.—Government may grant such leave on being satisfied of the urgency of the case.

Question 122.—In paragraph 7 of a Military Letter No. 296 of 1861, published in Government General Order No. 799 of 10th September 1861, the Right Hon'ble the Secretary of State for India is pleased to declare, in the case of an Officer who had elected the old Furlough Regulations, that his service for pension should reckon under the old Rules until he joined the Staff Corps, but that after that date he would be under the operation of the new Furlough Rules, as laid down in the General Orders, 10th April 1861, (93). Up to the period of joining the Staff Corps, an Officer had not elected to be under the new Furlough Rules,—can he claim therefore to reckon his service for pension under the old Rules until he joined the Staff Corps, or from the 1st May 1838, the date on which he arrived at the Presidency of Fort William in Bengal, to the 18th February 1861, the date from which he ranks in the Staff Corps, being a period of twenty-two years and nine months and eighteen days; a period of eight months and eight days, or from the 8th May 1854 to the 16th January 1855, having been passed on leave in India on Sick Certificate, and which under the old Rules counts as Service?

N. B.—Under Rule 1 of Government General Order No. 1150 of 1854, or the new Furlough Regulations, this Officer had the right of retaining the advantage of the old Regulations, but has had no opportunity of making a declaration to that effect, not having taken leave since they were promulgated, though he was on leave under the old Rules when they were promulgated.

Answer 122.—All leave which, under the old Rules, was allowed to reckon as service, will so reckon with an Officer who joins the Staff Corps without having previously elected to be under the new Furlough Rules.

Question 123.—Is an Officer considered to have joined the Staff Corps from date of sending in his Roll, or from date of the Royal Warrant forming it; or if he join this Corps on 1st October, shall he be considered to have been on the old Regulations to that date?

Answer 123.—Officers are considered to have joined the Staff Corps from the 18th February 1861.

If an Officer be on leave under the old Furlough Regulations at the time of joining the Staff Corps, on the 1st of October for instance, he will be considered entitled to the benefit of the old Regulations till such leave expires. But an Officer not actually on leave at the time of admission to the Staff Corps will be under the new Furlough Rules from the 18th of February 1861.

No. 914 *of* 1861.—The undermentioned Officers and Warrant Officer have reported their departure on the dates specified opposite to their respective names:—

MILITARY DEPARTMENT.

Fort William, the 12th October 1861.

No. 922 of 1861.—In order to place the responsibility of the receipt and issue of Ordnance Stores as much as possible upon the parties personally interested in their quality and description, and to dispense, when practicable, with recourse to Committees of Survey, the following Rules, in supersession of Military Regulations as per margin, are published for guidance:—

Section III., paragraphs 33, 40, 43, 44, 45, 46, 50, 54, 60, 61, 62, 63.
Section IX., paragraphs 5 and 8.

1. Stores issued from a Magazine to Regiments and Detachments shall on arrival be carefully examined by Commanding Officers, on whose responsibility they are to be received should no objections be offered at the time of such examination.

2. In cases where the Commanding Officer is of opinion that Stores issued from a Magazine differ in quality or pattern from the prescribed standard, a Committee of selected Officers will be appointed by the Officer Commanding the Station to report on the Stores. The opinion of this Committee, if condemning the Stores as unfit for the Service, will, when confirmed by the Officer Commanding the Station, be considered final. A copy of the Committee's Report is to be immediately forwarded by the Officer Commanding the Station to the General Officer Commanding Division for the information of His Excellency the Commander-in Chief, and a duplicate is to sent to the Inspector-General of Ordnance, in order that he may be able to call upon the Ordnance Officer who supplied the Stores to account for their issue.

3. The condition of all Stores received by a Commissary of Ordnance from other Magazines and Departments, or from Regiments and Detachments, is to be fully detailed in the Monthly Return of Receipts. Such Stores are to be submitted for the opinion of Committees only when their condition or quantity is considered by the Ordnance Officer to be different from that stated in the Invoice, or when he wishes to avail himself of the judgment of Officers of superior knowledge and experience in settling important or doubtful questions. In all other cases Stores are to be received on the responsibility of Ordnance Officers.

4. In the event of Stores received from a Magazine or Department, or from a Regiment or Detachment, being pronounced by a Committee to be different in respect to condition or quantity from that stated in the Invoice, the decision of such Committee will be promptly made known by the Commissary of Ordnance to the Officer who despatched the Stores, and the latter is to furnish to the Inspector-General of Ordnance any explanation on the subject which he may think proper.

5. Difference of opinion with respect to the quantity or quality of Stores given into a Magazine by a Regiment or Detachment at the Station can be frequently reconciled by the presence of the Commanding Officer or his Quarter-Master, and the Quarter-Master should be directed to attend at the Magazine for this purpose when his presence is requested by the Ordnance Officer.

6. All Military Stores and Equipments in use with Regiments which have become, in the opinion of the Commanding Officer, unfit for further service are to be examined and reported on by a Regimental Committee. Copies of the Committee's Reports and Indents for Articles to re-place the condemned Stores are to be transmitted quarterly by the Commanding Officer to the Inspector-General of Ordnance. In emergent cases Indents are to be sent in at once.

7. In all cases when Military Stores or Equipments in use with Regiments require renewal before they have lasted the prescribed period, a full report of the circumstances is to be made by the Commanding Officer to the General Officer Commanding the Division, who will, if he thinks necessary, convene a Committee of experienced Officers to report upon the causes which have led to the early condemnation of the Stores.

8. The Committee are to record whether the reasons given are, in their opinion, sufficient to justify the renewal, at the public expense, of the Stores in question, and the Officer convening the Committee is to state whether or not he concurs in the opinion of the Committee.

9. In the event of the Committee considering that the articles should be paid for, they are to name the party or parties who are to be held responsible.

10. Regimental Equipments condemned by Regiments and Detachments will invariably be sent into the nearest Magazine, where they will be subjected to further examination and report by the Ordnance Officer, and if necessary by Committees as provided for in Rules 3 and 4.

11. The assembly of Committees to report on the repairs of Camp Equipage in use with Regiments and Detachments will be discontinued; the duties assigned to Committees in Section IX., paragraphs 5 and 8, Military Regulations, will in future be performed by Commanding Officers.

No. 923 of 1861.—The services of Major-General A. H. E. Boileau, of the Corps of Engineers, are placed at the disposal of the Public Works Department.

No. 924 of 1861.—In accordance with the instructions of Her Majesty's Government, the Bengal, Madras, and Bombay Regiments of Artillery will be formed into the 2nd, 3rd, 4th, and 5th Royal Horse Brigades, and the 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, and 25th Brigades of Royal Artillery.

Foreign Office.

Letter from the Deputy Commissioner of Simla, to the Secretary to the Government of the Punjab, dated the 14th September 1861, relating to the Murder* of the late Adolphe Schlagentweit.

I HAVE the honor to report, for the information of His Honor the Lieutenant-Governor, that I have at this moment in my possession the Journal of Mr. Adolphe Schlagentweit, who, His Honor doubtless recollects, was so cruelly murdered at Kashgar in 1857. I have also what is alleged to be his skull.

2. On my arrival at Leh in August last one Mirza Abdool Wudud, a man of Herat, presented himself at my tent, and stated that in a caravan expected shortly at Leh from Yarkund there was a parcel to his address containing a manuscript book, which belonged to the gentleman who was put to death at Kashgar, as well as what he fully believed to be his skull. The Mirza represented himself to be entirely without funds and despaired of ever recovering the parcel from the men in charge of the caravan.

I lost no time in despatching the Mirza with a Tartar servant of mine towards Yarkund, with instructions to take the parcel, paying for its carriage, and to follow me with as much speed as possible to Sreenuggur.

3. About the eighth march from Leh they met the caravan. The persons in charge at first positively declined to give up the parcel, they then demanded 200 Rupees, eventually they agreed to take six gold mohurs worth 17 Rupees each, all the money my servant had with them. The Mirza and servant at once started for Sreenuggur, which they reached with the precious parcel a few days after myself.

4. The Mirza's account of himself is that he left Herat about five years ago in consequence of the disturbed state of the town, and has been wandering ever since in the countries between Afghanistan and Yarkund in the guise of a Hakeem or Physician. At Bokhara he heard of the death of Mr. Schlagentweit. Aware of the value which would be attached by us to any books, papers, &c., belonging to the unfortunate traveller, the Mirza, on his arrival at Kashgar, set diligently to work to search for his property. For a long time he was unsuccessful, but about sixteen months ago he contrived to procure through one Kurreem Khan, son of a Moolla (or Priest) of Kashgar, a manuscript book which a dealer in snuff had bought for the sake of the paper, which he used in packing small quantities of snuff.* Something less than one Rupee was paid for the book.

Not long after a cultivator informed the Mirza that after Mr. Schlagentweit was put to death his head was first suspended over a bridge and then placed in a tree under which he happened to grow melons, and that he buried it in his field. The Mirza dug up the ground, which was then covered with snow at the spot indicated, and found a skull. The Mirza is confident that it is really the skull of the murdered man, but I am not very sanguine in the matter, and shall not be certain as to its genuineness till I have submitted it to a competent judge. The book† contains 131 pages of closely written notes in the German language, and is Mr. Schlagentweit's Journal from the 14th of June to the 11th of

* The Bhoj Putta or Birch bark is generally used by retail snuff dealers.

† I shall despatch this book by Overland Mail to care of Messrs. H. and R. Schlagentweit's Agents in London.

See Supplements No. 18, dated 21th November 1860, and No. 34, dated 22nd May 1861.

August, the day he started from Kargalik, a village about fourteen miles on the Ladak side of Yarkund.

5. With regard to the manner of his death, the Mirza's account agrees in every material point with that given by Kashmiri Abdulla, and published in Messrs. H. and R. Schlagentweit's printed Circular.

On arriving near the City of Yarkund, Mr. Schlagentweit found it closely beseiged by a robber chief or crescentader of Kokand named Dilla Khan. By this man Mr. Schlagentweit was made a prisoner. Almost immediately after Dilla Khan was compelled by the Chinese to fall back on Kashgar, also a Chinese town, but which had been occupied by another "crescentader" of Kokand named Khoja Vulli Khan, Mr. Schlagentweit continued a prisoner in the hands of Dilla Khan and was brought to Kashgar. On reaching a spot not more than 200 yards from the tents of the Khoja Vulli Khan, one of Mr. Schlagentweit's guard went to enquire of him what was to be done with the "Feringhee." The Khoja, who is described to be a man of infamous character, at once ordered his execution The persons entrusted with this work endeavoured to bind Mr. Schlagentweit's arms, but this indignity he successfully resisted, a blow was then struck with a sword which took effect under his right ear, another was aimed at the left side of his head, but neither proving fatal his throat was cut with a knife, which one of the executioners drew from his side. The head was then severed from the body and hung up over a bridge.

The Khoja was soon after driven out of Kashgar by the Chinese and is now wandering about a miserable drunkard without a single follower.

6. With reference to the above narrative, I think it right to mention that it does differ in one or two points from the account given by intelligent persons at the time residing in Yarkund. *There* the story is that Mr. Schlagentweit made friends with Khoja Dilla Khan and offered to direct his operations against Yarkund, that he was forced to fly with the defeated Khoja, and that he was put to death by Khoja Vulli Khan, for sitting before him in a disrespectful attitude.* My informant, the Mirza, however, states that Mr. Schlagentweit was never in the presence of Khoja Vulli Khan, while with regard to his directing the operations againt Yarkund, it is possible that he may have offered to assist Dilla Khan, but certainly not till he was taken prisoner and saw that his life was in danger.

* That is, with the soles of his feet turned towards the Khoja.

7. With respect to the chances of recovering any other articles, the property of Mr. Schlagentweit, I am of opinion that little or no hope can reasonably be entertained of any further success. The Mirza informs me that he left no stone unturned in his search at Kashgar, but never succeeded in obtaining the trace, even of anything besides the book, and this is however the less to be regretted, if it should prove true that Mr. Schlagentweit sent all his Journals up to the 14th June to Kangra.

Dr. Hurkishen states that he received a letter from Mr. A. Schlagentweit, dated the 14th June 1857, in which he mentions having sent two Dâk parcels for transmission to Kangra. (see printed Circular.) The parcels never came to hand, nor does any enquiry appear to have been made respecting their fate. This is unfortunate, even now it is not too late.

(Sd.) W. Hay.

8. In conclusion, I have only to express a warm hope that Mirza Abdul Wudud will not be left unrewarded.† To his exertions we owe the rescue from destruction of a valuable manuscript, rendered doubly valuable by the tragic death of its writer, one of the boldest, most enterprising and accomplished travellers of modern times.

† Besides defraying the Mirza's expenses from Leh to Cashmere, I have made him an allowance of a Rupee a day from my private purse. He accompanies me to Simla.

P. S.—I avail myself of this opportunity to state with reference to a repeated assertion to the contrary, which appears in the printed reports relating to Mr. Schlagentweit's death, that I never to my knowledge saw Mahomed Ameer, and certainly never recommended him to Mr. A. Schlagentweit. I believe that he was a most useful and faithful servant.

Letter No. 1961, dated 21st September 1861, from Secretary to Government, Punjab, to Lord W. Hay, Deputy Commissioner of Simla.

I am directed to acknowledge your letter of the 14th instant, and to convey the thanks of the Hon'ble the Lieutenant-Governor for your exertions in procuring the Manuscript Journal of the late Mr. A. Schlagentweit.

2. His Honor authorizes a reward of 500 Rupees being given to the Mirza on his arriving at Simla, in addition to his expenses being paid from the time he joined you at Leh, and sanctions the money advanced to the Mirza being reimbursed to yourself. You are requested to submit a bill for the whole amount for the countersignature of this Office.

3. I am to add that a copy of your letter and this reply will be forwarded to the Supreme Government, with a request that they will communicate the same to the family of the late Mr. Schlagentweit at Berlin, and with a suggestion that your letter may be published in the *Calcutta Gazette*.

Regarding the Sale of Waste Lands and Redemption of the Land Revenue.

1. RESOLUTION.—His Excellency the Governor General in Council has had under his consideration the subject of the Despatches from the Right Hon'ble the Secretary of State noted in the margin, with the opinions of the several Local Governments, and of most of their principal Officers, on two important subjects:—

No 2 of 31st December 1858.
„ 1 „ 16th March 1859.

I. The sale of Waste Lands in perpetuity, discharged from all prospective demand on account of Land Revenue; and

II. Permission to redeem the existing Land Revenue by the immediate payment of one sum equal in value to the Revenue redeemed.

2. His Excellency in Council finds that the ablest and most experienced Public Officers very generally concur with private parties interested in land in the expectation that substantial advantages will follow the adoption of both these measures.

3. There is, however, much diversity of opinion as to the extent to which either measure is likely to operate, and as to the rules under which the acquisition of Waste Land in perpetuity and the redemption of the Land Revenue should be allowed. Some experience may be required to test fully the comparitive soundness of the several opinions on these points; but His Excellency in Council sees no reason to doubt that, so far as either measure may take effect, it will be in every way beneficial.

4. As regard the sale of Waste Lands, there can be no question of the substantial benefits, both to India and to England, which must follow the establishment of settlers who will introduce profitable and judicious cultivation into Districts hitherto unreclaimed. His Excellency in Council looks for the best results to the people of India, wherever in such Districts European settlers may find a climate in which they can live and occupy themselves without detriment to their health, and whence they may direct such improvements as European capital, skill, and enterprize can effect in the agriculture, communications, and commerce of the surrounding country. He confidently expects that harmony of interests between permanent European settlers and the half-civilized tribes, by whom most of these Waste Districts or the country adjoining them are thinly peopled, will conduce to the material and moral improvement of large classes of the Queen's Indian subjects, which, for any such purposes, have long been felt by the Government to be almost out of the reach of its ordinary agencies.

5. His Excellency in Council has still less doubt as to the beneficial results of permitting a redemption of the Land Revenue. He believes that increased security of fixed property, and comparative freedom from the interference of the fiscal Officers of the Government, will tend to create a class which, although composed of various races and creeds, will be peculiarly bound to the British Rule; whilst, under proper regulations, the measure will conduce materially to the improvement of the general resources of the Empire.

6. But it is the firm conviction of the Governor General in Council that, in order to obtain permanently good results from such measures, it is indispensable not only that no violence be done to the long existing rights which, sometimes in a rude, sometimes in a complicated form, are possessed by many of the humblest occupants of the soil in India, but that these rights be nowhere

slighted, or even overlooked. Scrupulous respect for them is one of the most solemn duties of the Government of India, as well as its soundest policy;—whatever may be the mode in which that Government may think fit to deal with rights of its own.

7. With these views His Excellency in Council proceeds to state the rules under which he desires that the Governments and Administrations of India should give effect to these two measures:—

8. I.—As to the sale of unassessed Waste Lands, in which no right of proprietorship or of exclusive occupancy are known to exist at present, or to have existed in former times, and to be capable of revival.

9. In any case of application for such lands they shall be granted in perpetuity, under the rules which will be presently laid down, as a heritable and transferable property, subject to no enhancement of Land Revenue Assessment.

10. All prospective Land Revenue will be redeemable, at the grantee's option, by a payment in full when the grant is made, and the land granted will thenceforward be permanently free of all demand on account of Land Revenue.

Or, at the grantee's option, a fixed annual sum may be paid at the rate of ten per cent. on any unpaid portion of the price of the grant, which will then be under hypothecation till the price is paid in full.

11. The Deed of Grant shall be drawn up in English with a Vernacular translation attached, the meaning in all doubtful cases being settled by the English text.

12. Except under peculiar circumstances which may require special reservation, the Deed shall convey all rights of forest, pasturage, mines, fisheries, and all other property of the Government in the soil; but it will reserve to the Government, to Proprietors of other lands, and to the Public, all existing and customary rights of freely using any stream for purposes of navigation or irrigation, and for the transport of timber or other property, and for other purposes of general utility.

13. There shall be no reservation to the Government of any right to take land or material for roads, tanks, canals, works of irrigation or other public improvements other than may be marked out or designated at the time of the grant, or otherwise specifically excepted in the grant. But the absence of such reservation will not affect the power of the Government to purchase land under Act VI. of 1857, or under any other general law for the acquisition of land, &c., required for public purposes.

14. There shall be no condition obliging the grantee to cultivate or clear any specific portion of the grant within any specific time.

Conditions of this kind are considered by many experienced Officers as useful, if not necessary, provisions; but the Governor General in Council is convinced that every reasonable object of such restrictions,—such as the guarding against attempts to monopolize advantage of situation with a view to a re-sale rather than to immediate use,—will be sufficiently secured by a limitation of the area of grants, and by the necessity for immediate payments, and that the latter kinds of security will be the more advantageous to purchasers.

15. And if the area be limited His Excellency in Council does not attach importance to any provision for clearing and cultivating any specific proportion of it. The price to be paid will generally serve as a security that the grantee will clear as much as he can, unless he finds it more profitable to keep land as forest or pasturage; and there is no ground of public policy upon which to require him to do more. It is rarely that the clearance of trees, beyond what is needed for cultivation, is an object of public importance. In many parts of the country the contrary is the case. And as a general rule, and whatever may be the nature of the growth which covers the soil, His Excellency in Council would wish, in this as in other matters, to leave it entirely to the owner's judgment and self interest to make the best of a grant for which he has once for all paid a fair price to Government.

16. The Land Registers of the Collector of Land Revenue, or of any other local Officer exercising Collector's powers, when properly kept and perfect, will often enable him to state at once whether there is any other prior claim of property or occupancy on the land applied for.

17. When there is no such claim apparent from the Government records, and the Collector knows no other objection to the grant, he will advertize the application in the most customary and effectual manner for a term which probably need rarely exceed thirty days.

18. When, after the expiration of the term fixed, no such claim is preferred, or when, if preferred, it shall have been disposed of, the Collector will give to the applicant a document testifying that the land, as described in his application, has been allotted to him, subject to the terms hereinafter specified.

19. If, after the allotment of the land under the preceding rule, any persons shall establish a right of property in the land so allotted, the possession of the party to whom the land has been granted *bonâ fide* shall not be disturbed. But provided the claim be made within one year from the allotment the claimant, on proof of his right, and on shewing good reason why his claim was not advanced before the allotment took place, shall be entitled to receive from the Government full compensation for the actual value of his interest in such land. After the expiration of a year all rights of third persons which have not been already claimed will be altogether barred, as well in regard to compensation as against the land, subject, in regard to compensation, to the same exceptions in case of persons under disability from infancy, lunacy, or other like causes as are admitted by the existing law of limitation.

20. No reference to Revenue Boards or other distant Authorities should be necessary, except in special cases of doubt. Rules of Procedure must be laid down by the Local Governments with sufficient clearness of detail to obviate, in all ordinary cases, any necessity for reference or sanction.

Grants will, of course, be immediately reported to the Local Government, and any departure from the Rules of Procedure should be promptly noticed by the Board of Revenue or other controlling Authority. But no confirmation should be required to complete grants made in accordance with the published Rules of Procedure; and such grants should not be liable to be disturbed on account of any informality not attributable to any act or default of the grantee.

21. A maximum limit must be fixed to the size of all grants. Probably three thousand acres would be a suitable limit in Eastern Bengal,

Cachar, Assam, and similar Districts. In localities where land is more valuable and in great demand,—as for instance, in the neighbourhood of Towns, Hill Stations, and Sanataria,—a lower limit may be fixed. It will generally be safe to consult the wishes of intended applicants on this subject, when they are in numbers sufficient to give weight to their opinions as to what general limitation is likely to be best for the general interests; but regarding such consultation each Local Government will exercise its own discretion.

22. In Districts like Sylhet, Cachar, and Assam, where a considerable portion of the ground is swamp or unculturable land, a due proportion may be deducted as valueless. Probably this need never exceed one-fourth of the whole area.

23. Wherever it is necessary, for the public interests, to reserve for future disposal any special tracts of land of which no immediate grant will be made, due notice should be given, so that applicants for land may not lose their time in examining such tracts.

24. It is to be understood that reserves of grazing land, or of land for the growth of forest trees, or of firewood near Towns and Stations, or for other special purposes, such as sites for Sanataria, building lots, &c., &c., are not to be sold without the special sanction of Government.

25. When the land applied for is unsurveyed, immediate possession may be given on payment of the Collector's estimate of the cost of survey; and this may generally be calculated at a fixed rate according to estimated acreage. But no time must be lost in having a survey made, and for this purpose one or more competent Surveyors should be attached to every unsurveyed District where such applications are likely to be frequent. The survey need not embrace more details, nor be made with greater accuracy than is necessary clearly to define rights, and to ensure the ready identification of boundaries.

26. In surveyed Districts a tracing from the official plans and extracts from the field books and other registers will generally suffice.

27. Ten per cent. of the purchase money, and the actual cost of survey (allowing, of course, for the sum previously deposited upon the Collector's estimate of the survey) will be paid by the grantee on delivery of the deeds and plan, and the name of the grantee will be provisionally entered in the Collector's records as proprietor of that grant.

28. If the balance of the purchase money be not paid within three months, interest at ten per cent. per annum will, as has been already prescribed in paragraph 10, be charged on the unpaid balance; and the land will be held liable to re-sale in default of the regular payment of such interest should there be no crop or other moveable property on the land from which the claim of Government can be satisfied.

29. The price to be paid for unassessed land should not exceed Rupees 2½ per acre for uncleared land, or Rupees 5 per acre, for land unencumbered with jungle, subject to deduction of area for swamps or unculturable land, as above stated. This limitation of rates shall remain in force for five years from the 1st of January 1862, subject to revision in the case of land which may be sold after that period.

30. In the event of more purchasers than one offering to buy the same tract, neither having any previous right to the land, it may be put up to auction at the upset price of an ordinary grant. But except in such cases, or in the case of suburban lots, recourse will not be had to sale by auction; the applicant will receive his land at a price fixed.

31. Provision will be made for a further grant to the same grantee to the following extent:—As soon as the grantee's name shall have been provisionally entered in the Collector's records proprietor of a grant (as prescribed in paragraph 27), any one adjoining plot, not exceeding the previous grant in area, if not previously applied for, and if available for disposal by Government, may, at the grantee's request, be surveyed at his expense, marked off, and reserved as a future grant to him: but subject to the obligations that within five years from the date of his previous grant he shall fulfil the conditions necessary to his being recorded as proprietor of this further grant, and that two-thirds of the previous grant shall within the same time have been brought under cultivation. If he should fail in either obligation the reservation of the plot will cease.

32. There need be no limit to the number of further grants which may be successively taken up on fulfilment of these obligations.

33. Holders of grants under any existing rules, who have not yet completed the purchase of their grants, will be allowed to commute them under the new rules, but without being subject to the limitation of the new rules as to area. The area which, in such cases, the grantee will be at liberty to purchase absolutely, will be determined by the provisions of the original grant; and he will be free to purchase absolutely as much or as little of that area as may suit him, retaining, if he pleases, the remainder upon the terms of the original grant.

34. Where there are exclusive rights of occupancy, pasturage, wood-cutting, turf-cutting, or other like rights in unassessed Waste Land, such Waste Land may be sold under the above rules, but only to those who shall satisfy the Collector that they possess such rights by prescription, or have obtained them by purchase. It will be an important part of the Collector's duty to make certain that any transfer of such rights shall have been made with a complete and fair understanding on the part of all concerned.

35. In a Ryotwarry District lands, for which an Assessment has been fixed, but which have been uncultivated for five years or upwards, and which are at the absolute disposal of the Government, may be sold under the same conditions as unassessed Waste Lands, excepting that the price shall be twenty years' purchase of the Assessment.

36. The right of purchase on these terms should, in the first instance, be tendered to the inhabitants of the Village within whose bounds the land may be situated, or who may have been in the habit of using it.

37. The tenure of all Waste Lands granted under this Resolution will be that of an heritable and transferable property held in perpetuity free from all claims either of the Government or of third persons prior to, or inconsistent with, the grant.

II.—As to the redemption of the Land Revenue.

38. Great caution ...essary in dealing with what has always formed so large a part of the Revenues of the Government of India. The

Governor General in Council proposes, therefore, in the first instance, to limit the permission of redemption in any one District to such a number of Estates as shall, in their aggregate Assessment, not exceed ten per cent. of the total land tax of the Collectorate, or corresponding fiscal division of the country.

39. This restriction will enable Government ascertain in each Province, without undue risk to its permanent fiscal resources, the practical effect of permitting the redemption, both in completely populated and well cultivated Districts, and in those where there is much uncultivated land and a thin population. It will afford an opportunity of hereafter re-considering the effects of the measure with the light of ample experience; while the limit which it prescribes is large enough to allow of a considerable number of those who may be able and desirous of redeeming the Land Revenue of their Estates to do so, partially or wholly.

40. In any case when redemption shall have reached the limit of ten per cent. of the total Land Revenue of the Collectorate, the result is to be reported to the Governor General in Council, with a view, if expedient, to the enlargement of the limit in that Collectorate, and to the permission of further redemption.

41. The price to be paid is fixed at twenty years' purchase of the existing Assessment.

42. Doubts are expressed by experienced Officers whether many purchasers will come forward at such a rate, so long as the current rates of interest for money lent on security, or employed in trade, continue as high as at present. But justice to the public creditor, and a due care for the resources of the Government, require that, as long as the public Revenue is no more than sufficient to meet the current charges of the Empire and the interest of its debt, no lower terms of redemption of a permanent tax forming the security for that debt should be accepted than will, when the price is invested in the public securities, afford a corresponding relief in the payment of interest.

43. The tenure obtained will, as in the case of Waste Lands, be that of an heritable and transferable property held in perpetuity free of all demand on account of Land Revenue, or of the Government. But such tenure will not carry with it, as that of Waste Lands will, immunity from any legal claims, other than those of Government to which the lands may be subject, and which may date prior to the grant under this Resolution.

44. Also the same steps will be taken to define the exact extent and limits of the property by means of plans and survey records.

45. In Districts in which the Land Revenue is permanently settled permission to redeem will be confined to the person who has the right to pay the Government Land Revenue, Rent, Assessment, or Jumma; and its effect will be strictly limited to such Government claims, reserving all existing sub-tenures or subordinate rights of occupancy.

46. In Districts in which the Land Revenue is not permanently settled, the party who has the right to pay the Government Land Revenue, Rent, or Jumma will be permitted to redeem it only when he also possesses the right of occupancy of the land.

47. The freedom of tenure conferred by redemption of Land Revenue will be absolute only as against the Government. It will be given on *primâ facie* evidence of the rights abovementioned, and other parties contesting those rights and claiming the land will be as free as before to sue the holder in the Civil Courts.

48. The Assessment on which the purchase money will be calculated will, in permanently settled Districts, be the permanent Assessment.

In temporarily settled Districts it will be the Assessment of the last settlement.

49. It has been apprehended that the Government will suffer loss by such a rule where a temporary Assessment has been fixed so low as to render it certain that a considerable enhancement may be expected at the next settlement.

In such cases the enhancement of the direct Revenue from the Land will of course be foregone; but in many parts of the country where this would happen, there exist, in a peculiar degree, that amount of general intelligence and of confidence in the measures of the Government, and that sufficiency of Capital, which would encourage Landholders to redeem their land; and where this is the case His Excellency in Council considers it a wise policy that those who may come forward to redeem should not be shut out from the full advantage of the measure by reason of their actual Assessment being low.

The price fixed precludes any sacrifice of immediate Revenue; and His Excellency in Council is convinced that even a few Estates on which the Land Revenue has been redeemed, scattered through the country, would have, in many indirect ways, a beneficial effect on the unredeemed Land Revenue itself, as well as on other sources of Government Income.

50. Grants which have already been given for a term of years at progressively increasing rents, such as those in the Sunderbunds, will be treated as if the Land were permanently settled, if the holder wishes to redeem the future Land Revenue at the highest rate fixed for any year during the currency of the grant,—provided it shall not exceed the rate fixed in paragraph 29 of this Resolution,—and if there is no right of occupancy other than that of the lessee, or that derived from him.

51. Where no right of proprietorship or of occupancy exists in any party, and the land is simply held from year to year or by tenants at will, the actual tenant should be aloud to redeem, unless there be competition, when the redemption should take place by auction.

52. Where Estates are assessed in shares (such as co-parcenary Estates held on Bhachara, Pattadaree, Nirwa, or Baghdar tenures) it will be necessary to define that nothing more is sold than the right of the Government to levy an Assessment, and that this is sold only to those who are under liability to pay that Assessment. Moreover, that the purchasers will remain subject to all other customary liabilities, whether to individuals or to communities.

These conditions are indispensable to insuring that no other sharers' rights shall be injuriously affected.

53. Such tenures will require peculiar care in dealing with them; but, provided that suitable and sufficient precautions be taken, there is no reason why those who hold them should be excluded from the benefits of the measure.

54. As in the cases of sale of Waste Lands, so in those of redemption of Land Revenue, no

conditions will be imposed as to the expenditure of a given amount of Capital, the growth of particular staples, or the like. The party redeeming the Land Revenue will be left entirely free to follow the course which he may deem most profitable to himself.

55. Provisions will be made in any legal enactment which may be passed to give effect to this Resolution, that the party named in the grant, whether of Waste Land, or of Land on which the Assessment has been redeemed, or his legal heir or representative, shall be regarded as the sole legal owner of the land, subject only in the latter case to claims other than those of Government and to sub-tenures and subordinate rights of occupancy existing at the time of redemption, and that no transfer of property in it shall be recognised by our Courts of fiscal Officers unless duly registered.

56. With a view to secure the Government and the public creditor against any loss of existing sources of Government income, provision will be made by Law that all sums paid in purchase of Waste Lands, or in redemption of Land Revenue, or in otherwise forestalling the Land Revenue, shall be paid to Commissioners, and periodically invested in such manner as the Law may direct. The Commissioners will report annually to Government the total amount they have received and invested, and the Districts from which it has been received, and their Reports will be published.

57. The Local Governments will be called on to prepare the draft of a Law to give legal effect to these measures within their several jurisdictions, so as to secure for all grantees a Legislative title to their property.

But it is not necessary to await the enactment of such a Law before making known and, as far as practicable, acting upon the rules which have been here laid down.

MILITARY DEPARTMENT.

Fort William, the 22nd October 1861.

No. 952 *of* 1861.—The Right Hon'ble the Governor-General of India in Council is pleased, with the concurrence of the Right Hon'ble the Secretary of State for India, to modify to the following extent such of the new Furlough Regulations as are applicable to General Officers on the Staff.

The concession of leave to Europe in the case of a General Officer is to be considered the exception and not the Rule; and, as ground for obtaining such leave, it must be shown that the Officer has contracted illness from the effects of climate, or of wounds received on service in India, or that the nature of the Private Affairs taking him from India is of a very urgent nature.

Leave on Medical Certificate will be restricted to six months, and on Private Affairs to four months, the penalty of exceeding such period being the vacation of the Command, and in no case will a General Officer be allowed more than one grant of leave out of India during his tour on the Staff.

The position of Brigadiers being considered analogous to that of General Officers on the Staff, the principle upon which the indulgence of leave is to be granted will hereafter be the same in both cases.

No. 953 *of* 1861.—The following Order issued by the Resident at Hyderabad is confirmed:—

No. 195, *dated 3rd October* 1861.—Granting Captain J. Woodcock, Commandant, 5th Infantry, Hyderabad Contingent, two months' leave of absence preparatory to proceeding to Europe under the New Regulations.

No. 954 *of* 1861.—The undermentioned Officer is permitted to proceed to Europe on leave of absence on Sick Certificate.

Lieutenant Frederick Jervis Ripley, of the Bengal Staff Corps, Adjutant, 12th Regiment Native Infantry	For 15 months, under the new Regulations.

No. 955 *of* 1861.—Her Majesty has been pleased to appoint the undermentioned gentlemen to be Cadets for the Cavalry and Infantry in Her Majesty's Indian Military Forces at the Presidency of Bengal. They are accordingly admitted into the Service and promoted to the rank of Cornet and Ensign respectively, leaving the dates of their Commission for future adjustment.

No. 959 *of* 1861.—Bengal Staff Corps.—The undermentioned Officer having completed twelve years' service, four years of which were on permanent Staff employ, to be Captain, from the date specified opposite to his name, under the Royal Warrant of the 16th January 1861, subject to Her Majesty's approval.

Lieutenant R. F. Godby...20th February 1861.

No. 960 *of* 1861.—His Excellency the Governor General in Council is pleased to publish for general information the following observations by the Right Hon'ble the Secretary of State for India, on answers given by the Government of India to questions connected with the late changes in the India Army, and published in Government General Order Nos. 598 and 606, dated 9th and 11th July 1861.

Questions.	Answers by Government of India.	Remarks.
6. An Officer is permanent Second in Command, and Acting Commandant of an Irregular Corps. Will it be necessary for him to join the Staff Corps before he can become permanent Commandant? Paragraph 50.	6. No. It rests with the Commander-in-Chief or with the Government. Officers not joining the Staff Corps "will continue to be available, as heretofore, for their present duty, or for any other duty to which they may be appointed by Government."	6. Approved. The Government or the Commander-in-Chief can appoint him if they see fit.
7. If an Ensign signifies his wish to volunteer for general service, and after he has done so, but before he is nominated to a British Regiment, a vacancy occurs among the Lieutenants in one of the present Regiments of Native Infantry, would he, by having volunteered, forfeit his claim to the vacant Lieutenancy, supposing him to be the senior applicant? Paragraph 50.	7. An Ensign will not be debarred the benefits of intermediate regimental promotion under existing regulations, occurring up to the date of his transfer to one of the new Line Regiments.	7. Not approved. (See Despatch No. 319, dated August 10, 1861.) The answer should be :— An Ensign will not be debarred the benefits of intermediate regimental promotion under existing regulations, occurring up to the date of his transfer to a British Regiment other than one of the new Line Regiments. If transferred to one of the latter, his position will be determined with reference to the rank he actually held in his former Regiment on the 18th February 1861. No subsequent alteration or adjustment of rank will be permitted.
8. If an Officer volunteers for general service, does he thereby cease to derive any benefit from casualties occurring in his present Regiment, subsequent to his volunteering, but before he is provided for in a British Regiment? Paragraphs 50, 58.	8. No; volunteering beyond the requirements of the new Line Regiment will not make any difference in the position of Officers.	8. The answer should be as follows :— No; volunteering beyond the requirements of the new Line Regiments will not make any difference in the position of Officers, unless and until they are transferred to other Regiments of the Line.
9. An Officer having volunteered for general service in the Line, will he, in the event of his service not being required in any Regiment of the Line, be then in the same position as before he volunteered; or does he, by merely volunteering, surrender his former position in the Indian Army, and render himself amenable to the Staff Corps Rules? Paragraph 50.	9. He remains in his former position unaltered. He has nothing to do with the Staff Corps.	9. The answer should be as follows :— No. He remains in his former position unaltered, unless and until he is posted to a new Line Regiment. He has nothing to do with the Staff Corps.
14. If their services are not required by Government for new Line Corps, are Officers, volunteers for general service, liable to be posted to any other Corps, and if so, will they enter as juniors of their rank?	14. Such Officers will not be liable to be posted to any other Corps.	14. Not approved. The answer should be :— They are not compulsorily liable, although eligible. All Officers posted to British Regiments enter as juniors of their rank.
15. A Colonel and Lieutenant-Colonel commands a Regiment of Madras European Infantry. He inquires whether, if he elect for general service, he will forego all future claim to off-reckonings and Colonel's allowance? Paragraph 52.	15. His election for general service, should he be accepted, will disconnect him from the Indian service, and he will forego all claim to Colonel's allowance in the Indian Line.	15. Approved, but add the following—"but will become eligible to a Regiment under the regulations of the British Army."

Questions.	Answers by Government of India.	Remarks.
17. In the event of either of the new Line Regiments being ordered Home, are any of the Officers who have accepted the invitation to join it liable to be placed on half-pay, consequent on the Regiment being reduced to the strength of the Home Establishment? Paragraph 55.	17. They will be subject to the conditions of Her Majesty's Line service. The strength of Infantry Regiments on the Home Establishment is at present the same as that of the new Line Regiments in India; in the Cavalry Service the Home Establishment is less by one Troop than the strength of a Regiment in India.	17. Approved; but add the following :— "Less by 1 Major. 1 Captain. 1 Lieutenant. 1 Cornet."
18. How and when is a Major of one of the new Line Regiments to obtain promotion to Regimental Lieutenant-Colonel, and from that to Regimental Colonel? Paragraph 56.	18. "In the promotion to the Field Officers, the fitness and efficiency of Officers will be taken into account." As regards Regimental Colonels, no instructions have been received by Government.	18. Not approved. The answer should be :— The Major will obtain promotion when the Lieutenant-Colonel is removed from the Regiment by death or otherwise; his fitness and efficiency being taken into account. His future appointment to the Colonelcy of a Regiment will be made in accordance with the usages of the British service.
20. Are the Officers commanding the European Infantry and Native Infantry Depôts, and the Depôts at Landour, Wellington, Aboo, Khandalla, &c., and the Adjutants and Quarter-Masters of the same to be considered to have been on Staff duty whilst so employed? Paragraphs 68, 69.	20 Depôt Staff Officers are not on permanent Staff employ, and therefore are not entitled, as such, to enter the Staff Corps. But in the event of their subsequently obtaining admission into the Staff Corps they will be entitled to count as Staff service the time passed as Depôt Staff Officers.	20. Not approved. The answer should be :— Officers commanding such Depôts and Depôt Staff Officers shall be considered in all respects to have been on the Staff during their tenure of such appointments, provided they shall have passed the prescribed test in Hindustanee, and are in all other respects qualified.
27. Is an Officer who has been doing duty with the Sappers and Miners to be considered to have been on Staff employ while so doing duty? Paragraphs 69, 84, 87.	27. These Officers are permanently appointed, in the same manner as Officers permanently doing duty with Irregular Corps; and service passed with the Sappers and Miners will count as Staff service.	27. Approved; the question having no reference to Engineer Officers.
30. Whether Officers, now on the Staff, volunteering and being selected for the new Line Regiments will be allowed to retain their Staff appointments under Rule 74? Paragraph 74.	30. Yes, if the Commander-in-Chief can spare them.	30. Approved, but add: "and the appointments be purely military, held for a limited period, and which do not require that an Officer be seconded."
38. With reference to paragraph 78, are Officers on the Staff obliged at once to declare whether they desire to join the Staff Corps, with the option of correcting their election within six months? Paragraph 78.	38. It is not necessary that an Officer should send his decision in to the Adjutant-General's Office before the 21st October 1861, but it must reach the Adjutant General's Office by that date. The decision once announced in General Orders cannot be cancelled.	38. Approved; but add: —"Except in the case of an Officer resigning the Service under the scheme published in G. O. G. G." (See Despatch to India, No. 320 of 10th August, paragraph 24.)

Questions.	Answers by Government of India.	Remarks.
39. An Officer on the Staff belonging to one of the present European Regiments having accepted the invitation to join his representative Line Corps, can he not have the benefit of paragraph 74, the same as any other Officer of a British Regiment,* *i. e.*, elect within six months to join the Staff Corps, and be eligible for promotion under the provisions of the Royal Warrant. Paragraph 74. *Vide* paragraphs 74 and 89.	39. Yes.	39. Not approved. Answer should be:— Having once been posted to a Line Regiment, he is no longer eligible, under paragraph 74, to join the Staff Corps. He will have already had the option of doing so, and have made his election for a Line Regiment.
41. Does the time an Officer of the Staff Corps may be on leave, in or out of India, count towards the period required to be served in the Staff Corps for promotion. Paragraph 8	41. Yes.	41. Not approved. The answer will be found in Despatch from this Office, No. 315 of 9th August.
45. Will a substantive Lieutenant-Colonel and Brevet Colonel, joining the Staff Corps on its formation, be eligible to "get one step of rank" on transfer to the Staff Corps, *i. e.* will he be promoted to substantive "Colonel" or "Major-General"? Paragraph 85.	45. There is no such rank in the Staff Corps as substantive Colonel. No instructions have been received regarding promotion to Major General in the Staff Corps.	45. Approved; but add after the first clause:— "As a matter of course, all Colonels in the Staff Corps will be placed on the General List of the British Army for promotion to Major General."
49. Should a Major of upwards of 22 years' service retire before the 1st October next, can he claim, in addition to the Major's pension, the extra pension of 50*l.* per annum offered by the Secretary of State?	49. Yes. If he have served 22 years in India, of which not more than two years may have been passed on leave, he may retire before the 1st October next, on the pension of his actual rank, and will be entitled to the extra pension of 50*l.* in addition.	49. Approved; but add:— "Should an Officer retire before the 1st of October 1861, having been posted to and received a step of rank in the Staff Corps, such posting and promotion will be cancelled."
51. Can Officers of the Staff Corps take 20 months' leave on private affairs, retaining their appointments? Paragraph 93.	51. Yes. Such is the rule laid down in the 93rd paragraph of the General Order. But a reference has been made to the Secretary of State on this point.	51. Not approved. See Despatch from this Office, No. 304, dated 2nd August 1861.
52. Are the above 20 months referred to available in one indulgence or are they the aggregate of sundry short leaves?	52. The leave may be in one period, or it may be the aggregate of sundry short leaves, subject to the conditions of the new Furlough Rules; *vide* paragraph 20 of the same.	52. Not approved; see preceding answer.
54. Is the substantive rank of Officers in the Staff Corps to be considered to be their only regimental rank, the Staff Corps being their only Regiment? Paragraph 93.	54. Yes. The Staff Corps is their only regiment, so to speak; but the term is an incorrect one.	54. Substitute the following answer:— "Yes." The Staff Corps is their only Regiment, and their rank in it, up to that of Lieutenant-Colonel inclusive, is substantive rank.
56. Is it compulsory, with reference to the latter part of paragraph 93, on all Officers joining the Staff Corps to select the new Furlough Regulations, or is this intended merely for British Officers joining the Staff Corps? And are Indian Officers allowed the option of selecting the old or new Furlough Regulations, as guaranteed to them by General Order by the Governor General, No. 1150 of 17th November 1854? Paragraph 93.	56. All will be under the new Furlough Regulations. No option is allowed to an Officer who may join the Staff Corps. He must accept the new Rules as one of the conditions of joining that Corps.	56. Approved; but add:—"He brings with him to the Staff Corps so much service for pension as he may have acquired up to the date of joining, whatever rules had applied to him up to that time."

Questions.	Answers by Government of India.	Remarks.
57. Can an Officer of the Staff Corps proceed to Europe on leave on private affairs (retaining his appointment) as often as his service can be dispensed with, or does this privilege refer to leave on private affairs in India only? Paragraph 93.	57. Officers of the Staff Corps will be under the new Furlough Rules, except as to the increase of 20 months explained in the General Order. These Rules prescribe periods of service to be performed in India at intervals between furloughs.	57. Approved; the increase referred to being from 15 to 20 months.
58. What number of "Colonel's allowances" will be appropriated to the Madras Staff Corps, and from what date will they become available? Paragraph 94.	58. This question is under the consideration of Her Majesty's Government.	58. Approved; but add:—"and will be decided as soon as the strength of the Corps is ascertained."
59. Should an Officer be placed on the half-pay list or be unemployed, under paragraphs 96 to 99 of the General Order, will his time thus passed in India count towards retiring pension? Paragraphs 96-98.	59 If on the half-pay list, no; as no half-pay service counts for pension. But Officers in the Staff Corps, though not actually employed, will be allowed to reckon their service during such period towards promotion and pension.	59. Approved; the second clause amended as follows:— "But Officers in the Staff Corps, *while in India and available for duty*, will, even though not actually employed, be allowed," &c.
65. Must a Lieutenant-Colonel joining the Staff Corps serve two years from the 18th February 1861 to qualify him for the superior grade, under the provisions of Clause 103 of the amalgamation Order, or five years, counting from the original date of his substantive rank? Paragraph 103.	65. Five years, counting from the original date of his substantive rank, provided he have been on the Staff the whole period; if not, five years from the date from which he, as Lieutenant-Colonel, held Staff employ. (*Vide* paragraph 85 of the General Order.)	65. A Lieutenant-Colonel in the Staff Corps can attain to the rank of Colonel by Brevet, either under the Staff Corps Warrant, Clause 2 of General Order of Governor General, 10th April, para. 84; or under the operation of the Royal Warrant of the 31st January 1859, Clauses 8-10.
72. Will the election by an Officer of "general service" debar him from the benefit of the 50*l.* bonus sanctioned by G. O. G. 8th March 1861, No. 79?	72. No. The offer was made to all Officers of the Indian Army.	72. Approved; but add:—"but will not apply to those who may have been posted to the new Line Corps."
73. Should the option be given to young Officers of the General List, who entered the Service subsequently to November 1859, to volunteer for general or local service, or the Staff Corps,—one young Officer having stated that, from the terms of the declaration made by him at the India House, he did not consider that he had any choice in the matter?	73. There is nothing in the declaration made by these young Officers at the India Office to compel them to elect for general service. The option must be given to them in common with other young Officers of the Indian Army.	73. Not approved. The answer should be:— According to the declaration made by those young Officers at the India Office, they have no choice, but the option may be given to them in common with other young Officers of the Indian Army.

No. 961 *of* 1861.—The following paragraphs of a Military letter from the Right Hon'ble the Secretary of State for India, No. 371 of 14th September 1861, are published for general information :—

1. "My attention has been directed to paragraph 6 of the General Order by His Excellency the Commander-in-Chief, dated the 19th April last, relative to the grant of Furlough to Europe to deserving Non-Commissioned Officers."

"PARA. 6.—A passage will be provided by the State for Non-Commissioned Officers granted furlough, but not for their wives or families, but to assist in taking Home their families an allowance of £20 is sanctioned by Government."

2. "In order to prevent any misconception with respect to the assistance to be afforded by the State towards the passages of the wives and families of such of those Non-Commissioned Officers as are married men, I consider it desirable that it should be distinctly notified that the sum of £ (20) twenty is the total amount to be allowed for both the passage to Europe and the return voyage to India, as stated in paragraph 1 of my Despatch, No. 442 of 1860."

With reference to the foregoing, it is hereby notified that the sum of £ (20) twenty is the total amount that will in any case be allowed for both the passage to Europe and the return voyage to India for the families of Non-Commissioned Officers who may be granted Furlough to Europe.

No. 962 *of* 1861.—In continuation of Government General Order, No. 807, of the 12th September 1861, the following paragraphs of a Military letter from the Right Hon'ble the Secretary of State for India, No. 373 of the 14th ultimo, are published for general information :—

Para. 1. In my Despatch No. 320 of the 10th August last, para. 24, I stated it to be my wish that the option of retiring upon the terms then made known to you, should be given to all Lieutenant-Colonels and Majors of Cavalry and Infantry on the effective list of the three Presidencies, including such as may have already elected for the new Line Regiments or the Staff Corps.

2. It is possible that the latter portion of this paragraph might be understood as restricting such option to Field Officers only, and I desire to explain therefore that the principle of including such Officers as may have already elected to join the new Line Regiments, or the Staff Corps, is to apply also to such of the Regimental Captains as may become eligible to Annuities under paragraph 22 of my Despatch above referred to.

Purchase of Government Securities in Lucknow by Officers of Government.

RESOLUTION.—It having been brought to the notice of the Governor General in Council that, subsequently to the re-occupation of Lucknow, Government Promissory Notes to a large amount had been purchased by Major J. W. Carnegie, Deputy Commissioner, City Magistrate, and one of the Lucknow Prize Agents, and by other Officers of Government, under circumstances which called for a full and searching investigation, the Governor General in Council appointed Mr. V. H. Schalch, of the Civil Service, to be a Special Commissioner to enquire not into the conduct of Major Carnegie alone, but into all the transactions connected with the purchase of Government Promissory Notes by Public Officers after the re-occupation of Oudh.

2. On the 7th of February last Mr. Schalch submitted a Report of the result of his enquiries, and after a careful consideration of this Report, and of all the evidence and correspondence connected therewith, the Governor General in Council proceeds to record the following observations and orders:—

3. It appears from the evidence of nine Bankers and others, taken by Mr. Schalch, that for the first three months after the capture of Lucknow (*i. e.* April, May and June 1858), there were three kinds of Government Paper in the market selling at various rates according to their quality.

1*st*.—There were the Notes known as "Geela" or "Wet." These were chiefly Notes appropriated at the sack of the town by the rebels and plunderers and at its re-capture; but not being blank endorsed, many of them were negotiated under forged endorsement. Many found their way to the Calcutta Treasury, and were transferred to the 5 per cent loan. These Notes were disposed of for a trifle, generally from 10 to 25 per cent.

2*nd*.—Notes belonging to persons suspected of rebellion. The depreciation of these Notes was caused by the fear of their confiscation and by the indigence of the owners. At first they sold at from 35 to 55 per cent, but afterwards, when it was found that no steps were taken to confiscate them, at from 60 to 70 per cent.

3*rd*.—"Good Paper" belonging to respectable and loyal Bankers, which generally sold at from 60 to 70 and even 75 per cent.

4. No documents exist to show what houses were searched by the Prize Agents after the re-capture of Lucknow, or whence the Prize Property was collected, with the exception of the houses of Shirf-ood-dowlah and Hajee Begum; there is no information as to the value of the Government Promissory Notes which fell into the hands of the Prize Agents; and in the absence of proof of a larger amount, Major Carnegie's estimate of five lakhs is accepted by the Governor General in Council.

5. No general list was kept of Notes received into the Treasury. Of the five lakhs received into the Prize Godowns, Major Carnegie states that he sent three lakhs to the Treasury, and there are in the Treasury three Notes aggregating two lakhs, in the names of Begum Huzrut Mahal and Brijis Kudr, which Major Carnegie claims to be part of the amount which he deposited.

6. Mr. Williams, the Treasury Officer, denies all knowledge of the Notes said to have been deposited by Major Carnegie. Major Carnegie, on the other hand, asserts that he sent them with a private note to Mr. Williams, and although he "thinks it probable that a receipt was not got for it," yet to the best of his recollection he got back a private note acknowledging their arrival. Major Carnegie appeals to Mr. Campbell, Judicial Commissioner of Oudh, to corroborate his statement, and also urges that as soon as he heard that the Treasury Officer denied the receipt of the three

lakhs, and before he knew of the discovery of the three Notes aggregating two lakhs, he wrote to the Accountant General, the Sub-Treasurer and the Foreign Secretary, specifying the value and the names of the owners of two out of the three Notes afterwards found.

Mr. Campbell recollects that Major Carnegie consulted him as to the proper way to dispose of Notes to the value of about three lakhs. He advised that they should be put into the Treasury, and he understood that this was done; but he cannot recollect whether the Notes belonged to Brijis Kudr or to some one else.

7. It appears that on the evacuation of Lucknow all the Notes then in the Treasury were sent for safety to Cawnpore, and were not returned till the 12th of July 1858. Up to the 12th of July, therefore, there could be no Notes in the Treasury except such as were delivered into it after the re-capture of the City; and it is known that Notes to the amount of Rupees 45,000 were paid in by Mr. Kavanagh through the Chief Commissioner's Office. A list of Notes thus delivered into the Treasury up to the 21st of April 1858 must have been prepared, for an entry in the Treasury letter book of that date mentions a list of Notes "at present in the Office" as having been sent to the Judicial Commissioner. No list was made of the Notes received back from Cawnpore on the 12th of July 1858, nor does a list appear to have been made by Mr. Williams of Notes received after the 21st of April 1858.

8. In October 1858 Mr. Bickers, who had from the 2nd of August been in charge of the Treasury and Cash Department, (the Note Department being still under Mr. Williams,) received a large number of Notes from the Deputy Commissioner and made a list of them. In that list for the first time appear the three Notes of Huzrut Muhal and Brijis Kudr, but there is nothing to shew by whom they were deposited.

9. Neither in the Treasury Office nor in the Judicial Commissioner's Office is the list of the 21st of April forthcoming. Mr. Schalch believes that the letters and lists must have been made away with to conceal the existence of Notes subsequently abstracted; that as the Notes came into the Treasury, they fell into the hands of the subordinates of the Treasury without the knowledge of the Treasury Officer; that the Notes of less notorious persons were made away with, but that the three Notes of Huzrut Muhal and Brijis Kudr were allowed to remain, because the Treasury subordinates had no hope of passing them unchallenged. In short, that "three lakhs probably were made over to the Treasury," by Major Carnegie, "but in so irregular a manner that the Treasury Officer might have been ignorant of and cannot be held responsible for their receipt; and that the three Notes for two lakhs in the name of Brijis Kudr and Huzrut Muhal are a portion of the Notes thus delivered, while the remainder of the three lakhs cannot be traced," or as he elsewhere puts it, "were probably fraudulently disposed of after their receipt into the Treasury."

10. The Governor General in Council does not concur in this conclusion, which is put forward by Mr. Schalch only as a hypothesis. There is nothing to prove that Major Carnegie ever paid the three lakhs into the Treasury. He has no receipt, and he himself thinks it probable that he never got one. Mr. Campbell's evidence shows only that Major Carnegie consulted him on the subject, not that he deposited the Notes. The strongest evidence in Major Carnegie's favor is the fact of his mentioning the value of two of the Notes belonging to Huzrut Muhal and Brijis Kudr before these Notes were discovered to be in the Treasury. With this exception, there is nothing to connect Major Carnegie in any way with the Notes of Huzrut Muhal and Brijis Kudr. It is not proved that these Notes ever fell into the hands of the Prize Agents. There is nothing to prove by whom they were deposited in the Treasury. They might have been entered in the list of the 21st of April 1858, or they might have been received between that date and October, or they may be part of the Cawnpore Notes of which no list was ever made.

11. But giving Major Carnegie the full benefit of the doubt regarding these two lakhs, there is no proof whatever that he paid the remaining lakh, and, under all the circumstances of this case, the Governor General in Council cannot concur in the hypothesis that the money was paid without the knowledge of the Treasury Officer and was embezzled by the Amlah.

12. Of the Notes received into the Prize Agency Godowns, Major Carnegie either returned to the owners, or purchased, Notes to the amount of Rupees 1,74,000.*

* Hajee Begum ...	Rs.	80,000
Shirf-ood-dowlah	,,	42,000
Mulka Saitee ..	,,	31,000
Sooleiman Mirza	,,	6,000
Ali Ahmed ...	,,	4,000
Kasim Beg ...	,,	11,000
	Rs.	1,74,000

In justification of the delivery of these Notes to himself as City Magistrate, Major Carnegie pleads that, according to the best legal opinion which he could at the time obtain, Government Notes could not be considered legal Prize, and that all property not Prize was rightly dealt with in being restored to the owners with a view to encourage the return of the people to Lucknow.

13. The Governor General in Council cannot accept this explanation of the reasons which induced Major Carnegie on his own authority to deal with the property of persons in open rebellion against Government. Major Carnegie had no right to dispose in any way of these Notes without orders; and if there could have been any doubt in his mind on this point it was certain that he could have no authority to dispose of them in the way mentioned until the owners had satisfactorily cleared their conduct. When Major Carnegie had come to the conclusion that these Notes were not Prize, it was his duty to report his possession of them and to ask the orders of Government. In neglecting to do this, and in taking upon himself to dispose of these Government Securities, Major Carnegie assumed a grave responsibility which neither his position as City Magistrate nor the disorder of the times, which presented no impediment to his proper course of action, warranted him in doing.

14. But there are other and far more serious features in the case. It is shown that Major Carnegie purchased these Notes himself at depreciated rates through the instrumentality of his official subordinates; that in one case the Notes were partly returned and partly purchased by Major Carnegie, while an investigation of the conduct of the owner* was pending before him, as City Magistrate; and that no record was kept of

* Hajee Begum.

these extensive transactions in valuable securities, whilst their restoration was "effected in violation of all the usual rules of official procedure."

15. Major Carnegie's purchases of Government Paper amount in all to Rupees 2,28,900, of which Rupees 90,000 are Notes which fell into his hands as Prize Agent, and were purchased from the persons noted in the margin. Each transaction will be described in order.

16. I. *Shirf-ood-dowlah's Case.*—On the recapture of Lucknow Shirf-ood-dowlah was seized on suspicion of having joined the rebels, but he was afterwards released on security. His house was searched by the Prize Agents, and Notes to the value of Rupees 42,000 fell into their hands There is another Note for Rupees 2,400, which, it is probable, did not fall into the hands of the Prize Agents.

It is admitted without dispute that Major Carnegie purchased Rupees 21,000 of the Notes which were in the Prize Godowns, and also the Note for Rupees 2,400, and that Mr. Williams purchased the other Rupees 21,000, namely Rupees 11,000 in his own name and Rupees 10,000 in the name of Mr. Martin.

17. Shirf-ood-dowlah, whose evidence, in Mr. Schalch's opinion, betrays "utter disregard of the truth," asserts that he was told by Koorban Ali, Major Carnegie's Serishtadar, who has been convicted of forgery, that Rupees 42,000 of his (Shirf-ood-dowlah's) Notes were in the Godowns, and that he was induced by Koorban Ali to part with them at 20 per cent, *i. e.*, for Rupees 8,400, half to Major Carnegie and half to Laltapersaud; that he had no direct dealings with Major Carnegie in the matter, but only through Koorban Ali; that Koorban Ali paid him only Rupees 2,200 for Major Carnegie's share, keeping Rupees 1,500 for commission and promising to pay Rupees 500 afterwards which he never did; that Laltapersaud paid him Rupees 5,250 for his share; and that he afterwards sold the Note for Rupees 2,400 to Major Carnegie through Koorban Ali at 20 per cent and was paid Rupees 480, the full price agreed on. Shirf-ood-dowlah's statement that he sold the Notes for 20 per cent is supported by his Son and his confidential Agent.

18. Shirf-ood-dowlah's statement, however, cannot be correct. By his own testimony he must have been paid by Laltapersaud 25 per cent for his half of the Notes. The account of this transaction as given by Laltapersaud is accepted by Mr. Schalch as true; it is admitted to be true by Mr. Williams so far as he is concerned, and all the evidence on Major Carnegie's side goes to prove its substantial correctness. Laltapersaud's story is, that Shirf-ood-dowlah asked him either to purchase from him or to sell for him Notes to the amount of Rupees 21,000, and that he undertook to do so, agreeing with Shirf-ood-dowlah for 35 per cent; that he took the Notes to the Treasury and there sold them to Mr. Williams and Mr. Martin at the rate of 45 per cent; and that he was paid in full and gave Shirf-ood-dowlah 35 per cent, as agreed.

19. Major Carnegie asserts, in regard to his share in this transaction, that he bought the Notes for Rupees 21,000 at the rate of 50 per cent; that he paid Shirf-ood-dowlah himself in full and not through Koorban Ali, and that he bought the Note worth Rupees 2,400 at the same rate as the others, namely 50 per cent.

20. The Governor General in Council is satisfied of the substantial correctness of Major Carnegie's statement. Beyond Shirf-ood-dowlah's own assertion, on which no reliance can be placed, there is no proof that Shirf-ood-dowlah was paid through Koorban Ali, or that the money was not paid in full. Major Carnegie has proved that in a conversation with Shirf-ood-dowlah he pointed out to that person how foolish it was to sell the Notes to Messrs. Martin and Williams for 45 per cent, when he (Major Carnegie) was willing to pay 50 per cent as he had done for the others; and it is improbable that if Koorban Ali had kept back part of the price Shirf-ood-dowlah would not then have mentioned it. Moreover Shufeeooz Zaman, Nazir of the Kotwalee, deposes distinctly and minutely to the circumstances under which the full price was paid in his presence for the Notes worth Rupees 21,000, and Gunga Deen and Chota Lall, the two servants of Shirf-ood-dowlah, distinctly state that the full price agreed was paid for the Note for Rupees 2,400. Under these circumstances, the Governor General in Council considers that Major Carnegie is entitled to the full benefit, such as it is, of his statement that he paid Shirf-ood-dowlah in full.

21. II. *Hajee Begum's Case.*—Prior to the re-occupation of Lucknow, this Lady fled from the City after burying in her house Government Securities to the amount of Rupees 80,000. When her house was searched by the Prize Agents these Notes were seized, and it is admitted by Major Carnegie that he purchased of these Notes to the value of Rupees 48,000, while the remaining Notes were restored to the Begum. Major Carnegie asserts that the rate at which he purchased the Notes was 50 per cent, and that the full price of Rupees 24,000 was paid in two instalments in his own presence to Syud Hussein, the Agent of the Begum, and that a receipt was taken which was lost in the wreck of the *Alma*.

22. Mr. Schalch, however, holds that "there are strong grounds for suspicion that in the present instance Hajee Begum did not receive the full amount due to her on the Rupees 48,000 alleged to have been purchased at 50 per cent," and that the "proof of payment adduced by Major Carnegie is utterly worthless."

This opinion is founded upon, *first*, the evidence of Syed Hussein and Binda Ali, the Agents of the Begum; *secondly*, the manner in which the transfer of the Notes to Major Carnegie's name was effected; *thirdly*, the discrepancy in the evidence of payment adduced by Major Carnegie; and *fourthly*, the state of Major Carnegie's private account at the time the transaction took place.

23. Syud Hussein's statement is to the effect that the Begum being under much pressure from the underlings of the Kotwalee empowered him to sell one-third of her Notes on condition of getting back the remaining two-thirds; that on going to the Kotwalee for this purpose Koorban Ali threatened to confiscate the Notes altogether and to expel the Begum from the City unless he sold Rupees 48,000; that he consented and the Notes were transferred to Major Carnegie's name, the Begum receiving only Rupees 11,000 for them (but not in his presence), of which Rupees 240 were returned as bad; and that the rest of the Notes were restored to the Begum, but their

amount he cannot state. This, however, is at variance with the deposition which he made before the Lucknow Authorities on 23rd January 1860, when he asserted that Rupees 11,500 were paid for Notes worth Rupees 48,000, and that other Notes worth Rupees 32,000 were restored.

24. Binda Ali, who merely repeats what he says he was told by the Begum, gives a very different account. He asserts that of the Begum's Notes there were retained Rupees 26,700, being the one-third which the Begum agreed to part with, and that Notes to the value of Rupees 16,000 were bought for Rupees 11,000, or about 70 per cent, and that the money was paid in his own presence and that of Syud Hussein.

25. As regards the mode in which the Notes were transferred Syud Hussein says—"I urged that I had no Power of Attorney to enforce this transfer, but he (Koorban Ali) said the Saheb (Major Carnegie) would give a letter and that would suffice. At last, notwithstanding my continued objections, I was sent to Mr. Williams in charge of the Chupprassees and Saligram* who had the Notes. * * *. The Chupprassees sent in the letter, and after waiting until nearly evening we were called in and Saligram gave the papers, (Notes) on which Mr. Williams wrote in English and told me to write my name in a book, which I did; I was asked for no petition or Mooktearnameh." It further appears that the endorsement of the Begum was under the cipher "B" and did not bear her seal, although the previous payments of interest on the Notes were all stamped with her seal.

* A Kotwalee Contractor and City Broker.

26 In the absence of the receipts said to have been given for the money, Major Carnegie brings witnesses to prove payment in full, but Mr. Schalch considers their statements to be "discrepant and irreconcilable."

27. From the statement of Major Carnegie's private account given by Mr. Schalch, it further appears that if Major Carnegie paid for all the Notes he purchased up to 21st May at the rates at which he professes to have done, he must have overdrawn his account by Rupees 18,166, and unless he received a remittance of Rupees 40,000 from England, he could not have defrayed the cost of these Notes from his own funds.

28. But on the other hand there are, in the opinion of the Governor General in Council, considerations which on some points tell in Major Carnegie's favor. In the first place, the discrepancies in the evidence of Major Carnegie's witnesses are chiefly, though not exclusively, discrepancies in dates, and it is not to be wondered at that such discrepancies should be found in evidence given nearly three years after the occurrence of the events to which the evidence relates. On the statements of Koorban Ali and Saligram indeed much dependence cannot be placed. The former, however, states that Rupees 12,000 was paid before registration and Rupees 12,000 after registration, and the latter bears witness to one payment of Rupees 12,000 after registration. Both assert that receipts were taken though they differ in regard to the locality where these were written. Shufeeooz Zaman, the Foujdaree Nazir, deposes to two payments of Rupees 12,000, one in presence of Saligram. Other parties assert that they heard Syud Hussein say in reply to a question put to him by Major Carnegie, that he had received the money in full. Although most of these witnesses were more or less connected with the Lucknow Kotwalee, and although there are discrepancies as to the time of payment and the locality in which the receipt was given, there is considerable unanimity as to the amount paid. On the other hand, the discrepancies in the statements of Syud Hussein and Binda Ali, the Begum's two Agents, are much more serious. Syud Hussein moreover is as wrong in his dates as Koorban Ali or Shufeeooz Zaman; for he says that eight days after payment the Begum was allowed to return to her house, whereas the transfer of the Notes took place on the 21st of May and the order permitting the Begum to return to her house is dated the 22nd of May.

29. In the second place, the registration is attested by Mr. Williams, who also certifies to the fact that the endorsement of the Begum was sworn to before him, and although no Power of Attorney has been filed with the registration papers, it is proved that a Power of Attorney was not always required according to the mode of conducting business at that time in the Lucknow Treasury.

30. In the third place, Major Carnegie states that he obtained the money to pay for these Notes from the Prize Agency by permission of his Colleagues in exchange for a draft at 2 per cent on Calcutta. The question, therefore, does not depend so much on the amount of private funds actually in Major Carnegie's possession as on the quality of his credit with his Colleagues in the Prize Agency and with his Agents in Calcutta. Major Carnegie's Account shows that two drafts for Rupees 10,000 each were cashed in Calcutta on the 2nd of June for the benefit of the Prize Agency, and it is possible these may be the drafts referred to which would cover the greater part of the cost of these Notes. The Prize Agency Cash Account shows a disbursement of Rupees 10,000 on the 22nd of May to Major Carnegie for Lyall, Rennie and Co. On the 28th of May there is a second disbursement of Rupees 10,000 to Lyall, Rennie and Co., which is probably the second of Major Carnegie's drafts. Moreover, four of the Notes worth Rupees 25,000 are endorsed to Mr. Rennie under date the 22nd of May, and the other four are endorsed by Mr. Rennie as Attorney for Major Carnegie to a third party by whom they are re-endorsed to Mr. Rennie. It is possible that Mr. Rennie may have been re-paid by these Notes for the money paid to the Prize Agency on Major Carnegie's draft.

31. Under these circumstances, His Excellency in Council does not admit the charge against Major Carnegie that he defrauded the Begum of her money by not paying the full price agreed upon.

32. But giving Major Carnegie the full benefit of the doubt arising from the discrepancy in the evidence on the above point, His Excellency in Council is constrained to conclude that in effecting the purchase of the Notes of Hajee Begum, Major Carnegie allowed a shameful use to be made of his official influence. It appears from Syud Hussein's evidence that when he spoke to Koorban Ali about Hajee Begum, Koorban Ali told him it would be for her advantage to return to the City, and although he did not tell what that advantage was, yet Saligram, Koorban Ali's companion in guilt, indicated that it would be the restoring of her Notes. This was intimated to the Begum *after* the safe

conduct perwannah had been issued to her; and Syud Hussein was told he would "have to give something to Major Carnegie for the Notes." After the Begum's return "for four or five days," says Syud Hussein, "men continually came from the Kotwalee pressing her to dispose of her Notes. At last she told me to go there and settle every thing as Saligram had threatened that she should otherwise be turned out of the City and not allowed to return. I went with Saligram to the Kotwalee where Koorban Ali and the Saheb Carnegie were seated. The Moonshee went into the next room taking me and Saligram. Hajee Begum had told me to dispose of one-third of the Notes and bring back the other two-thirds. Koorban Ali told me the Notes amounted to Rupees 48,000. On my refusing to sign any of these Notes, the Moonshee threatened me with confiscation of the Notes and went and spoke to the Saheb, I still refused though further threats were used. Again, the Moonshee went to the Saheb and again returning threatened to turn the Begum out of the City if I did not comply. I urged that I had no Power of Attorney to enforce the transfer, but he said the Saheb would give a letter and that would suffice. At last, notwithstanding my continued objections, I was sent to Mr. Williams in charge of the Chupprassees and Saligram who had the Notes." Syud Hussein further says—"I could see the Saheb from the room into which Koorban Ali took me and showed me the Notes."

33. In further proof of Major Carnegie's unworthy conduct, it appears (1) that the Notes were transferred to him on the 21st of May, and his own order permitting the Begum to re-occupy her house bears date the 22nd of May, and (2) that the Begum was not allowed to receive back any portion of her Notes until Major Carnegie had effected his purchases.

34. III. *Cases of Malika Gaitee, Sooleiman Mirza and Ali Ibu Mahomed.*—Notes belonging to Malika Gaitee to the amount of Rupees 21,000 were traced by Mr. Schalch in Calcutta. Four for Rupees 11,000 are endorsed to Major Carnegie, two for Rupees 4,000 to Mr. Martin, and two for Rupees 6,000 to Mr. Williams. Major Carnegie does not speak confidently as to the rate at which he bought his share of the Notes, but he believes he paid 50 per cent. Mr. Williams says he had no personal communication with the parties (and this is fully borne out by the evidence), but that he purchased the Notes through Kalee Churn, the Treasurer, who, he believes, charged him 50 per cent; but as he kept no account and has no receipt he cannot prove that that rate was paid.

35. The facts of the case are that Shirf-ood-dowlah who was a friend of the family brought to the Begum eleven of her Notes aggregating Rupees 31,000 from the Prize Godowns and asked if she would dispose of them, she kept Rupees 10,000 and gave Rupees 21,000 to Shirf-ood-dowlah to sell after affixing her seal, but without endorsing them. Shirf-ood-dowlah then went with Busseerooddeen to the Treasury where the Notes were sold at 40 per cent. Of the price Rupees 8,400, Shirf-ood-dowlah only paid Busseerooddeen Rupees 7,900 keeping Rupees 500 for his own profit. No compulsion seems to have been resorted to, and the transaction was perfectly voluntary.

36. In Sooleiman Mirza's case the purchase of Notes worth Rupees 6,000 was effected on the 3rd of May 1858 through Shirf-ood-dowlah at the rate of 50 per cent; Sooleiman Mirza parted with his Notes of his own free will, and after sending his servant to ascertain the market rate, who reported it was 40 per cent; but Shirf-ood-dowlah kept back Rupees 300 of the purchase money, paying Sooleiman Mirza Rupees 2,700 only, instead of Rupees 3,000.

37. Only one Note for Rupees 4,000 belonging to Ali Ibu Mahomed was purchased by Major Carnegie. The transfer was effected on the 10th of May. The evidence in the case is so contradictory as to deserve little credit. But the Governor General in Council believes the Note was willingly sold at 50 per cent, but that a portion of the purchase money was kept back by Shirf-ood-dowlah.

38. The remaining purchases effected by Major Carnegie were of Notes which did not fall into the hands of the Prize Agents, and are divided by Mr. Schalch into three classes, 1*st*, those of which the sale is denied on the part of those whose alleged endorsement they bear; 2*nd*, those which had been received into the Lucknow Treasury from Calcutta after renewal for return to the owners; and 3*rd*, those of which the sale is acknowledged by the vendors, and which would appear to have been transacted in the open market. The value of these Notes aggregates Rupees 1,36,500 as shown in the margin.

39. IV. *Wafatee Khanum's Case.*—This Lady is a step daughter of Hajee Begum. When the British Troops re-occupied Lucknow her house was broken into and Notes to the value of Rupees 53,600 were plundered. Wafatee Khanum subsequently gave notice to the Accountant General of the loss of these Notes and stopped payment of them. She was afterwards informed that one Note for Rupees 1,000 had been transferred to the 5 per cent loan in favor of Mukkhun Lall.

40. Serjeant Graham of the 93rd Highlanders was present at the plunder of her house and possessed himself of Notes worth Rupees 45,500. These were made over by Serjeant Graham to Mr. Kavanagh, Assistant Commissioner at Seetapore, to be restored to their owners on payment of a reward of Rupees 2,000. Mr. Kavanagh states that he sent the Securities by a confidential servant to Lucknow with instructions to search out Wafatee Khanum and return the Notes. The servant did not succeed in finding Wafatee Khanum, and Mrs. Kavanagh on going to Lucknow undertook the search. One day a person professing to be the Khanum's Agent waited on Mrs. Kavanagh and to him she gave over the Notes receiving Rupees 2,000, which were transmitted to Serjeant Graham. No trace can now be found of the man who personated Wafatee Khanum's Agent.

41. It is the opinion of Mr. Schalch and of the Chief Commissioner of Oudh that Mr. Kavanagh acted very unwisely in having recourse to private agency for the restoration of the Notes to the owner, instead of making enquiries officially through the local authorities. In this opinion the Governor General in Council concurs; but His Excellency desires that it may be clearly understood that beyond this not a shadow of blame rests upon Mr. Kavanagh, whose conduct in the matter was thoroughly upright and honorable.

42. Four of the Notes given away by Mrs. Kavanagh, aggregating Rupees 21,500, were presented by Mr. Rennie of the firm of Messrs. Lyall, Rennie and Co. at the General Treasury for transfer to the five per cent loan. On being told that payment was stopped Mr. Rennie sent them to Shah Mukkhun Lall, a Lucknow Banker. These Notes were subsequently traced to Koorban Ali, Major Carnegie's Serishtadar, who has been convicted of negotiating them under forged endorsements. Koorban Ali's story is that being told by Major Carnegie to buy Notes which he heard Shah Mukkhun Lall had for sale, he bought these Notes from the Banker at 50 per cent, including 9 per cent brokerage, and paid for them with Major Carnegie's money; that Mukkhun Lall retained his right to a moiety in the Notes, and that the remaining moiety was divided equally between Major Carnegie and Mr. Rennie; that on going to Hurdui, where Major Carnegie was stationed, he found Major Carnegie absent, and he sent the Notes to Mr. Rennie in an envelope which Major Carnegie had left open for the purpose. From this statement, which coincides with Major Carnegie's explanation, it is clear that the forged Notes were purchased on Major Carnegie's account by Koorban Ali; that Major Carnegie never saw them; and that they were forwarded direct by Koorban Ali to Mr. Rennie in whose name they were fraudulently enclosed.

43. V. *Balkissen's Case.*—During the mutinies Balkissen gave over eleven Notes worth Rupees 41,000 to Darogah Wajid Ali, Shirf-ood-dowlah, and Buddoo Lall, for sale. Balkissen died eighteen days before the re-capture of the City, and when, after the re-occupation, Tejkissen, his heir, asked for the Notes, he was told they had been plundered. Tejkissen has succeeded in recovering Rs. 28,000, but Rs. 13,000, are still wanting.

44. Of the missing Notes for Rupees 13,000, three of the aggregate value of Rupees 10,000 were found by Mr. Schalch in the Sub-Treasurer's Office, which had been transferred to the 5 per cent loan by Mr. Rennie on or about the 14th of April 1859. The seal of endorsement is described as "a palpable forgery."

45. Major Carnegie can give no satisfactory account of this transaction. But in a letter of the 14th of January last to Mr. Schalch he says: "These Notes were purchased, I believe, at 65 per cent in March 1859, when I was on the point of leaving the country," and he pleads that it is proved by the evidence taken before Mr. Schalch that they were brought from Shirf-ood-dowlah. "At that time," he goes on to say, "I considered Shirf-ood-dowlah a man incapable of committing theft or forgery, and knowing him to be a person of rank and consideration, I thought the sale was all in proper form."

46. Mr. Schalch has been unable to trace how these Notes were purchased and what was paid for them. They are not endorsed by Major Carnegie, nor is the transfer to Mr. Rennie registered. Shirf-ood-dowlah admits receiving the Notes for sale, but maintains that they were plundered, as his own Notes were.

47. Budreenath asserts that of the Notes given to Shirf-ood-dowlah only one for Rupees 2,000 was sold. Tejkissen does not seem to have been questioned as to the parties from whom or the means by which he recovered the Rupees 28,000; although some of the recovered Notes must have been part of those given to Shirf-ood-dowlah, if Tejkissen's statement is true that Rupees 25,000 were given to Wajid Ali, Rupees 2,000 to Boodoolall, and Rupees 14,000 to Shirf-ood-dowlah.

48. During the course of Mr. Schalch's enquiry, however, Major Carnegie stated that Durrub Sing, formerly his Naib Serishtadar, had called on him and allowed that Shirf-ood-dowlah had sold these Notes, and that he (Durrub Sing) had given him Rupees 1,500 as his share. Durrub Sing denied this and stated that Major Carnegie that day had sent to him to ask him to get Shirf-ood-dowlah to settle with Tejkissen for these Notes, and that Major Carnegie was willing to pay down Rupees 3,500 if Shirf-ood-dowlah would pay the balance of Rupees 8,500. Major Carnegie observed on hearing this statement that rather than have reflections cast on him for this transaction he had expressed his willingness to pay up Rupees 3,500 if Shirf-ood-dowlah and Durrub Sing, the parties concerned, would pay the balance.

49. VI. *Ali Reza Khan's Case.*—In this case it appears that Major Carnegie, then Deputy Commissioner of Mullaon, wrote, on the 16th of November 1858, to stop payment of three Notes to the value of Rupees 6,000 which had been lost by Ali Reza Khan. On the 26th of January 1859 Mr. Rennie presented one of them for transfer to the five per cent loan and was told payment had been stopped. On the 2nd of April Mr. Rennie again presented it for transfer along with a Certificate of Sale signed by Azim Ali, the nephew of Ali Reza, and shortly after a letter was received from Major Carnegie intimating that the claim to the Note had been withdrawn by Ali Reza Khan.

50. Major Carnegie's account of this transaction is that after he had written to stop payment of the Notes, this Note was purchased for him by mistake; that when objection was taken to its transfer he induced the owner to withdraw his claim for some additional consideration; in short, that he paid twice for the Note.

51. Accepting Major Carnegie's own account of this transaction, the Governor General in Council observes that there is ground for very grave suspicion against Major Carnegie. For if his first transaction had been a fair and *bonâ fide* one he would never have agreed to pay a second time. Major Carnegie's case is by no means improved by the admission, made when the fact could be no longer concealed, that the night before Azim Ali gave his evidence before Mr. Schalch, he gave Azim Ali a present of Rupees 50 on that person coming to him and representing that he had been hardly used.

52. VII. *Syud Mahomed Tuckee's Case.*—A Note for Rupees 1,500 belonging to Mahomed Tuckee was found in the Sub-Treasurer's Office by Mr. Shealch, and had been transferred to the 5 per cent loan. It is endorsed to Major Carnegie but not registered, and is blank endorsed by Major Carnegie to Mr. Rennie. The seal of Mahomed Tuckee is admitted to be genuine, but the signature is denied.

53. From the statements of Koorban Ali and Major Carnegie, and from a letter of Mr. Martin's forwarding the Note to Mr. Rennie, it appears probable that the Note was purchased by Mr. Martin for Major Carnegie who was not at the time in Lucknow; but without the evidence of Mr. Martin, who is at present in England, no judgment can be given on this case.

54. VIII. *Buckshee Khanum's Case.*—Buckshee Khanum prior to the Mutiny sent Rupees 30,700 in Notes to the Treasury to be forwarded to Calcutta for renewal. The renewed Notes were received back about the 12th of July 1858. On the 24th of July, at her own request, they were made over to her accredited Agent, Kasim Ali Khan, by Mr. Martin, Deputy Commissioner, Mr. Williams being at the time absent. On the 26th of July the transfer of Rupees 15,700 of these Notes to Major Carnegie's name was registered, Furzund Ali having been employed to negotiate the transaction. On the 19th of August a Merchant, Sheonath, claimed this Lady's Notes, but his suit was rejected by Mr. Williams on the 21st October, and on the 26th of October Major Carnegie bought the remaining Notes to the value of Rupees 15,000.

55. Kasim Ali Khan states that the Notes for Rupees 15,700 were sold at 50 per cent, the market rate being then only 35 or 40 per cent, and that he was paid in full; that the rest were sold at 75 per cent, but that he was paid only Rupees 10,500 through Kali Churn, the Treasurer. Both Kasim Ali Khan and the Begum testify that the transaction was voluntary, and the Governor General in Council sees no reason to doubt the evidence of the Begum and her Agent on this point.

56. Mr. Williams has completely cleared himself of the suspicions which attached to him in this case of having made over the Notes to Major Carnegie, and of having furnished Major Carnegie privately with information regarding Government Securities received in his official capacity. It has been shown that Mr. Martin, in the absence of Mr. Williams, returned these Notes to the Lady's Agent, at her own request. And so far from furnishing Major Carnegie with information, Mr. Williams incurred that Officer's displeasure by not answering his letters, and the enquiry which he made into the claims advanced in these cases was opposed to Major Carnegie's interest. Mr. Schalch considers there is no reason to believe that Mr. Williams acted *malâ fide*, and any error on Mr. Williams' part, he adds, "in either investigating or deciding these claims must be deemed an error of judgment."

57. IX. *Cases of Hadee Begum and Munzoor Begum.*—Renewed Notes belonging to these Ladies of the value of Rupees 7,000 each were received in the Treasury about the 12th of July. On the 14th of August Munzoor Begum applied for the restoration of her Notes, but as a claim to them was pending she was required to give security. On the 11th of September she again applied for them saying she had sold them to Major Carnegie. On the 8th of October they were given to Furzund Ali, and on the 11th of October their transfer to Major Carnegie was registered.

A claim was also laid to the Notes of Hadee Begum which was rejected on the 13th of October, and on the 14th of October their transfer to Major Carnegie was registered. Payment for the Notes of both Ladies was made through Kali Churn, the Treasurer, by order of Mr. Martin, who had some money of Major Carnegie's in his possession.

58. "The real facts," says Mr. Schalch, "would appear to be that Furzund Ali having ascertained, as in Bukshee Khanum's case, that the renewed Notes of those parties had been received from Cawnpore, entered into negotiations with them exaggerating the difficulties in the way of their delivery, induced the parties to part with them on the terms entered in the agreement above-mentioned,* and that this purchase money at that rate was paid through Mr. Martin, though very possibly in its distribution Koorban Ali and Furzund Ali took care to pay themselves handsomely for their trouble."

* *i. e.* to sell the Notes aggregating Rupees 14,000 for Rupees 7,325, [or about 52½ per cent] of which Furzund Ali was to get Rupees 1,000.

59. Two Notes belonging to these Ladies for Rupees 1,000 each, which had been bought by Major Carnegie, were subsequently endorsed to Mr. Williams. Major Carnegie states that he parted with them at 50 per cent to accommodate Mr. Williams; but the latter shows from a letter of Major Carnegie's that the rate was a little over 56 per cent. Considering that the ownership of these Notes was disputed, and that the Notes were brought up by Major Carnegie after decision had been given in favor of the Begums, the transfer of two of the Notes to Mr. Williams at low rates is far from being above suspicion.

60. X. *Bee Shereen's Case.*—This Lady's renewed Notes were received back from Cawnpore on the 12th of July 1858. Previous to this she had applied for their return. A Report was called for from the Office on the 26th of July. Meanwhile, on the 16th of July, the Notes were applied for in the name of Bega Shereen and were made over to her on the 24th of July, and were registered in Major Carnegie's name on the 26th of July. These facts were brought to notice by the Agent of the real owner, and Major Carnegie was informed. He procured the return of the Notes from Calcutta and they were restored to the real owner. No trace can be found of the parties who perpetrated this fraud.

61. XI. *Notes bought in open market.*—The remaining transactions of Major Carnegie are seven cases in which there is no dispute, and they appear to have been effected in open market:—

Name of Seller.	Value of Notes bought.	Date of Purchase.	Rate of Purchase.	Price paid.
Mohumdee Khanum	Rs. 13,000	21st April 1858.	54 per cent.	Rs. 7,100.
Mirza Azeemoodeen	„ 7,000	27th July 1858.	Said to be 50 per cent	Said to be Rs. 3,500*
Kali Churn	„ 1,000	Not stated	75 per cent.	Rs. 750.
Benaressee Dass	„ 3,000	Oct. 1858.	Said to be 85 per cent.	Said to be Rs. 1,700.
Fakeer Chund	„ 15,000	April 1858.	65 „	Rs. 9,750.
Jogul Kishore	„ 10,000	Dec. 1858.	75 „	„ 7,500.
Syud Mahomed Mendoe	„ 2,000	Unknown.	Unknown.	Unknown.

62. Two only of these cases need be noticed, that of Mirza Azeemooddeen and that of Jogul Kishore. The conduct of Mirza Azeemooddeen was under investigation by Major Carnegie as City Magistrate, and no final Report was submitted to the Commissioner till the 9th of September 1858, and then by Mr. Wood who had succeeded Major Carnegie in office. The purchase from Jogul Kishore was made through Mr. Martin. Major Carnegie files a letter from Mr. Martin forwarding Jogul Kishore's Note to Mr. Rennie, in which he states "my agreement with Carnegie is to have one-eighth of the profit (⅛) of these transactions * * * I am on the look out for a good deal more of this paper." Major Carnegie, however, states that to the best of his knowledge no share of the profit of these transactions was ever paid to Mr. Martin.

63. XII. *Transactions in lost Notes.*—Besides the cases above discussed, Major Carnegie entered into engagements with the persons noted in the margin to purchase at the rate of 50 per cent their Notes which had been lost or stolen if they should be again found, or if duplicates should be received. In the case of Shahzadi Begum, Major Carnegie paid Rupees 250 as earnest money on the agreement. She recovered some of her Notes, but instead of selling them to Major Carnegie she disposed of them to third parties. Rather than face the expense of legal proceedings to enforce the agreement Major Carnegie withdrew his claim and lost his money.

Shahzadi Begum ...	Rs.	48,000
Elahi Khanum ...	„	6,000
Ashruf-oon-Nissa Begum ...	„	10,500
	Rs.	64,500

With regard to the agreements in these cases Major Carnegie says—"I can only state that these were publicly registered and taken with the view of avoiding any chance of purchasing doubtful Notes. In fact, if any loss has been sustained, such has been borne by me, for in several cases I paid different sums as earnest money which have never been recovered from the recipients." It seems to have escaped the perception of Major Carnegie that such transactions are discreditable to an Officer in his position who had the credit and dignity of Government to support.

64. XIII. *The Debt to Shirf-ood-dowlah.*—This is the last of Major Carnegie's transactions remaining to be considered. Shirf-ood-dowlah maintains that he had three pecuniary transactions with Major Carnegie before the Mutiny, one for Rupees 5,000 for which he was paid in full by a Hoondee through Benaresee Dass, another for Rupees 2,000 for which he was paid by a Government Promissory Note, the endorsement of which Mr. Schalch concludes to have been forged by Shirf-ood-dowlah; and a third for Rs. 3,000 for which he received Major Carnegie's note of hand. Major Carnegie denies having had any transactions except the one for Rupees 3,000, and he alleges that the money was paid by the Kotwal out of a sum of Rupees 4,600 given him by Major Carnegie, but that when the Kotwal was killed in the Mutiny his effects were left with Shirf-ood-dowlah who re-possessed himself of the note of hand. Shirf-ood-dowlah on the other hand denies receipt of payment.

The evidence is conflicting, and no confident judgment can be formed from it. But be the whole truth what it may, this much is certain;—that Major Carnegie stands convicted on his own showing of having had questionable pecuniary transactions with, and of having incurred debts to a Native living within his jurisdiction.

65. Upon a consideration of the several transactions, the chief features of which have now been described, the Governor General in Council is led to the following conclusions:—

1*st.*—That if Major Carnegie did send three lakhs of Notes from the Prize Agency to the Treasury, he did so in so careless a manner and with such utter disregard of the forms of business, that one lakh out of the three cannot be accounted for.

2*nd.*—That Major Carnegie caused to be transferred from the Prize Agency to himself, as City Magistrate, Notes to the value of about two lakhs of Rupees, which he returned to the owners, or otherwise disposed of, well knowing that he had no power to dispose of them, and well knowing that some of the parties to whom he returned them were implicated in rebellion, and that the irregularity of his proceeding was such that Notes to the value of Rupees 26,000 are unaccounted for.

3*rd.*—That Major Carnegie purchased, at rates much below the market value of good paper, Notes to the value of Rupees 90,000 which had come into his possession by virtue of his official position as Prize Agent and City Magistrate.

4*th.*—That Major Carnegie purchased other Notes aggregating Rupees 1,38,900 at rates much below the market value of good paper, and that he effected many of these purchases as well as the purchase of the Notes, which came to him from the Prize Agency, through the instrumentality of his official subordinates. (1)

(1) Cases of Shirf-ood-dowlah, Hajee Begum, Wafatee Khanum, Bukshee Khanum and others.

5*th.* That on two occasions (2) the purchases were made from parties whose conduct was at the time under investigation before Major Carnegie officially; and that in one case (Hajee Begum's) there is evidence that the transaction was effected by threats of which Major Carnegie was cognizant, and that there is reason to fear that in other cases (3) the full price agreed upon did not reach the sellers.

(2) Cases of Hajee Begum and Mirza Azeemooshan.

(3) Cases of Malika Gaitee, Ali Ibu Mahomed and Sooleiman Mirza.

6*th.* That while holding a position of high trust and responsibility in Government employ, Major Carnegie became the recipient of forged Notes, (4) and that he entered into engagements to buy Notes in the possession of third parties (5) to the discredit of his position as an Officer of Government.

(4) Cases of Wafatee Khanum, Balkissen, Ali Reza Khan and probably Syud Mahomed Tuckee.

(5) Cases of Shazadee Begum, Elahi Khanum, and Ashruf-oon-Nissa Begum.

7*th.* That his subordinates, acting in his name and for his private advantage, exaggerated the difficulties in the way of the recovery of renewed (6) Notes, whereby the holders were induced to sell their interest therein at a lower rate than that at which they might otherwise have sold it.

(6) Cases of Hajee Begum and Munzoor Begum.

8*th*. That Major Carnegie offered valuable consideration to parties (7) interested in the enquiries pending before Mr. Schalch.

(7) Cases of Balkissen and Ali Reza Khan.

9*th*. That Major Carnegie had questionable pecuniary transactions with, and incurred debts to Natives living within his jurisdiction contrary to the express orders of Government.

66. These being the conclusions at which the Governor General in Council has arrived in regard to the proceedings of Major Carnegie, His Excellency hereby declares that Major Carnegie is unfit and unworthy to hold an office in the Oudh Commission, and Major Carnegie is hereby dismissed from that office and declared incapable of further employment by the Government of India in any Civil office whatever.

In his capacity of a Military Officer Major Carnegie must receive his sentence from Her Majesty's Secretary of State.

It is with pain that the Governor General in Council adds that the offence of Major Carnegie is of such a character that His Excellency cannot accept any previous good service in extenuation of it.

67. As regards Mr. Martin, Deputy Commissioner, absent on furlough, the Governor General in Council is not at present in a position to pronounce an opinio upon the conduct of this Officer, who was in England while Mr. Schalch was conducting his enquiries and has not yet returned to India.

68. As regards Mr. Williams, Extra Assistant and in charge of the Treasury, the total value of the Notes purchased by him amounted to Rupees 61,000. The transactions in which Mr. Williams was engaged in conjunction with Major Carnegie have been adverted to, but Mr. Williams had also separate transactions with other parties.

Mr. Williams purchased a Note from Sheonath Mahajun on the 9th of November 1858 at 76 per cent, that is for Rupees 11,400; of this sum only Rupees 5,000 have been paid. Mr. Williams states that he has had the balance ready, but he thought it might be considered objectionable if he paid while the present enquiry was pending. The transfer of this Note is certified on the back by Mr. Williams to have been duly registered, but there is no entry to that effect in the Register of transfers.

69. Notes from Bisheshur Pershad to the value of Rupees 2,000 were purchased by Mr. Williams on the 9th of January 1859 at 75 per cent, *i. e.* for Rupees 1,500, but were to be paid for by instalments aggregating Rupees 1,700, and extending to the end of February 1861, or for more two years. Rupees 1,200 only had been paid at the time of Mr. Schalch's enquiry.

70. Mr. Williams also purchased Notes worth Rupees 5,500 from Kali Churn, the Lucknow Treasurer. This man was subsequently dismissed for offering a bribe to Mr. Forsyth in the shape of a cheap Note.

71. With regard to the conduct of Mr. Williams the Governor General in Council finds

1*st*. That he was guilty of carelessness in the discharge of his duties as Treasury Officer. Apart altogether from the question of the Notes said to have been paid into the Treasury by Major Carnegie, this is proved by the cases of Hajee Begum, Bee Shereen and Sheonath Mahajun.

2*nd*. That he purchased Notes at unduly depreciated rates, knowing the depreciation to have arisen from peculiar causes and to have been affected by his official position. (1)

(1) Cases of Lalla Pershad and Malika Gaitee.

3*rd*. That he purchased from Natives Notes to the amount of Rupees 17,000, (2) part of the price of which has remained unpaid for more than two years.

(2) Cases of Sheeonath Mahajun and Bisheshur Pershad.

4*th*. That he employed Government Officials to effect his negotiations, (3) and purchased valuable Securities from his official subordinate (4) in violation of the orders of Government.

(3) Case of Malika Gaitee.

(4) Case of Kali Churn.

72. The Governor General in Council marks in terms of strong condemnation the conduct of Mr. Williams, who, if his offence had been committed singly, would be deserving of the severest punishment. But the Governor General in Council cannot forget that Mr. Williams occupied a very subordinate position at Lucknow, and that the example of his superiors, to which it was natural that he should look for guidance, was eminently such as to lead him astray.

73. This being so, the Governor General in Council determines that Mr. Williams will be sufficiently punished by a suspension from office without salary for one year; and accordingly His Excellency in Council makes known that at the expiration of that time, reckoned from his first suspension, Mr. Williams may again be employed by the Chief Commissioner in Oudh in such capacity as the Chief Commissioner may think fit.

74. As regards Mr. Forsyth at that time Secretary to the Chief Commissioner of Oudh, the purchases made by him are noted in the margin. Mr. Schalch's enquiries in this case have been limited to the purchase effected on the 27th of January 1859, the only one which is below the current rate of the day.

20th May 1858,	Benaresee Doss	Rs. 1,000 at 60	per cent.
24th August 1858	„	„ 5,000 at 80	„
27th January 1859	„	„ 10,000 at 62	„
1st June 1858,	Sheonath Sing	„ 2,000 at 80	„
		Rs. 18,000	

75. Mr. Forsyth accounts for the low rate at which he bought these Notes by stating that a sudden depression was caused by the issue of the Financial Notification of the 26th of January regarding the issue of Treasury Bills at increased interest. This Notification was published in the *Gazette* of the 29th of January, but a telegram announcing it was received in the Chief Commissioner's Office on the 26th, and Mr. Forsyth explains that Benaresee Doss received the information also by Telegraph on the same day, and even at an earlier hour, and therefore tendered the Note for sale at the low rate of 62 per cent. Mr. Schalch has shown from lists submitted by four respectable Bankers that the rates for January 1859 ran from 73 to 78 per cent, and the rate for February is quoted at 75 per cent.

76. "There is, in the Chief Commissioner's Office," says Mr. Schalch, "a letter of the 27th January from Mr. Hinde, Attorney for Benaresee Doss, to Mr. Forsyth, as Officiating Secretary to Chief Commissioner, relative to prosecuting a claim against Government for Rupees 60,000

exclusive of interest, due as a debt from one of the former Kings of Oudh. In this he refers to a previous conversation with Mr. Forsyth in which he stated his intention of bringing forward this claim. On referring to the file of letters connected with the case, I find that the claim was rejected on the recommendation of the Chief Commissioner, and there is no reason to suppose that the claim was in *any way* expedited or supported by Mr. Forsyth's influence."

77. The Governor General in Council observes that in this transaction with Benaresee Doss, Mr. Forsyth acted contrary to the rules which have been laid down for the guidance of Officers of the Government, and very unwisely and incautiously. But His Excellency in Council sees no ground for any reflection upon the uprightness of Mr. Forsyth's conduct. Mr. Forsyth had fair reason to believe that the Merchant's motive for selling the Note was not an improper one; and the Merchant, if his motive was in any degree improper, certainly did not benefit thereby. Moreover Mr. Forsyth, on another occasion, promptly caused the Treasurer to be dismissed for offering to sell to him a Government Note for less than its real value.

This however does not relieve the Governor General in Council from the necessity of strongly reproving Mr. Forsyth for his want of circumspection in the transaction with Benaresee Doss. It is a transaction which shows strikingly how incumbent it is upon all Officers, however conscious they may be, of the integrity of their own proceedings, to keep well within the rule which prohibits them from engaging in money dealings with persons who are not wholly independent of and beyond their official authority.

78. Besides those whose purchases have now been noticed, the only Officers, Civil or Military, who had been concerned at Lucknow in dealings for Government Securities from the time of the re-capture of the City to the 1st of January 1860, are the following:—

Mr. P. Carnegie, Deputy Commissioner.
„ E. Bickers, Assistant Commissioner.
Lieutenant Hutchinson, Military Secretary with Chief Commissioner.
Dr. Douglas, Civil Surgeon.
Mr. E. Clarke, Assistant Commissioner.
Major Hall.
Captain Anderson.
„ Thurburn.
Major Mauleverer.
Brigadier Barker.
Major Dickens, Officer of Commissariat.

It has been ascertained that in the case of every one of the Officers here named, the purchases were made at the fair market rates, and were perfectly voluntary on the part of the vendors, who have received the full purchase money. All the names are mentioned in order that the Governor General in Council may not, by omitting any, leave ground for a suspicion that in any case there is reason for concealment.

79. In conclusion, the Governor General in Council has to observe that he is well aware that many Officers of Government are in the habit of investing their saving in Government Securities purchased in the public market; and His Excellency in Council would not have it supposed that he has any intention or desire to interfere in any way with such transactions when they are open and above board. Cases may indeed occur, especially in times of political or financial crisis, in which an Officer may find himself so situated, that it will behove him to abstain from any such transaction, though in itself perfectly pure and open, rather than expose his own good name and that of the Indian Service to even an unjust and temporary suspicion; and in all such cases the Governor General in Council confidently relies on the judgment and right feeling of the Gentlemen of the Indian Services to choose the better and safer course. But there is at all times the broadest and plainest distinction between such transactions, conducted openly and above board in the public market, and dealings by Government Officers with persons who are or who can be supposed to be in any way under their influence or authority. Such dealings, no matter what the terms of them may be, are prohibited by orders which apply equally to all Servants of the Government, high or low; and those who engage in them, whether to their gain or to their loss, will, upon a knowledge of the fact reaching the Governor General in Council, be visited with public reprobation and punishment.

By Order of His Excellency the Governor General in Council,

H. M. Durand, *Colonel*,
Offg. Secy. to the Govt. of India.

No. 970 of 1861.—Conductor William Orr, Second Class Barrack Master of Raneegunge and Chinsurah, having much distinguished himself during the past disturbances, especially at Indore, on the 1st July 1857, having been recommended by his then Commanding Officer, and being considered by His Excellency the Commander-in-Chief to be eminently deserving of reward, the Right Hon'ble the Governor General in Council, concurring in that opinion, is pleased to confer upon him the rank of Ensign, unattached, subject to the approval of the Right Hon'ble the Secretary of State for India.

No. 971 *of* 1861.—In modification of the Government General Order No. 1350 of 1859, His Excellency the Governor General in Council is pleased to resolve that advances shall no longer be made on account of the Clothing expenses of Her Majesty's British Regiments in India, but that such expenses shall in future be paid after audit by the Superintendent of Army Clothing on Bills to be presented by Commanding Officers of Regiments and Batteries respectively.

2. The ordinary charges entered in the Contingent Clothing Accounts of British Regiments are—

1. Compensation in lieu of Clothing.
2. Cost of making up Clothing.
3. Cost of altering Clothing.
4. Repair of Cloaks and Great Coats.
5. Transport Charges.

3. All claims for compensation in lieu of Clothing shall be drawn on their becoming due on Bills accompanied by Nominal Rolls, and after audit by the Superintendent of Army Clothing, shall be paid by the Clothing Agent at Fort William.

4. When a Regiment is desirous of preparing its own Clothing, an Indent for the requisite materials, and a Bill for the tailoring charges, calculated according to the rates prescribed in the Regulations for the several garments, shall be submitted to the Superintendent of Army Clothing, who, after audit, will transmit them to the Clothing Agent with instructions to provide the materials indented for, and to pay the Bill.

5. The *bond fide* expenses of altering Clothing, repairing Cloaks, and Great Coats, transport and the like, shall also be drawn on Bills by Commanding Officers, vouched and attested in the usual manner, the Bills being paid by the Clothing Agent after audit by the Superintendent.

6. The expenditure being thus provided for, there will be no further necessity for retaining in Regiments the sale proceeds of condemned or non-effective Clothing and recoveries on account of over issues. All sums thus received shall be paid by Commanding Officers into the Treasury of the Divisional Pay-Master, whose receipts shall be forwarded in duplicate to the Superintendent of Army Clothing.

7. The Annual Contingent Clothing Account and the Nominal Clothing Return prescribed by the Royal Clothing Regulations, shall continue to be forwarded to the Superintendent of Army Clothing by every Battery of Artillery and every Corps of Cavalry and Infantry of Her Majesty's British Service on the Bengal Establishment.

8. When a Regiment is supplied with material for making its own Clothing, a return of the material expended, of the garments made up, and the cost of making, shall accompany the Contingent Clothing Account and Nominal Roll.

No. 206, *dated 9th October* 1861.—Confirming the Regimental Orders by Lieutenant Pedler, Second in Command, 2nd Infantry, Hyderabad Contingent, and Officiating Commandant, dated 4th September 1861, assuming Command of the Regiment from the 1st idem, consequent on the resignation of Captain Speid, Commandant, 2nd Infantry, Hyderabad Contingent, of his appointment in the Hyderabad Contingent; and directing Lieutenant Smith, Adjutant, 2nd Infantry, Hyderabad Contingent, to officiate as Second in Command, in addition to his duties as Adjutant, until further orders.

No. 977 *of* 1861.—Lieutenant and Brevet Captain Courtenay Gibbs Thorp, of the late 69th Regiment Native Infantry, is permitted to resign the Service, with effect from the 15th instant.

No. 978 *of* 1861.—With reference to Government General Order No. 523 of the 18th May 1860, the following Royal Warrant is published for general information and guidance:—

Circular No. 702.

VICTORIA, R.

WHEREAS We judged it expedient, by Our Royal Warrant of the 1st March 1860, to allow well-conducted Soldiers to receive Good-Conduct Pay after three years' service, instead of after five years' service, as laid down in Our Royal Warrant of the first July 1858: Our will and pleasure now is, that any Soldier who may be awarded such Good-Conduct Pay under the provisions of Our said Warrant of the 1st March 1860, and who may be permitted to obtain his discharge from Our Army before the completion of his service, shall not be allowed to do so upon more advantageous terms, in consequence of being in receipt of such Good-Conduct Pay, than those

granted under the provisions of Our previous Warrant of the 1st July 1818.

Given at Our Court at St. James', this thirtieth day of July 1861, in the twenty-fifth year of Our reign.

By Her Majesty's Command,
G. C. Lewis.

No 979 *of* 1861.—His Excellency the Governor General in Council is pleased to direct that all Muster Rolls, Accounts, and other Papers connected with the audit and examination of accounts which, under the system heretofore obtaining, were forwarded to the Military Auditor-General, and which under the new system continue, more or less, to be transmitted erroneously to the Controller of Military Finance, shall in future be forwarded to the Examiners of the several Pay Ranges or Departments.

This Order is applicable to the three Presidencies.

The Controllers of Military Finance will furnish to the Adjutants-General of their respective Presidencies, for publication in the General Orders of the Commander-in-Chief, the names and ranges of the several Pay Examiners to whom Muster Rolls or other Documents connected with account are to be forwarded by the Commanding Officers, and Military and Medical Authorities within those ranges.

No. 980 *of* 1861.—The admission of Captain W. C. Hamilton, of the 2nd European Bengal Fusiliers, to the Bengal Staff Corps, announced in Government General Order No 735 of the 20th August 1861, is cancelled.

No 981 *of* 1861.—His Excellency the Governor General in Council is pleased to direct the publication, for general information, of the following Letter from the Horse Guards, addressed to His Excellency the Commander-in-Chief in India:—

China Medals,
Military Secretary,
17-8-61.

Horse Guards, S. W,
27*th August* 1861.

Sir,—With reference to the letter from this Department, dated 19th February last, I am now directed by the General Commanding-in-Chief to intimate to you, that His Royal Highness has, in concurrence with the Secretary of State for War, determined that, in addition to those Officers and men who were engaged against the enemy in China in 1857 terminating in the capture of Canton, all those who were actually engaged in the subsequent operations in 1858 and 1859 shall also receive the "China Medal," minus the Clasp for the above capture.

I have to request therefore that the Nominal Returns of claimants may be prepared accordingly.

I am to add, for your further information, that the General Officer Commanding the Forces in China having made enquiry as to what services constitute a claim to the Medal and several Clasps for the Campaign of 1860, has been furnished with the following instructions:—

"That these Officers, Non-Commissioned Officers, and men only, who landed at the Peiho before the 24th October 1860, shall receive a Medal for services in the late operations in China; and that the Medal shall not be conferred on those who formed the Garrisons of Chusan, Shanghai, and Canton.

"That the Clasp for Taku Forts shall be given to those Officers and men only who were present in Camp on the 21st August 1860; and that the Clasp for Pekin shall be granted to those only who were present before that City on the 13th October 1860, the day on which it was surrendered.

"The same principle will apply to the Clasp for Canton 1857."

I have, &c.,
(Sd) J. Y. Scarlett,
A. G.

The Commander-in-Chief,
East Indies, Bengal.

With reference to the foregoing, the Governments of Fort St. George and Bombay and His Excellency the Commander-in-Chief in India are requested to issue the necessary orders for the preparation of Nominal Returns of the claimants in accordance with the decision now announced.

No. 982 *of* 1861.—Brigadier-General F. Wheler is appointed permanently to the Divisional Staff in succession to Major-General Bradford, C. B., who vacates the Command, having proceeded to England on leave, on Medical Certificate, for fifteen months.

The appointment of Colonel A. Tucker, C. B, in Government General Order No. 921 of the 11th August, to be a Brigadier on the Establishment, is cancelled at the request of that Officer.

With reference to the Notification in the Foreign Department, No. 25 of this date, Colonel J. Travers, of the late 2nd Regiment Native Infantry, is appointed a Brigadier on the Establishment, in succession to Brigadier Wheler, appointed to the Command of a Division.

Financial Department.

Estimates of the Military Expenditure of all India.

From the Military Finance Department, to the Secretary to Government of India, Financial Department,—(No. 225A. dated the 5th April 1861.)

SIR,—WE have the honor to submit two Abstract Statements of the estimated Military Expenditure of the Madras Presidency for the official year 1861-62, as also printed copy of the Madras Military Estimate of expenditure for that year, as prepared by the Controller of Military Finance, and submitted by him to the Madras Government, under date the 11th January 1861, together with copy of the Controller's Report which accompanied the same; but we have here to remark, that the order of Government in paragraph 6 of the Resolution of the 6th July 1860, prescribing that the Military portion of the Estimates of the Presidencies of Madras and Bombay should be forwarded to the Military Finance Department, with the remarks of the Local Governments thereon, has not been observed, if the Madras Budget has been received in the Financial Department.

2. The Abstract Statement No. I. exhibits, in accordance with the terms of paragraph 7 of the Resolution of the 6th July 1860, the numerical strength of the Forces composing the Madras Army according to authorized Establishment; likewise in a second Table, the disposition or location of the effective strength of that Army, and further, the cost of the maintenance of the same during the year 1861-62, in pay and allowances, material, supplies, conservancy, building accommodation, and miscellaneous contingencies.

3. The established strength of the Madras Army consists of 19,754 Europeans and 48,176 Natives of all grades, Commissioned, Non-Commissioned, Rank and File; and the total probable cash expenditure on account thereof during 1861-62 will be, for pay and allowances, material, supplies, and contingencies (all of which heads require the *local* disbursement of cash), Rupees 3,18,60,134; but if the value of Stores to be obtained from England, *viz.*, Rupees 1,88,130, be added, the Military Expenditure will amount to Rupees 3,20,48,264. The amount admitted by us for Public Works, in addition to the above is Rupees 4,20,284, which being added to the *local* disbursements of cash will raise the amount of the Estimate to Rupees 3,22,80,418; but if added to the estimated expenditure, *inclusive* of the value of Stores to be received from England, the Estimate will be augmented to Rupees 3,24,68,548. All these varying results will be found fully represented in Abstract Statement No. I.

4. Abstract Statement No II. represents, in a condensed form, the Estimate of cash disbursements submitted by the Controller of Military Finance, Madras, with the alterations and modifications which have been therein made, either on the written suggestions of the Controller himself, or after careful personal conferences with him since his arrival at Calcutta, and which conferences, we beg to state, have greatly facilitated the laborious duty of investigation into the numerous details of the Madras Military Estimate, notwithstanding that the Estimate itself is most perspicuously arranged, and affords evidence of having been drawn up with much care and an intelligent cognizance of the purposes it was required to answer.

5. Having been favored by the Accountant-General, Madras, with a printed copy of the Military portion of the Budget of the Madras Presidency for 1861-62, with letter No. 1191, dated 20th February 1861, with copy of which, as of the Estimate to which it gave cover, you have no doubt been furnished; and as this Estimate of the Accountant-General purports to comprise all the charges included in the Estimate prepared by the Controller, and to supplement the same by other charges to be incurred during

the year, which were not exhibited in the Controller's Estimate, it appears advisable to remark, *firstly*, on the points of difference between the Accountant-General's and Controller's Estimates; *secondly*, to indicate what portion of the supplementary charges added by the Accountant-General have been admitted as debits against the Military Department; *thirdly*, to explain the alterations and modifications which have been made in the several heads of charges in the Controller's Estimate, as comprised in the Estimate of the Accountant-General; and *finally*, to summarize the Military Expenditure and Military Receipts of the Madras Presidency, so as to shew clearly the net cash requirements from the revenues for the Military Expenditure of that Presidency.

6. The amount of cash disbursements as per Controller's Estimate, including the pay of Troops returned from China, under Titles I. and II., as embodied in the Accountant-General's Estimate, is Rupees 3,54,52,690.

The reductions and additions made by the Accountant-General in the Estimate, the former having been made in communication with the Controller, are as below:—

REDUCTIONS.

1. Pay and Allowances of Troops stationed at Labuan debitable to the Crown ...	Rs.	46,000
2. Supplies to be taken from Reserve Stock ...	„	16,19,270
3. Ditto to other Governments and Civil Departments ...	„	2,19,770
		18,85,040
Difference	Rs.	3,35,67,650

ADDITIONS.

1. Value of Military and Ordnance Stores to be received from England. ...	Rs.	3,22,800
2 Medical and Veterinary Stores ditto ...	„	1,06,200
3. Clothing Stores ditto ...	„	2,00,000
4. Commissariat Stores ditto	„	1,00,000
5. Pensions to Uncovenanted Servants of Military Public Offices ...	„	45,100
6. Proportion of Postage for Military Department ...	„	1,30,000
7. Lost on Hyderabad Rupees	„	31,000
8 Military Accountant's Establishment	„	19,600
		9,54,700
	Rs.	3,45,22,350

7. Of the items of reduction, it will be seen, on reference to Abstract Statement No. II., that we have admitted Rupees 46,000 on account of the pay of the Troops in Labuan; Rupees 15,50,715 on account of the value of articles to be taken from Reserve Stock, the difference between this sum and the amount deducted by the Accountant-General under the same head being Rupees 68,555; and the reason for such difference is, that, when the supplies in question were valued as demanding cash, they were set down at the amount deducted by us; but when it was decided to take them from Reserve Stock, their Stock value amounted to the larger sum, *viz.*, Rupees 16,19,270. It is obvious, however, that only the amount inserted in the Estimate as cash disbursements for these supplies should be deducted, and we have accordingly done so.

8. The third item of reduction made by the Accountant-General is Rupees 2,19,770 on account of supplies to be made to other Governments and Civil Departments. Of this sum Rupees 69,420 is on account of other Governments, and Rupees 1,50,350 on account of Civil Departments. If the sole object be to separate and distinguish charges, Military from Civil charges, then Rupees 1,50,350 should be deducted, as also a further sum of Rupees 1,20,158 for Stores from Reserve Stock to be supplied by the Ordnance to Civil Departments; but not Rupees 69,420, the amount to be incurred on account of other Governments, which may be for the Military expenditure of those other Governments. There are, however, objections to any unconditional deduction of charges of the above nature.

9. Because, in the first place in the case of supplies to the Civil Departments, the Military Department must be furnished with the means of making the supplies; and on a widely recognized principle, the Department making the supply must estimate for it. There is but one condition by which the Military Estimate can be relieved of the abovementioned charge to be incurred on account of Civil Departments, and that is by transferring it from the Military to the Civil Budget, in making up the Imperial Budget; and in such case the Military Authorities must be supplied with the funds by the Civil Authorities when the former are called upon to make the supply.

10. As regards supplies to other Governments, there will be debits of the like nature in the Estimates of those Governments against the Madras Government, and it appears expedient to adhere to the principle above referred to, *viz.*, that the supplying Authorities be the estimating Authorities, however closely each Government and Department may eventually be debited in the general accounts with its actual expenditure when incurred. Further, to make any deduction, or transfer from one Presidency's Estimate to that of another on account of such charges, would be to cause confusion in the provision of funds. The charges, therefore, against the Bengal Presidency in the Madras Estimate, ought not to be transferred to the Bengal Estimate, nor *vice versa*; but the expenditure, when incurred, should be debited to the Presidency on whose account incurred. For the above reasons, we have not admitted the deduction of the sum of Rupees (69,420 + 1,50,350=) 2,19,770.

11. Of the additions made by the Accountant-General, Rupees 7,29,000 are on account of Stores to be obtained from England; but on reference to Abstract Statements I. and II. it will be perceived that the total value of Europe Stores to be received during 1861-62 is only Rupees 1,88,130 in the Ordnance and Medical Departments, none being required in the Clothing and Commissariat Departments. The addition admitted under this head, therefore, is Rupees 1,88,130 and not Rupees 7,29,000.

12. The additional charges for pensions to Uncovenanted Servants, *viz.*, Rupees 45,100, and for the Military Accountant's Establishment, *viz.*, Rupees 19,600, made by the Accountant-General have been admitted; but the proportion of postage on letters, *viz.*, Rupees 1,30,000, and the loss in issuing Hyderabad Rupees, *viz.*, Rupees 31,000, we have disallowed, as charges that cannot

properly be designated Military cash disbursements.

13. The total sum added by the Accountant-General is ... Rs. 9,54,700
The total of the additions admitted by us, is ... „ 2,52,830

Thus, the amount added by Accountant-General, but rejected by us, is ... Rs. 7,01,870

14. The Estimate of Military Expenditure amended by the Accountant-General, and further amended by us, is therefore as follows:—

Controller's Estimate	... Rs.	3,54,52,690
Admitted reductions	... „	15,96,715
	„	3,38,55,975
Admitted additions	... „	2,52,830
	Rs.	3,41,08,805

15. The sum of Rupees 3,41,08,805 thus deduced, it must be remembered, includes Rupees 1,88,130 as the value of Stores to be received from England, and consequently the net local cash disbursements will be less by that sum, or Rupees 3,39,20,675.

16. Taking this figure as the sum at which the Madras Estimate of Military Expenditure, involving local cash disbursements, thus stands in consequence of the above review, we proceed to particularize the modifications and alterations made therein, owing to subsequently altered circumstances, as fully detailed in Abstract Statement No. II.

17. Under Title I., Head, "Pay of Army and Establishments," the reductions from the above amount of Rupees 3,39,20,675 are—

First.—On account of reduced strength of Regiments in Pegu Division. The Controller of Military Finance made a reduction on this account, but not to the full extent; he has now, on personal communication with this Department, agreed to a further reduction, amounting to ... Rs. 87,072

Second.—Abolition of Office of Brigade Major, British Troops ... „ 5,236

Third.—Reductions in Ordnance Establishments, Pegu Division, which the Inspector-General of Ordnance has recommended subsequent to the date of the submission of his Estimate, and in consequence of the modified Military Force to be in future maintained in the Pegu Division ... „ 32,634

Fourth.—Reductions effected in the Commissariat Establishment subsequent to the submission of the Commissariat Estimate, and also reductions estimated to follow the revision of Commissariat Establishments ordered by the Government of Madras ... „ 48,532

Fifth.—Reductions in the Establishments of the Executive Commissariat Departments consequent on the modified Military Force to be in future maintained in Pegu ... „ 84,000

Sixth.—Freight of Stores from London, and from port to port, transferred from Title I. to Title II. Rs. 30,348

Seventh.—Freight and Boat-hire for Stationery Stores transferred from Title I. to Title II. ... „ 1,035

Eighth.—Reductions from the estimated charges on account of Cavalry, Infantry, and Departmental Supernumeraries, who have been absorbed since the date of the Estimate ... „ 1,11,000

Reductions under Title I. ... Rs. 3,99,857

18. Under Title II., being the amount assigned for material supplies, the reductions are—

First.—The amount by which the Commissariat Department has overestimated the value of supplies to be furnished by that Department to the Ordnance Department, whose Estimate of its requirements is based upon rates furnished specially for the purpose by the Commissariat Department itself, *viz.*, ... Rs. 1,28,293

Second.—The full value of supplies to be made by the Commissariat to the Ordnance Department, and twice included, once under the head Ordnance Department, and again in the Commissariat Department, Estimate, *viz.*, ... „ 2,73,584

Third.—The amount over-estimated by the Commissariat Department on account of the Stationery Depôt, *viz.*, ... „ 20,714

Fourth.—A reduction in the estimated charges for victualling European Troops in Pegu, consequent on a favorable contract for the supply of Beef having been entered into, *viz.*, ... „ 13,706

Fifth.—The amount inserted in the Estimate of the Pegu Division for the supply of Board-ship provisions but for which, under existing circumstances, there is no necessity, *viz.*, ... „ 29,000

Sixth.—The sums included in the Estimate of the Executive Commissariat Officer at Rangoon for the purchase of grain at that Station for Theyet-Meyo, but likewise included in the Estimate of the latter Station, *viz.*, ... Rs. 52,798

Seventh.—The cost of rations of Europeans at Moulmein consequent on their withdrawal, *viz.*, ... „ 10,300

Eighth.—The estimated cost for conveyance of Troops and stores by the Executive Commissariat Officer at Tounghoo, but which will not be incurred under existing circumstances ... „ 29,000

Ninth.—The amount by which the charge for carriage and attendants in India has been reduced by the Commissary General since submitting his Estimate, *viz.* ... „ 40,559

Tenth.—A reduction in supplies to be made to the Barrack, Medical, and other Departments in the Pegu Division consequent on the reduction of the Military Force in that Division, *viz.*, ... Rs. 1,00,000

Eleventh.—The amount to be less incurred in the Pegu Division on account of the rationing of Europeans and Native Troops, diminution in carriage of stores and Cavalry supplies, *viz.*, ... „ 6,30,741

Twelfth.—The saving caused by the reduction of cattle for Military purposes hitherto maintained in the Quarter Master General's Department, and dispensed with under recent orders of the Madras Government consequent on the reduction of the Military Force in the Pegu Division, *viz.*, ... „ 2,40,992

Thirteenth.—The sum estimated for the purchase of grain at Cannanore, but which, in the opinion of the Controller of Military Finance, Madras, will be unnecessary, *viz.*, ... „ 1,29,600

Reductions under Title II. ... Rs. 17,05,288

19. The total reductions are—

Under Title I.	... „	3,99,857
Under Title II.	... „	17,05,282
Total	... Rs.	21,05,145

The additions are—

20. Under Title I., the salary of of the Superintendent, Buff Department, Hoonsoor Tannery. ... Rs. 2,500

Under Title II.

First.—On account of furniture supplies to the Barrack Department ... „ 3,366

Second.—On account of additional Executive Establishments in some of the Commissariat Ranges, *viz.*, ... „ 7,340

Third.—For freight for stores from London transferred from Title I. to Title II. ... „ 30,348

Fourth.—For freight for stationery stores transferred in like manner, *viz.*, ... „ 1,035

21. Total additions are—

Under Title I.	... Rs.	2,500
Under Title II.	... „	42,089
	Rs.	44,589

22. The total of the above specified reductions and additions being respectively ... Rs. 21,05,145

And ... „ 44,589

And applying them to the amount given in paragraphs 15 and 17 of his letter, *viz.*, ... „ 3,39,20,675

The result is as below :—

Residue as per Accountant-General's Estimate, exclusive of stores from England	... „	3,39,20,675
Deductions	... „	21,05,145
	Rs.	3,18,15,530
Additions	... „	44,589
Total amount of Cash requirements estimated	... Rs.	3,18,60,119

23. Further, by adding the value of stores to be obtained from Europe, as specified in paragraphs 11 and 17, the total amount of Cash disbursements will be Rupees 3,20,48,249, as already stated above in paragraph 3.

24. The Madras Accountant-General has also included the expenditure on account of Military Public Works in his Estimate, and has represented it at Rupees 10,75,550, including the proportion of Establishments and Contingencies; but in the Estimate of the Public Works Department forwarded to us by the Inspector-General, Public Works Accounts, the amount of expenditure assigned to Military Public Works in the Madras Presidency, inclusive of proportion of Establishments, &c., was Rupees 8,98,908; and on reference to Abstract Statements I. and II., it will be seen that the charges against the Madras Presidency on account of Military Public Works have been reduced by us to Rupees 4,20,284, inclusive of proportion of Establishments, the works on which the reductions are proposed to be effected being indicated in paragraphs 13 and 14 of our Report to the Government of India, dated 20th March 1861, No. 177A; and we need only add that we do not anticipate any inconvenience to the public service from the reductions we have proposed in this Department, although, after a personal conference with Colonel Yule, we are prepared to make some concessions which may tend to increase the expenditure, as approved by us, to the extent of two lakhs.

25. The value of Stores to be expended from Reserve Stock, including the large reduction on this account, from the cash requirements of the Commissariat Department, it will be seen, amounts to Rupees 27,18,738. Doubtless, the small figure at which the value of stores to be obtained from England has been set down, *viz.*, Rupees 1,88,130, will attract attention when compared with the large proportion of the estimated consumption of Reserve Stock, especially as supplies from England are regarded in the light of replenishments of anual expenditure therefrom, having always been looked upon as the measure of the annual expenditure of Reserve Stock; and hence have been invariably treated as an element of the expenditure proper of the year. The discrepancy, however, is to be accounted for by the fact of an

excessive Stock of Europe supplies being now in reserve, owing to very large demands having been made during the period of the Mutiny, and complied with even after the necessity for them had ceased. This discrepancy will appear gradually less in future years as the redundant stock is worked off; and in the course of two or three years the demands on England for stores will probably approximate to the real average annual consumption of such stores.

26. It is only necessary now to summarize the charges requiring the local disbursement of cash as modified. They are as follows:—

A.	Regimental Pay and Allowances ...	Rs.	1,73,66,141
B.	Pay of General Army Staff ...	„	9,53,309
C.	Staff Establishments ...	„	2,62,640
D.	Garrison and Cantonment Staff ...	„	2,55,265
E., F., & G.	Pay of Unattached (unposted) Local Officers ...	„	3,1[illegible],316
H. & I.	Pay of Non-effective (Pensioners, &c.) Establishments ...	„	29,65,164
J.	Pay of Supernumeraries of reduced Regiments, &c. ...	„	3,94,419
K., L., M., N., O., & T.	Pay of Civil Staff and Establishments	„	18,47,627
P.	Pay of Medical Department ...	„	17,40,046
Q. & R.	Miscellaneous charges ...	„	8,05,399
S.	Pay of Roman Catholic Priests ...	„	56,092
U.	*Commissariat Department.*		
1.	Supplies to other Presidencies ...	„	69,420
2.	„ to Military Departments ...	„	8,20,914
3 & 4.	Carriage and Freight ...	„	2,43,923
5.	Rations, Forage, Bedding, Barrack Supplies, and Carriage of Stores ...	„	25,68,0[illegible]8
6.	Public Cattle Establishments, Barrack Conservancy, Furniture, &c. ...	„	4,13,591
7.	Supplies to Civil Departments ...	„	1,50,651
V.	*Ordnance Department.*		
1.	Horse Equipments and Contingencies	„	1,78,284
X.	Clothing Department ...	„	1,59,820
Y.	Stationery Depôt ...	„	2,375
Z.	Remount Depôt Expenses ...	„	2,80,000
	Total Rupees ...		3,18,60,134

27. By the above Estimate the average for victualling and Hospital supplies allowed to the European Force is Rupees 94 per man per annum, or nearly Rupees 8 per month, inclusive of the Tea and other supplies to be drawn from Reserve Stock, but Beer, Arrack, and Bedding excluded.

28. The receipts or Cash Recoveries in the Military Department are estimated to amount to Rupees 13,78,900, and may be specified as below:—

Sale proceeds of Provisions and Commissariat Stores	Rs.	10,50,000
Stoppages for Soldiers	„	44,000
Sale proceeds of Military and other Stores	„	1,01,100
Sale proceeds of Horses	„	1,00,000
Retrenchments, &c.	Rs.	58,500
Miscellaneous Receipts	„	25,300
Total Rupees		13,78,900

29. The net local cash disbursements, therefore, on the revenues of India for the Military Expenditure of the Madras Presidency, will be, after allowing the appropriation of the Military Receipts, Rupees 3,04,81,234 for twelve months, that is, from 1st May 1861 to 30th April 1862, or Rupees 25,40,103 per month; or treating the Military Receipts as a part of the common revenue, the average monthly cash disbursements will be Rupees 26,55,011, or Rupees 3,18,60,134 per annum.

30. We have also to note that the amount payable in Europe and debitable to India on account of the Pay and Allowances of Officers in Europe is, as exhibited in the Estimate of the Controller, Military Finance, Madras, Rupees 13,63,597.

31. We have now to offer a few remarks.—In paragraphs 53 and 57 of our Report on the Madras Presidency, No. 5, dated 30th April 1860, we observed, on reviewing the Commissariat Expenditure from 1854-55 to 1858-59, that we were sure the expenditure of the Madras Commissariat could, with economy, be reduced to forty-five lakhs per annum if the means of controlling the demands made on the Commissariat by other Departments and Branches of the Service were instituted, and that it would be necessary for some check to be placed on these demands The Madras Commissariat Estimate of Cash Disbursements for 1861-62 has, according to the revised Estimate, been reduced to Rupees forty-three lakhs, and by strictly enforcing the terms of the Resolution of the Government of India, dated 28th January 1861, relative to the responsibility of Officers for the extent of their demands on the Commissariat, we have no doubt that the actual result of the year's operations will not exceed the abovementioned limit, unless something unusual and now unforeseen should arise.

32. Further, in our Report No. 2483, dated 15th September 1860, on the Estimate of the Madras Presidency for the year 1860-61, we stated that we were fully sensible of the grave responsibility which we incurred by proposing large reductions, but that we were convinced that, unless such a scale of expenditure as would ensure economy were fixed and imposed as an absolute limitation after the English fashion, no really appreciable reduction of Military Expenditure could be effected. We therein ventured to remark that, from the commencement of the official year 1861-62, the scale of 330 lakhs per annum should not be exceeded, and that scale we recommended for adoption as the standard for Madras. We even went so far in our subsequent letter, dated 28th January 1861 (No. 34A.), as to limit the cash requirements of the Madras Presidency to Rupees 300 lakhs, if the Government would yield to our recommendations respecting the reduction and constitution of the European Force at that Presidency. The Estimate of cash requirements we now submit is for 318¼ lakhs, but we have full confidence that the actual expenditure may be eventually brought within the margin of the

smaller sum, *viz.*, Rupees 300 lakhs, by the continued practice of economy, and the further reductions and modifications shewn to be feasible, as already reported by us in our letters *marginally noted*. It will be remembered that these letters urge a further reduction of European Troops, Infantry and Cavalry, and of Royal Artillery; also, that a further portion of the duty of the Nagpore Territory and of the Jaulna and Aurungabad Stations be taken by Madras Troops, thereby affording further relief to the Finances. If the Government shall be pleased to sanction all these measures, then we can have no doubt that the Madras Military Expenditure will revert to what we regard as its normal amount, *viz.*, 300 lakhs.

No. 2483, dated 15th September 1860.
„ 34A., „ 28th January 1861.

33. We cannot close this letter without recording our deep sense of the exertions made by Lieutenant-Colonel McGoun, the Controller of Military Finance, Madras, in compiling the Estimate of that Presidency, which was the earliest prepared, having been submitted to the Government of Madras on the 11th January 1861; and these exertions have in no way been remitted since, as the many communications addressed to the Madras Government by Lieutenant-Colonel McGoun relative to the particulars of the Estimate fully testify.

34. The very large reduction of Rupees 15,50,715 in the Estimate of the Cash Disbursements of the Commissariat Department by insisting on the immense supplies of Reserve Stock being appropriated, is mainly attributable to this Officer's close examination of the Departmental Estimates, and his energetic supervision over the Commissariat operations.

35. Lieutenant-Colonel McGoun's suggestions and recommendations, made in the papers above referred to, will probably be brought in due course by the Madras Government to the notice of the Government of India; but there are some points of more prominent interest, consequent on the expense they involve, which we deem it our duty briefly to advert to.

36. The *first* is, that all connection between the Commissariat and the Abkarry should be at once severed, and the Officers of the Commissariat Department confined to their legitimate duty. At present the provision of Arrack by the Commissariat to the Abkarry is annually to the extent of 80,000 gallons, at Rupees 1-8 per gallon, which is retailed by the Collector at the rate of Rupees 3-7 to the Arrack Contracts; but the money realized by the sale of the Arrack is paid into the Civil Treasury. The transaction is altogether foreign to the duties of the Commissariat, and we would strongly urge its relief therefrom.

37. *Second*, that the supply of Ration, Arrack, and Beer, to none other than Military classes should be strictly enforced, and that only within the limit allowed by Regulation, the supplies laid in by the Commissariat being restricted to this quantity, with a moderate percentage for wastage. At present this indulgence, provided in the case of Beer at a heavy expenditure to the State, is abused, and to such an extent, that the Controller at Madras is able to adduce as an instance that the value of the Beer supplied for the use of the European Troops at one Station in one year in the Madras Presidency exceeded the whole amount of the pay of those Troops for that year. Lieutenant-Colonel McGoun suggests, and we approve thereof, that tenders be invited for the direct delivery of Beer at the several Stations of the Army, a measure which would be fraught with many advantages to Government in an economical point of view, besides curtailing the duties of the Commissariat Department, and leaving its Officers more opportunities to attend to their many other Executive duties.

38. *Third*, the Controller strongly advises that an average valuation should be given to Commissariat Stock. He very properly observes, that as it is one of the great objects of Annual Budgets to ascertain the probable requirements for the year, in order that specific sums may be appropriated for specific services, that this is as necessary in the case of a stock appropriation, as in the case of a money grant, and it is consequently essential to have a correct valuation account of stock in hand. These remarks we commend to consideration, as well as his suggestion, that all private or retail sales of Commissariat Stock to private individuals should be prohibited.

39. The economical scale at which the Military Expenditure of the Madras Presidency has arrived is mainly attributable to the effective measures taken by the Government of Madras during the administration of Sir C. Trevelyan and of the Hon'ble Mr. Morehead, and to the co-operation of the various Heads of Departments, some of whom have acted so as to have merited the fullest confidence of the Government of Madras. This result, however, does not represent the whole extent to which the Madras Presidency may be made influential in curtailing the general Military Expenditure of India. By the relief of the Madras Troops from Pegu and China there has become available a larger Force than is necessary for the occupation of the territories of the Madras Presidency Proper; and this Force may be applied in relieving the Nagpoor and Hyderabad Contingents, so that the extra Regiments raised in Bombay during the Mutiny may all, consequently, be broken up or reduced. The Stations of Dharwar, Sholapoor, Belgaum, and Kolapoor, may be well occupied by the Madras Troops, by whose aid they were, in a great measure, originally conquered.

40. With our Memorandum No. 222A., dated 5th April 1861, we submitted a few preliminary remarks on the Bombay Estimate; but when finally reviewing that Estimate, as also the Estimate of the Bengal Presidency, we shall submit a Comparative Statement of the expenditure under the several recognized heads of charge at the three Presidencies, as also an Abstract Estimate for all India, aggregating the charges under similar heads at the three Presidencies, agreeably to the terms of paragraph 7 of the Resolution of 6th July 1860; but we trust that the measures we herein suggest, and have previously suggested, will be promptly responded to by the Government of India, so as to cause the expenditure of all India to approximate at an early date to a limit of twelve millions sterling per annum.

41. On the whole, after reviewing the Madras Estimate, we have every reason to renew the concluding remark of our letter No. 34A., dated 28th January 1861, *viz.*:—"After a careful consideration "of the Estimates of the Madras Government, and "a close observation of the acts of the Govern- "ment of Madras and of its Administrative Offi- "cers, we are now bound to state, that, as com- "pared with other parts of India, the require- "ments of the Government of India as to economy "have been fully met." The ordered reductions are now nearly completed; the required diminution in expenditure is in train for being fully and early effected. Under these circumstances, the Government of India may now confidently rely on the Government of Madras continuing to exercise that degree of efficient control over the Military Expenditure of that Presidency, which has already been so well performed, as to ensure the commencement of reductions that have brought the Madras Military Expenditure to the scale at which it stood in years preceding the Mutiny, with a now nearly doubled European Force; a result worthy of close imitation by the Governments of Bengal and Bombay.

P. S.— In continuation of this Report we beg to forward a Comparative Statement of the estimated Military Expenditure of the Madras Presidency for 1861-62 and 1860-61; the Statement has been so arranged as to place as nearly as practicable similar heads of charge in juxtaposition, and the foot-notes will explain any apparent inconsistencies in the estimated charges of 1861-62 affecting Pay and Allowances.

From the Military Finance Department, to the Secretary to the Government of India, Financial Department,—(No. 974A., dated 8th October 1861)

SIR,—I HAVE the honor to acknowledge the receipt of your letter No. 11563, dated 24th September 1861, annexing extract from a Despatch from the Secretary of State for India No. 122, dated 2nd August 1861, and requesting to be furnished, with as little delay as possible, with the revised detailed Estimates of Military charges for the whole of India for the year 1861-62, and a Report thereon.

2. In accordance with these instructions, I immediately forwarded the Estimates as revised by me for your information; and, having now completed my Report on the Estimates, I beg to forward herewith ten copies of the same, as also ten more printed copies of the revised Estimates of the Bengal and Bombay Presidencies, and of the consolidated Military Estimate of all India. The detailed revised Estimate of the Madras Presidency, shewing the intended appropriation of the funds required for the expenditure of that Division of the Empire, was furnished some months since with this Department's Report No. 225A., dated 5th April 1861, of which several copies have already been sent to Government.

3. These Estimates have been nearly in their present state for the last three months; but I have been devoting every hour I could spare to the far more important and urgent duty of controlling and keeping down Expenditure.

4. It will be remembered that the General Order announcing the re-organization of the Native Infantry only appeared on the 4th of May, and that for the Cavalry on the 31st May 1861; and as these Orders also affected the Madras and Bombay Armies, it was necessary to consult the Local Authorities before the financial effect of the important changes thereby introduced could be correctly estimated.

5. It should not, however, be supposed that, in delaying the submission of the revised Estimates, I entertained any apprehension as to the sum of Rupees 1,220 lakhs, accepted by the Government of India as sufficient to provide for the regular Military Expenditure in India in the year 1861-62, being inadequate to meet these requirements, provided the conditions, as expressed in Note K. appended to Mr. Laing's Financial Statement, dated 27th April 1861, were observed; nor as to the further sum of about sixty lakhs, specially granted for the payment of "gratuities, bounty, pay, and other expenses," during the short period that was expected to elapse before the completion of the reductions (whereby the Military Expenditure was raised to 1,280 lakhs), being insufficient to cover all these contingencies if the reductions on which the calculations were based had been fully carried out within the time then contemplated. The real ground of apprehension is, that, in the absence of precise data on which to calculate, the detailed appropriation shewn in the Estimates may not be sustained by the actual course of the expenditure, for this appropriation being regulated on the presumption above adverted to may, consequent on some of the anticipations being as yet unrealized, and from the operation of other causes, be partly vitiated, and the Estimates thereby rendered in some degree defective as a means of judging of the extent of certain classes or descriptions of expenditure, and as a guide for some of the purposes of appropriation audit.

6. I may state that I declined an offer made to me by the Hon'ble Mr. Laing on the evening before his Statement was laid before the Legislative Council, to allow a further margin of ten lakhs for the Military Expenditure of 1861-62—on the ground of two European Infantry Regiments that it was previously contemplated to send Home being detained here—in the expectation, now fully realised, of receiving the support of Government in enforcing all practicable economy.

7. It was in this spirit that, whilst declining the additional grant, I did not shrink from accepting the obligations declared by Mr. Laing to belong to this Department, *viz.*, "that the Military Finance Department, who are constituted as a permanent Department of the Supreme Government to see to the enforcement of all that relates to Estimates and Military Finance, give us the means, like those which the Treasury and War Office in England possess, of ensuring the observance of Estimates and the checking of Expenditure."

8. These obligations, I beg to assure Government, I shall do my utmost to fulfil; and whilst soliciting the forbearance of Government for any shortcomings that may unavoidably occur, I may mention that my confidence in the sufficiency of the aggregate amount has been further sustained by the fact of the estimated expenditure of the Hyderabad Contingent (as shewn in the margin), amounting to Rs.20,20,435, being included in the Military Estimate of India. This outlay is not a charge upon the Revenues of India, being paid out of the revenues of the Assigned Districts in Berar, instead of being paid and recovered by the Government of India, and accounted for separately to the Nizam; and the sum of twenty lakhs may therefore be held as a reserve credit to meet any excess.

9. I need not assure Government that, having bestowed much care in the classification and arrangement of these Estimates, it was with great reluctance I delayed their submission; but even at the risk of an imputation of remissness in the discharge of the proper duty of this Department, I thought it best, so long as I had the hope of securing better data, to defer laying before Government documents which I felt convinced were susceptible of improvement. In justice to myself, I must add, however, that I have never withheld from the Financial Authorities of the Government of India any information at my command. In May last I placed at the disposal of the Financial Secretary my intended appropriation of the aggregate sum (including Regular Estimate and Contingencies) of Rupees 1,280 lakhs; and in June I furnished that Officer with manuscript copies of the detailed Estimates of the Bengal and Bombay Presidencies, of which the printed copies I now send are nearly counterparts.

10. I may also mention that the Hon'ble Mr. Laing had before him, and under examination on several occasions, even prior to making his Financial Statement in the Legislative Council, the detailed Estimates of the three Presidencies, prepared in accordance with the instructions contained in the Budget Report of the Military Finance Commission (No. 7) dated 15th June 1860, in minute detail, and clearly arranged; and I much regret not having been able to print these important documents, so as to shew Government the success that has attended the efforts of the Controllers, and other Officers of the Military Finance Department in the three Presidencies, in carrying out the original instructions issued for their guidance.

11. Gratefully appreciating the cordial support accorded by the Government of India to all the measures of reduction proposed by me, I am reluctant to allude, even generally, to expectations not yet fully realized, and only refer to them in this Report in the hope that the detailed information thus given may be found useful in enabling Government to decide on further economical measures.

12. All the Estimates now submitted are for local cash requirements, and exhibit the following results under the two grand heads or titles into which they are divided :—

		Bengal.	Madras.	Bombay.	Total.
Title I.					
Charges Personal..	Rs.	5,53,22,043	2,09,73,018	1,91,73,939	10 14,77,900
Title II.					
Charges Material...	„	1,03,88,020	48,87,088	52,21,449	2,04,97,457
	Rs.	6,57,10,063	3,18,00,186	2,43,94,238	12,19,75,357

13. The total amounts here given for the three Presidencies, and for the whole of India, agree with those entered in the Hon'ble Mr. Laing's Financial Statement made before the Legislative Council on the 27th April 1861, shewing the aggregate outlay in India at about 1,220 lakhs; but as the Military reductions had not, up to that date, been effected, some of the orders to be issued for reducing expenditure having been only recently decided upon, the sum of sixty lakhs in addition was, as already stated, allowed as a margin to cover payments for gratuities, bounty, pay, and other expenses of the European Troops to be ordered Home, and the Native Troops to be disbanded, making a gross Military charge of 1,280 lakhs for the year 1861-62. The regular scale of Military Expenditure may, therefore, be stated at nearly 102 lakhs per mensem, with sixty lakhs for the extraordinary expenses of the year; and these figures are accordingly used in this Report.

14. The aggregate charge for the supply of material to the Army is, it will be seen, in the proportion of one-fifth of the Charges Personal (Pay of Army and Establishments); and a comparison of the relative proportions in the several Presidencies shews that, while the Charges Material in Bengal and Madras are less than one-fifth of the Charges Personal, in Bombay they are more than one-fourth. The aggregate cost of the Army Staff, General and Provincial, as will be seen by the enclosed Estimates, is in the proportion of one-twelfth of that of the whole Army of India; while the cost of the Medical Department is fully one-tenth, and that of Ordnance Supplies about one-eightieth.

15. The revised Estimates I now submit provide for an European Force as follows :—

EUROPEAN INFANTRY.

	Bengal.	Madras.	Bombay.	Total.
Regiments British Infantry	32	8	7	47
„ Indian „	3	3	3	9
Total Regiments Infantry	35	11	10	56

EUROPEAN CAVALRY.

	Bengal.	Madras.	Bombay.	Total.
Regiments British Cavalry	2	2	2	6
„ Indian „	3	0	0	3
Total Regiments Cavalry	5	2	2	9
Total Regiments Infantry and Cavalry ...	40	13	12	65

16. This was the number of Corps for India spoken of by Mr. Laing at page 7 of his Financial Statement as admitting of "no discussion," having been "distinctly ordered." The number of European Corps now in India (as shewn below) is nevertheless larger than the above, and the organization of the Force also involves a high rate of expenditure. Imperial considerations, over which the Government of India have no direct control, having determined the Military formation which thus effects the Indian charges.

EUROPEAN INFANTRY.

	Bengal.	Madras.	Bombay.	Total.
Regiments British Infantry	33	9	7	49
„ Indian „	3	3	3	9
Total Regiments Infantry	36	12	10	58

EUROPEAN CAVALRY.

	Bengal.	Madras.	Bombay.	Total.
Regiments British Cavalry	4	2	2	8
„ Indian „	3	0	0	3
Total Regiments Cavalry	7	2	2	11
Total Regiments Infantry and Cavalry ...	43	14	12	69

17. The above shews four European Infantry and Cavalry Regiments in India more than were calculated on.

18. It must also be stated that, although Government have fixed 106 Batteries of Artillery as the Force of that Arm for all India, there are, including the Royal Artillery, but exclusive of the Royal Horse Artillery, Officers sufficient for 131 Batteries; and it should be remembered also, that each Royal Artillery Battery serving in India has a strength in men far exceeding that of the Indian Artillery On the whole, therefore, the excess of Strength and Establishments that has now to be provided for above that estimated is about 5,000 men; or, when all the reinforcements now under orders shall have come out to India, nearly 9,000 men more than the strength sanctioned, according to the Regimental scale fixed by Her

Majesty's Government, under date the 23rd April 1861, which is as follows:—

	Europeans.	*Natives.*
Bengal ...	43,338	69,757
Madras ...	14,693	40,432
Bombay ...	13,090	26,180
Total ...	71,121	1,36,369

19. This standard is greatly below the effective strength as it stood during the past three months, and at present stands, and the fact of such excess existing, will be, and is already being used by Heads of Departments as a strong plea against holding them to the limits to which Departmental Expenditure has been restricted in these Estimates; indeed, this plea may be urged with much justice considering the number of European Recruits arriving from England, whereby the effective strength will shortly be raised to 78,000 or 80,000 men.

20. I need not say that I am sparing no efforts, by minute and close scrutiny into every item of expenditure, to enable the Government of India to realize the prospects held out at the commencement of the year by the Hon'ble Mr. Laing and the assurances given to the British Parliament by the Secretary of State for India in regard to reduction of expenditure; but Government will not fail to appreciate the serious practical difficulty presented by the fact of the condition of things under which stringent measures are now resorted to for attaining the desired end of keeping the Military Expenditure within the Estimate, being, owing to unforeseen circumstances over which Government have no control, somewhat different from that under which such prospects and assurances were held out.

21. Government will not be surprised, therefore to learn that the Commissary General, Calcutta, has objected to the revision of his Departmental Estimate, as made in the Memorandum submitted with my Report to Government No. 229A., dated 26th April 1861. The revised calculations for the rationing of Troops, under which head a saving of Rupees 27,77,273 was expected, have been questioned; and like objections raised in regard to the reductions indicated in the feed of horses, bullocks, camels, and elephants, on the ground of the actual strength in men and cattle being considerably in excess of the numbers inserted in the Estimate. As regards Establishments, those fixed by previous orders have been contrasted with those calculated for in the Estimate; and assurances of prospective reforms in the administration of the several departmental services, involving the expenditure of money by the Commissariat Department, with heavy responsibility for meeting all demands, have not been considered to weigh against the fact of the numbers to be provided for being greater than estimated for, or against the ascertained expenditure of preceding years, for a given number of Troops.

22. The same feeling, in a greater or less degree, pervades Departments at all the Presidencies, and although I feel it my duty to combat this impression, and am sensible how much it is to be regretted, I also feel that, being the natural consequence of the course of events for some years past, it cannot in reality be censured; and I can only trust therefore that the result of reforms now progressing will shortly afford the means of entirely removing it.

23. But this is not all that has to be contended against. The influence of measures adopted at Home, with respect to the administration of the Indian Army, is powerful in India; and the spirit by which measures are dictated in respect to keeping up the European Forces on the Indian Establishment has a great influence in this country.

24. My Reports as per margin, which are now, I believe, under the consideration of Government, contain suggestions for the adoption of measures of economy, by reducing the number of Troops maintained in India; shewing also, with respect to the rate of contribution recently fixed (by the Despatch of the Secretary of State for India No. 90 of 31st May 1861) to be paid by India to the Imperial Government, that it is only by economical management that the finances of India can meet the necessary Military Expenditure without embarrassment. I have also brought under notice, in my Report No. 683A., dated 22nd August 1861 (five copies of which are herewith sent), the extensive supplies of Stores, which, to a very large amount, have been sent out to India without requisitions of recent date; and I respectfully submit that unless the economy, the necessity of which is so strongly felt by the Authorities both in England and in India, be equally strictly observed at Home as here, the financial difficulties of India cannot be expected to decrease.

No. 650, dated 18th August 1861.
„ 801, „ 16th Sept. „

25. I now proceed to review the several Estimates as originally submitted as briefly as the subject will allow.

26. It will be observed that the enclosed Estimate of the Bengal Presidency, as prepared by the Controller of Military Finance, indicated a probable expenditure of Rupees 7,78,77,332 for the year, a scale that could not be entertained consistently with the hope of restoring the balance of Indian Finance, especially as it was deemed to all intents and purposes a thorough peace-scale. The Estimate when received was closely examined, but presented no prospect of reduction in the cost of pay and supplies to the Army, unless the numerical strength were at once revised.

27. The two items which formed the bulk of the expenditure in the Estimate, as thus submitted, are as below:—

Title I.	Charges Personal of Pay and Allowances of the Army and Army Establishments ...	Rs. 6,13,79,507
Title II.	Charges Material or supply to Standing Army and Establishments ...	„ 1,64,97,825
		Rs. 7,78,77,332;

but there were also one or two other features requiring notice in connection with recent events and the then existing strength of the Army.

28. The aggregate of the Pay and Allowances of the whole Native Army exceeded that of the whole European Army, the pay of the former

standing at Rupees 3,05,98,535, while that of the latter was Rupees 2,02,58,251. The relative cost of the European and Native Cavalry and Infantry Arms of the Service alone was as shewn below:—

	Cavalry.	*Infantry.*
European ...	Rs. 34,64,825	Rs. 1,28,33,136
Native ...	„ 97,95,800	„ 1,98,87,424

No. 29A., dated 8th May 1861. and these facts I laid before Government in my Report as per margin.

29. By the intended reductions eventually resolved on by Government, I was enabled to make the following modifications of charges, which I give in detail, as furnishing the key to the appropriation made in the Bengal Estimate:—

Native Infantry.

Native ranks of Native Infantry, as estimated for prior to May 1861 ...	Rs.	78,99,630*
Deduct.		
I. Portion of the above sum payable to Native ranks of the Regiments disbanded or transferred to Police ...	„	14,82,483
Residue of cost of Native ranks of Native Infantry under the former organization ...	„	64,17,147
II. Cost of seventy-two Regiments of Native Infantry under new organization, *viz.*, at 712 of all Native ranks ...	„	52,56,576
Net saving in Native ranks of Native Infantry ...	„	11,60,571
Add.		
I. Cost of Corps transferred to Police—		
(*a.*) Mhairwarrah Local Battalion ... Rs. 79,488		
(*b.*) Mair Local Battalion... „ 53,856		
(*c.*) Kamroop Regiment ... „ 1,14,623		
(*d.*) Bhaugulpore Hill Rangers ... „ 66,121		
(*e.*) Arracan Local Infantry „ 1,56,994	„	4,71,082
II. Cost of Regiments to be disbanded—		
(*a.*) Pegu Light Infantry... Rs. 1,55,106		
(*b.*) Three Irregular Regiments ... „ 3,62,019		
(*c.*) Nusseree Battalion ... „ 1,24,852		
(*d.*) Punjab Infantry ... „ 4,88,793		
(*e.*) Cawnpore and Moradabad Levies ... „ 2,04,534		
(*f.*) Kumaon Levy ... „ 1,10,543	„	14,45,847
Total Reductions in Native Infantry Arm of the Service ...	Rs.	30,77,500

* The sum of Rupees 78,99,630 represents the estimated cost of only the *Native* ranks of the Native Army as estimated for by the Controller. It is therefore necessary, in order to ascertain the cost under the old organization of the residue of the Native ranks retained, first to deduct the proportionate cost of the Native ranks only of the Regiments transferred to the Police and disbanded, and then, deducting from this the cost of the Native ranks of the Native Army according to the new organization, the net saving in Native ranks on the strength of Native Infantry retained is deduced. But in order to shew the aggregate saving on account of reductions in the Native Infantry as an entire body, including Officers, &c., Rupees 4,71,082 is first added to the net saving due to the new organization on account or Corps bodily transferred to the Police; and, next Rupees 14,45,847 on account of the Corps disbanded, including Native ranks, Staff Allowances, such as Command Allowance, Adjutant's Allowance, &c., and the cost of Non-combatant Establishments, the pay of European Officers alone excepted.

Native Cavalry.

30. In this Arm of the Service it was decided to disband one Regiment of Nagpore Irregular Cavalry, as also Meade's Horse and ten Regiments of Native Irregular Cavalry, and accordingly deductions as below were made from the entire cost of the Native Irregular Cavalry; given in the Controller's Estimate, at ... Rs. 56,46,837

Deduct.

I. One Regiment Nagpore Irregular Cavalry ...	Rs.	2,08,051
II. Meade's Horse ...	„	1,99,033
III. Four Regiments Bengal Irregular Cavalry ...	„	8,81,884
IV. One Regiment Seikh Cavalry ...	„	2,01,163
V. One Regiment Alexander's Horse ...	„	2,10,548
VI. Two Regiments Benares and one Regiment Mahrattah Horse ...	„	3,85,093
VII. One Regiment Scinde Pathan Cavalry ...	„	2,40,092
VIII. One Regiment Ramghur Cavalry ...	„	1,95,472
Thus shewing, for Native Cavalry disbanded, a saving of ...	Rs.	25,52,242.
and leaving the cost of Native Cavalry, if retained on the old organization, at ...	Rs.	30,94,595.

31. The real extent of saving effected is not quite so much as the above (Rupees 25,52,242), because the new organization given to the nineteen Regiments of Native Irregular Cavalry retained, and the increase of pay to the Silladars, makes the annual cost of these Regiments amount to Rupees35,52,924, instead of Rupees 30,94,595. The difference between these two latter sums (Rupees 4,58,329) must therefore be deducted from Rupees 25,52,242 (given above as the saving effected by the disbandment of the twelve Regiments), leaving a net saving of Rupees 20,93,913; or, in other words, the present pay of the nineteen Regiments of Cavalry retained having been increased by four and a half lakhs of Rupees per annum, the actual saving by the reduction of the twelve Regiments is only about Rupees 21,02,242.

32. In addition to these reductions in the Native Army it was proposed to make the following modifications in the strength of the European Army, admitting of saving as below:—

I. One British Cavalry Regiment (proposed to be sent Home as soon as the season would permit) ...	Rs.	4,05,415
II. Three British Cavalry Regiments proposed to be reduced to a standard strength of 500 Non-Commissioned Rank and File, which would have given a saving for each Regiment of Rs. 29,984 ..	„	89,952*
III. One Battery of Royal Artillery to be withdrawn ...	„	85,200
Total	Rs.	5,80,567

* This Estimate was framed before the Order of 23rd April 1861 was received, fixing the strength of Cavalry Regiments at a higher Establishment than 500 Non-Commissioned Rank and File.

The total saving by the reductions, thereto od as follows :—

ive Infantry	...	Rs. 30,77,500
„ Cavalry	...	„ 21,02,242
European Troops	...	„ 5,80,567
Total reductions in Army Pay and Allowances	...	Rs. 57,60,309

Since the Controller's Estimate was framed, however, the Battery of Royal Artillery in China has returned to India, and being a Field Battery, whilst the one provided for in the Estimate, which has since proceeded Home, was a Garrison Company, has caused an addition of Rupees 85,200 to the Estimate, thereby reducing the net saving in pay and allowances to Rupees 56,75,109, instead of Rupees 57,60,309.

34. The expenditure of the Commissariat Department may be said to be mainly governed by the extent of the European Force; and although, as will be seen by the foregoing detail, only a comparatively small proportion of the European Force was to be reduced, yet the fact of any reductions being decided on, and the further consideration that, in the present tranquil state of the country, the rates of articles and wages of certain followers that fluctuate according to circumstances ought to be low, led to a close scrutiny by this Department of the Bengal Commissariat Estimate. This document, owing probably to the novelty of the system, presented some anomalies, and was not prepared with that minute care which I deem essential to the exercise of control over the charges of this important branch of the Service; but the measures adopted by the Commissary General for the preparation of next year's Estimate, will, I fully expect, ensure accuracy.

35. The cost of rations and Hospital diet for the European portion of the Bengal Army was set down at Rupees 76,77,273, which appeared excessive. The data collected from the three Presidencies had led to the conclusion that the average cost of rationing a European Soldier in India is Rupees 100; and that of dieting a sick one, Rupees 180 per annum. Accordingly, these rates were applied to the strength assumed to be maintained during 1860-61, *viz.*, 45,000 men (40,000 in health, at Rupees 40,00,000; and 5,000 sick, at Rupees 9,00,000)); and on this calculation the cost of rations and diet was reduced to Rupees 49,00,000, shewing an excess of Rupees 27,77,273 in the Commissariat Estimate. I admit that the reduction thus made was large, and is not fully sustainable considering the number of Troops that are still kept up in excess of the proposed strength; but yet, looking to the restraints now daily put on Commissariat outlay, and the vigilant scrutiny to which Hospital expenditure is subjected, I feel confident that the above rates per man need not be exceeded.

36. I have now before me a Statement, submitted by the Examiner, Commissariat Accounts, under date the 3rd September 1861, which shews the average for victualling Europeans and dieting sick Europeans in Hospital to have been in the month of April of the four years indicated, as indicated in the margin. The year 1858 is omitted as having been altogether exceptional; but the expenditure of the other years gives an annual average of Rupees 119-5-0 for victualling, and Rupees 150 for dieting each man, well and sick respectively, these being rates which may be expected to fall still lower. The reduction made has therefore only to be qualified by the difference between the numerical strength assumed, and the actual strength; and taking this difference at 5,000 on the average of the whole year, with one-tenth sick (the proportion of sick not having yet exceeded one-twelfth), the sum of the Rupees 49,00,000 proposed by this Department will be increased by Rupees 5,44,400 (up to Rupees 54,44,400), thus still leaving a saving of Rupees 22,32,873 under this head. And the recent measures urged on the Commissary General, in respect to the Meat Contract held by one individual for supplying the Forces located in the various Stations extending from Benares to Peshawur, by which a considerable reduction in the rate has been made, will result in a further saving of two and a half lakhs.

37. In the Cattle Establishment reductions to the extent of Rupees 15,06,478 were proposed by this Department; but as regards this head, I am apprehensive that the amount of saving that will eventually accrue will be considerably less than was calculated on, although aware that an appreciable reduction has already been made.

38. The Cattle Establishments are at all times very expensive, being maintained even in time of peace on a scale adequate for the immediate prospect of hostilities, and without regard to the abundant resources of the country, which in the most trying times have been pronounced by Colonel Thompson, C. B., the Commissary General of this Presidency, and other Officers of experience, to be adequate to all emergencies.

39. The Transport Train Bullocks constitute the heaviest item of expense under this head, being estimated at Rupees 10,39,747. I am now in communication with the Commissary General on this subject, and while admitting that the scale of reduction proposed in my Report No. 229A., dated 26th April 1861, was extensive, I am still in hopes that steps will shortly be taken to reduce the number of Bullocks kept up, and the present scale of this Establishment thus considerably brought down. According to my view Government Bullocks should be maintained only for services of regular recurrence, and for those Military exigencies which may arise without a moment's warning; but, as I purpose addressing Government separately on this subject, I shall not here enter further into it.

40. The cost of the maintenance of Camels is the next item involving heavy expense under the head of Cattle Establishments, being estimated at Rupees 7,74,820; but by the transfer

of a number of these animals to the Madras Presidency where they were required, and by placing many out to graze, I look to the actual expenditure being brought much below the estimated cost.

41. The rates at which the expense of feeding cattle has been estimated are as follows:—

	Highest rate per annum. Rs. As. P.	Lowest rate per annum. Rs. As. P.	Mean rate per annum. Rs. As. P.
Elephants ...	744 0 0	180 0 0	462 0 0
Camels ...	130 8 0	54 0 0	92 4 0
Horses ...	109 0 0	60 0 0	84 8 0
Bullocks ...	168 0 0	66 0 0	117 0 0

These rates are, however, I believe, high, and a large difference between the estimated and the actual cost may be reasonably expected, both on this account and because the rate of hire for Rewaree Camels has recently been considerably reduced, independently of a reduction being made in their number.

42. The other items in which I have reason to anticipate reductions of the estimated Commissariat Expenditure are as follows:—

Miscellaneous Carriage,
Hospital Clothing,
Bedding for European Troops,
Barrack Furniture,
Medical Comforts,
Dead Stock,
Purchase of Cattle, and
Contingencies,

all of which have already been passed under review in my Report No. 229A., dated 26th April 1861.

43. The Commissariat Estimate for supplies, exclusive of Establishments, was originally reduced by this Department from Rupees 1,41,62,837 to Rupees 79,12,400, and although I do not now hope to realize so large a saving, the outlay under this head will not, I feel assured, exceed Rupees 1,00,00,000; and judging from the present rate of the general Military Expenditure, the difference between the two sums (about twenty lakhs) will, I hope, come within the aggregate grant of 1,280 lakhs.

44. The other items of reduction are less important; Rupees 2,30,711 were deducted from the estimated expenditure of Commissariat Establishments, and Rupees 1,41,644 from those of the Barrack Department. The Estimate of the Stud Department, amounting for Supplies, exclusive of permanent Establishments, to Rupees 14,61,906, was left intact, as I had not then sufficient data to guide me in a revision of the Estimate; but I have since instituted enquiries, which have already resulted in a reported reduction, and I believe a larger saving will eventually be effected, sufficient probably to cover a great part of the excess beyond my Estimate that will be incurred for the Cattle Establishments of the Commissariat Department, the remounts available being sufficient to meet all demands for three years to come.

45. Even if, however, these aggregate reductions in the Commissariat Expenditure be not realized to the full extent within the present year, the monthly scale of outlay proportionate to the amounts indicated for the year will at least be attained in the last month of the year. This will be a great point gained, for the main difficulty is to get the scale admitted as adequate; and it can only be accomplished by gradually enforcing reductions on the closest scrutiny in minute detail of each item of charge.

46. The Bengal Estimate has thus, on the whole, been reduced from Rupees 7,78,77,332 to Rupees 6,57,20,963, giving a rate of about 54$\frac{4}{10}$ lakhs per mensem, instead of sixty-six lakhs; and although the expenditure in detail may not entirely accord with the appropriation made under the several heads of the Estimate, I still hope, provided it be found practicable to maintain the practice of the stringent economy initiated, to be able, at the close of the year, to inform Government that the average monthly cash disbursements during the year, for the Military Service of the Bengal Presidency, have not exceeded fifty-five lakhs for current expenditure, exclusive of gratuities, bounty, pay, &c., which should be covered by the special grant of sixty lakhs. There would, however, be no doubt on either of these points if Government should find themselves in a position to make further reductions in the numerical strength of the Military Forces, by allowing the departure of the Supernumerary Regiments of Infantry and Cavalry and Batteries of Artillery.

47. The Bombay Military Estimate for 1861-62, as compiled by the Military Accountant, and countersigned by the Controller of Military Finance, exhibits Rupees 2,95,62,347 as the probable amount of local cash disbursements. The two grand divisions which represent the cash requirements are as below:—

Title I.	Charges Personal, or Pay and Allowances of the Army and Army Establishments, Rs.	2,32,18,418
Title II.	Charges Material, or supplies to Standing Army and Establishments... Rs.	63,43,920
	Total Rs.	2,95,62,347

48. Immediately on receipt of this Estimate, I felt no hesitation in pronouncing it excessive; and was fully confirmed in this view by the letter from the Secretary to the Government of Bombay, to your address, No. 1105, dated 18th April 1861, which was referred to this Department for Report (with your docket No. 20 of the 27th idem), as also by other communications received.

49. The effective strength of the Bombay Army, on which the Estimate is based, is as below:—

Europeans	...	13,557
Natives	...	28,660

or a little more than one-third of the Bengal Army as it now stands, for which Rupees 6,57,20,963 have been allotted. The proportion for Bombay would, therefore, be Rupees 2,19,06,985, but there are causes which interfere with the strict application of this proportion; and after careful consideration, Rupees 2,43,94,258 was proposed by this Department, and approved by Government, as the sum to which the Military Expenditure of the Bombay Presidency for the current year should be restricted.

50. The Bombay Government, in their letter to the Secretary to the Government of India, Military Department, No. 1140, dated 18th April 1861, acknowledged that over-charges exist in many of the items of the Estimate; and these I shall now specify, noticing, at the same time, the

effect of decisions of the Government of India in reference to the strength of the Bombay Army.—

First.—The Bombay Government admit that the cost of the two Regiments of Guzerat Horse, which has been transferred to the Civil Department, should have been excluded from the Estimate, and the Government of India have decided that two of the twelve Regiments of Silladar Cavalry shall be reduced, thus leaving only ten Regiments of Silladar Cavalry to be provided for. The total amount estimated for the fourteen Regiments of Silladar Cavalry (including Guzerat Horse) is Rupees 26,05,592, and the exact proportion to be deducted on account of four Regiments (two transferred, and two reduced) would be Rupees 7,44,454; but as the ten remaining Regiments are each to be augmented by 120 Sowars, so as to make up 1,200 per Corps, the net amount to be deducted is only Rupees 3,28, 182.

Second.—The Bombay Government also report that, in consequence of the abolition of the Remount Depôt, the Agent's Staff salary and cost of his Office Establishment, amounting, respectively, to Rupees 22,574, and Rupees 6,300 annually, in all Rupees 28,874 should be deducted.

Third.—The sum assigned in the Estimate for pensions has been reduced from Rupees 17,45,027 to Rupees 15,50,000, making a reduction of Rupees 1,95,027; but as the Bombay Government observe that the actual expenditure will exhibit a large additional reduction, I have felt justified in assuming the reduction in round numbers at two lakhs.

Fourth.—The Transport Train Establishment having been reduced, the Bombay Government request that Rupees 31,102 may be deducted on that account, under the head Pay of Commissariat Department.

Fifth.—The Bombay Government have further intimated that the estimated cost of the Transport Train, Rupees 3,29,480, has been reduced by Rupees 2,54,264, that is, to Rupees 75,216; and that in the Cattle and Carriage Establishments a reduction of Rupees 4,00,000 should be made. Besides the above, the Authorities at Bombay declared that the cost of supplying gram to Mounted Corps has been over-estimated by Rupees 40,000; and in the Clothing Department the tailoring charges are also Rupees 7,213 in excess.

Sixth.—The item Contingencies, under Title I. of the Estimate, represents the large sum of Rupees 31,24,547; but judging from the details given, many of the charges thus included under Title I. should properly be classed under Title II, as appertaining to material supplies, and moreover should not be exhibited as Miscellaneous Contingencies, but as Departmental charges. I have separated the two descriptions of charges, *viz.*, "personal" and "material," and have indicated opposite each Title how they have been included in the Estimate which accompanies this Report

51. In connection with the above items the Bombay Government acknowledge that there is an over-charge of Rupees 63,155 on account of Stores to the Ordnance Department, the same having been twice charged; it is also admitted that Rupees 3',204 have been charged on account of Tents, instead of Rupees 3,500, leaving Rupees 27,704 to be deducted. The total of these two items of reduction, Rupees 90,859, is taken from the amount exhibited in the Estimate under the head Ordnance Department; and the full amount included under the head Remount Department, *viz.*, Rupees 9,96,556, as also the estimated value of additional Forage Rupees 76,997, making together Rupees 10,73,553, fall likewise to be deducted.

52. Having further carefully considered the details of the Contingencies under Title I. as above particularized, I am confident that they are open to great modification, for many of the charges entered will not, in all probability, be incurred during 1861-62, and the expenditure under others will, in my opinion, fall far below the Estimate.

53. Those which may be omitted as not likely, with good management, to be incurred under existing circumstances, are as follows, and need no explanation:—

Compensation for loss of Allowances and Property	...	Rs.	17,588
Troops short embarked	...	„	72,060
Demurrage of Ships	...	„	2,100
		Rs.	91,748

And the following items may also be considerably reduced:—

	From Rupees	To Rupees	Difference. Rupees
Extra Establishments ...	42,555	25,000	17,555
Head Money for Medical charge of Troops, and Veterinary charge for Horses ...	73,510	50,000	23,510
Hutting Money ...	28,077	20,000	8,077
Passage and Freight ...	6,03,452	3,63,633	2,39,819
Rewards and Gratuities ...	1,20,399	46,271	74,128
Rs.	8,67,993	5,04,904	3,63,089

54. The reasons for making these reductions are, briefly, that extra Establishments to the extent anticipated will not be required; that Head Money for the Medical charge of Troops and Veterinary charge of Horses will be less, in consequence of the reduced number of Troops, and the diminished Cavalry Force; Hutting Money being also less, by reason of the smaller number of Native Troops, and the fewer movements that will take place. The item of gratuities to men discharged, which is set down at Rupees 74,128, will be paid out of the special sum granted for gratuities, bounties, &c.; as also the pay of the Troops ordered to be dispensed with so long as they are maintained.

55. The item of Passage and Freight, as entered in the Estimate, amounted in the aggregate to Rupees 6,03,452, from which a reduction of Rupees 2,39,819 was proposed by this Department, on the ground that the calculations were made on unusual and abnormal circumstances. The items of charge under this head were as below:—

		Estimated for. Rupees.	Admitted. Rupees.

		Table Money	13,631	
		Total Rs.	23,870	10,239
		Grand Total, Rs.	6,03,452	3,63,633

56. I have deducted Rupees 1,20,080 from the amount of Passage Money (Rupees 1,60,080) shewn above as debitable to the Government of India, leaving Rupees 40,000, which I consider ample to cover the expense of passage provided in Bombay for Officers and men attached to the Bengal Army. I have also disallowed Rupees 20,847, or half of the amount (Rupees 41,694) charged for passage on account of Officers and men of the Madras Army, the residue being ample to meet all such probable demands.

I have further disallowed the following amounts:—

Passage money to Subalterns ... Rs. 85,261
Table Money to Officers belonging to China Expedition ... „ 13,631

The former charge must be provided for out of the sum of Rupees 2,85,115 admitted for the Officers and men of the Bombay Army; and it is not necessary now to provide for Table Money for Officers belonging to the China Expedition.

57. As regards the vague head of Contingencies, it appears to me to be a very objectionable feature in the Bombay accounts that such large sums and charges so clearly appertaining to distinct Departments should have been included under that denomination. The arrangement must have rendered the accounts of the Bombay Presidency heretofore very indefinite; but strict orders have been given that all charges shall in future be distinctly represented in the accounts, so that the nomenclature or heading may indicate the nature of the charge, and I shall endeavor diligently to enforce the observance of these orders.

58. The other reductions proposed by the Government of Bombay are not of an effective character, being merely transfers to the other Presidencies and Civil Departments of various items of expenditure incurred on their behalf, and which the Bombay Government desire to have removed from the Estimate as not strictly appertaining to the charges proper of the Bombay Presidency. But on the principle admitted to be sound and good, and laid down by the Government of India in letter No. 7343, dated 19th June 1861, Financial Department, to the address of the Military Finance Department, and letter No. 302, dated 10th September 1861, Military Department, to the Government of Bombay,—that the Department or Presidency incurring a charge should estimate for it, and that the actual cost of the Troops of a Presidency, wherever located, shall be entered in the Military Estimate of that Presidency,—I am of opinion that these charges, instead of being transferred from the Military Estimate of the Bombay Presidency to that of Bengal or Madras, or to the Estimate of any Civil Department, as desired by the Bombay Government, should be shewn, as at present, in the Estimate of the Bombay Presidency, and classified under the proper heads. The question of debiting charges of this nature I, however, reserve for a separate Report.

59. As regards the further reductions calculated on by this Department, the Government of India having decided that the two Batteries, one Reserve Company, and the Head-Quarters of 18th Brigade of Royal Artillery at Bombay shall be sent Home, a reduction of Rupees 2,73,117 may be made on this account. By reducing the two Regiments of British Cavalry to a standard of 500 Non-Commissioned Rank and File, there will be a saving of Rupees 58,068 annually, and Rupees 7,11,431 by the reduction of the Bombay Native Infantry from thirty-four to thirty Regiments, making altogether a saving of Rupees 10,44,516 per annum.

60. The pay of the Supernumeraries in the different branches of the Bombay Army is estimated at Rupees 4,01,148; but this sum does not appear separately in the Estimate, being balanced against the sum deducted on account of grades wanting to complete. Thus, the full amount of Pay and Allowances of these grades being Rupees 5,17,415, only Rupees 1,16,269 have been deducted from the pay of the Establishment in consequence of the amount stated to be payable to Supernumeraries; but as it may fairly be calculated that half of these will lapse during the year under the operation of recent orders, I have therefore deducted Rupees 2,00,574, being half the amount (Rupees 4,01,148), at which, as already shewn, their pay is estimated.

61. By the General Order of the Bombay Government No. 128, dated 15th March 1861, the Arsenals specified in the margin, were ordered to be abolished; and on reference to Statements furnished to this Department by the Examiner of Ordnance Accounts, Bombay, the cost of the Establishments of those Arsenals appears to amount to Rupees 1,28,525 annually, as marginally indicated, with the exception of the Maulligaum Establishment, which I have not been able to trace. This amount (Rupees 1,28,525) I have deducted from the total Estimate (Rupees 7,97,771) for the pay and allowances of the Ordnance Department; for although aware that the Establishments attached to these Arsenals cannot be entirely dispensed with at once, many of the grades being only gradually absorbed, yet I am confident that the general diminution to be effected in the cost of the Ordnance Establishments in the Bombay Presidency during the year 1861-62, to which I shall give unremitting attention, will fully equal, if not exceed, the sum thus deducted.

Annual cost Rs.	1,28,525 0 0

62. The Pay and Allowances of the Medical Department of the Bombay Presidency were set down in the Estimate at Rupees 12,79,740, including the amount (Rupees 73,510) that was classed by the Controller with contingencies for Head Money on account of Medical charge of Troops and Veterinary charge of Horses. From

the latter item I have already deducted Rupees 23,510, as noticed in paragraph 53 of this letter.

63. The pay of the fixed Medical Establishments, as exhibited in the Estimate, is as follows:—

Indian Forces.

	Rs.	As.	P.
Surgeons in charge of Regiments (including those on leave)	1,67,383	0	0
Assistant Surgeons, First Class, in charge of Regiments (ditto)	65,683	8	0

Surgeons and Assistant Surgeons	1,74,279	0	0
Veterinary Surgeons ...	10,956	2	0
Total Rs. ...	2,07,351	2	0

64. This appears to be a very large Medical Establishment for an Army of the strength of that of Bombay. If fixed in the same proportion to the present established strength, as are the Medical Establishments of the other Presidencies, it may bear a reduction of at least one-sixth, and prompt measures should be taken for effecting this reduction, all due consideration being given to individual interests. I would strongly urge that the attention of the Bombay Government be requested to this matter, with a view to a scheme being submitted for reducing the number of Surgeons, Assistant Surgeons, and Warrant Medical Officers, as also the Medical Staff and Establishments. In the meanwhile, I have deducted for the current year Rupees 50,000, or one-fourth of the annual reduction that may be expected to be eventually effected by the changes above recommended.

65. With reference to "CHARGES MILITARY MATERIAL" (Title II.), Rupees 25,96,350 is given in the Estimate as the cost of Army Supplies, that is, the rationing of Troops and dieting of sick, feed of horses, maintenance of Military prisoners, supplies of bedding, &c. The items for rations and diet of Europeans included in the above sum are as follows:—

Victualling Supplies ...	Rs.	10,75,104
Hospital diet ...	„	3,64,284
Commissariat Stores ...	„	6,57,290
Total Rs. ...		20,96,678

The total cost for 11,000 men in health, and 2,000 sick, in all 13,000 men, taken respectively at the above rates of Rupees 100 and 180 annually, is, however, only Rupees 14,60,000; and adding to this Rupees 4,00,000 for supplies of Beer and Arrack, to be ultimately paid for by the men (which, therefore, is included among the receipts or income of the Commissariat Department), the aggregate outlay would be only ... Rs. 18,60,000

Leaving a saving of .. „ 2,36,678

66. Under the head of Army Supplies, the feed of Horses or Cavalry Supplies are also included. The amount estimated for the latter is Rupees 3,32,329, and the Bombay Government admit (as noted in paragraph 44 of this letter), that Rupees 40,000 should be deducted; but considering the changes ordered in the Native Cavalry, and the recent regulation for keeping the establishment of Horses always fifteen per cent. below effective strength, a much larger reduction may be made, and I have accordingly deducted Rupees 70,000.

67. Thus, the total sum to be deducted from the amount set down in the Estimate for Army Supplies will be Rupees 2,36,678 + 70,000= Rupees 3,06,678; and the amount to be incurred under that head will then stand at Rupees 22,89,672, instead of Rupees 25,96,350, as originally estimated for.

68. In the Estimate of Commissariat Local Cash Disbursements, "Miscellaneous Carriage" is set down at Rupees 7,05,393, and the "Cattle Department" at Rupees 3,62,848, total Rupees 10,69,241; but the Bombay Government, as above stated (paragraph 50), say that this amount is susceptible of reduction by Rupees 4,00,000, and I have consequently taken three lakhs from the amount set down for Miscellaneous Carriage, and one lakh from that allotted to the Cattle Department, leaving the amounts to be appropriated to these two heads at Rupees 4,05,393, and Rupees 2,63,848 respectively, or, together Rupees 6,69,241.

69. The cost of supplies to Civil Departments is set down at Rupees 7,81,125; but as this includes Rupees 4,68,118 on account of the Marine Department or Indian Navy, which is undergoing very considerable modification, and as, moreover, the cost of supplies to Civil Departments seems to be excessive, I have no hesitation in deducting Rupees 1,50,000 from the gross sum, Rupees 7,81,125, thereby leaving Rupees 6,31,125.

70. Barrack Supplies are put down at Rupees 3,32,066; but the average cost per man for Barrack Supplies is known not to exceed Rupees 20 per annum, and as there will only be about 13,000 Europeans in Barracks, the amount to be appropriated to Barrack Supplies ought not to exceed Rupees 2,60,000, leaving, consequently, Rupees 72,066 to be deducted from this head of charge.

71. In the Estimate of the Ordnance Department the supplies to be provided for locally (exclusive of Contingencies, Army Accoutrements, and Saddlery, and Freight), amount, including

a transfer from "Contingencies," to Rupees 5,48,262. From this sum (as recorded in paragraph 51 above) Rupees 90,859 is to be deducted with the concurrence of the Bombay Government, leaving Rupees 4,57,403 as the amount to be appropriated in the provision of local supplies.

72. I have already, in letters from this Department quoted in the margin, earnestly deprecated the system recently introduced in the Bombay Presidency of letting Ordnance Officers procure the supplies for their own Department. I need not here repeat the objections in detail, but I have strong reasons for pronouncing the system to be as detrimental to efficiency, as it is adverse to sound economy; and if it be admitted, the only preventive of the many attendant evils is a close scrutiny of the amount to be alloted for such supplies. In my opinion the sum of Rupees 4,57,403 for the Bombay Ordnance Local Supplies is excessive, considering the reduced number of Ordnance Depôts and the diminished strength of the Army. In the Madras Presidency, where the Army is much larger, and the Ordnance Depôts more numerous and more scatterd, some being beyond seas, the amount estimated and granted for the provision of local supplies through the Commissariat Department—which in Madras, as recently in Bengal, has been very properly made the Department of Supply—is only Rupees 2,73,585, or Rupees 1,83,818 less than the sum demanded at Bombay. I think that the allowance for local supplies to the Bombay Ordnance Department will be liberal, if fixed on the same scale as for the Madras Ordnance Department; and have therefore set down Rupees 2,73,000, being a reduction of Rupees 1,84,403 on the amount originally estimated.

No. 57A, dated 7th February 1861.
" 162A., " 18th March "

73. It has already been noted, that in the Clothing Department the sum of Rupees 7,213 has been over-estimated for tailoring charges; but even after this deduction the amount estimated for the Clothing Department at Bombay, including Contingencies, *viz*, Rupees 1,98,163, still appears high, as compared with that granted to the same Department in the Madras Presidency (Rupees 1,59,820); and I consider that the estimated cash requirements on Government for the Clothing Department for material supplies should be reduced by at least Rupees 30,000, including the above reduction of Rupees 7,213. In the revised Estimate I have therefore set down the cash assignment for material supplies for the Clothing Department at Bombay at Rupees 1,68,163

74. Thus, the Bombay Estimate for the year 1861-62 has been reduced by revision from Rupees 2,95,62,333 to Rupees 2,43,94,258, being a total diminution of Rupees 51,68,075, or a reduction of more than four lakhs in the monthly scale of expenditure, *viz*, from 24¾ lakhs to 20$\frac{7}{12}$ lakhs per mensem; but it must be observed, that of the reductions and transfers in connection with the strength of Bombay Army that were reckoned on, when fixing these limits, the following have not as yet been carried into effect:—

Three Batteries of Royal Artillery to be sent Home.

Two Regiments Silladar Cavalry, or even three, to be broken up, as there was also some expectation that the number of Corps would be reduced from twelve to nine.

75. The Estimate of the Madras Presidency (forwarded to you, as already stated, with letter No. 225A., dated 5th April 1861, reporting thereon) was framed to provide for a European Force of eleven Regiments of Infantry and two Regiments of Cavalry, besides Artillery, and when submitted after careful revision by the Controller, the probable cash requirements amounted to Rupees 3,53,50,608; but as explained in the above letter, by various arrangements, such as using up stores on hand, the requirements were reduced to Rupees 3,18,60,136, being a difference of Rupees 34,90,472. In other words, the Estimate of disbursements, giving a rate of nearly 29½ lakhs per mensem, has been reduced to 26$\frac{7}{12}$ lakhs, and I have every expectation that the actual outlay will fall within this sum. Indeed, judging from the scale of disbursements of the Madras Presidency for the last three months, it might be less if the wishes of the Madras Government for the transfer of two European Regiments and two Batteries of Royal Artillery be carried out.

76. This Estimate, in common with those of Bengal and Bombay, is divided under two great heads, *viz.*:—

Tittle I. Charges Personal ... Rs. 2,69,73,048
" II. " Material .. " 48,87,088

The proportion cost of material supplies in the Madras Presidency is below that of the other Presidencies; but the arrangements at this Presidency are so completely under control, that there is good reason for anticipating even more economical results. In illustration of this I cannot do better than re-produce here the 39th paragraph of this Department's Report to Government No. 225A., dated 5th April 1861, every word of which I find to be fully sustained by the experience since acquired.

"The economical scale at which the Military "Expenditure of the Madras Presidency has "arrived is mainly attributable to the effective "measures taken by the Government of Madras "during the administration of Sir C. Trevelyan "and of the Hon'ble Mr. Morehead, and to the "co-operation of the various Heads of Depart-"ments, some of whom have acted so as to have "merited the fullest confidence of the Govern-"ment of Madras. This result, however, does "not represent the whole extent to which the "Madras Presidency may be made influential "in curtailing the general Military Expenditure of "India. By the relief of the Madras Troops "from Pegu and China there has become avail-"able a larger Force than is necessary for the "occupation of the territories of the Madras "Presidency Proper."

77. At the same time, however, it should be mentioned that, since the Madras Estimate was submitted to the Government of India, the conditions on which it was framed have varied, and the Controller at that Presidency has had to meet some additional charges, not regularly provided for in the Estimate, out of the amount of the cash assignment allotted for the expenditure of the Madras Presidency. Among these may be mentioned the return of the 21st Regiment Native Infantry from China, the delay in the relief of the Native Infantry Regiments in the Pegu Division, the retention up to this date, in those Provinces, of the two Regiments of

Native Infantry, which were to have returned to India at the commencement of the present official year, besides sundry other additional expenses, such as an expenditure of nearly two lakhs of Rupees for a supply of Beer sent from Home.

78. These additional charges, as also any reductions or changes resulting in a decrease of the estimated expenditure, will be more properly subjects for comment when the actual expenditure of the year shall be compared with the Estimate, and the Report of this Department on the appropriation audit thereof submitted; but it may be useful here to compare the relative proportions of a few of the principal items of expenditure at the three Presidencies with a view to indicating the relative economy practised, and the direction in which efforts for further reduction might be made.

79. The relative numerical proportion of the three Armies, as calculated for in the revised Estimates now submitted, may be shewn as below:—

Bengal.	Madras.	Bombay.
1	·60	·40

Madras and Bombay together being thus equal to Bengal.

The principal items of estimated expenditure indicate the following proportions:—

80. In the above Comparative Statement the revised scale of expenditure for Bengal is assumed as the correct standard for the number of men given; and although it cannot as yet be looked on as accurate, it may for the present be accepted as a fair approximation, subject to such further reductions and modifications as future experience may point out. Proceeding on this assumption, therefore, and testing the expenditure of the other Presidencies accordingly—a test which ought not to be objected to, as the assumed Bengal scale is still higher than it ought to be—the following are the results:—

	Madras.		Bombay.	
	Above proportion per cent.	Below proportion per cent.	Above proportion per cent.	Below proportion per cent.
Regimental Pay and Allowances ...	0	10	0	4
General Staff ...	0	4	5	0
Garrison and Cantonment Staff ...	0	35	27	0

81. The inference to be drawn from the above is, that the rate of expenditure in Madras is considerably below that of Bengal, whilst that of Bombay is greatly in excess of the rate in Bengal, and still more so of the Madras rate.

The most striking instances of the excess in Bombay are as follows:—

Garrison and Cantonment Staff,
Pay of Ordnance Department,
Ordnance Supplies,

and to these the attention of the Authorities at that Presidency will be directed.

82. The Military Estimates for the three Presidencies for 1861-62, as originally submitted by the Controllers, aggregated Rupees 14,27,90,273 for all India; but on revision by this Department, this aggregate was considered to be capable of reduction to Rupees 12,19,75,357, provided the various reductions then contemplated were carried out, being a difference of Rupees 2,08,14,916. The future strength in Europeans for all India will certainly be below that provided for in these Estimates; and as that of the Native Infantry will probably likewise be eventually lowered by the supernumeraries being absorbed to some extent, a proportionate reduction on the aggregate expenditure may be looked for in the scale of future years if such conditions be fulfilled. The result in the way of reduction, however, as regards the ensuing year, will probably be much influenced by the demand that may be made for the replenishment of stock; for, keeping in view the urgent necessity of at present restricting the demands on the cash balances to the narrowest limits, a very large proportion of the Reserve Stock of Army Supplies has been ordered to be appropriated for use during this year. No immediate inconvenience will be caused by this measure; but it will be necessary to make arrangements for replenishing the Reserve Stock on an ordinary scale.

83. The Hon'ble Mr. Laing, at page 6 of his Financial Statement, stated the Military Expenditure of all India, for 1859-60, at Rupees 17,75,00,000, being an excess of Rupees 5,55,00,000, as compared with the amount (1,220 lakhs) estimated for the year 1861-62. Even after adding to this the special grant of sixty lakhs for covering delay in making reductions, and the payment of gratuities, bounty, &c, there will still be a difference of Rupees 4,95,00,000; but this cannot be considered a net saving, because some portion of outlay hitherto classed under the category of Military Expenditure is still incurred, although not shewn under that head. The newly organized Police comes within this class, and as I have not at present sufficient information to enable me to compute the probable expenditure on

account of this and other charges heretofore deemed Military. I must leave the exact extent of the reduction of expenditure effected in the Military Department to be shewn elsewhere.

84. It may, however, be satisfactory for Government to know that if, at the close of the present official year, the scale of 1,220 lakhs for the regular Military Expenditure of 1861-62 is found not to have been exceeded, there is every hope that in 1862-63 a further reduction of fifty lakhs may be effected on that sum, provided modifications of the excess of Military Force (noticed in paragraphs 17, 18, and 19) be made, thus rendering it feasible, in case rigid economy continues to be enforced, to fix 1,170 lakhs per annum as the standard for Military Expenditure in India, not to be exceeded in time of peace. And, as already stated, the charge against the Indian Revenues will be further reduced by twenty lakhs, payable (as shewn in paragraph 8) out of the Revenues of the Assigned Districts in Berar on account of the Hyderabad Contingent, thus affording the prospect of fixing the future Military Expenditure in India at 1,150 lakhs; to be met from the Revenues of India.

85. The Right Hon'ble the Secretary of State for India, in Despatch No. 53 of 8th April 1861 (paragraph 23), considered a prospective saving of £2,500,000 on the estimated expenditure of £21,999,850 for Military and Police purposes in India and at Home in the year 1860-61 to be altogether inadequate, and I fully recognize the close connection between the Military and Police Forces, as pointed out in paragraph 22 of the above Despatch. The actual expenditure for 1860-61 has not, I regret to say, yet been ascertained either as regards the Military or Police Forces; but presuming the Military Expenditure alone of that year not to have exceeded that of 1859-60,—which, as given at page 6 of Mr. Laing's Financial Statement, was Rupees 1,775 lakhs in India, and 275 lakhs at Home, in all 2,050 lakhs,—and deducting therefrom fifty lakhs on account of the augmentation in the Police in relief of Military Force, then the difference between the Military Expenditure of 1859-60, and the probable outlay of 1,220 lakhs for 1861-62, on the regular scale (making with a Home Expenditure of 275 lakhs as in 1859-60, a total of 1,495 lakhs), will be fully 505 lakhs.

86. This sum (1,220 lakhs) is also £3,000,000 below the Estimate of Indian Military Expenditure, exclusive of Police, as given in paragraph 65 of the Despatch of the Government of India No. 16 of the 5th February 1861; but unless a watchful eye be kept on the reinforcements sent out to India, the proportion of European Force reduced, and the Artillery Force modified, it may not be in the power of the Authorities in India to realize present expectations. Again, assuming the cost of the Police Force in India at 180 lakhs (a figure that, in the opinion of many Authorities, it ought not to exceed), the combined expenditure for the Military and Police Forces during 1861-62 will probably be lakhs 1,220 × 180=1,400 lakhs, which, exclusive of the Home Expenditure of 275 lakhs, is Rupees 525 lakhs below the Estimate of 1860-61, to which the Secretary of State for India refers; thus affording the prospect of fixing the future scale of expenditure in India, for both Military and Police Forces, at a sum below 1,400 lakhs.

87. I must now briefly advert to the mode of disposing of receipts or cash recoveries of the Military Department, accruing out of the sales of Stores, Hospital stoppages, compensation for damages, &c. In paragraph 29 of this Department's Report No. 225A., dated 5th April 1861, on the Estimate of the Madras Presidency, it was recognized that, in accordance with the principles of the Budget Estimate, and in order to attain clearness of accounting, and a right knowledge of the extent of the liabilities of Government on account of Military Expenditure, these recoveries should be treated and accounted for as a part of the common revenue, instead of being directly set off against the Military Expenditure, in abatement of the demand on the Government cash; in other words, that Departmental recoveries shall be surrendered to the Government Treasury, and not appropriated in defraying Military Expenditure.

88. At the same time, however, there is one peculiarity in the receipts or cash recoveries of the Military Department which ought to be considered in intimate connection with the Military Expenditure, namely, that the receipts flow from the expenditure itself, being, in other words, a refund or payment for supplies actually furnished, and should properly be viewed as a set off against the expenditure, as being a *bonâ fide* return into the Treasury of money advanced. Thus, when the net Military Expenditure is to be shewn, the amount of recoveries in the year should be deducted from the amount of the gross expenditure, and both Estimates and Accounts should be viewed accordingly. This proposition may be thus illustrated. The cost of dieting a Soldier in Hospital is estimated at Rupees 180 per annum, and the full amount is entered in the Estimate of expenditure; but 2 annas per diem is recovered from every sick Soldier of the rank of Private, and 3 annas for a Serjeant, and thus Rupees 46 and 67 per annum may be recovered respectively, reducing the net cost to Government for the Private whilst in Hospital to Rupees 134 per annum, and that of the Serjeant to Rupees 117. A still better illustration is to be found in the mode of supplying Arrack and Malt Liquor to the Army. The stock of Arrack and Malt Liquor laid in annually for the use of the Army of all India costs nearly seventy lakhs, including value of liquor, carriage, &c., and a demand for cash to this extent having to be made on the Government Treasury, must therefore be included in the Military Estimate of cash requirements; but the liquor is retailed to the Soldier at a price on which the Government lose about twenty-five per cent. so that out of the seventy lakhs Government recover about fifty lakhs.

89. These receipts or cash recoveries are estimated as follows for the year 1861-62 :—

Bengal	... ...	Rs.	33,00,000
Madras	... ...	„	13,78,900
Bombay	... ...	„	18,25,500
	Total Rs.		65,04,400

giving a proportion of nearly five per cent. on the aggregate estimated expenditure; while the proportion at each Presidency is for Bengal five, Madras four and a half, and Bombay seven and a half per cent. And deducting sixty-five lakhs on account of the Military receipts or cash recoveries of the year, the net expenditure during 1861-62 (regular scale) will be Rupees 1,155 lakhs; and the prospective scale of net expenditure

in future years (as given in paragraph 84 at 1,150 lakhs) may therefore be set down in round numbers at 1,100 lakhs, taking future recoveries at fifty lakhs instead of sixty-five, as estimated for 1861-62.

90. I would also note that to arrive at a correct conclusion with reference to the net Military Expenditure of India, the charges entered in these Estimates for supplies made by the Military to the Civil Departments should likewise be deducted. The cash assignments to be expended by the Military Department in making supplies to Civil Departments and in paying salaries to Officers in Civil employ, amount to about ten lakhs, an amount which, while included in the Military Estimate because the Military Department has to make provision for the supply, should properly be deducted from the gross Military Expenditure. This course the Government of India have in a great measure recognised by Financial Resolution No. 176, dated 19th August 1861, directing that all supplies obtained by the Civil from the Military Department shall in future be paid for; but the details to give effect to this arrangement have not yet been finally settled.

91. I cannot close this Report without putting on record my conviction that all the labor, care, and thought bestowed on the introduction of the Budget system will be rendered futile, unless an equally radical reform be insisted on and carried out in the Department of Accounts. It has been very properly remarked that the Budget is at one end of the system, the accounts at the other, and each is essential to the other for completeness. The fundamental principle of the Budget Estimate system is the clear and detailed specification of all requirements of the several Branches and Departments; and unless the accounts be adapted to this system, by ensuring a careful and prompt audit of all charges, Government will not be able fairly to test the operation of the Budget, and will seek in vain for the fulfilment of the economical results expected to be attained by its adoption.

92. The prejudices and difficulties which interfered with the introduction of the Budget system have already, to a great extent, been overcome; but similar ground has to be gone over in reference to the Account system. Old established ideas, and time-honored modes of procedure, have now to be swept away, and care must be taken not to allow the effort by which the changes are effected to be too soon relaxed, for fear of the reaction that may temporarily be felt; but at the same time, I may assure Government that once the results of the change of system are fully exhibited, there can be no doubt as to its advantages being recognised and fully appreciated.

93. The many complaints heretofore made against Indian Accounts, all had their origin in the practice, arising from delay in audit of compiling the accounts from unaudited Returns. The results so obtained were necessarily incorrect, and when given as the ascertained results of the year's transactions, were liable to be questioned on comparison with results subsequently deduced from audited transactions, and in this way confidence in these statements was frequently shaken. But with the prompt audit, which is a leading principle of the new system, these defects will, I trust, be obviated; and I also hope to be able greatly to diminish clerical labor by only requiring one set of accounts to be furnished, accurately prepared from audited data, whereby the liability of error will be greatly lessened, if not entirly removed.

94. I may here mention some changes that have already been introduced into the Military Department of Accounts :—

I. A Classified Statement of unaudited receipts and disbursements is submitted at the close of each month, in order that the extent to which the cash assignments are operated on may at all times be known.

II. A Monthly Statement of audited receipts and disbursements is furnished as soon after the monthly audits of each Department is effected; and is considered due on the 15th day of the second month following that in which the disbursements were made. In Bengal the disbursements in the Pay Department, made in May, June, and July, for the pay of the Troops, have already been audited, compiled, and sent in to the Military Accountant; and the Commissariat disbursements for the same period are also audited.

III. A Quarterly Statement of audited receipts and disbursements is required to be submitted with a Statement of the unadjusted cash payments.

IV. Immediately after the close of the official year an Annual Statement is to be submitted, shewing all the audited receipts and disbursements of the year. This document will in fact be an abstract of the accounts of the current year, and when compared with the aggregate of the twelve months' unaudited cash disbursements, will indicate the exact amount of the adjustments to be effected in the following year on account of the current year's transactions; and these unaudited disbursements again, when compared with the Estimate, will shew the amount of the cash assignments remaining unappropriated during the year.

Lastly, arrangements have been made for an entire separation between current and arrear charges, by means of which the expenditure of each year will be distinctly ascertained, a result which hitherto could never be attained with precision.

95. Far more extensive reforms are, however, necessary, before a simple and intelligible system of accounting can be substituted for the present system that has become unnecessarily cumbrous, mainly by reason of misapprehension and misuse of technicalities, which, when properly applied, are invaluable. I am now giving close attention to this subject, specially as regards the re-modelling of the Military Accountants' Offices at the three Presidencies; and think I may assure Government that some progress has already been made, and that there is every prospect of much more being shortly accomplished.

96. I cannot conclude this Report without representing to Government the obligations which, as Head of the Military Finance Department, I feel to Mr. A. P. Simkins, one of the recently appointed Assistant Secretaries, who had for nearly a year previous worked in my Office, and acted as my Personal Assistant. Mr. Simkins' useful labors have once before been brought to the notice of Government in connection with the Budget Estimate Report* of the Military Finance Commission; and I have much pleasure in again bearing my testimony to his untiring zeal and accurate knowledge of the whole system of Military accounting, to which I am indebted for great assistance in all that I have been able to effect in this Department.

BOMBAY MILITARY ESTIMATE FOR 1861-62.

From the Chief of the Military Finance Department, to the Secretary to the Government of India, Financial Department,—(No. 683A., dated 22nd August 1861.)

SIR,—STORES received from England being an important item of Military Expenditure, I beg to solicit the attention of Government to the following circumstances in connection therewith:—

2. The Government of India have repeatedly since the beginning of 1859, when the War Expenditure was ordered to cease, urged on the Authorities at Home to limit the dispatch of Stores to the precise quantity and description applied for, with the view of preventing all unnecessary outlay, until the finances have somewhat recovered; and more recently in Despatch No. 16, dated Fort William, 5th February 1861, to the Secretary of State, (printed in Parliamentary Papers No. 233 of 9th May 1861), Government stated, (paragraph 71), that to bring down "the "Military Expenditure very nearly to the established "cost of the year before the Mutiny, within a few "months of the present time, will, indeed, be an arduous task," and pointed out, (paragraph 72), the absolute necessity that "rigid economy should be observed "in respect to Stores," and "that no Stores should on "any account be purchased or shipped for India or "England, unless upon a distinct requisition based on "the fullest consideration here, both that the Stores "are really required, and that they cannot be obtained "at a lower price in India."

3. These earnest requests have not, however, received due attention, and it appears to me essential now to bring under the consideration of Government the large supplies of Stores of late despatched from England, amounting, according to Valuation Statements I have received from the Accountant-General, to no less than Rupees 36,71,966-3-6 on Invoices as per margin, dated India Office, London, on or after 1st January 1860. All these Stores must therefore have been shipped after 1st January 1860; the earliest Invoice (being Military Stores sent Overland) is dated 1st January 1860; and the latest received Invoice is dated 24th May 1861, the Stores last invoiced being on board the *Accrington*, not

4. I will not conceal from Government that I little anticipated such extensive supplies being sent out fully expecting that the measures adopted last year, and the communications made to England, would have stopped the despatch of supplies from England; and I beg to draw attention to the representation of the Government of Bombay, No. 62 of 4th July 1861, to the Secretary of State, in reference to the despatch of 1,000 smooth Bore Carbines, although the requisition for them was cancelled last year, *vide* Financial Resolution No. 678 of 6th August 1861.

5. The Secretary of State, at the close of paragraph 25 of Despatch No. 53, dated 8th April 1861, in reply to the Despatch of the Government of India of February 1861, already quoted, pointed out, that "effective measures for reducing the demand for "Stores can only be taken in India, by economy of "expenditure, by obtaining in India all Stores which "can be procured there on equally reasonable terms as "in this country, and as regards such supplies as are "required from England, by taking care that no larger "quantities are indented for than are absolutely neces- "sary;" adding that "there can be no doubt that by "attention to the foregoing considerations a great "saving may be effected under this head."

6. The soundness of these remarks is indisputable; but I venture to submit that all economical measures adopted in India are insufficient, unless the Home Government fully co-operate by limiting the despatch of Stores strictly to the actual demands made by the Government of India. That this course has not been followed, even up to the latest date, is evident from the fact of the latest Invoice above quoted being dated the 24th May, although the Government of India earnestly requested, in Financial Despatch No. 37, dated 13th March 1861 (paragraph 15), referring to the probable supply of Stores to the value of £944,470 in 1861-62, "that no Stores whatever be "purchased or shipped in England without proper "Indents from India." The Secretary of State had previously in paragraph 25 of his Despatch of 8th April, already quoted, stated in reference to the remarks of the Government of India, in paragraph 72 of Despatch No. 16, that "no Stores are supplied "from this country, except on Indents received from "India, and then only on a careful comparison of the "quantity applied for with that reported to be in store, "and the average consumption of former years," and yet the Indents that have come before me do not contain demands equal to any thing like the amount proposed, or even actually shipped. Neither does it appear that there is any exact record kept at Home of Stores demanded and supplied for India; for the Secretary of State says in paragraph 8 of his Despatch of 8th April 1861, that the case of the Stores of which an excess of thirteen lakhs in value were reported to have arrived in Madras cannot be ascertained in London.

7. My object in now referring to the past is to shew the necessity of taking measures to prevent similar errors in future: and I would suggest the following for the consideration of Government:—My colleague of the Audit Board (the Hon'ble E. Drummond) agrees with me that it is essential, in order to enable the Chief of the Military Finance Department to exercise proper control over Stores, that he should be put in immediate possession of the Invoices, as received, of all Stores, Military, Medical, Clothing, Marine, &c., sent from England; and in order that I may accurately ascertain what Stores have lately been received. I would request that all Invoices of Military, Medical, Clothing, Ordnance, and Marine Stores received within the last two years, by the Governments of India, Madras, and Bombay, be sent to me with Abstracts thereof, shewing on what Indents the Stores so invoiced were sent out, and distinguishing Departments.

8. I now recommend the following measures for the future:—

That the Account Department of each Presidency should be directed promptly to forward, as received, both to the Controllers and Chief of the Military Finance Department, copies of all Invoices and advices of Stores intended to be, or actually despatched from Home; and that the Invoices should shew the dates of Indents on which the Stores are sent out.

That the Governments of Madras and Bombay be forthwith requested to send in to me Valuation Statements of all Stores still due, or expected from England, shewing for what Departments, and on what Indents due.

That a List of all Indents as yet uncomplied with, shewing for what Departments and the dates on which sent Home, as also a list of all Departmental Indents cancelled, or in part cancelled, be also sent in, shewing dates of Indents and when cancelled, and what measures have been taken to cancel them. The estimated, value of the Stores still due on each Indent should also be stated.

That the amount value of Stores not now required be ascertained, and the Secretary of State promptly apprized thereof, in order, if possible, to prevent their purchase and despatch; and as there is at present no pressing necessity for many Stores being sent to India, a request might be sent Home from the Government of India to detain all Stores purchased or contracted for, even if ready for shipment, until calls be made for them from India.

That the Heads of Departments in each Presidency be required to specify the names and quantities of any Stores urgently required, stating the reason why urgently needed, and giving a valuation thereof; and on this statement the Governments of Madras and Bombay will decide on calling for the supplies from England, reporting the same to the Government of India, and communicating the orders to the Military Finance Department.

9. I now venture to draw the particular attention of Government to the great delay that constantly occurs in England in complying with demands made from India for Stores, a delay which long experience convinces me is the cause of great waste of money; *first*, because requisitions are necessarily framed, so as to provide for the contingencies of delay, or only part compliance; and *secondly*, because Stores demanded for some particular purpose frequently do not arrive until after it has been found necessary to make some other arrangement, perhaps purchasing the required articles in the spot at considerable cost.

10. I submit that if Heads of Departments in India are to reduce their demands for Stores to the lowest standard compatible with efficiency, that efficiency can only be ensured by prompt and exact compliance on the part of the Home Government with all demands thus made Unless this be ensured, Officers risk not only their own credit but the interest of the State, by reducing their demands to the extent which I believe to be practicable, and which is now enjoined on them; and I would therefore entreat Government

to press the point of this delay on the notice of the Home Authorities.

11. The importance of shewing in all Invoices of Stores the date of the Indent calling for the supply, and by what Department the Stores were demanded, with a view to prevent confusion in respect to Stores when received in India, should also be brought to the special notice of the Secretary of State; and this record will likewise enable the Government to ascertain that no great delay has taken place in England in meeting the demand. The Secretary of State, in a Despatch to the Government of Madras No 26, dated 29th June 1861, has promised to send priced Invoices for Stationery supplies as for all other Stores; and I beg to urge that this arrangement be attended to, and the Invoices promptly sent out. The Secretary of State for India has also, in a Despatch to the Government of Madras No. 111, dated 7th June 1861, called for an Estimate of the probable quantities of Stores which will be required for service in that Presidency during the year 1862-63 to be transmitted, so as to reach the War Department by the 30th November next. This arrangement will bind the Government of India to take the Stores thus estimated for, and as the War Department will enforce this responsibility, I advise the Government of India to require a Statement of the probable balance of Stores remaining at the end of the current year to be also sent up by the Governments of Madras and Bombay. Moreover, each Head of a Department should be invariably required to make an Estimate, even an approximate one, of the values of all Stores demanded from Home, and this valuation being submitted to the Military Finance Department.

I have, &c.,

Chief of the Mily. Finance Dept.

From the Chief of the Military Finance Department, to the Secretary to the Government of India, Military Department,—(No. 801A., dated Calcutta, 16th September 1861.)

SIR,—I HAVE the honor to acknowledge the receipt of your dockets Nos. 668, 740, 787, and 1209 of 16th, 17th, 19th, and 29th August 1861, accompanying copies of Despatches from the Secretary of State as per margin.

Nos. 127, 263, 268, and 283; the three first dated 24th June, and the last 16th July 1861.

2. Despatch No. 263 intimates the intended embarkation of 728* men and Non-Commissioned Officers of Artillery from England, in order to complete the Batteries and Garrison Companies of the Bengal Brigades of Artillery. Despatch No. 283 authorizes the men of the Brigades of Royal Artillery, at present serving in India, to volunteer for the Troops, Batteries, and Companies of the new Brigades of Artillery formed in Bengal, Madras, and Bombay; and Despatch No. 368, directs (paragraph 5) that no more Batteries of the 11th, 13th, and 14th Brigades of Royal Artillery be sent Home, until the requisite force of Artillery for the permanent Garrison of India shall have been decided upon.

3. The Proceedings of the Madras Government, referred to in the Postcript of my letter to the Financial Secretary, as per margin, shew similarly that Recruits are being sent out to complete the Artillery Brigades; and the instructions in Despatch from the Secretary of State, No 127 of 24th June 1861, give the details for Madras at three Serjeants, eight Corporals, ten Bombardiers, 150 Gunners, 150 Drivers, total 321. I have no doubt that the Bombay Artillery has also been re-inforced, but I have not received from you a copy of the Despatch addressed to the Government of that Presidency, as in the case of Madras.

No 650A. of 16th August 1861, forwarded to Military Department.
No. 651A of 16th August 1861.

4. I have already in my letter† to the Financial Secretary No. 650A., dated 16th August 1861, fully set forth the importance of enforcing further economy in the Military Expenditure of India; and I beg to bring to the notice of Government that there now appears to me to be a favorable opening for carrying out further economical measures in the Artillery Branch, thereby complying with the wishes of the Secretary of State, who, in the printed Financial Despatches laid before Parliament, strongly advises further reductions being made in the Forces maintained in India. The Secretary of State in his place‡ in Parliament also distinctly stated that the reductions in the Military Expenditure had not been carried so far as he could have wished; and judging from the remarks of other Members, the strength of the European Forces in India appears to have been considered by the Secretary of State as large.

† Copy forwarded, and Memorandum No. 651A., dated 16th August 1861.

5. I submit to Government that the most expensive portion of Batteries and Companies of Artillery, namely, the Cadres of Officers are already in existence. In the Indian Artillery alone there are Cadres of Officers for 112 Companies and Batteries, being more than the full number of Batteries and Companies required for the permanent Garrison of India, and in addition there are nineteen Companies and Batteries of Royal Artillery, exclusive of the remaining two Troops of Royal Horse Artillery ordered Home, making a total of 131 Batteries and Companies, or twenty-five Cadres in excess of the Garrison, as fixed by the Despatch No. 18 of 18th May 1861. I therefore venture to recommend that a reduction of the number of Cadres of Batteries and Companies at present serving in India be now effected by sending Home a great portion of the Royal Artillery and allowing the men to volunteer. By this arrangement only the expense of Cadres of Officers will be thrown on the British Government.

6. It has been decided that the establishment of the fourteen Brigades of Artillery of Bengal, Madras, and Bombay, be only completed to 106 Batteries and Companies, instead of 112; but as five out of the six Batteries wanting are in the seven Brigades fixed for the Presidencies of Madras and Bombay, whilst only one Battery is wanting in the seven Brigades of Bengal, I would suggest further that the total number of Batteries of Artillery to be kept for the present wanting to complete be raised to ten out of 112; thus making the number of Batteries wanting in the seven Brigades of Bengal the same as in the two other Presidencies (five) instead of, as at present, only one Battery. This will for the present leave 102 Batteries as the establishment of the fourteen Brigades instead of 112, and, as a temporary measure, I would advise that these deficiencies be supplied by one Brigade of Royal Artillery of eight Batteries being kept in India, thereby raising the Batteries and Cadres to 110 in number, instead of 102; thus allowing of the Cadres of eleven Supernumerary Batteries of Royal Artillery at present serving in India (besides the eight Batteries) being permitted to return to England after allowing the men to volunteer to stay in India. The British Army Estimates shew that England raised one Brigade of Royal Artillery (of eight Batteries) during the Indian Mutiny: and although the retention of this Brigade in India will burthen the Indian Finances, still it may be considered as only giving a fair relief to the British Finances, supposing the financial necessities of England to equal those of India.

7. In my letter to the Financial Secretary above referred to, I stated that the Head-Quarters of the 13th Brigade Royal Artillery had proceeded Home, but I have since learned by the Bombay Army List that the Head-Quarters of this Brigade, although long since ordered Home, are still borne on the Rolls of the Bombay Army; whereby the finances of India are chargeable with three Colonel Commandants, and six Colonels, besides other expenses appertaining to the Brigade. The Head-Quarters of the two other Brigades (11th and 14th) also add to the expenses of India in as great a proportion, so that the total charge for the Head-Quarters and Cadres of the three Royal Artillery Brigades, exclusive of Batteries, cannot be less than seven lakhs a year. Now as all the Head-Quarters could be spared from India, I submit that this is an unnecessary burthen on the Indian finances, which should be removed as soon as possible, and the arrangement now proposed would allow of the Head-Quarters of the 11th and 13th Brigades of Royal Artillery being sent Home, thus considerably diminishing the cost of the Artillery in India, and giving some relief to the finances.

8. The permission conveyed in Despatch No. 283 for men of the Troops and Batteries of Royal Artillery ordered Home to volunteer for Batteries in India, may also be so carried out, as to obviate unnecessary charges both to England and India. I may point out that the large contribution to be paid by India under the agreement between the Secretaries of State for India and for War, as set forth in Despatch No. 90 of 31st May 1861, can only have been fixed with reference to India being relieved, as much as possible, from the payment of passage money, by being enabled to keep up the Indian strength, by means of men in India volunteering to stay in the country; and on carefully perusing Despatch No. 283, I do not understand that the condition on which this volunteering may be authorized, precludes the offer by Government of the usual bounty to men who are willing to remain: an arrangement which is invariably acted on in respect to Infantry and Cavalry Soldiers when called on to remain in India, as explained in paragraph 29 of my Report No. 281 of 20th April 1861. Further, in reference to the expense of sending Soldiers Home, it would be true economy, both for the Government of India and England, to grant a money allowance for remaining in India, in preference to paying the sum of £30 per head for the passage Home of each Soldier. The British Government has to repay to India the sums marginally stated for each man re-landed in England. Now this amount would be saved to the British Government by not sending Home the Artillerymen of Royal Artillery Batteries; and India on her part would save the passage money of £30, minus the small sum given to the Soldier to induce him to remain.

Cavalry ...	31	13	11

9. This measure would also probably be the means of a further saving to the British Government, for if many men were thus induced to volunteer re-enlisting for the Artillery in India might cease for at least twelve months, so that the Recruiting Staff for the Artillery Depôt in England might be broken up, and a considerable diminution effected in the large expenditure calculated to be incurred at Home on account of Recruits for the Indian Artillery, and payable out of the contribution paid by India to England under the agreement set forth in Despatch No. 90 of 31st May 1861. This contribution, I believe, fully provides for Artillery Recruits being kept in Depôt for one year, instead of one-third or one-half of that period, which, I understand, is the time that Infantry Soldiers are to be kept at Drill at the expense of the British Government before being sent to India. The money saving that would result to the finances of England by a year's cessation of recruiting, and supplying trained Recruits for the Artillery in India, would be far greater than the expense to the Home Finances, consequent on sending home the Head-Quarters of Brigades, and surplus Cadres of Batteries of Royal Artillery now serving in India. This recommendation is therefore strongly urged, and on the special ground that late measures have relieved the British finances from many heavy charges to which they are legitimately liable. The European Force now in India is at its present effective strength already in excess of that (subsequently modified) fixed by the Despatch of the Government of India to the Secretary of State, No. 18 of 18th May 1861, for the Garrison of India; and as on the arrival of the Recruits, now on the passage out, the numbers will be considerably in excess of that strength, I therefore submit that Indian finances are entitled to consideration with special reference to the fact, that the British Government have sent men to the extent of ninety Privates per Regiment out to India, instead of retaining them in Depôt and paying for them whilst there kept.

10. I would also earnestly solicit the attention of Government to the importance of endeavoring to diminish, as far as possible, the movements of Troops to and from England, in order to keep down the cost of transport. The discussions on the item of outlay for transport have been very numerous, and several Authorities have remarked on the expensive mode of providing the European Garrison for the occupation of India, and have raised grave doubts as to the propriety of causing the Indian Revenues to bear the cost of moving Troops to and from India. The contribution agreed on as payable by India, under the terms of the Despatch No. 90 of 31st May 1861, specially excludes the cost of passage of Troops to and from India as payable by England out of the contribution, and as the agreement is only to be in force for one year, and then to be revised, it becomes essential to point out that the British Government have the power of increasing Indian Expenditure uncontrolled by the Government of India. The course lately followed at Home of emptying the English Depôts of Recruits by despatching them to India is a good illustration of that power. The Home charges payable by the British Government out of the money contribution paid by India to England are thereby lessened, and not only are the charges in India thus increased, but further by augmenting the number of men in India the amount paid to England by India is largely swollen. The terms on which the contribution is settled are doubly disadvantageous to India by the extra charges for passage and the amount of contribution for which India is liable, and it is therefore necessary to endeavor to prevent all movements which will unduly add to the Indian charges, and cause objections to be urged against the new system.

11. I would therefore venture to urge that the proposition of offering a small bounty to men, Artillery, Infantry, and Cavalry, volunteering to prolong their service in India, may receive favorable consideration; but this may be considered temporary, pending such other arrangements as time and experience may shew to be well calculated to ensure the success of the new system. Under any circumstances, however, I have no doubt that if the data were accessible on which the calculations for fixing the contribution of nearly one Million Sterling is to be paid by India, it could be shewn that these fully provided for the charge for passage money being diminished by men being induced to remain in India; and to withhold this ordinary and unimportant allowance from Artillery-men is to increase the charges on Indian Finances, and is, as I

think, at variance with the agreement between the two Governments.

12. I have also to beg the attention of Government to the instructions in the 3rd and 4th paragraphs of Despatch No. 127 of 24th June 1861 forwarded with docket No. 1209 of 29th August 1861, Timely provision for the right carrying out of the orders may prevent inconvenience and expense, and I suggest that the arrangements to give effect thereto be early made.

13. Since writing the above, I have received by this Mail Parliamentary Papers No. 397, dated 2nd July 1861, shewing that a portion of the Royal Artillery is expected in England, thereby causing an addition to the English Army Estimate. This document shews that the 6th and 7th Batteries of the 13th Brigade and the Head-Quarters of that Brigade, now on the Bombay Establishment, are expected Home, and as the 2nd and 8th Batteries of the same Brigade, on the Madras Establishment, have been recommended by the Government to be withdrawn (*vide* paragraph 5 of letter No. 650A., dated 16th August 1861, to Financial Secretary), I submit to Government that these two Batteries of the 13th Brigade might also be despatched to England, making with the two from Bombay in all four Batteries sent Home.

14. There will then remain only one Battery of the 13th Brigade on the Indian Establishment at Bombay; and as that one Battery has hitherto been kept at Aden, but is now ordered to be relieved by a Bombay Artillery Battery, I suggest that, by its despatch to England, the whole of the 13th Brigade will then have left India.

15. I observe that a large strength of Artillery is expected to be added to the Army in England by these movements; but, as I have already pointed out, a small sum of about one or two Pounds Sterling will induce many of the Artillery-men to remain in India; and as the Government of India will save largely by the measure of only sending Home five Cadres of probably 150 men of all ranks, instead of 1,000 of all ranks, if the Batteries went Home complete, and as England will also be relieved from the charge which they expect to arise from the men returning to Europe, I suggest that this obvious measure of economy be adopted. I have also received a Notification from the Quarter-Master General of the Army No. 1599C., dated 2nd September 1861, that the E. and F. Troops of Royal Horse Artillery are ordered Home from the Bengal Presidency. I do not advise men being called on to volunteer for Horse Artillery service, as the Government of England have to repay to India a much larger sum for each Horse Artillery-man landed in England, than for Foot Artillery-men, and there is on the Establishment of Bengal a very large proportion of Horse Artillery; but still, if one or two Pounds will induce Horse Artillery-men to remain in India, I think the opening should be given the men to stay.

Resolution.— His Excellency the Governor General in Council observes that the Reports on the Military Estimates and the results exhibited therein reflect great credit on the Military Finance Department.

The special attention of the Right Hon'ble the Secretary of State for India will be invited to paragraphs 16 to 24 of the Military Finance Department's Report of the 8th instant, No. 974*a*, as shewing the necessity for the greatest care being taken that the opinion of the Government of India should be obtained on every proposition to send out Recruits or Stores to India before any expense is incurred or contract entered into in England.

With reference to the correspondence noted in the margin of paragraph 24 of the abovementioned Report, His Excellency in Council observes that the letter from the Military Finance Department No. 650*a*., dated the 16th August 1861 (not No. 650, dated 18th August 1861), was forwarded to the Military Department on the 23rd idem, with a remark that the circumstances therein detailed seemed to call for immediate action in the reduction of Military Expenditure, and with the recommendation that early consideration be given to the suggestions put forth by Colonel Balfour. The other letter No 801*a*., dated 16th September 1861, a copy of which accompanies the Report under consideration, being addressed to the Military Department, calls for no particular remarks in this Department at present.

The results detailed in paragraphs 34 to 45 of the Report of the 8th instant are most satisfactory. It is obvious, His Excellency in Council remarks, that economy has been very successfully enforced in the Commissariat Department. Colonel Balfour does not, in the present Report, specify any Officer of that Department by name except Colonel Thomson, the Commissary General of Bengal; but it is known to the Governor General in Council that Major Reddie, Officiating Commissary General, and Major Holdday, Examiner of Accounts, have done excellent service in enforcing regularity in the accounts and in working up heavy arrears, and that it is very mainly by their aid that transactions of a magnitude exceeding any thing hitherto known in India have been successfully closed. Therefore Colonel Balfour is desired to express to these Officers the satisfaction and commendation of the Governor General in Council.

The special attention of the Bombay Government will be requested to paragraphs 47 to 75 of the Report, with the remark that such orders should be issued by that Government as may appear to it to be necessary with a view to carry out the reforms recommended by Colonel Balfour, and to enforce greater economy and a closer

agreement between the Estimates and the actual results in future.

The Governor General in Council has not failed to observe numerous instances, some of them noticed in the present Report, but which have not always been separately reported, either by the Government of Bombay or the Military Finance Department, in which the Government of Bombay has exerted itself with the best effect in promoting economy in the Military Department; and the Governor General in Council desires to express his acknowledgments to His Excellency the Governor of Bombay in Council and to His Excellency the Commander-in-Chief of Bombay for the very substantial aid thus rendered. But it appears from the facts stated, that there is still room for much systematic enforcement of economy and closer departmental control of expenditure in Bombay; and in the completion of what has been commenced the Governor General in Council relies on a continuance of the aid which the Bombay Government has so effectually afforded.

With reference to paragraphs 75 to 80 of the Report, the Governor General in Council tenders his cordial acknowledgments to the Government of Madras for the care, accuracy, and punctuality with which in every branch the Estimates have been framed. In this respect, as well as in practical economy, the Madras Estimate still shews a result more favorable than any other part of India.

On the subject of paragraphs 92 and 93, the Governor General in Council will be happy to receive any specific propositions Colonel Balfour may have to offer. The results reported in paragraph 94 are on the whole very satisfactory.

With reference to paragraph 96, the Governor General in Council requests that Colonel Balfour will be good enough to convey to Mr. Simkins an expression of the satisfaction with which the Government of India has read this testimony to the valuable assistance he has rendered in the preparation and revision of the Estimates now submitted.

To Colonel Balfour himself the thanks of the Governor General in Council are especially due, both for the results reported, which are the fruit of long and laborious exertion in an arduous and important branch of the Public Service, and for the Report itself, which gives a very satisfactory review of the probable working of the Military Finance Department for the current year.

Ordered, that a copy of the above Resolution be forwarded to the Military Finance Department for information and guidance, and for further report on the subject of paragraphs 92 and 93 of his Report.

Also, that copies of the present* papers and of this Resolution be forwarded to the Governments of Madras and Bombay, respectively, with a request that every possible aid may be given to ensure the Estimates due on January† next being sent in as complete and as punctually as possible, after careful revision, by every Officer and Department who has any thing to say in regard to the sums to be fixed.

Government of the North-West Provinces.

From Lieutenant-Colonel J. D. Campbell, Superintending Engineer, 1st Circle, North-Western Provinces, to Lieutenant-Colonel W. E. Morton, Officiating Secretary to Government, North-Western Provinces,—(dated Meerut, the 9th September 1861.)

Sir,—With reference to your Office docket No. 1661A., dated Nynee Tal, the 25th June last, I have the honor to report as follows on the bridging of Nullahs for the Cotton traffic:—

2. In the *5th and 6th Divisions* of the Grand Trunk Road, there are no obstacles to traffic of any kind, and the road from Roorkie to Deyrah, now in course of construction, is not on any line of Cotton traffic.

3. The *Agra and Bombay Road* being a line of Cotton traffic, and important for many other purposes, every effort is being made consistently with the funds available to complete it; as a rule, the worst Nullahs and the worst parts of the road are being first bridged and metalled. From *Agra to the Chumbul River*, about thirteen miles of very sandy road, together with a road through the Chumbul ravines, remain to be completed by raising and metalling. The bridge-work on this portion has been nearly completed (with exception to the ravines), and the two largest streams, the "Kharee" and "Ootungun," are in course of being bridged. From the *Chumbul River to Gwalior* there is no obstacle to traffic of any kind, with exception to the river itself, and a proposal for a Bridge of Boats during the cold season is now before Government. From *Gwalior to Seepree* the "Soonreeka" Nullah is the only one as yet unbridged, but a Bridge over that stream is now in active progress. The road is good. From *Seepree to Goonah* Bridges are being built across all the worst Nullahs, and these will be finished during the ensuing cold season, leaving no difficulties for the cold weather traffic. In short, it may be said that the thirteen miles of road near Dholepore, with the Chumbul ravines on the Dholepore side, are now the only obstacles to traffic from Agra to Goonah, provisions having been made for Boats and Bridges of Boats over the "Kharee," "Ootungun," and "Chumbul" Rivers during the months requiring them.

4. Between *Goonah and Biourah* (where the portion of the Agra and Bombay Road belonging to this Circle ends) a great many Bridges are still required, though many have been built. The worst Nullahs have, however, been either bridged or paved, and there is little real difficulty for the cold weather traffic, with exception to the usual week of rain, during the month of December or January, when the black soil becomes almost impassable for wheels; metalling of this Section of road has not yet been commenced, but every attention will be given to facilitate the Cotton traffic over this portion also as soon as the rains have ceased.

5. This Report has been delayed till I could reply with distinctness in an abstract form, together with inquiries, as to the actual amount of Cotton traffic to be provided for. As yet the Cotton traffic on the Agra and Bombay Road has not been great.

From MAJOR F. W. PINKNEY, C. B., Commissioner of the Jhansie Division, to the Secretary to Government, North-Western Provinces,—(dated the 22nd August 1861.)

SIR,—I HAVE the honor to acknowledge the receipt of your Circular No. 509A., General Department, dated 29th March 1861, and in reply to state as follows.

2. The Military High Road from Cawnpore to Saugor, which has lately been made an Imperial Road, runs through the three Districts of Jaloun, Jhansie, and Lullutpoor by Kalpee, Oraie, Ait, Mote, Jhansie, Babeena Jerrar Ghat, Talbetrut, Lullutpoor, and the Nurhut Pass, and is the main line on which all produce, Cotton included, passes on its way from Saugor and the country south of it, and from the three Districts abovementioned to the Railway Terminus at Cawnpore. This road is quite practicable for wheeled carriages at all times, save *first*, at Jerrar Ghat which is at all times impracticable, carts having to go round by Sirrus Ghat which is now foreign territory having lately been ceded to Scindiah; and *secondly*, for a distance of seventy-three miles from Oraie to Jhansie during the rains; but, as stated above, it has now been made an Imperial Road, and will be metalled and put in thorough order, so it only remains for me to note the principal Feeders to it.

These are in the Jaloun District:—

1*st*.—From Jugmunpoor by Jaloun to Oraie	...	37 Miles.
2*nd*.—From Koonch to Oraie	...	21 „
3*rd*.—From Kotra on Betwa to Oraie		16 „
4*th*.—From Mahona Ghat on Betwa to Oraie	...	16 „
5*th*.—From Chendoout on Betwa to Kalpee	...	20 „

These roads are and will continue to be annually repaired after the rains by the Road and Ferry Fund Committees, and save in the rains, when the soil being black they are nearly impracticable, laden wheeled carriages can pass along them at the rate of two and a half or three miles an hour. To the above principal Feeders there are of course several other subordinate ones which, however, it is unnecessary here to mention.

3. The Jhansie District to the west of the Betwa is so narrow a slip, bordered on the west by Native States, and on the east by the Betwa, that there are no principal Feeders to it, every man taking his produce, &c., to the nearest point on the high road, which is seldom more than eight or ten miles distant. In the Jhansie District east of the Betwa the principal Feeder is the line of road from Mhow Raneepoor by Pundwaho and Goorserai Tokotra on the Betwa (50 miles) where it joins the Jaloun Feeder No. 3. Considerable attention has been paid by the District Officer, Mr. Daniell, to this road; lately it has been new lined, so as to avoid Native States, and a comparatively large portion of different local funds have been devoted to its construction, which will be pressed on as much as possible. The subordinate Feeders in Jhansie East of the Betwa do not require mention.

4. In the Lullutpoor District the principal Feeders to the high road are—

1*st*.—From the Betwa towards Chundeyri to Lullutpoor	...	10 Miles.
2*nd*.—From Banpoor to Lullutpoor	..	25 „
3*rd*.—From Morowra to Lullutpoor		40 „
4*th*.—From Reetghat by Palee to Lullutpoor	...	30 „
5*th*.—From Kotra Ghat on Betwa to Lullutpoor	...	10 „

All the above roads are practicable for laden wheeled carriages, save during the rains, and are annually repaired from the local funds. As in the case of the other Districts there are many subordinate Feeders.

5. Very little Cotton comes north from Saugor, and hardly any is exported from the Lullutpoor and Jhansie Districts. From the Jaloun District, however, a considerable quantity crosses the Jumna.

6. In the Humeerpoor District there are two main lines, both unmetalled, and for the most part unbridged. The western one runs from the Cantonment of Nowgong by Jeitpoor, Keitha, Roat, Jelalpoor, and Betree to Humeerpoor, with a branch from Roat forking near Gobind into two and meeting the Jaloun Feeders, No. 4 and No. 5, on the Betwa, the eastern line runs from Nowgong by Sirinugger, Mahoba, Kubrae, Moudha, and Soomairpoor to Humeerpoor.

7. The principal Feeders to the western line are—

1*st*.—From Kasheepoor on the Dessan *vid* Beyda Lokeitha	...	18 Miles.
2*nd*.—From Motikutra on Dessan to Roat	...	13 „

Those to the eastern line are—

1*st*.—From Banda to Moudha	...	23 „
2*nd*.—From Roat *vid* Mooskarra and Kounaitha to Moudha	...	40 „

This last, however, may also be considered as a principal Feeder to the western line according to convenience. All the above Feeders are annually repaired from the local funds, and, save in the rains, a laden wheeled carriage can pass along them at the required rate. Besides the above principal Feeders there are other subordinate ones.

8. With reference to your paragraph 5, I have to observe that it does not appear to me necessary to open out any new lines.

9. As regards paragraph 6, now that Government has made the main line from Kalpee to Saugor an Imperial line, no further assistance is required from it in the three Districts of Jaloun, Jhansie, and Lullutpoor. In the Humeerpoor District, however, I think the line from Nowgong by Mahoba and Moudha to Kubrae and thence to

Banda should ultimately, when the finances will allow of it, be made an Imperial line also. A rough Estimate of the cost has already been submitted to Government in my letter No. 302F., dated 20th March 1861, reporting on the two proposed main lines of this Division.

10. Although the road from Kalpee to Cawnpoor is out of this Division, yet, as it is the continuation and end of the Military Imperial Road from Saugor, I trust I may be allowed to call attention to the very great want of Bridges over three rather considerable streams which traverse it, which causes great delay and inconvenience, especially in the rains.

11. The Deputy Commissioner of Jaloun, Major Ternan, has proposed an Iron Tramway from Kalpee to Cawnpoor; if constructed it would doubtless be most convenient and advantageous, but as yet we have no reliable data shewing the amount of traffic along the road, and until such are forthcoming, and a rough Estimate of the probable profits procurable, of course no such expensive work could be taken in hand. Now, however, that the Kalpee and Saugor Road is an Imperial one, the Ferry and Bridge at Kalpee will, in all probability, be made over to the Public Works Department, and if so, accurate Returns of traffic, and consequently good data, will be attainable during the next two years or so.

From W. D. DENT, Esq., Executive Engineer, 1st Division, Rohilcund Imperial Roads, to LIEUTENANT-COLONEL W. E. MORTON, Officiating Secretary to Government, North-Western Provinces, Public Works Department,—(dated the 20th September 1860.)

SIR,—I BEG to submit for your persual the following notes and ideas which have presented themselves to me, thinking that the importance of the subject will be a sufficient excuse for the liberty I take in so doing.

2. The development of the resources of India has for some time past been a matter of the deepest concern to all well-wishers of the Empire, and it is agreed by all that this development mainly depends on the establishment of a better and increased means of communication. It can also hardly be doubted that, in the event of another famine, the distress would be much reduced if an easier transport of food from the more fortunate to any distressed portion of the country existed.

3. During my short visit to India I have had time to consider several modes available, and though my observations have, for the mast part, been confined to Rohilcund, yet even that tract is of sufficient importance to form a part in the greater schemes of improvement.

4. Under the head of means of communication, I would notice Railway, Tramways, Roads, metalled and unmetalled, Plankways, and others adapted to peculiar circumstances.

5. *Railways.*—And by this term I allude to Railways proper. Now, whether these parts of India are yet sufficiently advanced or not to profit by them is a question. In America Railways were pushed on in advance of roads, but the cases are not parallel, the countries not similar, the character of the people most unlike, and the means at hand unequal.

6. With regard to the line, the construction of which is at present under consideration. If it is a *sine qua non* that the iron produced in Kumaon is to be the material used for the permament way, then there is no doubt where to begin, as near the Furnace as is practicable, and so work your road and materials hand over hand from this starting point. As a temporary measure, cast iron would probably answer very well until such a time as malleable rails could be procured, and an increased amount of traffic created. It appears to me a mistake to try to construct a rail of cast iron of sufficient section in itself to bear all the weights brought upon it, rather I would say acquire the strength by the combination of the iron, the sleeper, and the ballast, making the iron chiefly to act as a durable surface for the wheels to revolve upon, and trust also to the sleepers longitudinal well framed and firmly beded on the ballast, so that, theoretically, every part of the sleeper would act as "bearing surface." Were the metal made of such a section as to support all the weight itself, the weight (of the rail) would be so great that it would cause much difficulty and expense in transport and handling; and the quantity of meta lso large, that the supply from the Furnaces would not be equal to the demand. The cost also would be considerable. On any sharp curves, or in Stations, I do not consider cast iron of any pattern would answer, but the length of these portions would be inconsiderable.

7. Stations should of course be constructed on the most economical scale, and it aprears to me that shelter is more requisite for the Rolling Stock than for the passengers and goods, as the former are much damaged and deteriorated by exposure to heat and damp, which is not so much the case with the greater proportion of the latter.

8. Further, however, than an experiment, unless sufficient capital and desire can be found for the simultaneous construction of other lines, I would not, as a commercial undertaking, advise the construction of a line from the Kumaon Iron Works. These Works will find quite sufficient employment in turning out iron for other purposes than for rails, and at their present rate of progress it really seems doubtful how long they would be before fifty miles of way could be furnished.

9. A more perferable point to start from seems to present itself at Fyzabad, to which place there is good water carriage, and from thence pursue the direction proposed by Mr. Hardy Wells in his grand national scheme for Oudh and Rohilcund. It is not, however, my wish to discuss routes at the present time.

10. As a commencement, it would almost appear to me advantageous to use only rails of the lightest section, say not more than 40 lbs to the yard, and of a pattern similar to those called contractors' rails. These should be likewise laid on longitudinal sleepers, which would be supposed to take a fair share of the weight to be carried. In Central Europe and Northern Italy a 60 lb rail, fish-jointed, has been found to make a most efficient permanent way, and this I would at once advise, but that I see the great advantage there would be in reducing as much as possible the weight to be conveyed up the rivers. The traffic upon these lines would not be heavy, as the mineral portion would constitute a small item. Cotton grain and other vegetable productions would, I fancy, be the larger item. It has even been found on English lines, where mineral trains are rolling along perpetually, that a very heavy rail does not wear so well as one of moderate size. I am here supposing that small Engines would be used (not over 15 tons' weight), and that the speed would be

moderate. Another advantage which this locality seems to have is its proximity to the Oudh Forests, from which, I presume, the best timber could be procured.

11. On the head of Tramways little need be said, they are neither economically applicable to steam power or to that of oven. They might perhaps be usefully employed over the sandy beds of rivers or on steep inclines near the hills; but, as a general means of communication, they do not appear advisable, at all events where materials to form a metalled road is in any way procurable.

12. *Metalled Roads.*—In many parts of Rohilcund the great drawback to their construction is the want of proper material. Kunkur, which is the most popular material, is not often to be found in many places, perhaps, because not properly looked for, or because hitherto there has been no demand for it. In such places, would it not be well to try a substitute, and the most natural appear to be burned clay, broken bricks, and the debris of the old kilns, which, in some places, is plentiful. The clay should be baked very hard, and, if broken bricks are used, they should be those of the small size which are very often as hard as stone itself. I consider that, wherever Kunkur cannot be supplied upon the road ready for use at a less rate than Rupees 6 per hundred maunds, it would be advisable to try the above substitute, which could generally be burned at any village on the line of road itself; certainly it might be used with advantage on the under stratum of the road, the upper being formed in the usual manner. In the vicinity of the hills, or near the courses of many of the rivers, stone and gravel are to be found; and though river gravel is not a good kind of metal, owing to the smooth surface of the particles, yet by breaking the stones, we, to a certain extent, get over the difficulty. Now, seeing that road material is scarce, it should be a matter of consideration how to economize in its use.

13. On the first class, or Trunk Roads to be constructed, it would appear to me well at first to form the earth-work to the fullest section, but to limit the metalled portion to ten feet, this is ample for one track, on each side of which we should have unmetalled portions eleven feet wide, which ought to be kept in proper repair, and carry the majority of the native traffic. When once the roads are made, the cost of carriage should become smaller, and so Kunkur cheaper, and when the traffic became more developed, it would then be time to widen the road, when, probably, the first new coating of metal would be required. By the adoption of this plan a much larger mileage of road could be annually prepared, and after all, this is the main thing to look to in India.

14. Next as to metalled District Roads; for these I would say eight feet of metalled surface sufficient, with ten feet of unmetalled road on each side.

15. In many cases, however, a common country road would answer every purpose, not as they are now kept; but having once been properly made, they must be watched carefully and repaired regularly, not as is the present custom once a year, or perhaps not so frequently. In making a road of this description, or in repairing an old one, the material must be selected, clay mixed with the light sandy portions, and sand with clay or tenacious soil. I consider that roads in India suffer far more from the dry than the wet season, and during the height of the rains, it would be prudent that the traffic should be as small as possible, the season tending not only to the deterioration of the road, but also to every thing conveyed on it. There are many kinds of soil which, when damp, make really first-rate roads, so that the nearer we can keep the road level with the ordinary land surface the better, of course raising it above flood level and over all swampy places, and making the side trenches regular and continuous.

16. There are, however, some sandy Districts which seem incurable; sand is not a bad material when it is confined in space and not allowed lateral motion. The planting of high grass or other protection from the winds would much improve these portions.

17. On these country roads the same system of section as on metalled seems good, making the centre portion in a more perfect manner than the sides; in many cases it would be advantageous to moisten and rain the earth. Over the whole should be a fair slope so as to allow all the water to run off. To keep these roads in good order there must be a regular staff of laborers, who should be instructed to fill up all the ruts and holes as they appear, and in the centre portion to make these repairs with material well selected, watered and rammed, during the rains, or in high winds, as is natural, all the lighter particles get removed from the road and lodge in the trenches. When repairs are made the men, as a matter of course, take out these portions, or perhaps, even worse, the dead leaves, and put them back on the road. This is to every proper thinking person radically wrong. It should also be the duty of all people employed on roads to endeavor to work the carts equally over all parts of the road and not to allow them to move perpetually in one track.

18 A very formidable obstacle to the proper construction of roads is offered by the rivers. The first expense is generally the least, therefore it seems advantageous to bridge, as far as possible, the streams at once, provided that material is ready, and the preliminary arrangement made before the working season begins; the construction of the wells for the foundations of the piers need not be an expensive operation. Commencing the work at the close of the rains and carrying it down into the actual bed of the river as the water needed, so as to work upon dry land, and contrive, if practicable, to have all the piers above flood level before the setting in of the next rains. Moderate sized brick arches are in most cases, in the long run, cheaper than timber or other material, as the platforms require constant attention and are very liable to become full of holes.

19. On the larger rivers, probably, the system of Boat Bridges is the best, and if the Boats are well made, and the moorings effective, the Bridges ought to remain entire through the floods. For this purpose it would seem to me advisable to have Boats with decks, so that they should not run the risk of being swamped. It would not be a matter of great expense during the dry season to build permanent moorings; small wells with a large iron ring at the top, secured by bolts through the brick-work down to the curb. The wells need not be carried above the ground surface so as to impose any obstruction to the water, but their position should be marked by small buoys similar to those ordinarily used for a like purpose, so that

if accident happened the ring would be readily found.

20. In America "Plankways" have been much and advantageously used, but the expense of timber makes their service in this country doubtful. They might, however, be serviceable in places where the foundation was not sound, or where tracts of deep sand existed. It would not be necessary to use the first qualities of timber or the best workmanship, and provided the traffic were constant, there would not be much fear from white ants.

21. Canals for navigation do not appear advisable in these parts; but on a small scale for distributing the water which is brought down annually by the numerous rivers, they would be invaluable. At very small expense immense volumes of water might be retained from the floods by "damming" up the old river courses; the jheels and tanks which abound, doubtless, the cultivators would readily find a mode of distributing this water when they required it. Much advantage might be gained by the use of pumps, either of the ordinary kind, or those composed of buckets on an endless strap working over two wheels. I am also prepared to suppose that windmills might be advantageous and could be constructed so as to be portable; but a still more simple and ready contrivance would be, a mill worked by oxen after the principle of the machine for threshing, which is just now going out of fashion in England owing to the universal employment of steam power and portable Steam Engines. This machine might be constructed so as to be removed from well to tank as required.

22. It is after all not so much the devising of projects and schemes as the best mode of executing them, which is to be of any real service to this country. The appointment of an Engineer to assist and advise the Commissioners is certainly a great advantage, would it not be well that they should be increased in number so as to give one to each Collector, and that the whole should be under the control of a superior Officer under the Commissioner. It is natural that in each District the Magistrate is the person best acquainted with the requirements, and best able to arrange the supply of labor and material. Not that I would add to his legitimate duties, but as Ex-officio Vice Chairman of the Road and Ferry Funds, he is naturally connected with public works, and probably anxious to keep his Roads and Bridges in the best repair.

23. In the above notes I have avoided all detail and cost of construction, as both these depend on local circumstances. I should, however, be glad to go into the matter more at large if required.

FINANCIAL DEPARTMENT.

No. 1916A.

Nynee Tal, the 14th October 1861.

In an Extract from their Proceedings in the Financial Department, No. 1184, dated the 23rd September 1861, the Government of India have expressed much disappointment at the delay which has occurred in the submission of the monthly Abstract of Receipts and Disbursements for all India, prescribed in accordance with suggestions offered by the Budget and Audit Committee.

2. This delay reflects more or less upon all Officers in charge of Treasuries, without whose separate Abstracts for each month it is impossible for the Deputy Auditor and Accountant General to prepare the consolidated Monthly Abstracts and the Quarterly Returns which he is required to render to the Government of India.

3. The Lieutenant-Governor observes with great regret that up to the 9th September 1861, the Abstract Returns from the North-Western Provinces for the month of May even had not been received by the Auditor General of India.

4. A Circular issued by the Auditor General of India under instructions received from His Excellency the Governor General in Council will be shortly communicated by the Deputy Auditor and Accountant General to all Officers in the North-Western Provinces rendering accounts to his Office; and the purpose of the Lieutenant Governor in this Notification is to require the most prompt and constant attention to the instructions and requisitions which the Circular in question will be found to contain.

5. The date fixed for the despatch of the Abstract of Receipts and Disbursements by each Officer rendering accounts to the Deputy Auditor General is the 2nd of the month following that to which it relates; and it is only by the strictest punctuality on the part of the Treasury Officers that the Deputy Auditor and Accountant General will be enabled to comply with the orders of the Auditor General of India, who requires that the consolidated Monthly Abstracts shall be despatched, without fail, on the 25th of each month by the Deputy Auditor and Accountant General, "with a Note," as directed by the Governor General in Council, "of any of the subordinate Returns which ought to have been, but have not been embodied in them."

6. The Lieutenant-Governor is not content that the Financial Administration of the Government of India should be hindered, or that this Government should be brought into disrepute, by want of care or punctuality on the part of Officers in charge of Treasuries in these Provinces. The Governor General in Council observes that "there is no single fact essential to making out such an account (as this monthly Abstract) which is not irrevocably fixed; and which ought not to be recorded under its proper head on the evening of the day on which the account closes." And His Excellency further remarks that the Return required "is a single half sheet of foolscap in a printed form, which ought to be filled by mere copying from accounts finally closed on the last day of every month. No calculation, whatever, beyond a sum in addition, ought even to be required, and nothing but neglect or gross carelessness could lead to an incorrect result."

7. It is the belief of the Lieutenant Governor that whatever may have been the delay which has occurred hitherto, or its causes, the Officers in charge of Treasuries in the North-Western Provinces, now better informed of the great importance which is attached by the Viceroy and Governor General in Council to the punctual rendering of the Abstract Accounts of Receipts and Disbursements, will spare no exertion to fulfil His Excellency's expectations, and to have the Return in question ready for despatch to the Deputy Auditor and Accountant General within a day or two from the close of the month the transactions of which are recorded.

8. The Lieutenant-Governor would rather trust to the zealous exertions of Officers in charge of Treasuries and to their sense of the duty which they owe to the Government they serve than resort to coercive measures, but it must be understood that inattention and neglect will not pass unnoticed or unpunished. The Deputy Auditor and Accountant General has been desired to publish in the *Government Gazette* the Statement which he is required by the 16th paragraph of the Auditor General's Circular to render, making known the names of all defaulting Officers, and also to submit a copy to this Government for information and for such notice as may be thought proper. Repeated default on the part of any Officer will be regarded by the Lieutenant-Governor as constituting a bar to his promotion, and whenever a want of care, or of punctuality, not fully explained and shown to be excusable, may be brought to his notice, His Honor will be compelled, however reluctantly, to have recourse either to the measures of coercion or to the penalties indicated in the Auditor General's Circular above referred to. He hopes that he may be spared the pain of using any such severity.

By Order of the Honorable the Lieutenant-Governor of the North-Western Provinces,

GEORGE COUPER,
Secy. to Govt., N. W. Provinces.

Memorandum on Cotton cultivation in the Province of Pegu in 1860-61.

Area of land under Cotton cultivation in the Plains.	Approximate area of land under Cotton cultivation in the Hills.	Estimated produce of the whole area in cleaned Cotton.
Acres.	Acres.	lbs. avoir.
4,795	12,841	21,16,320

THE Statement in the margin shows the estimated quantity of cleaned Cotton produced in the Province of Pegu in the year 1860-61.

Localities where Cotton is grown.

Cotton is grown on the Islands and on the low banks of the Irrawaddy, situated above the Delta of the River. It is also grown on the Hill slopes of the upper portion of the Province. On the Islands and River bank the seed is sown as the inundation subsides, that is at the end of September. The pods are ripe by the end of March. In the Hills Cotton is sown during the month of June and is gathered in February. In either locality the plant is an annual, though in the hills a small crop is to be had the second year.

Description of Pegu Cotton.

The native Cotton of Pegu has been thus described by Mr. J. Willis in a Report published in the Journal of the Agricultural Society of Bengal, for the first six months of 1856, Page 155 :—

"The fibre is coarse, curly, harsh and rather "short, and is very tenaciously attached to the "seed ; but it is most exceedingly strong, and in "this respect lies its excellence. Its colour, con- "dition and healthfulness are truly good ; and "the seeds are very abundantly enveloped in wool. "Its value in Liverpool in March month 1855, "may be taken at 3½ to 4*d.* per lb.; and in "May month 1855 at 4½ to 5*d.* per lb., if "pretty well detached from the seed, *i. e.* without "much breakage."

Such is the Report on the native variety of Cotton cultivated in Pegu. The produce as entered in the Tabular Statement refers to that variety only.

Explanation of the Tabular Statement.

The area of land under Cotton cultivation in the Plains has been obtained by measurement. That in the Hills is estimated. The average produce of an acre of Cotton plants has been estimated at 365lbs. of the uncleaned fibre, which will give about 120lbs. of cleaned Cotton, such as is considered fit for the market. At this rate the total produce of Cotton in Pegu during the past year was about two million one hundred thousand pounds.

Causes of decrease in Cotton cultivation.

The cultivation of Cotton has undoubtedly very much decreased since Pegu became British Territory. This has resulted from several causes—

1*st.* So much English Twist is constantly introduced into the country, that the native looms now are chiefly worked with that.

2*nd.* The export of Rice has so much increased, and the demand for that grain is so constant, that the cultivation of it is more profitable than that of Cotton.

3*rd.* In the northern portion of the Province the Chinese from Yunân settled at Ava, used to purchase Cotton to export overland to Yunân. That market has now been closed for several years.

Present price of Cotton.

The present average price of uncleaned Cotton in Pegu is Rupees 9 for one hundred Viss=365lbs. avoirdupois. The cost of cleaning or ginning one hundred Viss of Cotton is Rs. 5. The average price of cleaned Cotton therefore at present is less than 3*d.* per lb.

Ava Cotton.

Of late a considerable quantity of Cotton has been brought down from Ava and exported from Rangoon to Calcutta and elsewhere. The Cotton from the whole of Upper Burmah used formerly to be exported in large quantities by the River and land route to the Province of Yunân; but that Market has now been entirely stopped in consequence of disturbances in the Chinese Territory. It is estimated that Upper Burmah could supply without difficulty at present from eight to ten million pounds of Cotton annually. The Cotton is considered finer than that of Pegu. The market price for cleaned Cotton is as follows:—

At Ava 30 Rupees per 100 Viss=365lbs.

At Rangoon 47 Rupees per 100 Viss or more than 3*d.* a pound before being shipped. It has been pronounced to be worth 4*d.* a pound in the Liverpool Market.

Introduction of foreign Cotton into Pegu.

Persevering efforts have been made to induce the cultivators in Pegu to grow foreign Cotton. The seed of several varieties has been distributed to them, but they have evinced great dislike to continue the experiment, sometimes the seed has been bad and has not germinated. At others they have found that either from want of proper care, or from the soil being unsuitable, the return has not been so great as the native seed would have afforded. Then there is no certain market for the small quantities of foreign Cotton produced. At present the improvement of Cotton cultivation, or the introduction of a superior Cotton into Pegu, through the unaided efforts of the present cultivators, appears hopeless. Many of the Peasants have the plant, the Pernambuco variety particularly, in their gardens as a curiosity, but are not inclined to cultivate it as a regular agricultural product.

Experiments in Cotton Plants by Dr. Brandis.

Experiments in growing foreign Cotton have been made by the Superintendent of Forests, Dr. D. Brandis. During the year 1860-61 plants raised from New Orleans seed gave the best return, equivalent to 125lbs. of clean Cotton the acre. Texan seed also gave a good return. These experiments will be continued.

Waste land in Pegu available for Cotton plantations.

There are in the upper portion of the Province of Pegu many millions of acres now lying waste, where it is believed Cotton of a quality far superior to any now known in the Province could, under European superintendence, be raised. It is a crop which the people are accustomed to, and to the care of which they might easily be trained; but except under supervision they will not exert themselves to prepare the soil sufficiently, nor take the necessary care with the plants and the picking of the pods, which appears necessary to ensure the production of a long stapled and marketable Cotton.

FOREIGN DEPARTMENT.

No. 1325.

Fort William, the 6th August 1861.

Under the provision of Section CCCLXXXV. of Act No. VIII. of 1859, and Section III. of Act No. IV. of 1860, His Excellency the Governor General in Council is pleased to notify that, from 1st January 1862, Act VIII. of 1859 is extended to the Province of Oudh, subject to the following exceptions and provisoes:—

1. *Section III.* shall be subject to the following proviso:—

Provided that the Judicial Commissioner or any other Court exercising any appellate jurisdiction

within the Province of Oudh may at any time within one year from the time of the passing or execution of any judgment or order by any Court subordinate to the said Appellate Court, call for such judgment or proceedings without any regular appeal or application for review having been preferred against the same, and may, if he, or it, shall see sufficient grounds, revise and alter or reverse or confirm the same. But that in such case, before revising, altering, or reversing any one judgment, or order, the said Judicial Commissioner, or it, shall cause the same notice to be given to the party in whose favor the said judgment, or order, was pronounced; and the same opportunity to such party to be heard in support thereof, and the same proceedings to be taken as if a Memorandum of appeal had been filed by the party aggrieved thereby.

2. *Section XVII.* is excepted, and the term recognized Agent is defined as follows, *viz.*, a permanent servant, partner, relation or friend, whom the Court may admit as a fit person to represent a party, and especially persons holding Powers of Attorney from absent parties, persons carrying on business on behalf of Bankers and Traders, managing Agents of Landholders, nearest male relations of women, and persons ex-Officio authorized to act for Government, or for any Prince or Chief.

3. *Section CXI.* shall be subject to the following limitation: It shall not be obligatory on the Court to decide *ex parte* in the absence of Defendant, but the Court may proceed to compel his attendance under the following Rule, being the Rule now in force in Oudh:—

Rule.—If the Defendant does not appear, it shall be at the discretion of the Court to issue a Warrant to arrest him and detain him till another day appointed for the hearing of the case, and to attach his property.

4. *Section CLXXII.*—So much of this Section as requires that the whole of the evidence shall be taken down in writing in the language in ordinary use is excepted, and the record made by the hand of the Judge under the following Rule, being the Rule now in force in Oudh, shall be taken as a record of the evidence:—

Rule.—An intelligible note of the essential points of the evidence of each witness is to be taken at the time and in the course of oral examination by the Officer, who tries the case, in his own language. The notes must be legible, complete, and properly arranged, must attest the presence of the witness at the time, and mark every postponement and change of time and scene, so that their *bonâ fide* character may be apparent. Every essential point must be noted, but mere surplusage may be omitted. These notes shall be filed and shall form part of the record of the case. Provided that in cases tried by a European Officer, who has not passed the examination in the Native languages prescribed for Assistant Commissioners exercising special powers, the evidence of witnesses shall also be recorded, at length, in their own language.

5. *Section CCV.*—So much of this Section as renders land liable to sale in execution of a decree will be subject to the restrictions, on the sale of land, prescribed by the following Rule, being the local Rule now in force in Oudh:—

Rule.—No Ancestral property in land shall be sold in satisfaction of a decree without the sanction of the Judicial Commissioner, and, before acquired property in land shall be so sold, the permission of the Divisional Commissioner shall be obtained.

No. 993 *of* 1861.—The undermentioned Officers are permitted to proceed to Europe, on leave of absence on Sick Certificate:—

Lieutenant Henry Whitmore Franks, of the late 20th Regiment Native Infantry. } For eighteen months, under the new Regulations.

No. 994 *of* 1861.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 366 of the 14th September 1861, are published for general information and guidance:—

1. "I have received from Colonel LeMessurier, of the Bombay Army, and forward herewith copy of a letter addressed by him to the Adjutant-General of the Army of that Presidency, in which that Officer accepts 'conditionally' the terms of retirement lately offered to Regimental Field Officers of the Indian Army.

2. "It appears that Colonel LeMessurier obtained leave from the Bombay Government in April 1859, to proceed to England on Sick Certificate, and that he elected to take that leave under the new Furlough Rules. He was induced to make this choice (although according to the old Rules he had served his time for a Colonel's Pension, whereas, according to the new, he had served short of that time by fifty days) because he believed that, as a Brigadier on the Staff, he would be entitled to the privilege granted to Staff Officers of retaining his appointment during fifteen months' absence on sick leave.

3. "He now requests that he may be considered as having served the full time for Colonel's Pension, and that he may be allowed to retire on the annuity to which he is entitled under the new Scheme, adding that, unless this be granted, he will of course elect to wait until, in the course of events, he becomes entitled to full off-reckonings.

4. "In publishing to the Field Officers of the Army, the offer of certain annuities, in addition to the Pension to which they might be already entitled, I was actuated by a desire to facilitate the retirement of those among the Regimental Field Officers who might feel that the late changes were calculated to deprive them of some of the advantages that the Service had hitherto held out to Officers in their position.

5. "With this object in view, and considering that the whole proceeding is exceptional and extra-regulational, I am not disposed to insist upon a rigid adherence to the established Rules in the case of Regimental Field Officers who may be entitled to full pay retiring Pension under either the old or the new Furlough Regulations.

6. "I should wish, therefore, that Colonel LeMessurier be permitted to retire on the Pension of a Colonel."

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE *will henceforward be published, weekly or twice a week, according to circumstances, containing such Official Papers and Information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.*

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately, on a payment of six Rupees per annum if delivered in Calcutta, or twelve Rupees if sent by Post.*

No Official Orders or Notifications, the publication of which in the GAZETTE *is required by Law, or which it has been customary to publish in the* GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to as heretofore.*

Public Works Department.

Route from Kamptee to Madras along the line of the Godavery.

From CAPTAIN C. L. R. GLASFURD, Deputy Commissioner, Godavery Districts, to the Commissioner of Nagpore,—(dated the 13th April 1861.)

I HAVE the honor to lay before you a proposal to open out a route from Kamptee and the other Stations of the Northern Division to Madras and the South-East Coast by the Godavery whereby the Public can be conveyed from June till October at a less amount of fatigue, more expeditiously, and at less cost, than by any other route.

2. Steamers ply with ease and safety from June till October, and even later, between Budrachellum and Rajahmundry. Captain Haig, the District Engineer, informs me that a Steamer will be stationed between the first Barrier (close above Budrachellum) and the foot of the second Barrier as soon as the River rises, for purposes connected with the works on the River now in course of execution, but which would be placed at the service of passengers by the proposed route. Therefore, all that is required to open out a River route of nearly three hundred miles is, for the Madras Government to sanction a Steamer being stationed between the Dewulmaree and Enchampilly Barriers.

3. About one thousand tons of Ordnance and Commissariat Stores have been sent up this year to a point on the Godavery near Budrachellum for transmission to Nagpore by land; were a Steamer stationed as suggested in the last paragraph these Stores could be conveyed to their destination at half the amount it will cost to take them in the usual manner; while the Steamer on her return trips might carry passengers availing themselves of the new route. The only amount of land transit would be for a distance of about twelve or fifteen miles over a good road round the Enchampilly or second Barrier. I am prepared to supply at any season whatever amount of carriage may be required for the conveyance of either Passengers or Stores round the Barrier, and I have no doubt that the Deputy Commissioner of Chandah is equally prepared to meet all wants at Dewulmaree at the foot of the third Barrier which is within his jurisdiction.

4. A proposition was made as late as last year by Captain Haig for the conveyance of Government Stores in the above manner, but the Madras Government did not, it seems, deem it expedient to take the matter up Since then, however, consequent on the extension of the British Territory to the left bank of the River, matters are in a very diffierent position and that Government might now view more favorably any proposition for the opening up of the River route.

5. Innovations are so distasteful to Natives, and it will, I fear, take so long for Traders and others to avail themselves of the River transit when the works, now in progress, are completed, that I consider no opportunity, however slight, should be lost, of making a commencement, which though on a small scale and at a trifling cost is still a commencement and will do important service, if it merely makes known the fact that the navigation of the River has commenced. I must however express my conviction that the amount of exports at first will be insignificant, although it should not be so. I believe that at the close of every season a good deal of Cotton remains on hand in the Districts around "Hingunghat" and the adjoining parts of Berar, which is not exported till the following year, simply because it has not been brought up till it is too late to send it to either Bombay or Mirzapore. This Cotton might, however, be taken to Dewulmaree for transmission to Rajahmundry by the River,

and a great saving effected by avoiding the risks and cost of the journey to Bombay. Till, however, the Merchants of Rajahmundry and Madras send their Agents into the field to compete with those of Bombay and Mirzapore Firms, I do not anticipate any great amount of Cotton will be exported by the River.

6. From March till June the intense heat prevents all, but those compelled by duty, undertaking a journey from Kamptee to Madras, while from June till October every route is closed. To Invalids, therefore, it may be said that from March till October from one cause or the other the journey to the Sea Coast in either the Bombay or Madras direction is utterly impracticable. I would therefore press upon your notice the great boon that would be conferred on the community at large, but especially on the European portion of it, by opening up a route by which Madras can be reached from Kamptee in nine days under favorable circumstances, and always in fifteen with a land journey of only two hundred miles; less than the distance from Kamptee to Jaulnah the first Station on the Bombay Road.

7. The Invalids of European Regiments who are yearly sent from Kamptee to Madras might be dispatched by this route at a trifling cost to the State and with greater ease and comfort to themselves.

8. In conclusion, as it appears to me that this route can be opened out at very little cost, and in connexion with the conveyance of Commissariat and Ordnance Stores from Madras to Nagpore, I beg that should this proposal meet with your approval, the Madras Government may be again addressed on the matter and requested to sanction one of the Steamers of the Lower Godavery Districts being permanently stationed between the second and third (or the Enchampilly and Dewulmaree) Barriers for the conveyance of Government Stores, Invalids and others that may desire to avail themselves of the new route. If any decided steps are to be taken in the matter, I trust I may be permitted to point out the advisability of as little time being lost as possible, in order that the Steamer recommended to be stationed in the upper part of the River may be despatched from Dowlaishwarum at the commencement of the freshes.

9. I enclose a Statement showing the stages, distances, cost of passage and time taken between Kamptee and Madras.

From the Commissioner of Nagpore, to the Deputy Commissioner, Godavery Districts, Sironcha,—(dated the 5th June 1861.)

Having had under consideration your letter dated the 13th of April, received on the 3rd ultimo, I proceed to communicate as follows:—

2. The increased facilities for reaching Madras, which the opening of the Godavery River will afford to the Residents in this Territory and in the Districts North of the Nerbudda, at a season of the year when travelling in any direction is so greatly impeded by the bad weather and the bad roads, will be taken advantage of by many I have no doubt, and in time the route you have pressed upon my attention, and which you desire to see at once made available, will be in general use. At the same time I think you have somewhat underrated the difficulties which would beset the sick Traveller for whose special benefit the immediate adoption of the plan is desired were he to attempt during the monsoon to travel by Dâk from Kamptee to Sironcha *vid* Chandah. The Steamer once reached, and the journey to Madras becomes comparatively an easy one; but how to reach the Steamer over miles and miles of black Cotton soil during the rainy season is a question deserving of more consideration than you have given it.

3. Every proposition tending in any way to improve our communications or facilitate ingress to or egress from the Province, whether for Merchandize or Travellers, is entitled to the support of the Local Administration, if upon enquiry there is reasonable ground for expecting a result at all

commensurate with the outlay to be incurred; but, in the present instance, I am of opinion that further information is needed before any such proposition as the one you suggest can, with any chance of success, or even with propriety, be submitted for the favorable consideration of the Government of Fort Saint George.

4. In the first place, I should wish to be informed of the monthly cost at which a Steamer could be maintained above the lower Barrier between Enchampilly and Dewulmaree, with the nature and extent of the means likely to be forthcoming in liquidation of the outlay. In the next place, the nature and extent of the means actually possessed by the Deputy Commissioner of Chandah for facilitating the movements of Travellers from his Station to the Barrier should be ascertained and recorded.

5. During the rains of 1859 a consignment of Copper and small Silver Coin was despatched to Nagpore by the Godavery route. The expense was enormous and the delay was very great indeed. Unless much greater facilities now exist for moving up the River, it would be worse than premature to recommend Invalids to attempt a journey to Sironcha in the hope of reaching Madras quickly. They might have to wait for an indefinite period at the Barrier for the Steamer, afar from improbable contingency, and not very promising to Invalids or Travellers, however robust, at such a season and in such a locality.

From Deputy Commissioner, Chandah, to the Commissioner, Nagpore,—(dated the 6th August 1861.)

I HAVE the honor to acknowledge the receipt of your letter dated the 5th of June, forwarding the copies of the correspondence noted in the margin, and directing me to report the nature and extent of the means actually at my disposal or readily available for facilitating the transit of Travellers or merchandize from Chandah to the point (Dewulmaree) on the River specified by Lieutenant Glasfurd where Steamers may eventually be stationed; and in reply to state the difficulties would be so great in procuring bearers between this and Dewulmaree, that it would be impossible for a sick Traveller to go during the rains by that route to Madras.

Lieutenant Glasfurd, Deputy Commissioner, Godavery Districts, to the Commissioner of Nagpore, dated the 13th April; Commissioner in reply, dated 5th June.

2. Lieutenant Howes, of the Engineers, who passed through this on his way to Sironcha, prior to the rains, proceeded by short stages and experienced much trouble and difficulty in getting along, from the scarcity of bearers. The Village of Dewulmaree consists of about fifty or sixty huts, and is situated about six or seven miles from Ahereo, the chief Village of the Zemindaree of that name. Lutchmee Baee, the Zemindarin, when she was at Chandah lately, told me she could only procure in the whole of her Zemindaree a sufficient number of bearers to carry her "Myana" or light native palankeen, and I believe this to be the case, consequently it would be impossible to post bearers for any one to travel by Dâk. I myself but lately experienced the greatest difficul y since the monsoon commenced in a Dâk journey to and from Nagpore. Sometimes the bearors could scarcely proceed from the slippery nature of the black Cotton soil, and on two occasions under eighteen miles in twelve hours were only accomplished. I was in health and able to urge the bearers to go on, and to cross the numerous Nullahs at the moment the water had run down sufficiently, otherwise I might have been a week on the road, no Invalids could have done this, and I am of opinion, in the present state of the roads with the Nullahs and Rivers not bridged, a sick Traveller could not survive a journey in this part of the country in the monsoon.

3. Carts are procurable on hire at Chandah, either to Merchants or Travellers, but the owners evince great dislike to proceed southward, as the road leads through His Highness the Nizam's country. During the rains the road on this side of the Wurdah is quite impassable, and at all times it is bad from the many feeders running into the River Wurdah.

From Deputy Commissioner, Godavery Districts, to Commissioner and Agent to the Governor General, Nagpore,—(dated the 17th June 1861.)

IN compliance with the instructions conveyed in the concluding part of the 8th paragraph of your letter dated 31st January 1861, I have the honor to report on the best route from Bustar to the Godavery and from Sironcha to Bustar. I know nothing of the road from Chutteesghur to Bustar, but it appears to me that the best route from Chutteesghur to the Godavery would necessarily pass through Bustar.

2. A slight sketch of the route followed by me in March and April, from the Rakapilly Talook to Bustar, and from Bustar to this, accompanies merely for convenient reference; a Map containing all the information I have been able to collect this season will follow as soon as some details now wanting are filled in.

3. In the first place, the Godavery is navigable by steamers and large boats almost all the year round to Koydtha on the right bank, which is 62 miles distant from Dowlaishwarum; opposite Koydtha, on our side of the river is Molkapilly, whence a tolerable road runs to Rakapilly, a large village where supplies are abundant. From Rakapilly to Kullair there are no engineering difficulties to surmount, the road lies at a convenient distance from the River Sevry, the villages are situated at short distances, and supplies to a certain extent can be had, only three Nullahs intervene, and in only one of those, the "Soklair," does water run all the year round. The road passes over an almost level plain, composed of a light friable soil, and only between Rakapilly and Kopulch is there any jungle, the rest of the road is quite clear.

4. At Kullair, which consists of about 60 houses, there is a shop or two, and it is a sort of out-station of the Agents of the two or three Rajahmundry Merchants, who venture into this country to do a little trade opposite in the Bijee Talook of the Bustar State is Manikdeokoonta (commonly called Koonta), where there is a Government Salt Depôt under the management of Captain Haig; Kullair is 28 miles from Molkapilly on the Godavery. About a mile and a half north of Kullair, the Sillair (or Cheelar) River has to be crossed, it is about 150 to 200 yards wide, and and even in the beginning of April it was very deep, and running with some velocity; the only way of crossing is on a "Sanguttee" which has to be brought up from Kullair.

5. Having crossed the Sillair, you enter the Mulkanagiry Talook of the Jeypore State, which is held by a Talookdar named "Sunasya Potardoo" who lives at Mulkanagiry about 60 miles north-east. The road now lies along, and seldom at a greater distance than two miles from the left bank of the Sevry. Between Venaikpore and Kondapilly three or four small Nullahs have to be crossed, and at Katunpilly a large one called the "Pootairoo" in which water runs all the year round. From Katunpilly to Koortee, and thence to Porea, the road is level and could be improved at a slight cost. Porea is a large village containing about 150 houses, and the country around is well cultivated and free from jungle, it stands about two miles from the river; there are two tanks close to the village, the supply of water was abundant and good; all supplies can be had here. Leaving Porea, the road lies over a tolerably level country through a thick jungle to "Botonwarra" where the Sevry is deep, with high and steep banks. There are no facilities for crossing; a "Sanguttee" full of holes which were plastered over with clay was the only thing in the shape of a ferry boat that I could obtain.

6. "Chigpilly" on the opposite bank of the Sevry is a village of the Soonkum Talook. From this to "Rungasagor" or new "Soonkum" the road leads over a more fertile and cultivated country, the villages are larger and more closely situated than they have hitherto been, though the people are shy and invariably desert their villages on the first approach of a Traveller. From this point may be said to commence the limits of the Alaba language; a mongrel sort of tongue in which Oordoo, Gondee and Teloogoo are jumbled up together, with here and there some Muratha In Ramaram, I found a caste called the "Gollars" who understood the latter language. At Ramaram a large Nullah, called the "Mulgeer" Nullah, has to be crossed, when I passed the water was running knee deep. The road now leads past some small rocky hills, the granite here crops out in all directions, and there are numbers of large boulders scattered about; the path in some places passing over large sheets of it.

7. "Rungasagor" is on the bank of the river, and Soonkum is about half a mile inland; at the former, Rungarayoo, the Talookdar of Soonkum resides with his immediate retainers and servants. A large tank, conspicuous from the quantity of the white lotus which covers it, lies between "Soonkum" "and Rungasagor," here supplies are plentiful, though the people are timid. In the whole distance between Chigpilly and Soonkum, the road, except when it passes close to some granite hills, lies over a light yellow soil somewhat sandy, the jungle is thick, but the trees are small.

8 From "Soonkum" to "Sooragatta" the road is good, and the jungle on each side would only require to be cut down, the supply of water, however, is neither so good nor so plentiful as hitherto, but it will be noticed that the road has hitherto led up the banks of the Sevry which is left at Soonkum; at Bakella, there is a tank with a small supply of indifferent water, at Sindghur there is a Nullah with running water, and at Soorgutta there are several springs, leaving Soorgutta a small hill has to be crossed. I travelled over it at night, but I should say it is not more than 400 feet high, the ascent on the south side was easy and gradual, but the path which appeared to lead up a water-course was difficult, owing to the number of stones scattered about, the descent on the north side I found easy, there is a spring on the road side near the foot of the hill.

9. From this point to Ameerghur and Takwarra the road lies over a very undulating country broken up and intersected by many Nullahs, owing to the vicinity of the range of hills on the west, which close in on the road at Takwarra. Ameerghur is a village consisting of about 70 houses, a tank lies close by; Takwarra is but a small hamlet.

10. At this point the road, as far as wheeled conveyances are concerned, may be said to end, for two miles after leaving Takwarra the road leads up the bank of a large Nullah, which has to be crossed once or twice, it then passes over a succession of ascents and descents (the former longer and more gradual, the latter abrupt,) which are small spurs of the main range called the "Tangree Donguree." After a tedious march of about five or six miles, the top of the ghat is reached; the formation throughout is granitic, near the foot of the hills a light red soil overlies this, but near the summit the rocks are bare, and there is little or no soil. Laden carts could not possibly ascend this ghat, although an empty cart of mine was with some assistance and much difficulty dragged over.

11. From the top of the ghat to Sindwarra the descent is easy, and the road lies over a hard red soil, the jungle also is thin; Sindwarra is a moderately sized village. Beyond this towards Bustar the road is even better, for about four or five miles only one Nullah is met with, which, though rocky, is not deep; at about four miles north of Sindwarra you reach the top of a small ghat which has to be descended, the descent is steep, rocky, and difficult, bullocks and horses have some difficulty in getting down "Seetapoor," a large village lies below. This ghat cannot be more than 500 feet high. I found afterwards that a very good cart road leads from Sindwarra to Bustar by "Teerutghur" which avoids the "Seetapoor" Ghat, and by which the descent from Sindwarra is gradual.

12. The plain in which Seetapore, Marunga, and Bustar lie is composed of a light yellow soil, exclusively devoted to the cultivation of rice and sugar-cane; the country appears well cultivated, and is free from jungle, villages are plentifully scattered here and there, and enormous groves of mangoe trees are dotted about, their dark green colour contrasting well with the yellow plain, which, at this season (April), was almost bare of cultivation. In Bustar, and in all the surrounding villages, carts are plentiful, they are of a primitive description, and have all solid wooden wheels, as the soil is singularly free from rocks or stones, they appear to answer pretty well. North of the "Seetapoor" Ghat the formation changes, it is here a light grey slate bearing North-West to South-East at an angle of about 25°, it does not appear fracture finely, the gate-ways and parts of the walls of the Fort of Bustar are built of it, it lies chiefly between "Maringa" and "Seetapore," and I regret that the short stay I made at Bustar did not admit of my examining it, and the formation of the Seetapore Ghat more than cursorily.

13. While I sent my heavy baggage from Kullair to Soonkum, by the road I have just described, I went to visit Beejee, the Head Quarters of Jugga Rajoo, the Beejee Talookdar. I was persuaded to take the left bank on account of Beejee, and the villages on the right bank having been deserted some months before, I travelled as shown in the accompanying Sketch, and judging from what I saw and the accounts given, I should say that the road along the right bank is very similar to that on the left.

14. Taking into consideration the trouble and delay experienced in crossing the Sevry at Botonwara and the Sillair at Venaikpoor, at neither of which places a ford or ferry boat exists, besides the advisability of any road which it may be in contemplation to open up lying within our own territory, not only for the improvement of this part of the Province, but in order to secure due protection to traders and others from the exactions of an Independent State like Jeypore, I am of opinion that the route from Bustar to the Godavery should, after passing Soonkum and Chigpilly, lie along the right bank of the Sevry to Koonta, and thence to Boja Rangoodim in the Rakapilly Talook, where there is a good and shallow ford, and where it would join the route already described.

15. I will not at present enter at length into the productions of the country through which this route lies, as this will form one of the subjects of another Report, but I may mention that rice, wax, googeelum, or what is in Muratha called ral, a resinous substance, extracted from the Surja tree, which is so common in the Bustar country; Kurkakoo, a leaf used for dyeing, and lak with horns, wax, ghee, tobacco, and goor are extensively produced, and but little exported. The little that does find its way out of the country is taken to Kullair by the Inhabitants who sell it and bring back salt from the Government Depôt, or it is purchased by the wandering Agents of a person in Kullair, who, again, is the Agent of a Rajahmundry Merchant, and who generally obtains it by bartering beads and salt for it. Rice, which at Bhudrachellum generally sells from twelve to fifteen seers for the Rupee, and which is considered cheap at seventeen, can be obtained in Soonkum, eighty miles distant, at sixty seers for the Rupee, the finest sort being forty and forty-five for the same sum. To the people employed on the works on the Godavery at Doomagoodim, and for whom rice is imported from Ellore by Government with some trouble, and retailed to them at twenty seers for the Rupee, anything tending to facilitate the importation of rice from Soonkum and Bustar would be a boon; I have just succeeded in obtaining a person, an inhabitant of Soonkum, who is willing to supply Captain Haig's large establishment with rice at forty and forty-five seers for the Rupee, I sincerely trust the experiment may succeed.

16. Teak is abundant in the Beejee, Soonkum, and Mulkanagerry Talooks, but is only found of large size in the two latter. Trees thirteen and fourteen feet in girth, by thirty, thirty-five, and forty feet in length, are by no means uncommon; once a few logs were sent down the Sevry, but owing to the rocks in the bed of the River, and the general velocity of the current, the work is both difficult and dangerous; the chief obstacles, however, are the apathy of the Natives of the country and their fear of strangers and the difficulty of getting any one from the Lower Districts to come into this unexplored country. The splendid teak wood which the late Mr. Tuke, attached to one of the early expeditions on the Godavery, so recklessly cut down, without a thought of how it was to be exported, is still lying at the village of "Akooroo" in the Mulkanagerry Talook, it is described as being 30 hands in length and so large that when one stands beside one of the logs, it reaches as high as the hip. The wood is much if not altogether damaged by exposure. I have obtained a person whom I have sent to Captain Haig, who, provided he obtains assistance from the Talookdars, is willing to attempt to float it down the Sevry next October, without injuring or cutting it down into small pieces. If it can be done, it will be the largest teak wood ever seen on the Godavery, and will probably have the effect of sending timber merchants into the interior.

17. To return to the subject of this Report, it will be perceived that in the whole distance of about 160 miles from Bustar to Koydtha, to which point the Godavery is almost always navigable, the only engineering difficulty that can be so called, is the ghat at Takwarra. There are few obstacles to the construction of a good fair-weather cart road along the remainder of this line, moreover it is self-evident that a route traversing the valley of a large River like the Sevry must be tolerably level and easy. The chief difficulties to contend against are the prejudices and fears of the Natives; those in the interior are fearful of change and innovation, while those on the Godavery, traders and others, dread the fever and climate. The whole of this tract of country is called "Munrum," which, in Teloogoo, means a "bad and unhealthy country," no one enters "Munrum" willingly, and those who are obliged to do so do not fail to make the most of their mishaps and discomforts when they return. I cannot say I found it unhealthy, neither did the appearance of the people generally in the neighbourhood of the Sevry justify such a belief. I had no sickness as long as I kept near the river, but in ten days after leaving Soonkum, I had upwards of twenty cases of fever in camp, several of which are still uncured.

The Natives affirm that as long as they drink the river water they keep well, but that the Nullah water induces fever, whether this be the only reason I know not, but it was most strikingly exemplified in my camp, and Mr. Tuke, the only person who has ever penetrated into this country, notices the same. *Vide* Captain Haig's Report on the Navigability of the Godavery page 69.

18. There is absolutely no trade or communication between Soonkum and the Godavery, except that through Kullair already noted, and to the people of the Rakapilly Talook even Soonkum and Bustar are "terra incognita."

Although there is a Salt Depôt at "Koonta," the beneficial effects of which are keenly appreciated by the surrounding population, yet one of the objects, I believe, which was intended by the establishment of this Salt Depôt, has not yet been obtained, *viz.*, to induce the Brinjarees to purchase Salt there. They prefer purchasing it at the pans on the coast, not only because they get it cheaper, but because they could not dispose of their goods at Kullair, even if they brought them.

The principal reason, however, they themselves told me was this. they go down from the Wyraghur and Chanda Districts every October with a large number of young cattle, the yearly produce of their herds, they cost nothing to export, and as they are scarce on the coast, they find ready purchasers for them, with the money thus obtained on the spot they purchase Salt, and loading their Bullocks wend their way back.

Few Brinjarees frequent the route described, and these do not go beyond the Soonkum Talook or ever cross the Talewarra Ghat.

It appears to me that the difficulty will be not to make a road, but to create a trade in these wild parts.

19. The opening up of a communication between Soonkum and the Godavery would be attended with beneficial results, and I do not consider that beyond determining upon the best line, the services of an Engineer Officer would be necessary, the road from Soonkum or rather Soorgutta to Sindwarra would probably require more attention and care.

There are no carts in the Bhudrachellum and Rakapilly Talooks, and they are not met with till the Talewarra Ghat has been crossed.

20. I will now describe the road from Bustar to Sironcha, I have heard that another does exist down the valley of the Indrawutty River and along its banks, but I have not been able to obtain any reliable information regarding it, and although the country through which it passes may be more level, yet the route I am about to report on, and which was followed by me in April, when returning to Sironcha, is much the shortest and most frequented. I have every where experienced difficulty in obtaining information on all subjects, especially regarding the country, its productions, and their value, this is chiefly owing to the disposition of the people, and partly to the fact that, except within the circuit of a few miles around their own villages, many of them are really ignorant of the rest of the country.

21. The road branches off from Marunga to Durkuree, there are hardly any villages on this stage, the people having retired to some distance on either side, to avoid being pressed as coolies, for, by persons frequenting the road, of whom there are a good number between Bustar and Dunteewarra, the road to within a short distance of Durkuree is quite practicable for carts, near Durkuree a small hill has to be descended, but carts do pass this with a little assistance. At Durkuree there are a few chuppers built by the Rajah when on his way to Dunteewarrah, the village itself is at some distance. The country hereabouts is hilly, and the formation is sandstone, exceedingly hard and coarse grained, and bears marks of having been subjected to igneous influence. Leaving Durkuree a small ghat has to be crossed, after which the road leads between two small hills through a narrow ravine till it enters on tolerably level ground, it then continues good to about eight miles from Dunteewarra where a small ghat has to be crossed. The ascent on the eastern side is steep and difficult, the descent on the western is over one sheet of rock, and it is with difficulty that a horse can be led down. Dunteewarra appears in a plain to the west, which extends beyond it to the foot of the Beyla Dela Hills, which rise high and abrupt, but are somewhat smaller and more broken towards the North-west, in which direction they extend till they are lost in the distance; an intervening hill shuts out the view of this range towards the South-east. From this ghat to Dunteewarra the road is easy and good, and the jungle thin. Dunteewarra is a large village at the junction of the Sunkunee and Dunkunee Rivers. It has gained its present size and importance from the Temple here sacred to Dunteshwaree, the household Goddess for many generations of the Rajahs of Bustar.

The banks of both these streams are very high and steep, and the flood marks remarkably high. Considering the short distance they flow, (not more than forty and fifty miles,) the depth of water at the highest flood cannot be less than seventy feet. Supplies are plentiful here; the village is under the management of the Poojaree or Head Priest. After crossing the Dunkunee, which is knee deep in the hot weather even, the road leads for about eight or nine miles in a North-west direction till the foot of the Pass over the Beyla Dela is attained; the hills appear about 900 or 1,000 feet high at this point: the ascents on the eastern slope is by no means abrupt or difficult, the descent on the other side is steeper, but some 200 or 300 feet less; the valley into which the road leads is high and watered by a Nullah, with a strong stream of water. Niltoo, a small village, is situated near the foot of the ghat, and several other small hamlets lie further up the valley. Leaving Niltoo the road crosses the same Nullah twice, and keeps along the foot of a small range to the right hand for about four or five miles, when it turns suddenly to the westward, and after ascending gradually for about a mile, or a mile and a half, it descends a ghat about 500 feet high by a tolerable road into the plain; at the foot of the ghat is a stream of clear running water, and about five or six miles beyond to the west lies Gongeela, a small village, where supplies can be had. From Gongeela to Bopalputumun, and thence to Sironcha, the road is practicable for carts. Two Nullahs have to be crossed after leaving Gongeela, before reaching Gungaloor, which is a large village. The Nullahs are not difficult, both flow from South to North. From "Gungaloor" to "Veejapoor" the road lies over a level country and through small jungle. Veejapoor is a large village under "Oodey Dewan," who is not considered a Talookdar by the Bustar Rajah, although the Dewanship is hereditary. At Gongeela the Gondee and Alabah dialects cease, and Teloogoo is the language of the people. After leaving Veejapoor, the road runs almost due North for about two miles when, it turns to the South-west and descends a small ghat by a very easy decline. The ghat is practicable for and used by carts; if the jungle on each side were cut down, and the loose stones removed, the road would be good enough for all purposes. After descending this, the road to Mookinar is good. About right west of Mookinar a small ghat of about 400 feet high has to be descended, but it is easier than the one at Veejapoor; after descending this, the road lies over an easy plain to Muddair, a village of some local importance, and thence to Bopalputumun, the chief town of the Zemindary of that name; at both these places supplies are plentiful, both for man and beast; at each village there are large tanks. From Bopalputumun the road I travelled lay over a level country, partly

cultivated by Nellunpilly and Lingapoor to Gungaram on the Indrawutty.

Here, as in all other parts of this uncivilized country, there are no facilities for crossing the rivers beyond a fisherman's Sanguttee, which, in many instances, has to be brought up or down the river a few miles. Ramashgoodium, which lies opposite Gungaram, is in the Sironcha Talook, and is but small village; hence the road to Sironcha, which is thirty-five miles south-west, lies through a dense jungle, and over a sandy soil with only one or two large shallow sandy Nullahs. The jungle here, as is the case still on all the roads around Sironcha, is thick and almost impossible for a person to pass through on horseback at night, owing to the protruding thorns and branches.

22. The natural productions of the country are neither so varied nor so valuable as those between Bustar and the Godavery. The country is wilder, less populated till Veejápoor is reached, and neither well nor extensively cultivated; the road from Bustar to Gongeela may be said to lie through one dense jungle. Rice at Muddair and Bopalputnmun averages forty-five seers for the Rupee; lac, wax, and horns are abundant, and a little iron; the people are, if possible, wilder than those near the Sevry, especially those near the Beyla Dela; they are however a finer race, and appear stronger, larger and healthier.

No Tandas of Brinjarees nor any traders frequent this route throughout; there is some little traffic between Muddair and Chinoor, but although traders get as far as Veejapoor, they never venture across the Beyla Dela. The total distance from Bustar to Sironcha is about 170 miles, and it is only from Durkura to Gongeela that it is impracticable for carts; this portion might be rendered practicable for laden cattle at a slight expenditure.

23. I am not aware whether it is in contemplation to have two lines of communication from Chuteesghur, one direct to Sironcha, and the other to the west point of exportation on the Godavery; or whether the former is intended to embrace all objects. A road from Chuteesghur to Sironcha will not be nearly so important in a commercial point of view as that *vid* Bustar and Soonkum.

It must be borne in mind that the Godavery at Sironcha will not be navigable for more than four or six months of the year, and that at the very season when all the roads to and from the interior will be impassable. On the other hand, the river is already navigable to Koydtha for about ten or eleven months, and will no doubt, when the works are completed, be so throughout the year.

No. 2005.

The 4th November 1861.

The following Extract from the Proceedings of the Right Hon'ble the Governor General of India in Council, in the Home Department, under date the 4th November 1861, is published for general information:—

Read a letter from the Secretary to the Police Commission, No. 221, dated the 12th ultimo, submitting for consideration a Memorandum regarding the proper manner of adjusting the charge for Police furnished as Watchmen to Public Offices and Departments, together with a letter from the Chief of the Military Finance Department, intimating his concurrence in the proposal contained in the Memorandum.

Resolution.—The Governor General in Council approves of the plan proposed in Lieutenant-Colonel Bruce's Memorandum, and is pleased in conformity with it, to pass the following Rules, and to direct that they be generally adopted throughout India:—

1. The Chief Officer of Police in any District or Town who is required to supply any Public Department or Office with Police shall charge to such Department or Office the actual pay of the grades furnished, with an additional charge of ten per cent. on the amount of the Bill towards the expense of European supervision, cost of Arms and Accoutrements, Clothing, &c.

2. Bills for the cost of the Police supplied shall be presented, at the end of every month, to the Head of the Department or Office employing them, and such Bills shall be paid *in cash* on or before the 15th of the ensuing month.

3. The whole of the Police employed and paid, and their cost, will be shewn in the Monthly Police Abstracts, and the sums to be received from the different Departments will be deducted from the Abstract, the balance only being drawn from the Treasury.

4. Cash payments being considered essential as a check upon the Departments employing Police, no Bill for Police supplied, though countersigned by the Head of a Department or Office, should be accepted in the Police Accounts as a voucher for a charge. The Police Abstract, though exhibiting the whole number of the Police employed on whatever duties during the month, will charge for, and will be passed only for the fixed amount sanctioned by Government, cash receipts being shewn for all additional Police supplied to other Departments.

FOREIGN DEPARTMENT.

Camp Allahabad, Friday, 1st November 1861.

On Tuesday, the 29th October, the Viceroy and Governor General admitted, sucessively, to a private interview the Maharajah of Gwalior, the Begum of Bhopal, the Maharajah of Puttiala, and the Nawab of Rampore.

On the arrival and departure of the above Chiefs, the following Salutes were fired:—

Scindia	...	...	19 Guns.
Bhopal	...	...	19 „
Puttiala	...	...	17 „
Rampore	...	...	13 „

On Wednesday, the 30th October, His Excellency the Viceroy and Governor General, accompanied by the Secretary, the Private Secretary, and an Aide-Camp, and escorted by a Squadron of Dragoons, paid return visits to the above Chiefs at their respective encampments.

At each encampment a Royal Salute was fired on the arrival and departure of the Governor General.

This day, at 11 o'Clock A. M., His Excellency the Viceroy and Governor General, as Grand Master of the Most Exalted Order of the Star of India, held an Investiture of the said Order for the purpose of investing with the Insignia of the Order:

1. Maharajah Scindia,
2. Maharajah of Puttiala,
3. The Secunder Begum of Bhopal,
4. The Nawab of Rampore,

who have been nominated and appointed by Her Most Gracious Majesty to be Knights of the Order.

The Chiefs to be invested, and also the Civil and Military Officers of Government at Allahabad, and such others (including the relatives and attendants of the Chiefs to be invested) as were invited to attend, took the places allotted to them in the Durbar Tent, previous to the hour appointed for the Investiture.

The European Officers were placed on the left, and the Native Gentlemen and Political Officers on the right of the Dais, each Political Officer being at the head of his own party and nearest the Dais.

The centre street of the Camp was lined with Cavalry, the European Cavalry being near the Tent, and the Native Cavalry at the lower part of the street. A Guard of Honor was drawn up at the entrance of the Tent to present Arms to the Chiefs as they entered.

The Chiefs on entering the Durbar Tent received the following Salutes:—

Scindia	...	...	19 Guns.
Puttiala	...	...	17 „
Bhopal	...	...	19 „
Rampore	...	...	13 „

At the hour appointed the Viceroy and Governor General, accompanied by the Secretary to Government, the Under-Secretary, and his Personal Staff, entered the Durbar Tent under a Royal Salute.

When the Governor General had taken his seat, and as soon as the Salute was over, the Secretary read in English first, and then in Hindustanee, the Notification of the 5th July

regarding the institution of the Order by Her Most Gracious Majesty.

The Maharajah Scindia was then conducted by His Excellency the Commander-in-Chief, Sir Hugh Rose, G. C. B. and K. S. I., and by the Secretary of the Order to the front of the Dais —the Under-Secretary to Government standing close to the Governor General's right with the cushion bearing the Insignia for Scindia.

The Governor General then rose and addressed the Maharajah as follows:—

"MAHARAJAH SCINDIA—In the name of The "Queen and by Her Majesty's Commands, I here "invest your Highness with the honorable In- "signia of the Star of India, of which Most "Exalted Order Her Majesty has been graciously "pleased to appoint you to be a Knight."

The Governor General at the same time placed the Ribband and Collar upon the Maharajah's neck, and then delivered to His Highness the Star.

The Secretary translated the above address into Hindustanee.

The Maharajah was then conducted to his chair by the Commander-in-Chief and the Secretary.

The same ceremony was observed with each of the other three Knights in succession, each being addressed in the same words.

When all had resumed their seats, the Governor General rose and addressed the newly invested Knights in the following words:—

"MAHARAJAH SCINDIA,
"MAHARAJAH OF PUTTIALA,
"SECUNDER BEGUM OF BHOPAL,
"NAWAB OF RAMPORE.

"I have executed the Commands of The Queen "in investing your Highnesses with the Insignia "of the Star of India. I now desire to congra- "tulate you upon your admission into the 'Brotherhood of that Most Exalted Order—an 'Order declared by Her Majesty to be instituted 'as a public and signal testimony of Her re- 'gard for the Princes, Chiefs, and People of 'India—as a commemoration of Her Resolution 'to take upon Herself the Government of the 'British Territories in India, which Resolution 'was three years ago, on the anniversary of this 'day, proclaimed to all India from this spot;— 'and as a means by which, according to the 'usage of Sovereigns, Her Majesty may be ena- 'bled to reward conspicuous merit.

"It was the gracious wish of The Queen that, 'in the execution of Her Commands, nothing 'should be omitted which might serve to testify 'Her Majesty's consideration for your High- nesses, who have, by your loyalty, constancy, and good service, merited this mark of Her Royal favor, or which might tend to shew respect to Her Majesty's Most Exalted Order.

"I am satisfied that on your parts nothing will be wanting to uphold the high dignity of that Order, and that, enjoying the peculiar honor of being amongst the first selected mem- bers of it, you will continue to set before your fellow countrymen a prominent example of cordial attachment and sympathy between the Feudatory Princes of India and the Crown of England."

The Governor General's address was then read Hindustanee by the Secretary.

The Governor General then moved from his chair to the chairs of the Knights, and shook hands with and congratulated each in succession.

After having done this by the Nawab of Rampore, the Junior Knight, the Governor General left the Tent under a Royal Salute.

No. 1030 *of* 1861.—With reference to General Order by His Excellency the Governor General of India, No. 10A., dated 26th December 1860, the following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 386, dated 30th September 1861, are published for general information:—

PARA 1. I have received and considered in Council the 11th paragraph of your Military Letter No. 81 of the 22nd May, submitting the application of Surgeon Beatson, M. D., that certain leave of absence may be allowed to count towards the period qualifying for promotion, and certain other leave as service for pension.

2. Dr. Beatson took leave to Europe in March 1856, and elected to go under the old Furlough Rules, with a view of securing a three years' residence in Europe, which he thought might be rendered necessary by a protracted treatment of his case.

3. The leave is, under the operation of the Rule laid down in my Despatch No. 397 of 31st October 1860, deducted from the service qualifying for promotion to the rank of Surgeon-Major.

4. Upon a re-consideration of the subject, I observe that the Rule thus laid down bears unequally upon the Officers according as they may be under the old or new Furlough Rules, and I have resolved, therefore, that Medical Officers, under whatever Furlough Rules they may be placed, shall be allowed to count, towards promotion to the rank of Surgeon-Major, two years of their Furlough in Europe (in addition to all leave in India).

5. The Rule is to take retrospective effect from the date of receipt in India of my Despatch No. 397 of 31st October 1860.

6. Dr. Beatson's request to be allowed to count as service for pension his leave to Simla, taken in 1846 and 1847, cannot be complied with.

Lucknow, 5th November 1861.

Notification.—This day, Tuesday, at 1 o'clock P. M., the Viceroy and Governor General received the Talookdars and Chief Landholders of Oudh, to the number of one hundred and eighty, in the Lall Baradurree at Lucknow.

After the Talookdars, the Civil and Military Officers of the Station, and the others who were invited to attend had assembled and taken the places allotted to them, the Viceroy and Governor General accompanied by his Staff entered the Durbar and took his seat on the throne under a Royal Salute.

When Salute was over the Talookdars were presented one by one to the Governor General and offered Nuzzers which were touched and remitted.

Maharaja Maun Sigh, on behalf of the Talookdars, then presented an address in English and Hindoostani to the Governor General, together with a copy of certain Resolutions arrived at by the Talookdars relative to the suppression of Female Infanticide in Oudh.

The English address, which was as follows, was read aloud by the Secretary:—

"To THE RIGHT HONORABLE CHARLES JOHN EARL CANNING, VICEROY AND GOVERNOR GENERAL OF INDIA.

"MY LORD,—Owing to the misrule of former Dynasties which swayed the sceptre of Hindoostan, many pernicious and sinful practices got into vogue, that are disapproved by reason and condemned by justice and humanity. Among these practices Female Infanticide is one which long disgraced the annals of this land. Though, my Lord, we the undersigned had long been aware of the heinousness of this crime, the baneful effects resulting therefrom, and the sinful light in which it is held by religion, yet owing to the unsettled state of the rule we lived under, and the constant apprehension we entertained for the safety of our life and property, we had not leisure, my Lord, to devise plans for its prevention.

"Now that it has pleased God to entrust the destinies of Oudh into the hands of Her Most Gracious Majesty Queen Victoria, and that our life, properties, and liberty are guaranteed to us by British Laws, we, the undersigned Talookdars, &c., of this Province, have had time to devote our thoughts towards the removal of evil usages, and towards other matters appertaining to our social and moral improvement, and, at a General Meeting of our Association, entitled the British Indian Association of Oudh, held in this City on the 30th ultimo, we unanimously passed a Resolution to the effect, that every Talookdar should take a solemn covenant from his tenants, binding themselves never to commit or countenance, directly or indirectly, Female Infanticide, in any wise whatever, and that in the event of any one violating the covenant, be his rank or condition in life what it may, he shall forthwith be handed over to the laws and excommunicated for ever from the pale of Hindoo Society as a felon and outlaw.

"That to give effect, my Lord, to this Resolution, we passed others, of which we submitted an English translation to the Chief Commissioner, with a request that he would lay it before your Lordship.

"As this, my Lord, is probably the last Durbar that your Lordship, the kind Benefactor of Hindoostan, will hold in Oudh, we respectfully approach your Excellency with these lines to bring to your Lordship's notice the glad tidings that the just and clement policy of your Excellency's administration has among others borne this fruit, which we beg to present to your Excellency, the worthy and noble representative of our adored Sovereign.

"May health and prosperity attend your Excellency wherever choice and circumstances may lead your steps, and rest assured, my Lord, that when we say, May God bless you, our honored and beloved Viceroy, we simply give expression to our hearts' impulse.

"We have the honor to be,

"MY LORD,

"Your Lordship's most obedient Servants,

&c., &c."

LUCKNOW,
The November 1861.

Maharaja Maun Sing then read the Hindoostani version.

The Viceroy and Governor General replied to the address of the Talookdars in the following words :—

"TALOOKDARS,—I receive your address with much pleasure. The object to which it is directed, and the spirit of loyalty and of respect for the Law which pervades it, are very creditable to you.

" The measures which you propose to take for the suppression of Female Infanticide have been laid before me. I approve of them generally, and on the few unimportant points in which modifications may be desirable, the Chief Commissioner will convey to you the views of the Government.

" You have yourselves denounced this crime of Infanticide in words to which I have little to add. Suffice it to say that it is Murder of the blackest dye, the destruction of innocent helpless life prompted by the most cold-blooded and wordly motives, and a destruction so monstrous and unnatural in those who prepetrate it, that the very beasts of the jungle forbear from it.

" This being so, I must warn you against supposing that, in accepting from you an aid which is beside and beyond the Law, there is any compromise on the part of the Government with so hateful a crime. Your aid in searching out the criminals will be most valuable, and your proposal to bring to the support of the Law the severe punishment by social excommunication of those who abet the crime is accepted, because the crime is one which too often baffles detection ;—because it has its root in false social prejudices, which you better than any men can combat ;—because it is done in the dark, in the privacy of domestic life,—and, I grieve to add, not without the acquiescence and connivance of some influential classes of the Community. All means are good against such a crime, and I cordially welcome your assistance. But be assured that if the result of your efforts should not equal your expectations, or if it should be tardy in showing itself, the Law will not be allowed to sleep, but will be enforced to the utmost power of the Government, regardless of everything but the utter suppression of the abomination.

" Talookdars, you have spoken of this spontaneous action on your part against a hidden national crime which lurks amongst your fellow countrymen, as one of the fruits of the justice and forbearance with which you have been treated. I accept it as such. I have told you before, when I did not expect to visit your country again, what ere my aspirations and hopes for Oude ; I have ld you that I never doubted that a generous rule ould make a dutiful people ; I will not further peat what I have once said. But I heartily cept and return your kindly farewell, and I not better repay your good wishes than by exting you to continue in the path of loyalty to r Queen and of duty to the Law in which it is pride to leave you.

One word more. It is very desirable that rcourse between the Talookdars of Oude and Local Government should be facilitated ; you derive benefit from the wise and friendly ils of the Chief Commissioner, and he will advantage in frequent communication with you. I have therefore authorized Mr. Yule to make over to you, for your accommodation in visiting the Capital, the Palace of the Kaisur Bagh, if you should desire to avail yourselves of it."

A Hindoostani translation of the Governor General's address was then read aloud by the Secretary.

After the usual concluding ceremonies, the Viceroy and Governor General left the Durbar under a Royal Salute.

M. and so on, until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th.*—Each lot shall contain five Chests.

5*th.*—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever, attending such re-sale, shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per Chest	*Deposit.* Rs. 200 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	„ 300 „ „
Ditto of Rs. 1,600, but less than Rs 2,000	„ 400 „ „
And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.	

6*th.*—The Promissory Notes taken on the day of Sale under the last mentioned Condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th.*—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th.*—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th.*—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th.*—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th.*—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th.*—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent at any time during the Sale to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot, and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper, provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession at the same price and under the same conditions any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue.

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz.* two of the season's provision under sale and two of the previous season will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue, but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale, provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares as above estimated will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article 6th.—"With regard to the Trade in "Opium, it is agreed between the high contracting Parties that at each of the periodical Sales "of that article, there shall be reserved for the "French Government and delivered upon requisition duly made by the Agents of His Most "Christian Majesty, or by the Persons duly appointed by them, the number of Chests so applied for, provided that such supply shall not "exceed three hundred Chests in each year, and the "price of the same shall be determined by the average rate at which Opium shall have been sold at "every such periodical Sale, it being understood "that, if the quantity of Opium applied for at "any one time shall not be taken on account of "the French Government by the Agents of His "Most Christian Majesty within the usual period "of delivery, the quantity so applied for shall "nevertheless be considered as so much in reduction of the three hundred Chests hereinbefore "mentioned. The requisitions for Opium as "aforesaid are to be addressed to the Governor "General at Calcutta within thirty days after "notice of the intended Sales shall have been "published in the *Government Gazette*."

Financial Department.

Estimates of Revenue and Expenditure of India for 1862-63.

Extract from the Proceedings of the Government of India, in the Financial Department, under date the 11th November 1861.

READ the undermentioned papers:—

I. Estimate of Revenue and Expenditure of India for the year 1861-62, dated 26th April 1861, annexed to Mr. Laing's Financial Statement of April 27th.

II. Statement showing the local appropriation of the above Estimate, dated April 1861.

III. Receipts and Disbursements on account of the Government of India, as shown in the Budget Statement, the Cash Statement, and the Statement of Home charges, dated 1861.

RESOLUTION.—The Governor General in Council desires to draw the attention of all Governments and Administrations, and of all Departments and Officers concerned in the preparation of the Estimates for the coming year 1862-63, to the Tabular Statements noted above, with a view to the enforcement of greater accuracy and uniformity, and of all practicable economy, in the preparation of the Budget Estimates which will be due in January next. Copies of the Tables are annexed for facility of reference.

2. Table III shows the sums received and disbursed on account of the Government of India in each of the great Divisions of the Empire, and under each of those heads which do not admit of being localized. Where it differs from Table II, the latter shows the Province or Department *on account* of which the revenue was received or expended, while the Table III shows that in which the receipt or disbursement took place. Of course, the two can rarely correspond very exactly. But, in considering each great Division of the Empire, it is generally assumed, that if the receipts within its limits cover all the expenditure within the same limits and leave a sufficient surplus to meet a fair proportion of the imperial charges in India, and at Home, such Division or Province is a profitable possession, and *vice versa*.

This is not, if taken with due limitation, an unfair mode of estimating the fiscal value of any large Province. It is not generally more wide of the truth than the more difficult calculation of the proportions in which any large item of expenditure, the Military for instance, takes place on account of the Province in which it is incurred, or on account of other Provinces, and from the ease with which the comparison of local receipts and disbursements is made, it is the more popular and usual mode of estimating the fiscal value of any separate Division and the comparative necessity for greater or less restriction on the expenditure therein. But the data assumed as local receipts and disbursements are not in all cases correct, and the amount required as a fair proportionate contribution to the general expenses of the Empire is in all cases underestimated.

3. In most of the Governments and Provinces, Table III shows that there is an amount of receipt more or less adequate to cover the charges, Military as well as Civil, incurred in that Division of the Empire.

But there are some of the headings for the charges opposite which no corresponding provision is made in the shape of receipts, such are :—

1. Mysore	...	38,46,000
2. Rajpootna	...	7,25,000
3. Central India	...	1,62,04,000
4. Nepal	...	40,000
5. Aden	...	11,79,000
Any receipts on account of these five heads will be found credited under the heading "General and Political—(Government of India.)"		
6. Home Charges	...	6,30,57,000
Total Rupees	...	8,50,51,000

4. Again, there are other headings for the charges opposite which some, but not an adequate, provision is found in the shape of receipts, such are :—

	Receipts.	Charges.	Deficit.
	Rs.	Rs.	Rs.
General and Political .. (Government of India.) (This includes the interest of the Public debt, Rupees 315 lacs, and all imperial pensions and allowances, as well as the expenses of the minor Administrations under the Government of India, and a large allowance for Civil as well as Military Public Works.)	76,36,000	4,26,74,000	3,50,38,000
Post Office ... (To which must be added 18 lacs of service postage omitted in the Estimate.)	46,05,000	55,50,000	9,45,000

Hyderabad and ceded Districts in Berar ...	32,50,000	88,19,000	55,69,000
Total Rs. ...	1,64,90,000	5,81,46,000	4,19,56,000

5. This deficit of Rupees 4,19,56,000 added to the Rupees 8,50,51,000, for which, as shown above, no provision whatever is made on the side of receipts, gives a total of Rupees 12,70,07,000 or more than 12½ millions sterling as the expenditure for which provision must be made from the surplus receipts of the various Provinces and Departments.

In this sum are included all the charges of the Supreme Government in India and of the Home Government in England, Pensions, Interest of the Public debt, and of Railway Capital, Marine charges, and all Military charges which are not localized in the Statement, Post Office, Electric Telegraph, and every other charge of an imperial character.

6. The total income of India for the year, including receipts from all sources (except the two last on the list which are not income) is estimated at Rupees 41,33,01,000, or nearly 41¼ millions sterling; so that the Home and Imperial charges, which have no adequate provision of their own, in the shape of receipts, amount to about 30½ per cent, or about 5 annas in each Rupee of the whole income.

7. It is necessary to bear this in mind, because a habit has of late years grown up of considering that every Province which pays its own local charges, and has some surplus left, however small this may be, is a profitable possession, so far as income and expenditure are concerned; whereas a consideration of the above facts, and of the Table whence they are deduced, will show that, unless a Province has, after paying all local charges, Military as well as Civil, a surplus equal to about 30 per cent of its total income, it cannot pay its rateable share of imperial charges, of the charges of the general Government, of the Railways, Post Office and Electric Telegraph and Marine, of the supply of Stores and Recruits from England, of the Interest of the Public debt, and various other charges which it is impossible to localize.

8. This, of course, is only generally true and can only be applied, even generally, to the larger and more distinct Divisions of the Empire. An isolated possession like Aden cannot be expected to yield, in direct receipts of Revenue, any return at all adequate to its value in a Military, Naval, or Political point of view, and as a necessary link in our communication with Europe.

9. But as regards those great Divisions of India, which have, in former times, maintained themselves as separate kingdoms, and which in size, population and importance equal many of the independent Monarchies of modern Europe, it is very necessary that each Government or Administration should consider not only how far it pays all its own local expenses, but to what extent it contributes the necessary quota towards those imperial expenses which admit of no localization.

10. The first of these Divisions on the list is Bengal, which, with a total local income of more than fourteen millions, is debited with local charges to the amount of less than five and a half millions.

11. Thirty per cent on the receipts in Bengal would give Rupees 4,21,34,400 as its share of imperial expenses.

This added to Rupees 5,36,21,000 of local charges would give Rupees 9,57,55,400 as the total quota of Bengal towards the expenses, imperial as well as local, of the Government of India, leaving a clear surplus of Rupees 4,46,92,000 or close on 4½ millions sterling towards making up the deficiencies of other Provinces.

Some deduction may be allowed from this surplus on account of receipts, which might be claimed by other Provinces, but which find their way to the Treasury at Calcutta, and also on account of charges from which Bengal directly benefits, but which are incurred in other and often in distant Provinces.

Thus the Customs, Salt, and Opium which aggregate 8 millions sterling are in part the revenue of the North-Western Provinces, which might claim some share in the Salt, a rather larger share in the Customs, and a considerable proportion of the Opium revenue of Bengal, for which the North-Western Provinces do not get an equivalent in their immunity from all share of the Marine charges which are entirely borne by Bengal.

12. Again, in the charges, the Military expenditure in Bengal, eighty-five lacks of Rupees, small as it appears compared with that in the North-Western Provinces, the Punjab and Madras, is much of it on account of the Army which garrisons the whole valley of the Ganges and the Punjab.

But on the other hand it must be considered that Bengal is not defended in Bengal. The Troops which garrison and whose pay is disbursed in the North-Western Provinces and Oude defend Bengal from the Hindoostani invasions which, for centuries, periodically laid waste Behar and Bengal and transported the plunder of those Provinces to enrich the Sovereigns and Nobles of Delhi and Agra. The Bombay Army in the Deccan, Malwa and at Baroda, the Madras Army in Nagpore, and the Troops which garrison Gwalior, occupy the Country and Capitals of the Mahrattas, who, a hundred years ago, but for the growth of the British power, would certainly have desolated, and probably have permanently occupied Bengal.

The Army in Burmah protects Bengal from a power which, within living memory, threatened the invasion of Eastern Bengal, while the Punjab Force not only occupies the country of the latest and most formidable of the Indian Native Military Powers, but watches the Passes through which, for twenty centuries past, the hordes of Central Asia, Persia, and Khorasan have descended to conquer, plunder and found kingdoms in India.

There is, in fact, no great Division of the Empire which does not materially contribute to that peace which permits the Merchant and Cultivator of Bengal to take advantage of those boundless opportunities for enriching himself presented by the luxuriant soil, the teeming and docile population and the unequalled facilities of water carriage, which Bengal enjoys.

13. Still, after making every allowance for these considerations, there is a larger proportionate surplus of receipts as compared with disbursements in Bengal than in any other Province.

14. It has been frequently argued, even in official papers of high authority, that this constitutes an irresistibly equitable claim to a proportionate expenditure in all branches likely to benefit the local interests of the Province. But this is a principle which the Governor General in Council can recognize only to a very limited extent. The several Provinces of British India are united in one Empire under one Government, and there are many considerations other than the principle abovementioned by which the obligation of the Government to incur expenditure in any one Province must be ruled. For instance, the position of Government as the great Land-owner of the Country, involves responsibilities in providing Public Works or Education for the people in some parts of India far more extensive than in a great portion of Bengal, where many of the rights and responsibilities of a Land lord fairly rest on the Zemindar. The comparative urgency of the local wants must also be considered where the means are limited, and Bengal with its network of navigable rivers has less urgent want of roads than Nagpore, where the produce cannot leave the Province for want of means of transport. Moreover, remoteness does not always diminish the direct interest of a Province in a distant work. No part of India is more directly interested than Bengal in the completion of a Railway, which shall connect the Capital with the Western coast, though much of the actual expenditure may be incurred in the wilds of Central India.

15. The duty then of the Government of India in ruling its expenditure is not one of simple arithmetical calculation.

16. There is a forcible illustration of this in the next great Division on the list—the North-Western Provinces.

The estimated receipts are set down at Rupees 5,69,94,000, or somewhat under 5¾ millions sterling, the local disbursements, at Rupees 4,62,61,000, which would leave a local surplus of more than a million sterling. But this will not equal the quota due from the North-Western Provinces, as their share of the general expenses of the Empire. Thirty per cent on the receipts of the North-Western Provinces, or Rupees 1,70,98,200 added to the local expenditure, gives a total of Rupees 6,33,59,000, leaving a deficit of Rupees 63,65,000, or more than half a million sterling.

17. Here there are some exceptional circumstances, such as the ordeal of Mutiny and Rebellion through which the Country has lately passed, and the large Garrisons which are still maintained in Provinces which were so lately the scene of active warfare. But the fact that there is a large deficit must not be lost sight of, for a Government of such extent, so thickly peopled, and of such abundant natural resources as the North-Western Provinces ought, under ordinary circumstances, to be no burden on the other Divisions of the Empire.

18. The case of the Punjab is still stronger. Here the local receipts are set down at Rupees 2,76,79,000, and the local disbursements, at Rupees 4,01,70,700, so that the local expenditure of the Punjab exceeds the local income by Rupees 1,24,91,700, or nearly 1¼ million, and when to this is added thirty per cent on the income or Rupees 8,303,700 as the quota of contribution to the Imperial expenditure, the deficit is raised to

Rupees 2,07,95,400, or upwards of two millions sterling.

19. It may be urged that the Frontier position of the Punjab, and the character of its own population, render an unusual expenditure necessary in the Military Department, and that a great portion of this expenditure is incurred for imperial rather than for local purposes.

20. But, while allowing much weight to this argument, it must be remembered that the excess in expenditure greatly exceeds the cost of any Force which was ever kept up to watch the Sutlej Frontier, when under native rule a formidable army held the Punjab, and was ready at any time to invade Hindoostan. Two millions sterling is greater than the whole Military expenditure in the Madras Presidency; more than double that in Bengal or the Bombay Presidency; and equal to about seven-eighths of the whole Military Expenditure in any two of those Governments. This is far beyond any amount which can be considered requisite to ensure respect for our Western Frontier, and it cannot for a moment be argued that Provinces, exceeding in extent and value as those under the Government of the Punjab now do exceed the whole dominions of Runjeet Singh, should not be able to pay even their own local expenses. Up to 1857 the Punjab contained the greater part of the European Garrison for the whole of the North-Western Provinces. But those Provinces are now amply garrisoned within their own limits, and except what may be needed to overawe the lawless Tribes beyond our Western Frontier, and to command the Passes leading into Affghanistan, there is no present occasion for any Military Force in the Punjab beyond what is needed for purely local purposes.

21. It is desirable that the Government of the Punjab should bring these facts prominently to the notice of every Officer and Department concerned in the preparation of the Estimates. It may be confidently assumed that the country out of which the last Native Ruler raised and maintained, for so many years, a large and powerful Army, and where, during his single reign, large treasures were accumulated, is more than equal to pay its own current expenses under British rules, and the Governor-General in Council is convinced that it is only necessary that the true state of the case should be known to the Lieutenant-Governor and to the able and zealous Officers under him in the Punjab Administration, to ensure their exerting themselves with effect to reduce the local expenditure at least within the limits of the local income.

It is the more necessary to point this out clearly, as it has been usual in Reports on the Punjab finances down to the last Administration Report for 1860-61, to present the accounts in such a form that the general impression is that the Punjab not only pays all its own local expenses, but contributes a large quota towards the general expenses of the Empire, though it is clear from any view of the facts as given in the Returns now under consideration that the Punjab does not now pay more than four-ninths of its own expenses in the sense in which it paid all its own expenses under Native rule.

22. Without going through similar details in each Division of the Empire, the annexed Table* will show that the same remarks apply more or less to each of the other Governments and large Divisions of the Empire, except Madras.

*Table.**

Table.*

23. From its Geographical position Madras enjoys no receipts, and incurs few and insignificant expenses fairly attributable to other portions of the Empire. Thirty per cent of its total income represents an ample contribution towards the imperial and general expenses, and the surplus, close upon a quarter of a million, is a *bonâ fide* contribution to meet the deficiencies of less productive Divisions of the Empire.

24. The case of Bombay is more complicated. In the original Bombay Presidency there is an apparent surplus of nearly ¾ of a million, or including Sind, and after providing for the deficit of that Province, the surplus would be about 3,37,000.

But as in Bengal a share in the income from Customs, Salt and Opium collected in Bombay may be claimed as belonging to other Provinces, and the expenditure, especially in the Military and Marine branches, is probably, to a still greater degree, for other than local purposes.

25. Except to show the urgent necessity for the strictest economy which, in many of its details, can be effectually and thoroughly enforced only by the local administration, there is no necessity for pursuing this comparison in the case of the smaller Divisions of the Empire. It will be seen that Sind, Oude, Nagpore, the Burmese Provinces, and the Straits Settlements resemble the Punjab in that none of them produce an income equivalent to their own merely local expenses. Between them they cause a deficit, taking imperial and local charges together, of about one and three quarters millions sterling, making, with the Punjab deficit, a total of rather less than four millions, which have to be provided from the more productive Divisions of the Empire.

26. Some of the cases are exceptional. Singapore, for instance, is of a value to the commerce of

England generally, as well as India, far exceeding the difference between the local receipts and disbursements, and Oude has been held of necessity by a Force larger than is likely to be permanently required, while the local revenue is much short of what may be confidently looked for in future years.

But, as a general rule, it cannot be disputed that Provinces of the magnitude of those enumerated, ought, at the least, to be able to defray all their own local expenses, and to this end the efforts of the Officers in charge of the administration must be incessantly directed.

Each of these Provinces has, in its time, formed an independent Kingdom, and has maintained itself successfully for generations against all neighbouring Powers, save those which aspired to or achieved paramount authority throughout India.

Protected, as they now are, from external aggression, there is absolutely no adequate cause for the Military expenditure, which, in every one of the Provinces named, exceeds what was incurred by the British Government, while the Native Military Power was still in possession of the Province, and is, in some cases, even in excess of what both the British and Native Power combined formerly expended for Military purposes.

In Pegu, which has the Burmese Frontier to guard, the necessity for a strong Military occupation is greater than in an Inland Province in India, but our Army in Pegu has, until lately, exceeded in numbers and in cost that by which the country was originally conquered. This ought obviously not to be necessary.

27. The Governor General in Council is glad to take this opportunity of recognizing the value of the services rendered by Colonel Phayre in giving effect to the suggestions of the Pegu Commission for bringing the local expenses within the local income. Much, too, has been done lately by the Bombay Government towards a like result in Sind. An effectual commencement has been made in Nagpore: and in Oude, the Chief Commissioner is not only aware of the necessity of equalizing the income and expenditure, but sanguine of an early attainment of that object.

The Governor General in Council trusts that an attentive consideration of the facts disclosed by these Returns will not only show the necessity of sustained exertion, but point out the particular items of charge to which such exertion may be most usefully directed.

28. The large amount of Military charges attracts perhaps less than any other the attention of the local Administrations which are apt to consider such matters as beyond their immediate control and only indirectly connected with their responsibilities.

It is true that the general Military defence of the Country is peculiarly and especially the duty of the general Government of India; but there is no Officer in Civil charge of a Province, who has it not in his power to influence the decision of that Government as to the Force requisite to garrison his Province; and apart from the direct influence of good or bad Government on the quiet of a country, every such Officer has constant opportunities of reviewing every question connected with its Military occupation, and has often better means than the Military Commandant of knowing in what quarter reductions of Military Force are possible. It is, therefore, a duty of each local Administration to take the initiative in proposing measures of reduction whenever it sees a possibility of doing so.

29. Separate instructions have, from time to time, been issued regarding every important head of income and expenditure for guidance in the preparation of the Estimates. They need no particular notice here; but there are two branches of charge on which the Governor General in Council is glad to find that the Financial prospects of India enable him to relax the restrictions which, for the last few years, have kept the expenditure rigidly within the limits to which the Government was already pledged.

30. In Public Works the Estimates will be framed to meet the amounts assigned for 1861-62. But to whatever extent the state of the Finances shall permit the Governor General in Council to grant an increased assignment for Public Works, (and the extent is as yet uncertain) His Excellency in Council will be prepared to sanction projects beyond that limit, having for their object the improvement of Roads, or of Irrigation.

As regards Roads the objects to which the Government of India wishes first attention to be directed are—

1*st*.—To perfect the lines connecting the Capitals of India, *e. g.* the Trunk lines from Calcutta to Peshawar; from Calcutta to Madras; from Madras to Bombay; and from the two branches of the Great Indian Peninsular Railway, *viz.* Indore to Agra, and *vid* Nagpore to Mirzapore,

2*nd*.—To perfect the feeders to the Railway system, and

3*rd*.—To facilitate the transport of Cotton.

The claims which will entitle a project of Irrigation to exceptional notice are not such as admit of a general specification, and with regard to great projects the Governor General in Council would be glad to see them entrusted to private enterprize, if there is any chance of their being undertaken, without a guarantee from Government.

Instructions have been already issued through the Home Department to the various Governments and Administrations to prepare a Budget for expenditure on Education. It is not likely that during the coming year the Government of India will be able much to enlarge the existing limits; but it is something to resume the progress which was interrupted by the events of 1857, and in future years it may be hoped that the means at the disposal of Government will be more in accordance with its desire to meet as far as possible the wants of Her Majesty's Indian subjects in this respect.

Ordered, that a copy of the foregoing Resolution and of the Statements mentioned therein be communicated, with a separate Circular letter, to the several Departments, Governments, Administrations and Officers concerned.

Secy. to the Govt. of India.

NOTIFICATION.

BENARES, NOVEMBER 7, 1861.

THIS day at 12 o'clock the Viceroy and Governor General received a Deputation of the inhabitants of the City of Benares at the residence of the Commissioner of the Division.

The Chief Civil and Military Officers of the Station and a Guard of Honor of Her Majesty's 10th Regiment were present

The Deputation consisted of Rajah Deo Narain Sing, Baboo Fateh Narain, Baboo Hurnk Chand, Rai Narain Doss, Baboo Gooroo Doss, and the chief persons of the City, to the number of one thousand.

The Deputation was headed by the Maharaja of Benares, who read and presented to His Excellency the following address :—

"MAY IT PLEASE YOUR EXCELLENCY,

"We, the Maharaja, Rajas, Rais, Baboos, and others, inhabitants of this most ancient City of Benares, beg most humbly to approach your Excellency on this the last occasion on which you will visit this place, to express to you our deep and heartfelt sentiments of respect and attachment. It is not merely with the view of shewing the loyalty and devotion which we deeply feel towards our Gracious Queen, of whom your Excellency is the august representative, that we now approach you, but because we feel that we have a duty to perform towards your Lordship personally, even to express our feelings of reverence and affection for the just, merciful, and benevolent Ruler of our Country at a fearful crisis in its history. Your Excellency, instead of assuming at that time the character of an avenger, which, we confess, we might have justly expected, causing blood to flow even as water in retribution of the fierce and bloody deeds of some of our countrymen, and, unlike previous Conquerors in the History of India, who, with fearless provocation, carried fire and slaughter through its length

and breadth, remembered, in the time of victory and in the plenitude of restored power, that you were the representative of a Christian Government, and extended a merciful and unhoped-for clemency to those who might have looked for extermination ; while at the same time your Excellency fully vindicated the Majesty of outraged law, and upheld the honor and the dignity of the Government confided to your care.

" But our sentiments of attachment and reverence to your Excellency are enhanced and deepened by the reflection that not only you abstained from just vengeance in the hour of triumph, but have been the means of soothing and tranquillizing the anxious " and fearful minds and hearts of millions of Her Majesty's Indian subjects by conveying to them our Most Gracious Queen's beneficent sentiments towards this country, and the assurance that Her Majesty will maintain, protect, and watch over the interests and rights of Her people in India even as she does those of Great Britain ; and your Excellency has already given to this country full and ample proof of the reality of those gracious assurances by bestowing upon, and confirming, in Her Majesty's name, to the Chiefs of Hindoostan, the deeply cherished right of adoption. Your Excellency has thus proved to the World that Her Majesty the Queen, whose Dominions extend from Ocean to Ocean, and on which the Sun ever remains shining, seeks no territorial acquisition, but desires that the Chiefs and Ancient Houses of India, and their descendants after them, should continue to enjoy from generation to generation their hereditary honors and ancestral possessions, which to them and their people are dearer than life.

" Your Excellency has given us further deep cause for gratitude in carrying out the desire of Her Most Gracious Majesty that the exercise of Magisterial power, and a share in the administration of their native country, should be conferred on such individuals whose influence, position, and personal character and services to the State seemed to render them deserving of this high and invaluable privilege.

" We are thankful that your Excellency has been preserved in health and strength to achieve such great important objects, having not only extinguished rebellion and restored order and good government ; but, by your mild, judicious, and generous measures, having also rooted that government deeply and permanently in the hearts and affections of the people of India, you now leave them loaded with their blessings, and carrying away their enduring gratitude ; and, in wishing and praying that your Excellency may reach your native land in safety and live long to enjoy the well-earned honors and rewards bestowed upon you by your Sovereign, we beg to assure your Excellency that your name and the remembrance of your wise and benevolent Rule will ever live in the grateful memories and affection of ourselves and of our children to distant generations.

" We now, with the deepest respect and gratitude, bid you farewell."

" The Governor General upon receiving the address replied as follows :—

" Maharaja, Rajas, Baboos, Rais, and Gentlemen of Benares,

" I am glad to have this last opportunity of visiting Benares, and of receiving your loyal address.

" You have designated your City as most ancient. You might have said that, in addition to its antiquity, it is one of the most populous and wealthy of India ;—that it is the ancient seat of Hindoo learning, and is held very sacred in your religion ;—and that its chief inhabitants are amongst the most influential of the Queen's subjects in Hindoostan.

" The opinions and feelings of such a community must always be matter of special interest and importance to the ruling power in India.

" I thank you for the good spirit in which those opinions and feelings have been expressed.

" I am glad to find that, being yourselves of another religion, you do not hesitate to recognize that mercy is the duty, pre-eminently, of a Christian Government, and that the Government of India has fulfilled that duty.

" I am glad to find that you feel that you are governed with truth as well as with mercy, and I hear with pleasure your free acknowledgment that you have had ample proof that the assurances which you received from the Throne of protection to your rights and interests are a reality.

" You are right in supposing that the Crown of England seeks no further territorial acquisitions in India. Obedience to the Law and fidelity to engagements the Government expects, and will force But England's task in governing India is already large and weighty enough.

"The happiness and contentment of the one hundred and eighty millions of India's own people, and their attachment to the British Crown, are the first great objects in that task. These are the one broad base upon which all individuals' prosperity and security must rest, and without which any man, be he my fellow country man or yours, who seeks by his enterprise or capital to build up his fortune in India, will be building on a quicksand.

"The contentment and attachment of which I speak can be secured only by a scrupulous abstinence from interference with religion;—by a careful protection of all established rights of property, tenures, and interests;—and by an impartial framing and an impartial administration of the Laws.

"The task is, as I have said, a large and weighty one; but I see many signs that it is in course of accomplishment, and the spirit in which the City of Benares has to-day addressed the representative of the Queen is not amongst the least of these.

"Maharaja, Rajas, Baboos, Rais, and Gentlemen of Benares, for your good wishes and kind expressions towards myself, I thank you sincerely, and I bid you very heartily farewell."

His Excellency then took leave of the Native Gentlemen assembled, and, after receiving the Maharaja of Benares in a private audience, left the Station under the usual Salute.

It is not merely with the view of shewing the loyalty and devotion which we deeply feel towards our Gracious Queen, of whom your Excellency is the august representative, that we now approach you, but because we feel that we have a duty to perform towards your Lordship personally, even to express our feelings of reverence and affection for the just, merciful, and benevolent Ruler of our Country at a fearful crisis in its history. Your Excellency, instead of assuming at that time the character of an avenger, which, we confess, we might have justly expected, causing blood to flow even as water in retribution of the fierce and bloody deeds of some of our countrymen, and, unlike previous Conquerors in the History of India, who, with fearless provocation, carried fire and slaughter through its length and breadth, remembered, in the time of victory and in the plenitude of restored power, that you were the representative of a Christian Government, and extended a merciful and unhoped-for clemency to those who might have looked for extermination; while at the same time your Excellency fully vindicated the Majesty of outraged law, and upheld the honor and the dignity of the Government confided to your care.

"But our sentiments of attachment and reverence to your Excellency are enhanced and deepened by the reflection that not only you abstained from just vengeance in the hour of triumph, but have been the means of soothing and tranquillizing the anxious and fearful minds and hearts of millions of Her Majesty's Indian subjects by conveying to them our Most Gracious Queen's beneficent sentiments towards this country, and the assurance that Her Majesty will maintain, protect, and watch over the interests and rights of Her people in India even as She does those of Great Britain; and your Excellency has already given to this country full and ample proof of the reality of those gracious assurances by bestowing upon, and confirming, in Her Majesty's name, to the Chiefs of Hindoostan, the deeply cherished right of adoption. Your Excellency has thus proved to the World that Her Majesty the Queen, whose Dominions extend from Ocean to Ocean, and on which the Sun ever remains shining, seeks no territorial acquisition, but desires that the Chiefs and Ancient Houses of India, and their descendants after them, should continue to enjoy from generation to generation their hereditary honors and ancestral possessions, which to them and their people are dearer than life.

"Your Excellency has given us further deep cause for gratitude in carrying out the desire of Her Most Gracious Majesty that the exercise of Magisterial power, and a share in the administration of their native country, should be conferred on such individuals whose influence, position, and personal character and services to the State seemed to render them deserving of this high and invaluable privilege.

"We are thankful that your Excellency has been preserved in health and strength to achieve such great important objects, having not only extinguished rebellion and restored order and good Government; but, by your mild, judicious, and generous measures, having also rooted that government deeply and permanently in the hearts and affections of the people of India, you now leave them loaded with their blessings, and carrying away their enduring gratitude; and, in wishing and praying that your Excellency may reach your native land in safety and live long to enjoy the well-earned honors and rewards bestowed upon you by your Sovereign, we beg to assure your Excellency that your name and the remembrance of your wise and benevolent Rule will ever live in the grateful memories and affection of ourselves and of our children to distant generations.

"We now, with the deepest respect and gratitude, bid you farewell."

The Governor General upon receiving the address replied as follows:—

"MAHARAJA, RAJAS, BABOOS, RAIS, AND GENTLEMEN OF BENARES,

"I am glad to have this last opportunity of visiting Benares, and of receiving your loyal address.

"You have designated your City as most ancient. You might have said that, in addition to its antiquity, it is one of the most populous and wealthy of India;—that it is the ancient seat of Hindoo learning, and is held very sacred in your religion;—and that its chief inhabitants are amongst the most influential of the Queen's subjects in Hindoostan.

"The opinions and feelings of such a community must always be matter of special interest and importance to the ruling power in India.

"I thank you for the good spirit in which those opinions and feelings have been expressed.

"I am glad to find that, being yourselves of another religion, you do not hesitate to recognize that mercy is the duty, pre-eminently, of a Christian Government, and that the Government of India has fulfilled that duty.

"I am glad to find that you feel that you are governed with truth as well as with mercy, and I hear with pleasure your free acknowledgment that you have had ample proof that the assurances which you received from the Throne of protection to your rights and interests are a reality.

"You are right in supposing that the Crown of England seeks no further territorial acquisitions in India. Obedience to the Law and fidelity to engagements the Government expects, and will enforce. But England's task in governing India is already large and weighty enough.

"The happiness and contentment of the one hundred and eighty millions of India's own people, and their attachment to the British Crown, [illegible] the first great objects in that task. These are [illegible]e broad base upon which all individuals' [illegible]rity and security must rest, and without [illegible]y man, be he my fellow countryman or [illegible]no seeks by his enterprise or capital to build up his fortune in India, will be building on a quicksand.

"The contentment and attachment of which I speak can be secured only by a scrupulous abstinence from interference with religion;—by a careful protection of all established rights of property, tenures, and interests;—and by an impartial framing and an impartial administration of the Laws.

"The task is, as I have said, a large and weighty one; but I see many signs that it is in course of accomplishment, and the spirit in which the City of Benares has to-day addressed the representative of the Queen is not amongst the least of these.

"Maharaja, Rajas, Baboos, Rais, and Gentlemen of Benares, for your good wishes and kind expressions towards myself, I thank you sincerely, and I bid you very heartily farewell."

His Excellency then took leave of the Native Gentlemen assembled, and, after receiving the Maharaja of Benares in a private audience, left the Station under the usual Salute.

TO HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

MY LORD,—HAVING recently had under consideration the subject of the fees which have hitherto been levied on appointments to Offices in India, I have decided on abolishing the fees in question, except in cases where outfit is granted. These latter I propose to retain at present as matter for future arrangement.

2. I have consequently directed that no further levy of such fees shall take place in England, and I have to direct you, in conformity with the same Rule, to discontinue the charging of fees on appointments made from this country of persons in India to Offices in India, to which no outfit allowance is attached.

3. A similar communication has been made to the Governments of Madras and Bombay.

No. 1045 *of* 1861.—The undermentioned Warrant Officers having been reported unfit for further active service are transferred to the Pension Establishment, with permission to reside and draw their stipends in India :—

Conductor James Ross, of the Ordnance Commissariat Department.

Conductor William Prosser, of the Ordnance Commissariat Department.

Apothecary Christopher Corbett, of the Subordinate Medical Department.

No. 1046 *of* 1861.—Third Grade Sub-Assistant Surgeon Bhoolun Mohun Chatterjee, recently appointed to the charge of the Nagpore City Hospital, is permitted to resign the Service.

No. 1047 *of* 1861.—His Excellency the Governor General in Council directs the publication of the subjoined Questions on subjects of general interest, and the Answers given by Government in continuation of those published in Government General Order No. 913 of the 11th October 1861:—

Question 124.—When an Officer of the Staff Corps is placed on the out-of-India rate of pay or on the half-pay List, is he permitted to reside out of India; and if so, will the time so passed count for pension under paragraph 65, *viz.*, two years for one, or year for year?

Answer 124.—Officers on half-pay or on out-of-India rate of pay can reside out of India; but no half-pay service reckons towards pension. Officers out of employ and available for employment will not be put on out-of-India pay.

Paragraph 98.

Question 125.—Is residence in India compulsory on an Officer who is unemployed and on half-pay under paragraph 98?

Answer 125.—Residence in India is not compulsory on an Officer put on half-pay. Such Officer can reside where he likes, notifying his place of residence to Government.

Question 126.—With reference to General Orders No. 332, paragraphs 46 to 48, and No. 807 of 1861, paragraphs 16 to 21, will Colonels (Regimentally or by Brevet) of the Indian Regiments of Artillery and Engineers continue as heretofore to rise to vacancies in the grades of General Officers according to their position in the Gradation List of Officers of the three Presidencies?

Answer 126.—Yes.

Question 127.—Will the name of a Regimental Lieutenant-Colonel, accepting the retiring annuity, be retained in the Gradation List of Officers of the three Presidencies, as well as in the list of Regimental Lieutenant-Colonels; and if so, how will the promotion to the grade of General Officer be regulated on his name coming to the top of the list of Colonels and a vacancy taking place in the grade of General Officers?

Answer. 127.—No; an Officer so retiring no longer belongs to the effective branch of the Service, though his name is retained in Italics in the particular list to which he belonged, to regulate the promotion of those who stood below him in that List. The retired Officer will obtain a step of Honorary Rank, and will have no claim to further Line promotion.

Question 128.—With reference to the decision* of the Secretary of State for India, that the new Furlough Regulations shall not have retrospective effect in the case of Officers brought upon them by admission to the Staff Corps,—an Officer enquires whether a similar ruling will be made in the case of Officers who accepted the said Regulations previous to their admission to the Staff Corps?

Observations on Answer 56, *see* Government General Order No. 799 of 1861, page 7.

Answer 128.—The Rule laid down by the Secretary of State applies only to Officers who, up to the date of joining the Staff Corps, had not availed themselves of the advantages of the new Furlough Rules;—not having enjoyed the advantages of the Rules they are exempted from the disadvantages.

Question 129.—With reference to Her Majesty's Royal Warrant, dated 16th January 1861, instituting the Staff Corps, Clause 2, paragraph 2, and to the Right Hon'ble the Secretary of State's Despatch, No. 315, dated 9th August 1861, paragraph 1, published in Government General Order No. 824, dated 17th September 1861, in which the effect of leave of absence (either on Sick Certificate or private affairs) on promotion in the Staff Corps is defined, *viz.*, "that leave of absence will reckon as part of the period of the General Service required for promotion," provided the full term of Staff duty has been performed,—an Officer states that the answer given by Government to Question 114, published in Government General Order No. 913, dated 11th October 1861, is apparently at variance with the above Despatch; and it appears that "no leave except privilege leave is to reckon towards promotion, except in the case of Lieutenant-Colonels?"

Answer 129.—The answer is not necessarily at variance with the Despatch. It was intended by the Answer to Question 114 that no leave except privilege leave is allowed to reckon in the period of Staff Service required towards promotion, except in the case of Lieutenant-Colonels.

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st*.—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd*.—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd*.—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M. and so on, until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th*.—Each lot shall contain five Chests.

5*th*.—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per Chest	*Deposit.* ... Rs. 300 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	... „ 300 „ „
Ditto of Rs. 1,600, but less than Rs. 2,000	... „ 400 „ „
And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.	

6*th*.—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th*.—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th*.—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th*.—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th*.—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th*.—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th*.—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent at any time during the Sale to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper, provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession at the same price and under the same conditions any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz.*, two of the season's provision under sale, and two of the previous season, will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale, provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares as above estimated will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Government of Bengal.

Supply of Indian Cotton to England.

From MAJOR E. T. DALTON, Commissioner of Chota Nagpore, to RIVERS THOMPSON, ESQ., Officiating Secretary to the Board of Revenue, Lower Provinces,—(No. 1154, dated the 24th September 1861.)

SIR,—I HAVE the honor to acknowledge your letter No. 45 of the 25th June last, calling for further information on the subject of Cotton cultivation prospects in Chota Nagpore.

2. I am, in the first instance, directed to report on what terms grants of waste lands are obtainable in Burhee and Chota Nagpore (Proper ?) The part of Burhee alluded to belongs to the permanently-settled Estate of the Maharajah of Ramgurh. No part of this Estate is at the disposal of Government.

3. On receipt of your letter under reply, I caused the Deputy Commissioner of the District to make inquiries of the Maharajah relative to the terms on which he would be prepared to grant waste lands for the cultivation of Cotton. The replies were very unsatisfactory, and I, therefore, waited till I could have an opportunity of conversing myself with the Maharajah on the subject. After an interview the Maharajah made over to me three documents under his seal and signature, of which the enclosed are translations; and they embody the terms on which, after much explanation from me in regard to the benefit, his property is likely to derive if they were sufficiently favorable to attract European Capitalists; he is prepared to grant leases for the cultivation of Cotton or of Tea and Coffee.

4. Lands taken for the cultivation of Tea or Coffee will be granted free of all rent for seven years on leases for twenty years renewable at the expiration of that period with the lessee. At the expiration of the seventh year the land to be liable to assessment at the Pergunnah rates. The average rent at this rate would not be more than 10 annas per acre, which would be quite an insignificant item in the accounts of a Tea or Coffee plantation. If the land be required for Cotton cultivation, the rent-free term is reduced to three years. If the land applied for contains Villages and cultivated lands, the Maharajah is prepared to assign these to the lessee on very fair terms, and this is a very valuable addition to the terms offered, as the lessee will obtain labor from his Villages.

5. I induced the Maharajah to record the conditions on which he would be disposed to treat with applicants for grants of lands for the cultivation of Tea and Coffee, because I consider that the experiments already made warrant the conclusion that the soil and climate of Ramgurh is well adapted for such cultivation. Tea plants are now growing vigorously near Hazareebaugh and at Ranchee, and excellent Tea has been manufactured at both places.

6. The conditions are not to be regarded as rules which are always to be acted upon; the Maharajah reserves to himself the right of rejecting any application, but I consider him disposed to deal liberally with all Capitalists that may apply to him, and I do not doubt but that, under peculiar circumstances, conditions in some respects more favorable might be conceded. For instance, I think he would concede that, at the expiration of the rent-free period, the *cultivation* only should be assessed, as this was his proposal to me *verbally*. To any scheme of alienating his title in the land the Maharajah is utterly repugnant.

7. As regards the term on which land suited to the above cultivation is obtainable from the proprietors of the permanently-settled Estates in the Lohardugga District, which includes Chota Nagpore, Major Davies, the Deputy Commissioner, says,—"I find that Ryots usually pay for such land

at the rate of 4 annas per beegah" (Ramgurh beegah at the rate of 5¼th as per acre), "the highest rate being 1 Rupee (about Rupees 1¼ per acre), so that a person desirous of a lease for a lengthened period of virgin land might be allowed to take it at the rate of 8 annas a beegah all round, and, I am inclined to think, any quantity of land might be obtained at this rate."

8. In the Palamow Sub-Division we have about 150,000 acres of waste land, more than one-third of which is culturable, the property of Government. This portion of the Palamow Estate is just now at the absolute disposal of Government, and could be leased or granted on any terms that the Government might think fit to accord. It is soon to come under the operations of the Revenue Survey, and I propose to create Jungle Mowzahs, that is, blocks numbered and named in convenient sizes for grants.

9. In Chota Nagpore we have the confiscated Estate of the late Thakoor Bishoonath Sahee, which includes a vast area of waste adapted to almost any kind of cultivation. It is on the Chota Nagpore Plateau from 1,500 to 2,000 feet above the sea level, but it is as yet unsurveyed, and I cannot make even a guess at the extent of land available.

10. Mr. Hurst, the gentleman alluded to in your letter, is already in possession of an Estimate furnished him by the Superintendent of Survey of the probable quantity of culturable waste in three Districts of Division. Captain Thompson gives it as 800 square miles in Maunbhoom, 1,200 in Hazareebaugh, 1,800 in Palamow, and 1,200 in Chota Nagpore, total 5,000 square miles of culturable waste. This would be trebled if we were to take into the calculation the culturable wastes in the Singbhoom District and Tributary Mehals, in all of which Cotton is grown.

11. I append, for the Board's information, extracts of a letter* from Captain Thompson, containing interesting information regarding lands available for Cotton or other cultivation in the Hazareebaugh District.

* No. 465, dated 4th July 1861, paragraphs 6 to 11 inclusive.

12. Captain Thompson draws attention to the high lands in the South and East parts of Ramgurh, running parallel with the Grand Trunk Road and overlooking the valley of the Damoodah. It is proposed to open out this tract by the restoration of the old Trunk Road to the Burrakur as a Railway Feeder, and by a road from Gobindpore on the Grand Trunk Road to Ranchee, the Head-Quarters of the Division.

Translation of a Petition of Maharajah Sumbhoonath Sing Bahadoor, Zemindar of Ramgurh, to the Commissioner of Chota Nagpore,—(dated the 12th September 1861.)

After usual Compliments,

States that he is willing to grant jungle lands for cultivation of Tea and Coffee to approved applicants for a period of twenty years under the following conditions:—

First.—That for the first seven years no rent will be demanded in consideration of the labor of clearing the jungle and bringing the land under cultivation. After the expiration of that period the rent of the cultivated land will be taken according to the Pergunnah rate, and after the expiration of the lease the land will be let in farm again to the holder of the pottah on reasonable jumma according to the Pergunnah rates, provided he shall have discharged all dues.

Second.—Should the grant applied for contain within its cultivated land the farm of which the applicant may be desirous to obtain, it may be granted; but the rent of the latter will be demanded from the date of the lease for nine years, according to the rate of the Pergunnah, and after the expiration of that period the rate will be increased only once by 1 or 2 Rupees, and this fixed jumma will continue up to the twentieth year. At the expiration of the term of lease the Settlement will be renewed again on proper jumma, according to the Pergunnah or adjacent Pergunnah rate, in the event of the former rate having been all paid in.

Third.—That it will be inserted in the pottah that so much jungle land had been granted for *cultivation*, and that so much cultivated land had been granted, the rent of which will be taken from the date of the lease, at the same rate as the Ryots pay for the same kind of land. If within the leased land there be any Village open to Settlement that Village will also be granted, but its rent will also be taken as aforesaid from the date of the lease.

Translation of a Petition of Maharajah Sumbhoonath Sing Bahadoor, Zemindar of Ramgurh, to the Commissioner of Chota Nagpore,—(dated the 14th September 1861.)

After usual Compliments,

States that he has already submitted an application regarding the grant of lands for the cultivation of Tea and Coffee, and now begs to express his intentions regarding the grant of lands for Cotton cultivation—

First.—That he is willing to grant lands for the cultivation of Cotton on this condition, *i. e.*, should the Cotton be sown on lands already cultivated the rent will be demanded from the first year of the lease, according to the Village or Pergunnah rate; but if it be sown on jungle land that he will not demand any rent for two or three years, and after that take the rent according to the above rate.

Second.—That the lease or pottah of these lands will be granted to the applicants if they require it for twenty years assessable as aforesaid. After the expiry of the lease it will be renewed again for a period of twenty years on alterable jumma. In my application regarding the grant of lands for Tea and Coffee, the word of twenty years has been omitted, but I am willing to grant that kind of land also after the expiry of the lease for twenty years again.

Third.—Should the lands of Jaghirdars and Birtdars, held by them on certain conditions, be taken up for Cotton cultivation, that he has submitted a separate Petition on the subject, and will abide by the conditions expressed in it.

Translation of a Petition of Maharajah Sumbhoonath Sing Bahadoor, Zemindar of Ramgurh, to the Commissioner of Chota Nagpore,—(dated the 14th September 1861.)

After usual Compliments,

States that he has already submitted an application on the subject of the grant of lands for Tea and Coffee cultivation. At present he begs to represent concerning the grant of lands or Villages held on conditions by Jaghirdars and Birtdars under the following terms:—

First.—That, in the event of gentleman applying to take the lands from Jaghirdars and Birtdars whose tenures are limited, such applicants ought not to pay money in advance for such lands, but to pay yearly rents according to the kists as they fall due from Assin to Bysakh.

Second.—Should the Jaghirdars and Birtdars require money in advance for the farm of such lands and the applicants should give the advantages, your Petitioner requests that he may be held exempt from any liability on account of such advance should the tenure lapse to the Petitioner. Your Petitioner cannot undertake to pay, nor has he ever paid such advances.

Third.—That your Petitioner can grant his confirmation on the lease of the above proprietors on this condition only, *i. e.*, should the Estate lapse to him within the term of the lease, your Petitioner would then grant the same lands on farm for twenty years liable to rent according to the Pergunnah rate, and the lands will continue in possession of the lessee.

Fourth.—No Jaghirdar or Birtdar has any right to alienate his land. If by deeds of Byebooluffa (or conditional sale of land), or Byelâkâlame (or entire sale of land), or Mokurree (or quit-rent), or Zurpeshgee (or money in advance), any Jaghirdar or Birtdar attempts to alienate his land in any way which he is not authorized to do, your Petitioner cannot confirm such alienation.

Extract from a letter from the Superintendent of Revenue Survey, Chota Nagpore Division, to the Deputy Commissioner of Hazareebaugh, No. 465, *dated 4th July* 1861, *paragraphs* 6 *to* 11 *inclusive.*

Para. 6.—Speaking of the Burhee Sub-Division as the portion of the District that has been surveyed, Cotton is mostly grown on the Estates of Châie, Goomoo, Rânipore, and Palgunge, all of which border on, or are intersected by, the Grand Trunk Road. There are very considerable waste areas in all of these Estates, and I am of opinion that, with proper arrangements and European supervision, the soil of this hilly jungly locality might be turned to very good account in the produce of Cotton.

7. There are also other hilly jungly Estates, that have large waste areas and fine soil, bordering or near the valley of the "Sukree" River, *viz.*, Sutgawan, Musnoodhee, Gawan, Ghosinjee, and Khoorchootah that might, I think, be made productive of good Cotton; but there are at present no passable roads between these Estates and the Trunk Road, nor are there any decent roads that lead to the North towards the Ganges.

8. Having reported thus far on the Northern portion of the Hazareebaugh District, that has been surveyed, I will now offer a few remarks on the Southern or Ramgurh portion, that has not yet come under survey, but over which I have moved a good deal on demarcation or other preparatory operations for survey.

9. This portion of the District, which is on an average 1,000 feet higher than the portion to the North of the Trunk Road, is, in my opinion, the locality that will be found best suited for the growth of Cotton. There is also much more waste land on it than on any other part, which, I should say, the present proprietors would gladly lease to any parties desirous of taking it up.

10. Cotton to a considerable extent is already grown in Pergunnah Kurrunpoorah, Duttara, and Koonda on the western limits of the District, near Chutra. It is also grown on good deal in Pergunnah "Palanee" and "Chungurra" to the South, on the Damoodah, and in fact it is grown all over the Ramgurh Estates to a much greater extent than in Khurruckdeha. I feel convinced that all along the valley of the Damoodah, on both sides of which there are large tracts of hill lands, now lying waste, the soil would be found to answer well for Cotton; but until the country is well opened out by the construction of roads suitable to cart traffic, no great increase on the present production can be expected. The small quantity that is now exported is chiefly carried on men's shoulders, banghy fashion.

11. In Palamow of the Loharduggah or Chota Nagpore District, Cotton of very fair quality and to a considerable extent is grown, the soil over the Pergunnah generally, but more particularly in Suppahs Toree, Bâree Munkheree, Chemoo-Sineeqa, Doorjug, Seeman, Poondâg, Matolee, Cheecharee, Beereole, Doothoo, Kuppermundah, Oochree, Kutree, Oontaree, being well adapted for its cultivation. The want of cart roads leading northwards to the Cotton marts of Behar and Shahabad are also much felt in Palamow, whereas in Ramgurh a great quantity of the Cotton that is exported is carried by men, the rest being packed on bullocks.

From Rivers Thompson, Esq., Officiating Secretary to the Board of Revenue, to the Secretary to the Government of Bengal,—(No. 377, dated the 31st May 1861.)

Sir,—In continuation of my letter No. 315, dated the 18th instant, I am directed by the Board of Revenue to submit a copy of a Report from the Commissioner of Patna on the prospects of Cotton cultivation in the Districts of his Division. It will be seen that the Commissioner has little expectation of an *immediate* increase, to any considerable extent, in the Cotton supply from the Patna Division generally; but with a good system of irrigation, there is reason to believe, from the fitness of the soil to the cultivation, that the supply from Shahabad would not be inconsiderable. Such results, however, cannot be looked for in the present season.

2. The Commissioner remarks that it might be advantageous to adopt the plan recommended by the Collector of Tirhoot, that all District Collectors should be furnished with full information regarding the quality of Cotton required, and of the average price that will be paid for it in Calcutta. He suggests also that the proposals of Mr. Bingham, of Chynepore in Shahabad, be adopted, and that a good supply of the long stapled varieties of seed (from acclimated American or Egyptian seed) should be distributed through the Collectors; and that a Manual which

Mr. Bingham has volunteered to prepare, with a view of explaining the best mode for the successful cultivation of the plant, should be translated into Hindee and circulated among the people.

3. All these propositions have the Board's approval, The support of Government, which is solicited to the preparation and circulation of a Manual such as that described by the Commissioner of Patna, will lead, it may be hoped, to good results, and shew the people among whom it is distributed the interest of Government in the subject, without exercising any undue official interference. At the same time I am desired to say, that the Board are aware that the Agricultural and Horticultural Society have offered a prize of Rupees 1,000 and the Gold Medal of the Cotton Supply Association for the best Essay on the culture of Cotton.

4. With the above Report the Board have received a communication through the Commissioner of Chota Nagpore from Captain Monecieff, Junior Assistant Commissioner, Palamow, who states that Cotton is very extensively cultivated in the District, and that a considerable quantity is also exported to other places.

5. A copy of this Report is also enclosed.

6. For the supply of seed of the best Foreign kinds, the Board suggest that Government should enter into, and place all Collectors in communication with the abovenamed Society, which is in close correspondence with the Cotton Supply Association of Manchester, and has among its Directors a Standing Cotton Committee capable of giving valuable assistance to District Officials in furthering the objects of Government. It would be well too, the Board think, were Mr. Paterson Saunders directed to communicate direct with the same Society.

From H. D. H. FERGUSSON, ESQ, Commissioner of the Patna Division, to the Secretary to the Board of Revenue,—(No. 10, dated the 9th May 1861.)

SIR,—I HAVE now the honor to reply to the Board's Circular Memorandum No. 13B., dated the 12th March last, forwarding for report a communication from Government regarding the supply of Indian Cotton to England.

2. I circulated copy of the correspondence and invited the opinion of every Officer and European gentleman in this Division likely to give information of importance, and the result is as follows:—

3 BEHAR.—Mr. Furrell, Deputy Collector in charge of the Collectorate at Gya, states that "the Cotton cultivation of Behar is not nearly sufficient to supply the requirements of the District itself, and a large proportion of the Cotton used is consequently imported.

"As this has been the case, I believe, from time immemorial, and certainly since the commencement of the present century, it can scarcely be doubted that the cause of the deficiency is of a constant nature; while the fact that Behar is a considerable weaving District, renders it improbable that that cause is either over-rated or easily removable.

"The experimental cultivation of Cotton distributed last year to different Land-owners in the District was attended, for the most part, with but indifferent success; and, though this failure was attributable in part to the inferior quality of the seed, and the unfavorable nature of the season, there is every reason to believe that the soil of the country is generally ill-adapted to this crop, and the cultivation of other sorts of produce far more profitable.

"I am of opinion that the cultivation of Cotton could not be extended here unless large sums were first laid out in the construction of reservoirs and other means of irrigation; even then a long period must elapse before any great change could be effected, and the result would not, I fear, be proportionate to the outlay.

"Under these circumstances, the mere facilitation of the means of transit, however desirable on general grounds, would obviously be useless as regards the present amount of the Cotton crop, and certainly futile in stimulating to further production."

4. CHUMPARUN.—Mr. Robinson, the Magistrate and Collector of Chumparun, reports as follows:—

"There is no great quantity of Cotton grown in the Chumparun District. I do not think there is any export. When Cotton is grown, it is for Home manufacture and use.

"The soil best suited for Cotton is to be found in the North and North-West of the District; and I imagine any quantity might be grown in the valleys and low lands adjoining the Terai and the Ramnugger Forests.

"It is not cultivated generally, because the crop exhausts the land a great deal; because the cultivation is attended with a great deal of trouble; and because there is no particular demand for it.

"The Ryots have no abstract objection to growing Cotton. If any one will make it worth their while, they will readily undertake the cultivation; but while, as at present, they get equal profits from crops which do not demand half the labor that Cotton does, it is unreasonable to suppose that they will grow Cotton to any great extent The demand would, I apprehend, at once produce the supply. Those interested in the Cotton Trade should make the demand.

"To increase the growth of Cotton in Chumparun, I should recommend that Government intimated to those interested in the Cotton Trade that Cotton can be grown in the District; that it is grown to some extent already; that there are very tolerable roads; and that there are two navigable rivers in the District. I would give information regarding the sorts of Cotton at present produced if required."

5. PATNA.—The Collector of Patna, Mr. Wake, gives his opinion in the following words:—

"*First.*—There is not at present any Cotton grown in the Patna District with a view to sale; the Pergunnah Gyaspore produces annually some 400 maunds. But the growers convert it into thread themselves.

"*Secondly.*—That parts of the District are capable of the cultivation is evident from the fact that, previous to 1835, the Pergunnah abovementioned produced annually and brought to market about 2,000 maunds, but a great inundation occurring in that year, the cultivation in any quantity has never since been attempted

"*Thirdly.*—Large quantities of the article being yearly brought to the Patna market from Mirzapore and other Districts, it is sold at a rate which renders it not worth the while of the former growers to resume its cultivation.

"*Fourthly.*—Were sufficient temptation held out, the former amount would probably be produced; but, from what I hear, there is no prospect of this ever becoming a Cotton growing District.

"*Fifthly.*—The seed sent on the 27th July 1860 with your letter No. 1Ct. of that date, was distributed amongst the principal Zemindars, of whom three have returned answers that it will not grow on their land, and the rest have not as yet made any reply. I have to-day issued orders for their being called on for a report, and will acquaint you with the result; though, from what I hear, I have no hope that it will be a favorable one."

6. SARUN.—Mr. Rose, the Collector of Sarun, observes as follows:—

"The quantity of Cotton now grown in the Sarun District is so small as to be insufficient for supplying the local demand, and large quantities have consequently to be imported from other places.

"I do not see how the quantity at present grown can be increased; but have no doubt that, in the event of a greater demand occurring, many private capitalists, who are now engaged in the Indigo Trade, would be induced to cultivate Cotton, and that the quantity produced may thus ultimately be largely augmented.

"The plant is sown here along with Indian-corn, pulse, &c., and consequently does not thrive so well as if planted alone. But if this were done, and the cultivation more carefully attended to, the crop obtained would be healthier and more abundant.

"I have made a reference to some of the European Land-holders and Indigo Planters in this District on the subject; but Mr. Stalkart, of Setulpore Factory, is the only one who has yet replied, and he remarks as follows:—Government having resolved not to interfere or attempt to stimulate the cultivation directly or indirectly, I see no possible means by which the cultivation of Cotton can be increased. I see no probability of Europeans successfully growing Cotton, as the crop would be stolen from the fields, especially in this District of Sarun.

"I should have replied sooner had I not waited in the expectation of hearing from some other Planters."

7. Tirhoot.—Mr. Bruce Lane, the Collector of Tirhoot, states that "Cotton is not grown in the Tirhoot District in any quantity, but the cultivators of high irrigated lands in various parts of the District produce a little merely to supply their own wants. There never has been any effort made to open an Export Trade in this article, by which the cultivators of the soil might have been induced to undertake its production; but the Zemindars to whom I wrote have generally expressed their readiness to encourage this by any means in their power. If they say so, because they perceive that their own advantage would ultimately result, I think that in Tirhoot there would be a fair prospect of a great increase to the Cotton crop; but an increase in its cultivation from a desire only to gratify the Government being unnatural would certainly not be permanent or beneficial. I observe also that such a course is especially deprecated in the Government Order calling for this Report.

"In that Government Order the only legitimate means of encouraging the growth of Cotton have been so distinctly laid down that there is little left for me to suggest. I can only observe that no time should be lost in forwarding to the District Collectors, for publication throughout their jurisdiction, full information regarding the quality required and the price which would be paid for it, either on the spot or at some Central Depôt. Tirhoot is, to a large extent, well supplied with good roads; and there is no doubt that, when the profit to be derived from cultivating Cotton became known throughout the District, the producer and capitalist would lose little time in coming to an understanding with each other. Further than this I do not see what Government Officers can legitimately do in the matter.

"I would propose, therefore, that the Chamber of Commerce, as the body most interested, be requested to supply each Collector with samples of the various kinds of Cotton in demand in the Home market, with details of price and any other particulars deemed useful. The samples should be in some quantity so as to allow of a wide distribution, and in the event of any Commercial gentlemen visiting the Districts they could place themselves in communication with the Collector. In any such case I, for Tirhoot, would give them the very best assistance in my power. It is possible also that the Manager of the Durbhungah Estates might be able to give very material help."

8. Shahabad.—Mr. Bayley, Magistrate of Shahabad, reports as follows:—

"I have been in communication with Mr. Bingham and others on the subject of increasing the supply of Cotton, and the suggestions I have to offer are but few.

"In answer to the questions whether Cotton is now grown in the District, and whether there is a possibility of increasing the cultivation, I cannot do better than offer the following Extract from Mr. Bingham's Report, forwarded to the Collector on 1st August 1860. He reports that 'the plant is cultivated in this District, in some places extensively so; there are very few Villages which have the proper kind of soil, a light friable darkish vegetable soil, in which a few beegahs are not cultivated, and as the District contains 4,400 square miles, and nearly double that number of Villages, allowing each Village to cultivate only one acre, which is very far below the average, we should have 8,800 acres, or, at 100 lb. of clean Cotton per acre, 880,000 lbs. of Cotton per annum produced in Shahabad.'

"This is Mr. Bingham's Estimate, necessarily somewhat vague, and I think perhaps somewhat too large; as, from what I have seen, Cotton does not seem to be grown in the interior of the District at all to the same extent as it is in the South.

"As to the possibility of increasing the cultivation, Mr. Bingham writes,—'as for the extent of land which might be devoted to Cotton and probably would be so when once the article was known to be a staple, and when irrigation could be commanded at will, it is difficult to say; but as Shahabad contains 2,818,000 acres, I should say that at least one-twentieth would be fitted for the crop, which would give close upon 141,000 acres. Of course the attainment of this result would be gradual, and a native cultivation only extends very gradually indeed.'

"I have given these two answers from Mr. Bingham's Report, as that gentleman, besides making experiments in Cotton himself, has been at great pains to introduce it more widely in Chynepore and to improve its cultivation, and because he is without question the best authority on the subject in these parts.

"For the immediate requirements of Government, he proposes that a good supply of the long stapled varieties of seed from exported or acclimated American or Egyptian seed (which do not require to be sown till July) should be distributed through the Collector to the principal Zemindars, with an intimation that Government is anxious to extend its cultivation: and that at the same time a Manual in the Vernacular Hindee, setting forward the mode of planting and the advantages of the crop, should be distributed with the seed. He would undertake to draw up the Manual in English, and suggests that Mr. Zeeman might undertake the translation. I do not think such official distribution would in any way interfere with private enterprise, or would be at all beyond the legitimate province of the Government; and though the results might not be very large, still there would be sure to be some few acres more brought under cultivation than without such an impetus would be the case.

"As a further means of improving the communications, Mr. Bingham wishes me to carry out at once a design I had formed when at Bhobooah in the cold weather (and which I intended to submit in this year's Ferry Fund Estimates) of cutting a fair-weather road from Hotta to Chukkie whence there is a road to Mirzapore, and thus shortening the route for the Cotton carts from Central India by some thirty miles. The length of road to be cut between the two places is some nine miles, of which five are in this District and four in Mirzapore. I have written to the Magistrate of Mirzapore, asking him to undertake his four miles; and, as there will be a surplus from the Ferry Fund works this year, I propose requesting Mr. Bingham to begin the road at once.

"I would also suggest that, in those Jails to which gardens are attached, experiments might, to a small extent, be carried on, not only as to the cultivation of Cotton, but more particularly in cleaning it, which seems to be the principal cause of failure with Indian Cotton, and the people might thus by degrees be familiarised with improved machinery.

"These are all the temporary expedients I can propose. The European settlers, whose interest lies in that direction, and who are likely to know best what is required, are unanimous in declaring as requisite for permanent increase, improvement in Land Tenure, a Contract Law, and improved and multiplied Civil Courts; and in these Districts Irrigation and Canals. All these things are said to be under the consideration of Government; but there is none which is more urgently required, which will more thoroughly repay the money expended on it, or which will be a more decided boon to all classes in the District than the completion of Captain Dickens' scheme for the irrigation of Shahabad."

9. Mr. Davies of Rhotas in Shahabad.—Mr. C Davies, a farmer residing at Rhotas in Shahabad, who is a very intelligent gentleman, and who has given much attention to the import subject, has favored me with his opinion in the following words:—

"Cotton of the variety vernacularly called *Rarhia* is grown in Shahabad, though not to any great extent, as it is never exported being consumed on the spot. It is the product of irrigation and ceases to yield after the first regular fall of rain. The staple of it is in every way superior to that of the Cotton of the North-West, and sells at a higher rate. The value of the two products here is at present 2¼ seers per Rupee of the Up-country Cotton, and 1¾ seer per Rupee of the *Rarhia*. Irrigation being expensive, and the means of the Shahabad agriculturist very limited, there appears to be very little chance of bringing about any material increase of this kind of Cotton within any short period. A very small quantity of a variety of Cotton called *Raota* is grown on the Table lands. It is sown in the rains, and under favorable circumstances stands on the ground two years. This variety is cultured somewhat extensively in Palamow, whence it finds its way to parts of Behar and the vicinage of Sasseram. The fibre of even this variety is regarded as superior to that of the Cotton of the North-West. In this District it would not be easy to bring about any greatly increased production of Cotton sown, as the introduction and general adoption of some good variety which springs up in the rains would have to be effected previously. Apart from all considerations concerning facilities of conveyance, I see no better means for bringing about speedily an increased supply of Cotton than the opportune intercourse of intelligent Commercial Agents with the agricultural and trading communities generally. Much could be said about what could or could not be effected in the course of time; but, as observed in the Resolution, no measure would meet the object in view unless it told on the production of Cotton during the next season, and on the means of getting that season's crop to port."

10. Mr. Bingham of Chynepore in Shahabad.—As I was aware that Mr. Bingham, of Chynepore in Shahabad, had given much attention to the cultivation of Cotton, I begged him to favor me with his opinion on the subject. In reply Mr. Bingham writes as follows:—

"I am glad to see the Government at length taking an interest in a staple which is indigenous to India, and which only wants fair play and ordinary fostering to rapidly supersede American Cotton (which is there an exotic) in the English market; but much requires to be done at once by Government to enable the staple to take that lead in Indian farming which it is undoubtedly able to do.

"Cotton is grown in Shahabad already in considerable quantities, and I send you enclosed a specimen grown by myself from New Orleans seed (this being the second year of the plant's bearing), and also a specimen of Chinese Nankin Cotton grown by me from plants of the third year bearing, both of which, I think, you will find not unfavorable specimens of what can be done in this District, and they have been grown on land which has for years been devoted to Indigo, and therefore not on first rate soil; while from various causes they have not had that attention paid to their culture which they ought to have had.

It does not seem necessary for me to forward these specimens, which, however, are very satisfactory.

H. D. H. Ferguson,
Commissioner.

"You will doubtless know that the Dessee Cotton only yields for one season and then dies away. The same is the case with all the varieties in the Cotton regions of North America; while I have proved that Cotton grown in this country from New Orleans and Sea Island seed is at least a biennial plant, nay I have had some few plants for *three* years, and for aught I see at present they will last three years more, while in my garden I have some plants of *Chinese Nankin* for four years; they having been sown in 1856, and their yield and health is as good as ever, so that this fact alone is a favorable result and one worthy of notice, and shews how valuable the culture may become. The plants each year only require to be cut down in the beginning of the rains, and well hoed to open their roots and keep them clear of weeds, and with hoeing and irrigation occasionally, as required, in the hot weather. The second year's crop is, I believe, both more abundant and of better quality than the first.

"A large cultivation and trade in Cotton, to equal the demands of England, cannot, however, be got up in a day, and fifteen months is but a short time for the purpose. I consider, however, that Shahabad is perhaps better situated than any other part of Bengal or Behar in this respect, owing to the large quantity of forfeited land (owing to the Rebellion) at the disposal of Government. It is now an admitted fact that Cotton cultivation (that is, Cotton of a staple suited for the English market) must mainly be introduced by European energy, honesty, and skill; the native cultivation can only very distantly follow their lead. Let the Authorities then at once reverse their traditionary policy, and meet the matter boldly in the face by offering inducements for European settlement on these confiscated lands, giving with them a tenure not liable to be interfered with by Collectors, in fact a tenure in fee simple, such as may be obtained in all other countries under the British Crown, which will at once encourage the outlay of capital, at the same time benefitting the country, increasing the great Cotton interest, and indirectly, but certainly, benefitting and increasing the Government Revenues. Let the Government keep all the confiscated Estates fitted for Cotton cultivation on the sursory tenure until they were taken up by Europeans at an upset price, and the result would soon be seen if that upset price be a fair one. European Capital will not risk itself on present tenures in this country, where it has no security for its outlay, and where, for various causes, it has so many difficulties to contend with. Next to a secure tenure, cheap and speedy justice, with a sharp punishment for perjury, is an absolute necessity, and must, by some means or other, be provided for the interior.

"I have suggested to Mr. Bayley, and now repeat it, that much might be done at once if a large quantity of imported or acclimated new Orleans or Egyptain seed should be *officially* distributed amongst the principal Land-holders of the District, with a request that they would do their best to introduce its cultivation, perhaps promising a prize for the largest quantity produced from a beegah, combined with the best quality, and, promising an honorary title to the man who should produce the largest quantity and most encourage its cultivation in his Estates, would do wonders; at the same time as the seed is thus distributed, a number of cheap vernacular Manuals, shewing the best mode of cultivation in the District and other particulars, should be given gratis by Government.

"Good roads throughout the interior are absolutely necessary; and the rivers and streams of the main

lines should be bridged in a cheap and serviceable American fashion, so as to get as much done with as little outlay as possible. I have also recommended to Mr. Bayley to complete the road from Hotta to Chukkie, and thus join our system with the Mirzapore lines. This would complete the short cut for the heavy Cotton traffic from Mirzapore to join the Grand Trunk Road, saving some thousands of carts annually some forty or fifty miles distance. I would also beg to refer you to a recommendation from me to your predecessor, E. A. Samuells, Esquire, when Commissioner of Patna, for a road from Sasseram across the Hills to Bidjeyghur, whence, I believe, there is a road joining the Great Deccan Road. The road by the route I recommend would not be a difficult one, and would be of incalculable benefit, not only in opening out a new and near line for the great Cotton Trade of Central India, but also opening out the interior of the Kymore Range.

"Next to roads, but perhaps of even more importance, is irrigation, as without irrigation (except on low moist lands) Cotton yields but a poor crop, both in staple and quality, and will not pay, consequently irrigation is indispensable. While Shahabad, with one of the finest watersheds in the world, is singularly deficient. Something might be done at once, and that easily by damming up a few of the hill gorges where they are narrow, leaving the Zemindars to cut their own irrigation channels. The Chynepore and Sasseram tanks might be used with little expense as reservoirs, and pay a good Revenue to Government upon the outlay; while they would serve as an experiment, which would be valuable as data for an extension of the project. You will see this question mooted in the Pamphlet on irrigation which I had the pleasure to forward to you sometime ago. The frightful drought of this season, which is rapidly rendering it impossible to keep any crop alive, and which is fast drying up all the wells and usual means of irrigation, renders this a matter of most pressing importance.

"In conclusion, I had hoped to have set the example of successful Cotton growing upon my own Estates this year, and had taken measures for the purpose. But the late letter, Roobookaries, and Ishtihar of the Collector of Shahabad, shewing me that I have no tenure nor no right stronger than a rope of sand in them, and which correspondence I had the honor to forward to you with my letter* of the 25th instant, made me pause by shewing me the folly of my hopes; and so long as my tenure is so uncertain I can do nothing."

* Orders have been passed by me which leave Mr. Bingham nothing to complain of.
H. D. H. Ferguson, *Commissioner.*

11. General Remarks.—I fear that there is no hope of an *immediate* increase, to any considerable extent, in the Cotton supply from the Patna Division generally. With a good system of irrigation, the supply from Shahabad would probably be considerable. But although I hope we may eventually obtain irrigation according to Captain Dickens' comprehensive scheme, we cannot obtain it at once; and, therefore, it cannot "tell on the production of Cotton during the next season," which is the object of the present enquiry and correspondence.

12. It might be advantageous to adopt the plan recommended by the Collector of Tirhoot, and forward, as soon as possible, to all District Collectors, full information regarding the quality of Cotton required and the average price that will be paid for it in Calcutta.

13. I also recommend for adoption the proposals of Mr. Bingham of Shahabad, to the effect that "a good supply of the long stapled varieties of seed (from acclimated American or Egyptain seed) should be distributed through the Collectors." And further, that a Manual in Hindee be distributed along with the seed, giving full information regarding mode of cultivation and the demand for Cotton in England and elsewhere.

14. With respect to the important subject of facilitating existing means of communication, Mr. Bingham and the Magistrate of Shahabad recommend, *first*, a fair-weather road from Hotta to Chukkie, whence there is a road to Mirzapore; and *secondly*, a road from Sasseram across the Hills to Bidjeyghur, whence there is a road joining the Great Deccan Road.

15. Respecting both these lines of communication I have addressed the Magistrate in order to obtain further information, when, if advisable, the Government shall be moved in the matter.

From Captain A. P. S. Moncrieff, Junior Assistant Commissioner, Palamow Sub-Division, to Captain J. S. Davies, Senior Assistant Commissioner, Loharduggah Division,—(No. 225, dated the 17th April 1861.)

Letter No. 256A., dated 6th March 1861, from the Under-Secretary of Government of Bengal.

Sir,—In reply to your Office Memorandum No. 388 of the 23rd ultimo, with enclosures as per margin, I have the honor to state that Cotton is very extensively cultivated in this District in proper time to other crops; a considerable quantity is also exported to other Districts.

2. The method adopted here for growing Cotton is to select a piece of jungle land, and generally where the trees are not very strong; these trees are cut down at about a foot from the ground and their branches and stems spread over the land, they are then burnt. The land is afterwards ploughed once and the Cotton sowed broad-cast over the burnt wood, and ashes thus serve as a kind of manure, but the land chosen for Cotton is generally of the poorest and most stony description. I understand from the people that the reason poor land is generally selected is that good land is required for more valuable crops, and that Cotton in this District thrives well anywhere. The fibre of Cotton grown here is considered, I believe, very inferior; but if the seed were of a better description, and if more pains were taken with its cultivation, there is no reason why it should not be as good as Cotton grown elsewhere.

3. The great drawback to cultivation of any sort in the Palamow District is the scantiness of population; there are at present very extensive tracts of lands well watered, and, if one may judge from the luxuriance of the jungle, very fertile, which require nothing but labor to make them productive. Labor to a large amount is to be had in the neighbouring Districts of Chota Nagpore, and I should think no person settling here with capital would find much difficulty on that head.

4. Palamow extends to within twelve miles of the Grand Trunk Road; there are no roads, however, in the District itself fit for hackeries, and from the hilly nature of the land and the numbers of rivers, roads regularly bridged and metalled would be very expensive. The country is intersected in every direction by beaten tracks for pack bullocks, which in large droves convey all merchandize from one port to the other, and during the rains the Kool River, which falls into the Soane, is navigable for small Vessels.

5. With reference to increasing the production of Cotton, if any Mercantile Firm were to send Agents into this District and make advances to the Ryots,

I have no doubt they might be induced to grow a much greater quantity than they hitherto have done. I understand that some 2,000 maunds are annually sold and taken out of the District at about Rupees 4, more or less, the maund, and an increase of price would tend greatly to increase the cultivation.

6. As to improving the means for bringing the produce to port, I do not think any thing in that way could be effected this season. The roads, such as they are, are as good as would be for pack bullocks, and to render them fit for hackeries where the land is low, extensive embankments would be necessary; where the ground is gravelly, it is a good deal cut up by ravines and would require a number of drain bridges. Even if all that was effected, the people at first would still stick to the old plan of the pack bullocks.

7. Should, however, Government consider the making of roads advisable, a road running between Shahpore and Sherghotty, a distance of about sixty miles, would be a great improvement and tend very much to open out the resources of the country. If such is considered necessary, I shall be happy to go over the ground and give a rough Plan and Estimate for making a fair-weather road through this District.

MILITARY DEPARTMENT.

Fort William, the 19th November 1861.

No. 1048 *of* 1861.—His Excellency the Commander-in-Chief has brought to the notice of the Government of India letters dated respectively the 11th, 12th and 14th of October last, addressed to the Deputy Adjutant General of the Army, by Captain P. Maxwell, Deputy Commissioner in the Punjab, Lieutenant J. W. Orchard, Deputy Superintendent of Police, and Lieutenant R. T. Hare, Assistant Commissioner in the Punjaub, in which, under cover of expressions of respect and subordination, these Officers have ventured to use terms manifesting their disapprobation of the recent decision of Her Majesty's Government, that Officers joining the Staff Corps shall not be entitled to retire under the Regulation of 1796, in respect of any promotion obtained by such Officers in the Staff Corps.

These letters were all written from Goojerat, and their tenor appears to indicate that they were written by the Officers named in concert with each other.

The Governor-General in Council entirely concurs in the opinion which the Commander-in-Chief has expressed, "that these Officers might have perfectly well made any complaint of the decision in question, without, at the same time, expressing what is virtually a disapprobation of a measure of Her Majesty's Secretary of State for India."

In order to mark with due reprehension conduct so subversive of discipline, the Governor-General in Council hereby cancels the admission of Lieutenant Hare to the Staff Corps, and will not comply with the application of Captain Maxwell and Lieutenant Orchard for admission to that Corps.

No. 1059 *of* 1861.—His Excellency the Governor General in Council directs the publication for general information of the subjoined Questions submitted by an Officer in England connected with the late changes in the Indian Army and the Answers given thereto by the Right Hon'ble the Secretary of State for India:—

Question.	Answer.
An Officer asks how Officers of the rank of Lieutenant-Colonel will be affected by the Staff Corps Warrant and the Promotion Warrant of October 1858. He appears to be under the impression that he can join the Staff Corps as a Lieutenant-Colonel. Also, looking to the restriction of the grant of the rank of Colonel to Lieutenant-Colonels employed in certain positions by the Promotion Warrant, whether, as respects Lieutenant-Colonels joining the Staff Corps, there is any restriction as to the nature of the service they must be employed in, whether Civil or Military. It is presumed that all service performed in the Staff Corps by Lieutenant-Colonels, in whatever position, will count towards the qualifying period for the rank of Colonel, and that substantive Lieutenant-Colonels will become Colonels after five years' service, and Brevet Lieutenant-Colonels for service in the field after eight years' service in the Staff Corps as such.	1. That an Officer promoted to the rank of Lieutenant-Colonel for distinguished service will be entitled, after serving eight years in the Staff Corps, to be promoted to the rank of Colonel, under the provision of the 10th Clause of the Warrant of 1st October 1858. 2. That promotion in the Staff Corps, under the Royal Warrant of January 16th, 1861, is entirely distinct from that under any other Warrant, and takes no cognizance of Brevet rank under that of Colonel.

No. 1060 *of* 1861.—The undermentioned Officer is permitted to proceed to Europe on leave of absence:—

Major Edward Hall, of the late 52nd Regiment Native Infantry, Commandant, 39th (the Allygurh) Regiment Native Infantry...	From date of embarkation till the 31st December next, preparatory to retiring from the Service.

No. 1061 of 1861.—In conformity with Government General Order No. 144 of 1852, the following Statement of Deposits made in the General Treasury, during the month of October 1861, on account of the Estates of deceased European Commissioned, Non-Commissioned, and Warrant Officers and Soldiers of the Indian Military Forces of Her Majesty is published for general information. And it is hereby notified that claims to the Estates in question, which shall not be preferred to the Sub-Treasurer by Executors and Administrators before the conclusion of twelve months after the date of decease, cannot be attended to in this Country, as the money, after that period, will be remitted to and made payable by the Secretary of State for India:—

The following letter from the Secretary to the Government of India, in the Financial Department, is published for the information of all Officers concerned:—

No. 12094.

FROM

SECRETARY TO THE GOVERNMENT OF INDIA,
FINANCIAL DEPARTMENT,

TO THE CHIEF SECRETARY TO THE GOVERNMENT OF BOMBAY.

SIR,—With advertence to the enquiry made in His Excellency Sir George Clerk's Telegram of the 20th ultimo, as to whether Section 2 of Act XVIII. of 1861 applies to menial Servants, common unskilled Labourers, Priests, whether Christian, Mohomedan, Parsee, or Hindoo, Clerks and Carkoons, Arabs and others not permanent residents in Bombay, Aden, and elsewhere, but visiting those places for short periods for purposes of traffic, I am directed by His Excellency the Governor General in Council to intimate, in reply, that the Bombay Government should decide what classes are liable to pay License Tax, and refer doubtful cases with reasons for or against taxation to the Supreme Government for decision.

2. The Act, I am to point out, taxes any "Art, Trade or *Dealing*." The last term was advisedly used instead of "Calling." This definition therefore exempts most, but not all of menial Servants, unskilled Labourers, and Priests.

3. For those included in the definition, the only general ground of exemption is inability to pay under Section III.

4. If it is desired that any discretion should be exercised, it may be done under Section XIV, and the Rules submitted* should be framed accordingly.

* *Vide* my letter dated the 9th ultimo.

5. The taxation of mere Sojourners will, His Excellency in Council observes, be legal under the terms used in the Schedule, *viz.*, "for any period between the 1st August in one year and the 1st August in the succeeding year" But this expression cannot, in the Governor General's opinion, be intended to exclude discretion, and the Rules under Section XIV should be framed accordingly.

I have, &c.,

(Sd.) C. H. LUSHINGTON,
Secy. to the Govt. of India.

FORT WILLIAM,

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st*.—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd*.—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd*.—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M. and so on, until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th*.—Each lot shall contain five Chests.

5*th*.—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than	*Deposit.*
Rs. 1,200 per Chest	Rs. 300 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	„ 300 „ „
Ditto of Rs. 1,600, but less than Rs. 2,000	„ 400 „ „
And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.	

6*th*.—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th*.—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th*.—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th*.—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th*.—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th*.—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th*.—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent at any time during the Sale to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper, provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession at the same price and under the same conditions any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz.*, two of the season's provision under sale, and two of the previous season, will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale, provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares as above estimated will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article 6th.—'With regard to the Trade in "Opium, it is agreed between the high contracting Parties that, at each of the periodical Sales "of that article, there shall be reserved for the "French Government and delivered upon requisition duly made by the Agents of His Most "Christian Majesty, or by the Persons duly appointed by them, the number of Chests so applied for, provided that such supply shall not "exceed three hundred Chests in each year, and the "price of the same shall be determined by the average rate at which Opium shall have been sold at "every such periodical Sale, it being understood "that, if the quantity of Opium applied for at "any one time shall not be taken on account of "the French Government by the Agents of His "Most Christian Majesty within the usual period "of delivery, the quantity so applied for shall "nevertheless be considered as so much in reduction of the three hundred Chests hereinbefore "mentioned. The requisitions for Opium as "aforesaid are to be addressed to the Governor "General at Calcutta within thirty days after "notice of the intended Sales shall have been "published in the *Government Gazette*."

The successful competitors will then be required to deposit the amount set opposite each class as Security in Cash or Government Promissory Notes, and to sign the Deeds within five days of the Notification of acceptance of offer; they failing in this, or in the due performance of the Contract, the Security will be forfeited to Government, and the Contract again put up, and the party failing to fulfil his engagement will be answerable for all loss caused by such re-sale.

4. Stores must be equal to Musters open to inspection at the Commissariat Godowns at Rangoon, or they will be rejected.

5. Delivery to be made at Godwin's Wharf to the Commissariat Officer in person. Boats for landing to be supplied by the Commissariat, but the stores to be entirely at the risk of the Contractor until handed over to the Commissariat Officer at 7 A. M. of the morning after they are landed on the Wharf. The Commissariat will not be responsible for demurrage for detention of Vessel.

6. Payments will be made immediately after delivery of Stores upon presentation of receiving Officers' acknowledgments.

7. The successful Contractors will have to pay the legal expenses of drawing up the Contract Bonds.

8. Form of Tender may be had on application to this Office.

H. B. CHALMERS, *Captain*,
Assistant Commissary General.

FORT WILLIAM;
Executive Commissariat Office,
The 24th October 1861.

ADVERTISEMENT OF SALE.

NOTICE is hereby given, that the Zemindary Rights of Government to the several Khas Mehals, situated in the District of Pubnah, and mentioned in the Statement hereunto annexed, will be put up to sale, under orders of the Board of Revenue, No. 1691, dated the 16th August 1861, in the Collectorate of Pubnah, on the 2nd December 1861, corresponding with the Bengalee date 18th Aughran 1268, Monday.

The Purchasers of such Mehals will be subject to the Conditions laid down below:—

CONDITIONS OF SALE.

1st.—Estates to be sold, with the Sudder Jumma entered below against each, to the highest bidders above the upset price.

2nd.—The Sale to be subject to existing leases and to the right conferred by the Settlement proceedings and laws in force, and Purchasers to be bound to respect the rights of resident cultivators who have signed the Jummabundee made by the Revenue Authorities.

3rd.—When the amount of purchase money does not exceed Rupees 100, the whole amount is to be paid down at once.

4th.—When the amount of purchase money exceeds Rupees 100, a deposit to be at once made of Rupees 25 per cent. upon the amount bid; the same to be forfeited to Government and the sale

cancelled if the whole amount of purchase money be not paid by noon of the fifteenth day after the Sale, reckoning the day of Sale as one.

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st.*—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd.*—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd.*—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th.*—Each lot shall contain five Chests.

5*th.*—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per Chest	*Deposit.* Rs. 300 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	„ 300 „ „
Ditto of Rs. 1,600, but less than Rs. 2,000	„ 400 „ „

And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.

6*th.*—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th.*—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th.*—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th.*—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th.*—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th.*—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th.*—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz*., two of the season's provision under sale, and two of the previous season, will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Commissariat Notice.

SEALED TENDERS will be received at the Commissariat Office, No. 6, Park Street, until 2 o'clock P. M. of the 20th December, for the supply of Stores to the Cossipore Gun Foundry, as per Statement at the foot.

Tenders will be opened at 12 o'clock, on the 21st December, in the presence of those parties who choose to attend.

Each Tender to be accompanied by Government 5 per cent. Promissory Notes, or the Sub-Treasurer's Receipt for 10 per cent. on the value of the Stores tendered. Without such Deposit no Tender will be acknowledged.

These Deposits will be returned, in the case of unsuccessful Tenderers, within forty-eight hours after Tenders are opened, and upon completion of delivery in the case of accepted Tenders.

Stores must be equal to musters open to inspection at the Foundry, or they will be rejected.

Payment will be made monthly upon Foundry Receipts.

Tenders must include every item of the class or classes to which they have reference.

Form of Tender can be obtained at this Office.

MILITARY DEPARTMENT

Fort William, the 25th November 1861.

No. 1071 *of* 1861.—The undermentioned Officer has reported his return from England :—

	Date of Arrival at Fort William.
Captain and Brevet Major A. Light, of the Regiment of Artillery ...	12th November 1861.

Fort William, the 26th November 1861.

No. 1072 *of* 1861.—The following paragraph of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 387, dated 8th October 1861, is published for general information :—

"I have considered in Council the Papers submitted with your letter in this Department, No. 131, dated 8th July last, regarding a proposed increase to the salary of Regimental Instructors of Musketry, and I now convey to you the assent of Her Majesty's Government to the salary of Regimental Instructors being increased to Rupees (110) one hundred and ten per month, including Horse Allowance as suggested by your Government."

No. 1073 *of* 1861.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 388, dated 8th October 1861, are published for general information :—

1.—"I have received and considered in Council your Despatch No. 158, dated 8th August, respecting the amount of leave on furlough or private affairs which Officers under the old Furlough Rules are permitted to count as service for Pension, such leave being beyond the limits of their own Presidency.

2.—I concur in the opinion given by you that, in the case of Regiments serving beyond the limits of their own Presidency, Officers should not incur a forfeiture of service to the extent of all leave on private affairs in excess of three months, except taken in their own Presidency, and I approve of

your so far modifying the present Rule as to permit all leave taken by Officers of any Presidency in any other Presidency in which they may be serving to count as service towards Pension in the same manner as leave taken within the limits of the Presidency to which they belong. The modification of the former Rule will only affect Officers placed under the old Furlough Rules."

No. 1074 *of* 1861.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 389, dated 8th October 1861, are published for general information :—

1.—"I have received from the Government of Bombay a copy of a letter (No. 1659 of 6th June 1861) addressed to you in their Military Department upon the subject of seconding Artillery Officers.

2.—In my Despatch, No. 27 of 18th January 1861, it was stated that "Artillery Officers holding appointments in the Ordnance Department will be seconded." This Order was transferred to your General Order of 10th April last, No. 332, paragraph 26, and has been fully acted upon in Bengal and Madras, in part only in Bombay, and the Government of that Presidency have postponed the seconding of any Commissaries of Ordnance other than the Principal.

3.—At the time those instructions were given, they were considered to be in accordance with the practice established in the British Artillery.

4.—I learn by a letter from the War Office that it has been lately determined that Officers holding the rank of Colonel and Lieutenant-Colonel, regimentally, in the Royal Artillery, are not in future to be seconded when holding Civil situations; but that all Captains and Lieutenants not doing regimental duty are to be borne Supernumerary, and their places filled up by Effective Officers

5.—You will, therefore, adopt the same rule for your future guidance; but, inasmuch as I have no intention of proposing that the promotions already made in the place of seconded Officers in Bengal and Madras should be cancelled, you will direct the Government of Bombay to carry out fully the instructions contained in paragraph 26 of your General Order of 10th April last, in order that the Regiment of Artillery in that Presidency may have, in common with those of the other Presidencies, the full benefit of the promotions arising out of that Order."

No. 1075 *of* 1861.—With reference to the Notification issued by the Government of Bengal, dated 14th instant, the services of Captain J. R. Macgrath, of the Madras Artillery, late Superintendent of the Hill Tracts in Chittagong, are placed at the disposal of the Government of Fort St. George.

No. 1076 *of* 1861.—Mr. J. B. Smith, Second Class Sub-Assistant, attached to the Hyderabad Topographical Survey Party, is promoted to the First Class from the 21st September 1861.

The promotion of Mr. George A. McGill from Second to First Class Sub-Assistant, Hyderabad Topographical Survey, notified in Government General Order No. 817, dated 13th September 1861, will be held to have effect from the 8th April 1861, instead of from the 15th August 1861, as formerly published.

No. 1077 *of* 1861.—Mr. Charles Lane, Chief Civil Assistant, Great Trigonometrical Survey, is allowed leave of absence, on Medical Certificate, for eight months, with effect from the 22nd October 1861.

Mr. Angello D'Souza, Second Class Sub-Assistant, is allowed leave of absence on the same account for nine months, with effect from the 23rd October 1861.

No. 1078 *of* 1861.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 396 of the 16th October 1861, are published for general information :—

1.—"I have received and considered in Council your Military Letter No. 161, dated the 8th August 1861, stating that doubts have been entertained whether the Lieutenant-Colonels, who may be selected to hold the rank of Lieutenant-Colonel in the new Line Regiments, will have to give up all claims to Colonel's allowance, unless they may be eventually selected for the appointment of Colonel of a Regiment, and proposing that Officers of the Indian Army generally may be allowed to record their readiness to serve Her Majesty any where, without prejudice to their position in the Cadres of Regiments, or in the Staff Corps, as the case may be.

2.—With reference to Lieutenant-Colonels of new Line Regiments, I observe that among the questions submitted to and replied to by your Government, copies of which were forwarded to me with your letter No. 135 of 16th July 1861, one question (15) refers to this subject and has been correctly answered by you, *viz* :—"that he will forego all claims to Colonel's allowance in the Indian Line," to which reply I propose to add, "but will become eligible to a Regiment under the Regulations of the British Army."

3.—With regard to Sir H. Rose's suggestion, in which you concur, that the Officers of the Indian Army generally might be allowed to volunteer for general service, I would observe that the Officers of the Indian Army have already had the opportunity afforded them of recording their willingness to serve out of India by paragraph 50 of the General Order by the Governor General, No. 332 of 10th April 1861, and the term within which Officers may elect for general or local service has been expressly extended to 21st October in your reply to Question 5 published in General Order of 9th July 1861, No. 598.

4.—It was not intended by this answer to debar Officers from volunteering for general service after the 21st October, but I do not see what further permission to do so is necessary; and indeed, I am of opinion, that any further invitation by the Government to volunteer for general service may lead to expectations of employment on the part of Officers which it may be impossible to meet, and would therefore only end in disappointment."

No. 1079 *of* 1861.—The following paragraph of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 398, dated 16th October 1861, is published for general information :—

"*Letter dated* 15*th June* 1861, *No.* 102.

48. The period fixed for the receipt of applications for the special allowance granted to

Officers of Her Majesty's Service towards the expense incurred by them for the passage of their families to India, as announced in the *London Gazette* of 10th January 1860, having long since expired, no further claims can be entertained."

No. 1080 *of* 1861.—With reference to Government General Order No. 807 of the 12th September 1861, the following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 399, dated 16th October 1861, are published for general information:—

1.—"It has been brought to notice that paragraph 24 of my Despatch No. 320 of the 10th August last has been misunderstood in some quarters as giving to Officers of the new Line Regiments and of the Staff Corps the privilege of retiring with annuities, according to the scale forwarded with that Despatch, with or in virtue of any rank they may have attained after joining those Corps.

2. The passage referred to does not seem to me to be susceptible of such interpretation; but to prevent the possibility of mistake, I desire to point out that it was duly intended to give to Officers so circumstanced, the opportunity of reconsidering their position, and of availing themselves of the annuity to which they would have been entitled had they not elected for either the Staff Corps or the new Line Regiments."

No. 1081 *of* 1861.—His Excellency the Governor General in Council is pleased to direct the publication, for general information, of the following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 401 of the 16th October 1861:—

1.—"I have received and considered in Council your letter No. 110, dated 22nd June 1861, forwarding copy of a letter, and its enclosures, from Colonel Sir A. Waugh, Kt, late Surveyor-General of India and Superintendent, Great Trigonometrical Survey, submitting the annual Tabular Returns of the Survey Operations under his superintendence for the three years ending 1858-59, and recording the progress made.

2.—In the Operations recorded in this interesting and valuable Report, Major General Sir A. Waugh has fully maintained his well established character as an Officer of great scientific attainments and of marked energy and public spirit.

3.—The state of efficiency and discipline to which the Department of the Surveyor-General has been brought, no less than the amount of valuable and highly important work performed under circumstances of considerable difficulty at one portion of the period under review, reflect the highest credit upon the zeal and ability of Sir A. Waugh and of the Officers of the Departments employed under him, and are fully appreciated by Her Majesty's Government."

No. 1082 *of* 1861.—His Excellency the Governor General in Council is pleased to direct the publication, for general information, of the following paragraph of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 402, dated 16th October 1861:—

Letter dated 16th July 1861, *No.* 134.

21. I have already explained to you in my Despatch No. 319 of the 10th August last my reasons for considering that the assembly of the Amalgamation Commission was unadvisable. I am however glad to have the opportunity afforded me of expressing my full acknowledgments of the zeal and ability with which the Members of the Commission have performed the duty entrusted to them, and the valuable assistance they have afforded to the Government.

No. 1083 *of* 1861.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 413 of the 17th October 1861, are published for general information:—

2.—"I have decided upon admitting to the benefits of the retiring scheme referred to all Officers of Cavalry and Infantry on the Effective List, who may have accepted the additional £50 Pension offered in my Dispatch No. 60, dated 4th February, and who may have retired before the publication of the last retiring scheme.

3.—I request, therefore, that you will cause to be prepared and transmitted to me, as soon as possible, Nominal Rolls of Officers so circumstanced, shewing the exact position held by each at the time of his retirement upon the General List of Regimental Officers in their respective Presidencies, and the date of such retirement.

4.—These Officers will severally receive the annuity now alloted to those holding on the 1st of October the place which they held at the time of their retirement, and it is to be understood that the Officers receiving annuities under these circumstances are not to be reckoned among the 300 mentioned in paragraph 22 of my Despatch No. 320 of the 10th August 1861."

No. 1084 *of* 1861.—Under existing Rules claims to the Pensions and Allowances noted below have been submitted through the Adjutant General of the Army, or Heads of Departments, and in some instances, as in the case of Widows, direct to Government; but before orders have been passed, the Controller of Military Finance, heretofore the Military Auditor General, has been required to report on each claim:—

1. Wound Pension and Gratuity to European Commissioned Officers.
2. Retiring Pension and the benefits of the Pension Establishment in India to Warrant Officers.
3. Service, Invalid, Wound, and Injury on Service Pensions to European Non-Commissioned Officers and Soldiers.
4. Pensions from Lord Clive's Fund to the Widows of European Officers or Soldiers.
5. Compassionate Allowance to the families of European Commissioned Officers killed in Action, &c.
6. Wound or Injury Pensions to Native Commissioned, Non-Commissioned Officers, and Soldiers, and certain Non-combatants.
7. The additional Invalid Pension for forty years' service, with an unblemished character, to Native Officers and Soldiers of the Line and the Irregular Cavalry.
8. The benefits of the Native Family Pension Establishment.
9. Pensions or Superannuation Allowances under the Rules for the Uncovenanted Service.
10. Special cases.

In future all the foregoing classes of claims will be forwarded by the present transmitting

Officers or Departments direct to the Controller of Military Finance, instead of to the Secretary to Government. The Controller will then report thereon, and will, in all the cases, except those coming under the 7th and 8th Classes, forward his report and the papers connected with it to the Military Finance Department for submission to Government. In the 7th and 8th Classes of claims, if the claims be strictly within Rule, he will forward his report to the Adjutant General of the Army, in order that the Pensions may be notified in General Orders; but if, in such cases, there be any doubt or any grounds for relaxing the Rules, the Controller will submit his report through the Military Finance Department for the final orders of Government.

No. 1085 *of* 1861.—The undermentioned Men are admitted to Pension as specified opposite to their respective names:—

Bombardier Stephen Cockshott, of the 2nd Battalion Artillery ...	One Shilling each per diem, payable in Europe
Corporal Robert Frame, of the 5th Battalion Artillery ..	
Gunner John Farrell, of the 6th Battalion Artillery ...	

No. 1086 *of* 1861.—The undermentioned Officer is permitted to proceed to Europe on leave of absence on Sick Certificate:—

Ensign Joseph West Ridgeway, of the General List Infantry ...	For eighteen months, under the new Regulations.

No. 1087 *of* 1861.—The following paragraph of Military Letter from the Right Hon'ble the Secretary of State for India, to the Government of Bombay, No. 160, dated 16th October 1861, is published for general information:—

Letter dated 12th July 1861, *No.* 63.

5. As Private Hoggarty declared himself an unmarried man on enlistment, I am not disposed upon a declaration of the falsehood of this statement to provide a free passage to India for his wife. You will consider this to be an established rule.

FINANCIAL DEPARTMENT.

No. 2022A.

Allahabad, the 14th November 1861.

The following Extract from the Proceedings of the Government of India, with Resolution by the Governor General in Council, regarding the appropriation of savings of Establishment for contingent expenses, is published for general information:—

No. 12262.

Extract from the Proceedings of the Government of India, in the Financial Department, dated 18th September 1861.

Read the following—

From the Auditor General of India, to the Secretary to the Government of India, Financial Department, No. 655, dated 14th August 1861.

SIR,—The Civil Pay Master in Bengal in an Office Memorandum dated 9th instant submits the question, whether under the Budget Rules undrawn salary can be applied to contingent expenditure, and as the point does not appear to have been determined by authority, I have the honor to submit the case for the consideration and orders of Government.

2. The circumstances which gave rise to the enquiry are the following:—

The Director of Public Instruction applied to the Government of Bengal for permission to appropriate the undrawn salary of the Assistant Professor of Law, amounting to Rupees 300, to the purchase of Law Books for the Library. The Junior Secretary to the Government of Bengal in his letter to the Director of Public Instruction, No. 295, dated 22nd ultimo, states that "the Lieutenant-Governor has no objection to the application of the undrawn salary of the Assistant Professor of Law to the purchase of Law Books for the Library, as suggested by Mr. Montriou, provided it can be done under the Budget Rules, but he agrees with you in thinking that it will be advisable to purchase with it standard Law Works other than Reports."

3. Under these orders, the Principal of the Presidency College has drawn a bill (copy annexed) for the amount and presented it for audit. The Civil Pay Master, with reference to the provisional sanction accorded by the Lieutenant-Governor, has accordingly instituted the present enquiry.

4. The conditions under which the local Governments are permitted to exercise a discretionary power over the sums allotted for particular heads of service within the amount set apart for each class contain the proviso that "no salary of any Officer appointed by any Government can be altered or *re-distributed* without the sanction of the Government of India previously obtained," and although the alteration or re-distribution of salaries may be primarily intended rather than the appropriation of undrawn salary, yet the objection appears to bear equally upon both, as otherwise expenditure of a contingent nature refused by the Supreme Government might be effected by allowing vacancies to remain open to the detriment of the Public Service and the neglect of the just claims of individuals, and applying the sums thus accruing from civil salaries to the contingent expenditure. It is not easy to provide a rule which shall meet the requirements of all cases, but it might be desirable to limit the action of the local Governments without specifically interfering with their existing powers by enacting as a rule that *ordinary casual* savings only from salaries or establishments should be applied to other purposes, and that all other savings should lapse to the State.

Orders of Government of India, Financial Department, No. 11322, dated 15th November 1860.

5. The mode in which the amount available is applied for in the case appears open to special objection. It is, in fact, an *advance* for the purchase hereafter of Law Books that is required, and the audit of the Civil Pay Master if given will afford no security to the Government that the money has been properly expended. A bill for undrawn salary certainly ought not to be susceptible of audit, and if the amount be diverted to other purposes, the actual application of the sum available should be brought within the cognizance of the Civil Pay Master, who should audit the prescribed expenditure on the production of the usual bills or vouchers.

FINANCIAL DEPARTMENT.

Fort William, the 18th September 1861.

RESOLUTION.—The Governor General in Council is of opinion, with reference to the above enquiry of the Auditor General, that local Governments have authority, under the first condition given in paragraph 3 of the Financial Resolution of the 15th November 1860, to authorize such a re-distribution of charge as will allow of savings of salary being appropriated to contingencies, provided that the sum total of the Budget Grant is not exceeded, and the change in the allotment of the charge is immediately reported to the Financial Department. His Excellency in Council agrees, however with the Auditor General as to the necessity of fixing a limitation of such power, and he is accordingly pleased to rule that *ordinary casual* savings only shall be applied to such purposes..

ORDERED, that a copy of the above Resolution be sent to the Auditor General of India for information.

Ordered also, that a copy of the above Resolution and letter be sent to the Departments,* Governments,† and Officers‡ noted in the margin for information and guidance.

* Home, Foreign, Military, and Public Works Departments and Military Finance Department.
† Governments of Bengal, Madras, Bombay, North-Western Provinces, and the Punjab.
‡ Civil Pay Masters, Bengal, Madras, Bombay, North-Western Provinces, and the Punjab.
Deputy Auditors and Accountants General, Bengal, Madras, Bombay, North-Western Provinces and the Punjab.

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st.*—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd.*—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd.*—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th.*—Each lot shall contain five Chests.

5*th.*—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per Chest	*Deposit.* Rs. 200 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	„ 300 „ „
Ditto of Rs. 1,600, but less than Rs. 2,000	„ 400 „ „

And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.

6*th.*—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th.*—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th.*—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th.*—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th.*—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th.*—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th.*—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz*., two of the season's provision under sale, and two of the previous season, will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Civil Fund.

NOTICE.—THE Annual General Meeting of Subscribers will be held at the Town Hall on Wednesday, the 29th January next, at 11 A. M., for the election of Managers for the ensuing year, and for the approval of the Accounts of the past year.

In accordance with the suggestion of the Government of India that upon the abolition of the office of Sub-Treasurer, the Secretary and Treasurer of the Bank of Bengal be constituted the Treasurer of the Fund, the Managers will propose an alteration of Articles 11 and 21 of the Rules to that effect.

The Managers will propose an amendment of the first Clause of Article 8 of the Rules to the effect that Subscribers retiring from the Service, in anticipation of Annuities, upon the allowance of £500 a year under the terms of the Despatch of the Secretary of State dated 7th June 1861, shall then complete the prescribed balance of their Fund Account, and shall continue contributions at the usual rates on their allowance.

The Managers will also propose a new Rule to the following purport, such cases not being provided for under the existing Rules, *viz*:—That subscriptions from Subscribers divorced from their Wives shall be levied at the same rates as those levied from Widower Subscribers, and that the Managers shall have discretionary authority, on satisfactory proof of Adultery being furnished, to allow such Members to subscribe at the reduced rates in anticipation of a legal judgment of Divorce being obtained.

By Order, &c.,
H. ULICK BROWNE,
Hony. Secretary.

Genl. No.

1651

The Secretary of State for War having had under consideration the subject of assessing damages to Arms returned into store by Regiments abroad, has decided that in future whenever any Arms are so returned, a Board shall assemble and carefully examine all the Arms, with a view to assess the damages in accordance with the scale of prices laid down in the Queen's Regulations.

The sums to be levied against the Regiment should only be for work which ought to have been executed upon the Arms by the Armourer Serjeant of the Regiment, and not such sums as may be required to make the Arms fit for re-issue for service.

The Board shall consist of the Senior Military Store Officer (assisted by the Civil Armourer where there is one), the Inspector of Warlike Stores, and the Instructor of Musketry of the Regiment or Corps.

To SUPERINTENDENTS
OF STORES ABROAD AND OTHERS.

The following War Office Circular dated 15th July 1861, No. 697, is published and declared applicable to India.

The prices laid down in the Statement will be paid in Indian Currency at the rate of eight pies for each penny.

CIRCULAR No. 697.

WAR OFFICE,
15*th July* 1861.

General No. 1333.

In consequence of the introduction into the Service of the Interchangeable Rifle Muskets, pattern 1853, it becomes necessary that an alteration should be made in the existing mode of remunerating Armourer Serjeants for the repair, examination, &c., of those Interchangeable Arms.

Lord Herbert has, therefore, with the concurrence of His Royal Highness the General

Commanding-in-Chief, decided that the duties and pay of Armourer Serjeants when attached to Regiments shall, in future, be governed by the following Regulations:—

1. The pay of Armourer Serjeants with Regiments shall be raised from two Shillings a day to a uniform rate of five Shillings a day for seven days in the week, exclusive of beer money, which they will continue to receive.

2. All the materials for the repair of Interchangeable Arms, as well as the implements and chemical ingredients for browning the same, shall be supplied to Regiments on requisition from the Officer Commanding at the public expense, and shall be kept in charge of the Quarter-Master, under the direction of the Commanding Officer. The cost of the carriage of such materials, implements, and ingredients to the Regiments will also be borne by the public.

3. Armourer Serjeants, in consideration of the increased rate of pay granted to them, and the gratuitous supply of materials, will perform all repairs required to the Interchangeable Arms in the possession of their respective Regiments; examine and clean them periodically as at present, and brown the barrel of each Rifle every second year, or oftner if necessary, without any additional remuneration. They will also be required to mark the Arms of their Regiments, including those of the Serjeants.

4. They will also keep up the Tools in the Armourer's Field Forge issued to Regiments without any extra cost to the public.

5. To enable the Armourer to perform the service of browning the Arms, as part of his regular duty, he may be granted the assistance necessary for the purpose from the Regiment; the men employed under his direction being allowed the usual working pay.

6. The payment for repairs at the prices specified in detail in the Queen's Regulations (page 106), and for the browning of barrels (Article 25, page 101), will therefore be discontinued in the case of Rifled Muskets, pattern 1853, when made on the interchangeable principle; and no charge will, in future, be made against the Soldier for the browning of his Rifle.

7. The sum of one Shilling a year, per Arm of Rank and File, shall be deducted from each Captain's contingent allowance, and credited to the public in aid of the expense incurred in maintaining the Arms in repair.

8. All repairs to Arms injured, either intentionally or by carelessness, are to be paid for by the men at the regulated rate specified in the annexed Statement. The Captains of Companies will be responsible for receiving the charges for these damages, and for crediting the amount to the public, less the amount in Column B., which is to be paid to the Armourer Serjeants, *vide* paragraph 16.

9. As by the above arrangement the Armourer Serjeant, in consideration of his increased rate of pay, is required to keep all Interchangeable Arms in a state of repair, and to inspect them periodically, he will be held strictly responsible that all such as are delivered into store before they have been the regulated period in use are actually in a serviceable state.

10. All casualties, therefore, whether of an accidental or wilful description, which may be discovered in such Arms when inspected by any viewers of the Small Arms Department, and which ought properly to have been made good previous to the return of such Arm or Arms into store, will be charged to the Regiment and recovered from the Armourer Serjeant. This charge will include all the expense of repairs, exclusive of the value of the materials which are supplied gratuitously.

11. When Arms have been directed to be returned into store, immediate notice is to be given by the Captains of Companies to the Serjeant Armourer, in order that the repairs required by the Regulations may be executed, and, generally, they will afford the Serjeant Armourers every facility and proper opportunity for examining and repairing them. In the event of any Captain neglecting or refusing to do so when required, he will render himself responsible for any charge that may be made on account of repairs deemed necessary by the Small Arms Department; any such special case to be decided by a Board of Officers.

12. As these amended Regulations do not exonerate Captains of Companies from their responsibility for the perfect efficiency of the Arms belonging to their Companies, they must satisfy themselves, by frequent and careful inspection, that all repairs are promptly and properly performed by the Serjeant Armourer.

13. An account is to be rendered annually to the War Office by Officers Commanding Regiments of the receipts and expenditure of the materials supplied for the repair of the Interchangeable Arms, and of the number of the several articles remaining in the possession of the Quarter-Master.

14. These Regulations do not apply to the Serjeants' Short Rifles, the parts of which are not interchangeable. Such repairs as they may require (when not damaged by carelessness or intention) are to be paid for by the Captains of Companies, the Armourer Serjeant furnishing the materials as heretofore.

15. The annexed Statement contains a list of materials, which will be furnished at the public expense to Serjeant Armourers, for the repair of the Interchangeable Rifles, and which, with the exception of the breech pin, will be supplied in the finished state.

16. To meet the case of repairs executed by the Serjeant Armourers which have to be charged to the Soldiers, on account of carelessness or wilful damage, the Statement shews in Column A. the cost of the materials. Column B. shews the sum to be paid by the Soldier to the Serjeant Armourer for his extra labor in re-placing the several parts enumerated in that Column as most likely to be thus damaged. This payment to the Serjeant Armourer, with the cost of the material, will be the total charge against the Soldier. But as the materials will have been originally supplied without charge, their value, when thus used to make good loss and damage, must be credited to the public.

17. The Statement further shews, in Column C., the estimated percentage of materials required for the repair of Interchangeable Rifles for one year's consumption in Garrisons. In the Field this proportion should be doubled.

Note.—In case of repairs being executed by the Armourer Serjeant, which have to be charged to the Soldier on account of carelessness or wilful damage, the sums charged in the 2nd Column (B.) is to be paid by the Soldier to the Armourer Serjeant for the trouble of re-placing the several parts enumerated in that Column. This payment, together with the cost of the material in Column (A.), will be the total charge against the Soldier. But as the materials will have been originally supplied without charge, their value, when thus used to make good loss and damage, must be credited to the public. The Column (C.) shews the estimated percentage to be kept in store for one year's consumption for the repair of Arms in Garrisons.

In the Field this proportion should be doubled. All the materials, with the exception of the breech pin, will be supplied in the finished state.

Opium Notification.

WITH reference to the advertisement issued from this Office under date the 10th November 1860, it is hereby notified that 300 Chests of Behar Opuim of the Sale held on the 7th instant, which were reserved for the French Government and have not been cleared, will be re-sold on account of Government at the Exchange Hall on Thursday, the 5th December next, immediately after the conclusion of the Sale of the 1,843 Chests advertized for that day.

2. The Conditions of re-sale will be the same as those of the Sale above referred to.

By Order of the Board of Revenue,

A. EDEN,
Junior Secretary.

FORT WILLIAM,
The 23rd November 1861.

Notification.

Fort William, the 9th November 1861.

Notice is hereby given, that the Provision Opium of 1860-61, consisting of about 15,711 Chests of Behar, and 13,649 Chests of Benares Opium, will be brought forward for sale by Public Auction in the year 1862 on or about the dates specified below:—

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st.*—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd.*—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd.*—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th.*—Each lot shall contain five Chests.

5*th.*—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per Chest	*Deposit.* ... Rs. 300 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	... „ 300 „ „
Ditto of Rs. 1,600, but less than Rs. 2,000	... „ 400 „ „
And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.	

6*th.*—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th.*—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th.*—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th.*—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th.*—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th.*—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th.*—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz.*, two of the season's provision under sale, and two of the previous season, will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Offg. Exr. of Commissariat Accounts.

Commissariat Notice.

SEALED Tenders will be received at the Commissariat Office, No. 6, Park Street, until 2 o'clock P. M. of the 20th December, for the supply of Stores to the Cossipore Gun Foundry, as per Statement at the foot.

Tenders will be opened at 12 o'clock, on the 21st December, in the presence of those parties who choose to attend.

Each Tender to be accompanied by Government 5 per cent. Promissory Notes, or the Sub-Treasurer's Receipt for 10 per cent. on the value of the Stores tendered. Without such Deposit no Tender will be acknowledged.

These Deposits will be returned, in the case of unsuccessful Tenderers, within forty-eight hours after Tenders are opened, and upon completion of delivery in the case of accepted Tenders.

Stores must be equal to musters open to inspection at the Foundry, or they will be rejected.

Payment will be made monthly upon Foundry Receipts.

Tenders must include every item of the class or classes to which they have reference.

Form of Tender can be obtained at this Office.

Camp Allahabad, the 2nd November 1861.

Chief Commissionership of the Central Provinces.

1. RESOLUTION.—The Governor General in Council having had under consideration the Administrative arrangements of the Province of Nagpore and those of the Saugor and Nerbudda Territories, resolves that the time has arrived for consolidating these several Districts under one central jurisdiction.

2. The existing form of administration does not present that unity, completeness, and efficiency which are requisite in order that justice may be done to the condition and prospects of Territories so largely capable of improvement. The Nagpore Province has heretofore been administered by a Commissioner acting under the direct orders of the Supreme Government. But, with a Province situated as Nagpore, the control exercised by the Supreme Government is necessarily remote, and therefore slow; whilst the Commissioner, being occupied with details—political, fiscal, and judicial—cannot devote his full care to greater measures of improvement, and to matters of general importance. The Saugor and Nerbudda Territories have at various times been transferred from one Government to another:—They were originally under the Supreme Government. Subsequently they were placed under the Lieutenant Government of Agra. Again, in 1842, the general control of them was vested in a Commissioner and Governor General's Agent in direct communication with the Supreme Government, while the supervision of fiscal and judicial affairs remained with the Sudder Board and Sudder Court at Agra respectively. Again, at a later date, the general jurisdiction was once more entrusted to the Government of the North-Western Provinces, under which it has continued up to the present time.

3. The position, however, of the Saugor and Nerbudda Territories is such as to prevent their receiving from any existing Local Government that measure of care and attention which Territories more favorably situated have never wanted. Their geographical situation separates them, more or less, widely from the Head-Quarters of all the Local Governments in India, excepting only that of Nagpore. Between them and all other nearest British Provinces there intervene, at most points, either foreign country or hilly waste tracts, rendering access difficult. In all directions, save one, there is a want of good lines of communication to connect them with neighbouring British Territory. Such comparative distance and isolation not only cause delay in reference and correspondence, but preclude these Territories from being visited by the Head of the Local Government and by the Inspecting Authorities of the several Departments so frequently as other places more centrically situated. No amount of activity and energy on the part of a Lieutenant-Governor of the North-Western Provinces, or on that of his chief Officers, can altogether overcome this disadvantage.

4. On the other hand, the Saugor and Nerbudda Territories, conjoined with the Province of Nagpore, form a compact area of about ninety thousand square miles, with a population of more than six millions of souls, and revenues amounting in the total to about three quarters of a million sterling per annum. And although within the limits of this area some varieties of race, language, and custom exists, yet many of the Districts, tribes, and classes which it comprises are either quite homogeneous, or have a strong resemblance and affinity to each other; whilst they differ for the most part from those which are

found in the other Provinces of the Bengal Presidency. Moreover, all the Districts of this united area, though many of them are inconveniently segregated from the Local Government under which they are at present placed, possess comparative facility of communication with each other, and with a centre of Government which shall be common to all.

5. Therefore, the Governor General in Council holding, firstly, that it is desirable that the Saugor and Nerbudda Territories sould cease to be administered as an adjunct to the North-Western Provinces, and that they should possess an administration sufficient in itself, and permanent in its nature; and secondly, that these Territories may be joined with the Province of Nagpore under one Local Government with the greatest advantage to the management of the resources and to the development of the capabilities of the whole area, has resolved to constitute a separate Chief Commissionership from the Nagpore Province and the Saugor and Nerbudda Territories, to be designated the Chief Commissionership of the Central Provinces, and to be administered by a Chief Commissioner and Agent to the Governor General, under the orders of the Supreme Government, on a system similar, in most respects, to that which exists in the Punjab and in Oudh.

6. The following Districts, as they now exist, will be comprised in the Central Provinces:—

Nagpore Province.	Nagpore.
	Chanda.
	Bhundara.
	Chindwarra.
	Raepore, (Chutteesgurh).
	Seroncha.
	With Dependencies of Bustar and Khuronde.
Saugor and Nerbudda Territories.	Saugor.
	Dumoh.
	Jubbulpore.
	Mundlah.
	Seonee.
	Baitool.
	Nursingpore.
	Hoshungabad.

7. The Chief Commissioner and Agent to the Governor General for the Central Provinces will be assisted by a Secretary, a Judicial Commissioner, three Divisional Commissioners, and a Staff of Deputy Commissioners, Assistant Commissioners, and Extra Assistant Commissioners, according to the subjoined scale:—

		Rupees per annum
Chief Commissioner (with allowances)	...	56,000
Secretary	...	21,000
Judicial Commisioner, with travelling allowance	...	38,000
3 Commissioners, each at 2,500 Rupees and 250 Rupees travelling allowance, or in all	...	33,000
4 First Class Deputy Commissioners at	...	18,000
4 Second Class at	...	14,400
4 Third Class at	...	12,000
4 Fourth Class Deputy Commissioners corresponding to Assistants at	...	8,400
6 Assistant Commissioners at	...	7,200
*8 Asst. Commrs. at Rs. 4,800 each per annum.	...	
3 Extra Assts. at	...	6,000 each.
4 Ditto ditto at	...	4,800 each.
5 Ditto ditto at	...	3,600 each.
6 Ditto ditto at	...	3,000 each.

* Assistants on entering the Commission will receive Rs. 400 per mensem; but after passing the higher standard of examination and being vested with full powers, will receive an additional allowance of Rs. 100 until their promotion to the Rs. 600 grade.

8. The above Officers will severally exercise the same powers as those exercised by Officers of the same designation in the Punjab and Oudh.

9. The distribution of the existing Districts into Commissionerships and Deputy Commissionerships, and the appointment or otherwise of Inspecting or Directing Officers for the several Departments, such as a Director of Public Instruction, an Inspector of Jails, and the like, will be matters for future consideration:—

ORDERS by the LIEUTENANT-GOVERNOR, N. W. Provinces.

SEPARATE REVENUE (CUSTOMS) DEPARTMENT.

No. 247A.

Camp Allahabad, the 15th November 1861.

THE following Rules framed by the Government of these Provinces for giving effect to Act XXXI. of 1861, in the exercise of the authority conferred upon the local Government by Section X. of the said Act, are published for general information, to have the force of law with effect from the 1st December 1861:—

1. For giving effect to the provisions of Act XXXI. of 1861 and to such rules as the Government of the North-Western Provinces shall from time to time determine, there shall be appointed an Officer styled the Deputy Commissioner of Customs, who, in subordination to the Commissioner of Customs, shall be entrusted with the general supervision of the arrangements for giving effect to the Act. Subordinate to this Officer shall be such Inspectors or Deputy Inspectors, Superintendents and other Officers of Customs, as the Hon'ble the Lieutenant-Governor, with the sanction of the Governor General in Council, shall be pleased to appoint.

2. All existing establishments for the suppression of the illicit manufactures of Salt, throughout the North-Western Provinces in which the Act is introduced, shall form part of the establishment of the Deputy Commissioner and shall be remodelled as may be found expedient.

3. It shall be the duty of the Deputy Commissioner, and of the Inspectors and Deputy Inspectors subordinate to him, to issue licences and receive all fees, duties, or other sums payable under the provisions of the Act, or under the rules for giving effect thereto; to supervise all factories licensed under the Act, to suppress the illicit manufacture of alimentary Salt from saliferous earth or brine, natural or artificial, under the provisions of Acts XIV. of 1843 and XXXVI. of 1855, and to apprehend and commit for trial by the Magisterial Authorities of the District within which the offence may have been committed, all persons who may act in contravention of any of the above Acts.

4. The grades of Inspector and Deputy Inspector instituted under the rules are respectively equivalent to those of Patrol and Assistant Patrol, and such Officers are consequently competent to search dwelling-houses and similar enclosed places under Act XXXVI. of 1855.

5. Every Superintendent of Customs appointed under these rules shall be vested with the powers of an Assistant Patrol under Act XXXVI. of 1855.

6. The Deputy Commissioner of Customs, subject to approval of the Commissioner of Customs, shall assign to each Inspector or Deputy Inspector the charge of certain Districts; and shall, with the sanction of the Commissioner, be competent to extend, reduce, or otherwise modify, as the exigencies of the Service may require, the jurisdiction of any subordinate Officer.

7. Where an Inspector or Deputy Inspector may have charge of more than one District, one or more of such Districts may be entrusted to an Officer of the grade of Superintendent, who, the selection being confirmed by the Deputy Commissioner, shall be competent to exercise all functions which, under the Act, or these rules, may be performed by an Inspector or Deputy Inspector. But

the Inspector or Deputy Inspector to whom such Superintendent is subordinate will not be thereby relieved from responsibility for the general administration of such Districts. It will be his duty by frequent personal visits, and by, from time to time, exchanging jurisdiction with the Superintendent, to satisfy himself of the integrity and efficiency of the subordinate administration.

8. Any Officer of Customs invested with the powers of a Deputy Inspector shall be competent in case of necessity to exercise the general authority entrusted to him in any District within the North-Western Provinces adjacent to his own jurisdiction.

9. The existing Police and Revenue Establishments are empowered and required to aid, in such manner as is hereinafter set forth, in giving effect to the Act and to these rules.

10. Licences to manufacture crude Saltpetre or to manufacture and refine Saltpetre, and separate and purify alimentary Salt, shall, in the first instance, issue to Officers of Customs in charge of Districts from the Office of Deputy Commissioner of Customs, and shall be signed by him and sealed with the seal of his office. On issue to any manufacturer or refiner, each licence shall, on the reverse, be countersigned and sealed by the Officer of Customs in charge of the District in which such manufacturer or refiner resides, and the said Officer shall insert all necessary particulars.

11. The following shall be the form of licence to manufacture crude Saltpetre, or substances named in Section XI. of the Act. It shall be printed in the Persian character :—

لیسنس یعنے اجازت نامہ واسطے بنانے شورہ خام و غیرہ بابت سنہ عیسوي

Depy. Comr. of Customs, N. W. Provinces.

To be endorsed as the licence to manufacture crude Saltpetre.

13. The currency of licences granted under the Act expires on the 1st of December in each year, but thirty days of grace will be allowed for their renewal. All factories found working without renewed licence, after the 1st of January in each year, shall be liable to all the penalties prescribed by the Act.

14. Any person desirous of obtaining a licence under the provisions of the Act shall apply personally, or in writing, to the Officer of Customs in

charge of the District, who will issue the licence on payment of the prescribed fee.

15. The undermentioned sums shall, until the Government of the North-Western Provinces may order otherwise, be payable for licences under the Act.

For licences to manufacture crude Saltpetre, and substances named in Section XI. of the Act, an annual fee of two Rupees.

For licences to manufacture and refine Saltpetre and to separate and purify Salt educed therefrom, an annual sum of ten Rupees.

16. But if, between the 1st of December in one year, and the 30th of November in the following year, any person may desire to take out a licence for such portion of the year as may remain unexpired, fees shall be taken for such licences according to the following scale:—

Periods of more than six months to be reckoned as a full year.

Periods of more than three and not more than six months to be reckoned as half a year.

Periods of three months and less to be reckoned as a quarter of a year.

17. Every Officer of Customs in charge of one or more Districts shall keep two separate registers, in one of which (A) shall be entered exact copies of all licences for the manufacture of crude Saltpetre and the other substances named in Section XI. of the Act, and in the other (B) copies of all licences for the manufacture and refining of Saltpetre, and the separation and purification of alimentary Salt. General Registers for the North-Western Provinces shall be kept in the Office of the Deputy Commissioner.

18. At the expiry of the term fixed for the currency of licences, every manufacturer of crude or refined Saltpetre, previous to being furnished with a fresh licence, shall be required to deposit his old licence, which shall then be cancelled, a note being made opposite to the original entry in the register of the date on which every such licence is cancelled. All cancelled licences shall be defaced, and whenever convenient may be disposed of as waste records, in accordance with established usage.

19. One licence protects only the manufactory or refinery for which it is specially issued. The owner of more than one manufactory or refinery must take out a licence for each.

This will apply to two factories, the property of one owner, situate in different protions of one village.

20. All works licensed under the Act shall be open, at all times, to visit by any Officer of Customs not being of lower rank than that of Jemadar, and every owner of any such work shall exhibit his licence on being called on by any Officer of the Department, or by any Magistrate.

21. Every Officer of Customs of the rank of Inspector, or Deputy Inspector, or exercising their functions, who may depute any Officer of his establishment of lower rank than that of Superintendent, to visit and inspect factories licensed under the Act, shall furnish him with written authority to do so under his official seal and signature.

22. Any owner of any factory licensed under the Act, who may refuse to exhibit his licence, when called on by any such Officer or by any Magistrate, shall be liable for each offence to a fine of not more than *ten* Rupees in the case or a factory for the manufacture of crude Saltpetre, or other substances mentioned in Section XI. of the Act; and of not more than *fifty* Rupees in the case of a factory licensed to manufacture and refine Saltpetre and separate and purify Salt. Any Officer of Customs of the rank of Deputy Inspector shall be competent to impose such fines, subject to appeal to the Deputy Commissioner of Customs. If the fines be not paid within one month from the date of the final order, suspension of licence shall follow and continue until the fine be realized. Fines levied under this rule shall be credited to Government.

23. Any Officer of Customs in charge of a District may refuse to issue a licence for the manufacture of crude Saltpetre, or other substances named in Section XI. of the Act, whenever it may appear to him that the annual outturn of such factory will be less than five maunds, or whenever the immediate neighbourhood of tracts yielding pure alimentary Salt may afford just ground for suspicion that the production of such Salt is the real object of the applicant.

Every such refusal shall within twenty-four hours be reported to the Deputy Commissioner, and, if upheld by him, be open to appeal to the Commissioner of the Division whose award shall be final.

24. Whenever the owner of any manufactory or refinery licensed under the Act shall, within the the period for which his licence is current, desire to change the locality of his manufactory or refinery, or whenever the owner of any refinery entrusted to any agent shall desire to change or remove such agent, he shall give information to the Customs Officer in charge of the District, who will note such changes in his register and on the applicant's licence. Such notification shall, in case of change of locality, precede removal, and, in case of change or removal of agent be made within twenty-four hours of such change or removal being effected, and failure to comply with these provisions shall be held to nullify the licence. All such changes shall be communicated at once to the Office of the Deputy Commissioner for rectification of the General Registers.

25. Licences, lost or destroyed, are renewable, for the unexpired portion of the original currency, on application to the Customs Officer of the District, and on payment of one quarter of the fee for an original licence. All such renewals shall be noted in the District and General Registers, and the quarter fees shall be carried to credit as shall be provided for fees on original licences.

26. No licence to manufacture crude Saltpetre shall suffice to protect any factory in which Saltpetre is subjected to a secondary or refining process; whether in such factory the alimentary Salt be separated and purified, or not.

27. To constitute a separation of Salt within the meaning of the Act, it shall be necessary that the Salt be actually *set apart* from the substance, for the manufacture of which the factory is licensed. The *spontaneous* production of Salt in any factory licensed for the manufacture of crude Saltpetre, or any of the substances named in Section XI. of the Act, shall not render the owner liable to penalty, so long as such Salt is kept in admixture with the substance which the factory is licensed to produce.

28. Whenever any question may arise as to whether Salt found in a factory licensed under the Act to manufacture crude Saltpetre, or other substances named in Section XI. be the produce

of such factory, or of such processes, a sample of the Salt shall be forwarded by the Customs Officer of the District, through the Deputy Commissioner, or by the Magisteral authority, direct to the Customs Analyst, whose opinion shall be decisive.

29. Whenever Salt may be found in a separate state in any factory licensed to manufacture crude Saltpetre, or other substances named in Section XI., such Salt, after conviction of the owner before a Magistrate, may, by order of the Deputy Commissioner of Customs, be sold by public auction, or if such Salt be too impure for sale, or being offered for sale shall realize less than the departmental minimum price, it shall be destroyed in such manner as the Deputy Commissioner shall direct.

30. Salt, the produce of a factory licensed to manufacture crude Saltpetre, or other substances named in Section XI. of the Act, shall, whenever found in the possession of any person in quantities exceeding one seer, and within the distance specified in Section VIII. of the Act, of fifty yards from the factory, be liable to confiscation and sale, but the person in whose possession such Salt is found shall not be amenable to other penalty unless the Salt be in excess of five seers, in which case such person shall be liable to the penalties prescribed by Act XIV. of 1843.

31. Salt, the produce of any Factory licensed to refine Saltpetre, and separate and purify Salt, if found beyond the precincts of the Factory, and within the distance of one hundred yards, specified in Section VIII. of the Act, uncovered by a Pass (see Rule 49), shall be liable to confiscation and sale. If such Salt be in excess of five seers, the person in whose possession it is found shall be liable to the penalties provided by Act XIV. of 1843.

32. The proceeds of such auction sales shall, after deduction of all incidental expenses, be the perquisite of those concerned in the seizure, in accordance with Rule 67.

33. If at any factory licensed to refine Saltpetre, and separate and purify alimentary Salt, there may at any time be produced Salt too impure to remunerate the owner for purification, such owner may send samples to the Customs Officer in charge of the District, who, after convincing himself of the impurity of the substance in question, may order it to be re-mixed with the earth or crude Saltpetre of the factory as the owner may prefer. Such re-mixture shall take place in presence of the Mooshriff attached, under Rule 36, to the factory, who shall report accordingly to his superior. All cases of the kind shall be reported, as they occur, to the Deputy Commissioner.

34. Persons apprehended by Officers of Customs for breach of the provisions of the Act, or of Act XIV. of 1843, or of Act XXXVI. of 1855, shall be taken before the nearest Police Officer in charge of a Station, who shall take bail for their appearance, when called on to answer the charge preferred by the Department of Customs, and then release them.

35. If any Officer of Customs employed under these rules shall, in the execution of his duty, meet with resistance from any person or persons, or shall have reason to apprehend such resistance, he may call on the nearest Magistrate, or Officer of Police, for assistance. and all Magistrates and Officers of Police are empowered and required to afford such assistance.

36. For the immediate supervision of refiners, and for maintaining a check over the Salt therein produced, shall be appointed a sufficient number of Officers to be styled Mooshriffs. In each factory licensed to refine Saltpetre, and separate and purify Salt, shall be stationed an Officer of this grade.

37. Every Mooshriff shall remain on the premises of the factory to which he is attached, from sunrise in the morning until nightfall.

38. Every owner of a factory licensed to refine Saltpetre and separate and purify Salt shall provide, on the premises, a godown capable of being secured under lock and key. The key of this godown shall remain in possession of the Mooshriff attached to the factory. Locks of English manufacture will, for this purpose, be provided by the State, and the Mooshriffs held responsible for their safe-keeping and serviceable condition. In addition to the Government lock the owner of the refinery may, at night, affix a lock of his own, the key of which may remain in his own keeping, to the bonded godown.

39. It is the duty of the Mooshriff to see that all Salt, separated in the refinery to which he is attached, is deposited in the bonded godown, to which, between sunrise and nightfall the owner or agent of the factory has in person, or through his servants, and under the supervision of the Mooshriff, right of access, for all purposes of purification of the Salt stored therein. The Mooshriff will prevent the removal from the godown of any Salt until, after payment of duty, written permission for its removal has been issued by the Officer of Customs appointed to the District.

40. Every Mooshriff shall report to his immediate superior whenever from any cause, such as stoppage of work, &c., no Salt shall, on any one day, have been separated in the refinery to which he is posted.

41. The Mooshriff shall report to his immediate superior whenever the bonded godown of the factory, to which he is attached, shall be so full as to cause inconvenience in storing the Salt produced in ordinary course of manufacture.

42. Once in every three months, or more frequently, as in individual cases may be found necessary, or as often as a Mooshriff may report, as provided in Rule 41, every Officer of Customs in charge of a District will visit his refineries, weigh the Salt contained in the bonded godown, and deducting five per cent for dryage, receive the Government duty due from the owners. He will then issue to the Mooshriff a written remission for the clearance of the bonded godown, the owner being at liberty to store the Salt on which duty has been paid in any other portion of his premises, and to dispose of it at his leisure, and wholesale or retail, as he may prefer.

43. The allowance of five per cent for dryage is a temporary provision, which may hereafter be modified as the Government, on representation from the department of Customs, may see fit.

44. Credit is allowed to owners of refineries for duty paid on Salt, in excess of twenty per cent, contained in crude Saltpetre, imported across the Customs line, and Officers of Customs in charge of Districts are empowered, when collecting duty, to make allowance for sums represented by rowannahs, certifying payment of duty on such Salt, when produced by owners of refineries, and to deduct such sums from the duty payable. The rowannahs are to be retained and sent with the

month's account of collections to the Office of the Deputy Commissioner.

45. On every clearance of a bonded godown, the unsold Salt, if any remaining in *unbonded* store from the preceding clearance, shall be carefully weighed and noted by the Officer collecting duty.

46. The Mooshriffs are charged with the supervision of all sales of Salt in the refineries to which they are posted. They will see weighed every quantity, however small, disposed of during the day, and will enter each sale in a book kept for the purpose. Each day's account is to be added up, closed with the Mooshriff's seal and signature, and a duplicate forwarded to the Officer of Customs in charge of the District. Owners of refineries, or their agents in charge, are required daily to confirm by their signature in the Mooshriff's book of sales, and on the duplicate forwarded to the superior Officer, the accuracy of the daily entries.

47. If any owner or agent in charge of a refinery shall refuse or neglect to countersign the daily sale accounts of the Mooshriff, the latter shall immediately report to the Officer of Customs in charge of the District, who, for simple neglect on the part of such owner or agent, may, after a first warning in writing, impose a fine of not more than one rupee for each offence. If the owner or agent shall *refuse* to countersign the Mooshriff's daily sale accounts, the District Officer of Customs shall at once proceed to the refinery and inquire into the cause of such refusal. If any malpractice be, in course of such inquiry, proved against the Mooshriff, he shall be reported to the Deputy Commissioner for fine or other punishment, but, if on due investigation no valid cause be found to exist for such refusal by the owner or agent in charge of the refinery, the licence of the refinery may be suspended by the Deputy Commissioner as long as the owner or agent may refuse to conform to Rule 46. Fines levied under this rule shall be credited to Government.

48. No Salt shall in any factory or refinery licensed under the Act be sold to any purchaser, except while the Mooshriff is on the premises, or before sunrise, or *after* sunset. The Mooshriffs are to enforce this rule, and will report to their superior every occasion on which it is infringed. For breach of this rule, the Deputy Commissioner may inflict a fine not exceeding five rupees, and may suspend the licence of any factory for not longer than one week for each offence. Sums levied as fines under the rules shall be the perquisite of the Mooshriff on whose report they are imposed.

49. For the protection of purchasers of Salt, each Mooshriff shall be furnished with a sufficient number of Passes, which shall be on colored paper in the subjoined form. One of these shall be given to *each* purchaser, *who can demand it as a right*, dated and signed by the Mooshriff, and it shall protect the Salt and its purchaser from all question while in transit within the limits of Customs jurisdiction, as defined in Section VIII. of the Act, but not beyond the day on which it is issued. *Proposed Form.*

50. Officers of Customs in charge of Districts shall keep separate accounts for each refinery in their jurisdiction. In these shall daily be entered the amount of salt Sales reported by the Mooshriffs, whose daily returns must be carefully filed. At the end of each calendar month the total sold shall be added up, and the month's account closed under the signature of the Officer in charge. Accuracy of these accounts is essential, and the greatest attention must be devoted to them.

51. Officers of Customs in charge of Districts may at any time visit the refineries within their jurisdiction, and weigh the quantity of Salt in unbonded store. The sale return of the Mooshriff shall then be examined, and their total deducted from the total of the quantity last released from bond, to which will be added any surplus of duty paid Salt, ascertained under Rule 45, to have been on the premises unsold, on the last clearance of the bonded godown. If an excess be discovered, the same shall not be questioned, if not above five per cent on the quantity, which should be in unbonded store If above five per cent, but not in excess of fifteen per cent, single duty shall be taken on the quantity in excess of five per cent. If the surplus exceed fifteen per cent double duty shall be levied on the whole excess.

52. Officers of Customs in charge of Districts may at any time depute, under their official seal and signature, any Officer of their establishment, not being of lower rank than that of Kotegusht, or 1st Class Jemadar, to examine and weigh unbonded Salt in refineries, and they are required by frequent visits in person, whenever practicable, and through their subordinates, to maintain a check on the sale of Salt in refineries, and on the accounts of their Mooshriffs.

53. Excess discovered by Officers so deputed shall be liable to duty in accordance with Rule 51, but if the excess be above fifteen per cent, the owner of the factory may appeal to the Officer in charge of the District and claim that the Salt be re-weighed in presence of such Officer.

54. Whenever any dispute of this nature shall arise, the Salt in question shall remain under the attachment of the Customs Officers on the premises of the factory, until the Officer of Customs in charge of the District shall arrive, weighment by such Officer, whether original, or in decision of a dispute, shall in all cases be final, and shall be open to no appeal.

55. Whenever any owner or agent in charge of a factory licensed under the Act shall fail, within twelve hours of weighment, to pay any single or double duties due under Rules 42 or 51, the Officer of Customs in charge of the District shall suspend the licence of the factory, reporting within twelve hours of such suspension to the Deputy Commissioner.

56. Whenever any Officer of Customs, of lower rank than that of Deputy Inspector, deputed, under Rule 52, to weigh unbonded Salt in any refinery, shall discover an excess of more than fifteen per cent, such Officer, and any of inferior grade associated with him in the examination, shall be entitled to receive a moiety of the double duty imposed.

57. An excess of more than five per cent on the quantity of Salt, which should be in unbonded store in any refinery, shall subject the Mooshriff in charge to such penalty of fine, suspension, or dismissal, as the Deputy Commissioner, subject to

appeal to the Commissioner of Customs, shall determine.

58. If after examination of Salt in unbonded store, under Rules 51 and 52, there be discovered a *deficiency* in the quantity which should remain on comparison with the Mooshriff's sale accounts, such deficiency shall, up to 5 per cent, not be questioned. If above 5 per cent, but not more than fifteen per cent, such deficiency shall subject the Mooshriff to such penalty as the Deputy Commissioner may award on report from the Customs Officer in charge of the District. If the deficiency extend to twenty-five per cent, the Mooshriff shall be dismissed from the service. For a deficiency of twenty-five per cent, the Deputy Commissioner of Customs may suspend the licence of the refinery for any period not exceeding one month.

59. Whenever, under Rule 55, the licence of any factory has been suspended for non-payment of duty, the Deputy Commissioner shall, if all sums due up to date of suspension be not paid within the fifteen days of such suspension, report to the Commissioner of Customs, or, subject to appeal to the Sudder Board of Revenue, may at once, under Section XIII. of the Act, cancel such licence, or fix any future date, within six weeks from the date of suspension by the District Officer of Customs, on which failing payment such licence shall be cancelled.

60. Whenever, under these rules, it shall be necessary to suspend the licence of a factory, it shall be lawful for the suspending Officer to station on the premises one or more peons, or other subordinates, to enforce such stoppage.

61. All sums receivable by Officers of Customs, under the provisions of the Act, or these rules, are payable into the nearest District or Pergunnah Treasury, and all Officers in charge of such Treasuries are empowered and required to receive from Officers of Customs all sums which the latter may tender as duty, fees, fines, proceeds of auction sales, &c., and to grant receipts specifying the amounts paid, and on what account.

62. Officers of Customs, in tendering payments of money at Treasuries, are to be minute in stating the head under which they are to be credited, and should be careful to see that all particulars are duly entered in the receipts granted.

63. Officers in charge of District Treasuries are keep an account current with the Department of Customs for all such sums, and will, at the end of each calendar month, furnish to the Deputy Commissioner an account thereof, specifying the totals under each separate head.

64. Officers of Customs in charge of Districts are personally responsible for all sums receivable by them, until the same are safely deposited in the nearest Treasury. No excuse of dishonesty of subordinates will be admitted in case of loss.

65. For every person convicted under Rules 30 and 31, a sum of one Rupee shall be paid to the seizers.

66. One-eighth of all fines levied under Section VI. of the Act, or for breach of the provisions of Section IV. of Act XIV. of 1843, shall be the perquisite of the seizers, whether such fines shall be realized or not. No Officer of Customs above the rank of Superintendent shall participate in any sums payable as prize money under these rules. Bills for the eighth part of fines shall be drawn out and submitted for audit, in accordance with the rules hitherto in force.

67. One-half of all sums payable as prize money shall be the perquisite of the informer, where special information may have been given by any person not on the establishment. The division of prize money among the Customs establishment shall be as follows, *viz* :—One-fourth of the whole sum divisible shall be paid to the Superintendent, whenever an Officer of that grade is in charge of a District, except in cases specially provided for in Rules 48 and 56, the remainder to be rateably divided in proportion to salaries.

68. Landholders and their resident agents are required to satisfy themselves that the owner of every factory for the manufacture of crude Saltpetre, or other substances named in Section XI. of the Act, or for the refining of Saltpetre, and for the separation and purification of Salt which may be established on their estate, is in possession of an unexpired licence. They are further required to report at once to the nearest Revenue or Police, or Customs authority, any case in which they may discover, on their estate, any such factory working without a current licence. Failure to observe this rule shall subject any landholder or his resident agent to the penalties of Section IV., Act XIV. of 1843. Where the landholder is non-resident, his local agent shall alone be held responsible for observance of this rule.

69. All Subordinates of the Land Revenue Department, and of the Police, all Putwarees and Kanoongoes are likewise required to report the existence of any unlicensed factory within their respective limits. Officers of not lower rank than Naib Tehseeldar and Constable will report direct to the Customs Officer of the District. Officials of inferior grade will report to their own immediate superior, who will communicate with the District Officer of Customs.

70. Whenever, under these rules, any fine shall be inflicted by any District Officer of Customs, or by the Deputy Commissioner, on any owners or agents in charge of a factory licensed under the Act, and such owner or his agent shall desire to appeal to the Commissioner of the Division, such appeal shall be made within one month of the issue of the order, failing which, the appeal shall not be received.

71. Fines leviable under these rules, and divisible among the Customs establishment, shall not be divided until the lapse of two months from the date of levy, to allow time for appeal to the Commissioner of the Division and for the receipt of his final orders.

72. The maund weight mentioned in the Act and these rules shall be the Government maund of eighty sicca weight to the seer, and all calculations of duty, &c., shall be made relatively to this maund.

73. All general rules of the department of Customs will, in cases not herein provided for, apply to such Officers of the department as are specially employed under the Act and these rules.

74. The Government reserves the right of adding to or modifying these rules.

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st.*—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd.*—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd.*—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th.*—Each lot shall contain five Chests.

5*th.*—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per Chest	*Deposit.* Rs. 200 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	„ 300 „ „
Ditto of Rs. 1,600, but less than Rs. 2,000	„ 400 „ „

And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.

6*th.*—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th.*—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th.*—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th.*—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th.*—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th.*—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th.*—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz.*, two of the season's provision under sale, and two of the previous season, will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Question 130.—An Officer proceeded to England on Medical Certificate in 1857, and according to the new Furlough Regulations was entitled to retain his appointment for a period of fifteen months.

As he did not return on the expiration of that period, and consequently lost his appointment, are the fifteen months thus passed to be considered as Staff employ, so as to bring that Officer under the operation of paragraph 73?—or, as he did not rejoin his appointment at the expiration of his leave, and can hardly be said to have held an appointment within the last three years, is he debarred from entering the Staff Corps?

Answer 130.—This Officer is entitled to reckon for Staff service the period of fifteen months during which he was on leave.

No. 1119 *of* 1861.—His Excellency the Governor General in Council is pleased to make the following appointment, with effect from the 11th July last:—

Major T. F. Hobday, of the late 72nd Regiment Native Infantry, Deputy Commissary General, and Officiating Examiner, to be Examiner of the Commissariat, Barrack, Stud, and Clothing Departments, *vice* Major Newbolt, who has vacated that office.

No. 1120 *of* 1861.—In continuation of Government General Order No. 960 of the 22nd October 1861, His Excellency the Governor General in Council is pleased to publish, for general information, the following observation by the Right Hon'ble the Secretary of State for India on an Answer given by the Government of India to a Question connected with the late changes in the Indian Army, and published in Government General Order No. 681 of the 22nd August 1861:—

Question.	Answer by Government in India.	Remarks.
89. Is an Officer entitled to count for service on the Staff from the date he was appointed to the Staff, notwithstanding that he did not join the appointment immediately in consequence of being required with his Regiment on foreign service?	89. His service on the Staff will count from the date of the General Order appointing him.	89. No. He must join first.

No. 1121 *of* 1861.—His Excellency the Governor General in Council is pleased to publish, for general information, the following observations by the Right Hon'ble the Secretary of State for India on Decisions given by the Government of India, under date the 15th* July 1861, on Questions connected with the late changes in the Indian Army, and which Questions and Decisions it was considered unnecessary to publish in Government General Orders.—

*See Memorandum of Decisions not for publication.

Questions.	Answers by Government in India.	Remarks.
18. With reference to paragraph 72, which states that Officers now holding Staff appointments of any description may continue in Staff employment, whatever their Regimental rank may be, without joining the Staff Corps; and that in such case they will not, as heretofore, be required to vacate their appointments on the attainment of certain Regimental rank, is it to be understood that Officers "who do join the Staff Corps" will have to vacate their appointments on attainment of such advanced rank? Paragraphs 72 and 90.	18. No. *Vide* paragraph 90. "The appointments and promotions in the several Departments will rest, as at present, with the Government of India, and will be made irrespectively of the rank which an Officer may hold in the Staff Corps."	18. Add, "with the exception of the appointment to Regimental Staff, which will be, as heretofore, restricted to Subalterns."
27. Officers of Her Majesty's British Regiments joining the Staff Corps necessarily, while in it, forfeit the power of selling out and of recovering the value of their Commissions, in lieu of which they obtain other privileges. Will such Officers recover the full power of selling out (the same as if they had never left and been promoted in their Regiments) on their again exchanging from the Staff Corps into a British Regiment, though in an advanced grade? Paragraph 74.	27. Whether an Officer would necessarily forfeit the power of selling out under such circumstances depends upon the Rules which may be laid down from time to time by Her Majesty's Government. Officers of the British Army going into the Staff Corps vacate their Regimental place; on returning to Regimental duty they regain the privileges of such position.	27. Officers of Her Majesty's British Regiments who have joined the Staff Corps, and afterwards again exchange into a British Regiment though in an advanced grade, will regain the power of selling their Commissions, subject to Her Majesty's pleasure, provided the Regiments into which they exchange are subject to the system of purchase.
28. In the event of a Captain (Native Infantry) a District Inspector of Musketry volunteering for general service, and being posted to one of the new Line Regiments, could he retain his permanent appointment of District Inspector? Paragraph 74.	28. He can retain his appointment if the Commander-in-Chief can spare him for the unexpired portion of a period of five years, unless his Regiment should be meanwhile ordered out of India.	28. A District Inspector of Musketry volunteering for general service, and being posted to one of the new Line Regiments, may retain his permanent appointment of District Inspector provided his services are not urgently required for duty with any Regiment to which he may be posted, and provided that such Regiment is serving in India.

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st.*—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd.*—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd.*—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th.*—Each lot shall contain five Chests.

5*th.*—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is	*Deposit.*
less than Rs. 1,200 per Chest	Rs. 300 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	„ 300 „ „
Ditto of Rs. 1,600, but less than Rs 2,000	„ 400 „ „

And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.

6*th.*—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th.*—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th.*—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th.*—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th.*—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th.*—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit, either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities, a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th.*—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz*., two of the season's provision under sale, and two of the previous season, will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article 6th.—"With regard to the Trade in "Opium, it is agreed between the high contracting Parties that, at each of the periodical Sales "of that article, there shall be reserved for the "French Government and delivered upon requisition duly made by the Agents of His Most "Christian Majesty, or by the Persons duly appointed by them, the number of Chests so applied for, provided that such supply shall not "exceed three hundred Chests in each year, and the "price of the same shall be determined by the average rate at which Opium shall have been sold at "every such periodical Sale, it being understood "that, if the quantity of Opium applied for at "any one time shall not be taken on account of "the French Government by the Agents of His "Most Christian Majesty within the usual period "of delivery, the quantity so applied for shall "nevertheless be considered as so much in reduction of the three hundred Chests hereinbefore "mentioned. The requisitions for Opium as "aforesaid are to be addressed to the Governor "General at Calcutta within thirty days after "notice of the intended Sales shall have been "published in the *Government Gazette*."

Notice.

Salt.

It is hereby notified, that a quantity of 780,000 maunds of Pungah Salt, deliverable from Ghaut Narainpore, in Tumlook, of the manufacture of 1267 S. S., is for sale at the regulated fixed price of Rupees 408 per 100 maunds.

2. Parties wishing to tender for any quantity of the above Salts will deposit the amount value of their Tender at the Bank of Bengal, either in Government Promissory Notes (subject to the Rules in force in the Loan Department of the Bank), or in Cheques, Coin or Bank Notes. Each Tenderer will receive in lieu of such deposit a receipt for the amount signed by the Secretary and Treasurer of the Bank of Bengal, which will not be transferable. The Receipts for such deposits as may be in Cheques will not be granted until the amount of the Cheques shall have been realized.

3. To compensate the Bank for the additional risk, cost, and trouble arising out of this arrangement, the Tenderers will be charged by the Bank one-eighth per cent. or two annas per 100 Rupees, which must be paid at the time of making the deposit.

4. Tenders must be for even quantities of not less than 100 maunds, and will be received by the Junior Secretary of the Board of Revenue between the hours of 1 and 2 P. M. from Wednesday, the 11th instant till Friday, the 13th instant, both days inclusive.

5. Each Tender must be on stamped paper of two Rupees value.

6. The Tenderer will present to the Junior Secretary of the Board of Revenue, with the Bank Receipt, his Tender for the Salt he wishes to purchase.

7. After the last day appointed for the receipt of Tenders the Salt will be allotted. Should the total quantity tendered for exceed the available store, a rateable deduction will be made from the quantity specified in each Tender, and the balance of deposit will be returned, payable by the Bank of Bengal upon Cheques signed by the Junior Secretary to the Board of Revenue.

8. Should any of the Salt now advertized not be tendered for within the time allowed, the same will, without further notice, become available to the Public on application in the regular course.

By Order of the Board of Revenue,

A. Eden,
Junior Secretary.

Military Department.

Extract of a letter from Surgeon Major C. Morehead, of the Bombay Army, to the address of the Right Hon'ble the Secretary of State for India, dated 17th September 1861, on the subject, generally, of Sanitaria for European Troops in India.

III. As the right use of the Hill climates of India is of the utmost importance to the welfare of the British Soldier, it is very desirable that the question should not be rendered needlessly complex by diversity of opinion. I therefore take the liberty of addressing you with the view of re-stating, in a succinct form, the principles which I endeavored to apply in my Report, and of shewing that in truth there is no real difference of opinion between Sir Hugh Rose and myself.

IV. The following are the principles included in my Report:—

1. The cold season, from the middle of November to the end of February, throughout India is, generally speaking, not adverse to the European constitution.

2. The hot season, from the beginning of March to the middle of June and the month of October, may be said, in general terms, to be more or less injurious to the European constitution throughout India below an elevation of about 4,000 feet.

3. The rainy season of the South-West Monsoon, from the middle of June to the end of September, is, from humidity, heat, malaria, or cold, more or less injurious to the European constitution in most parts of India at all elevations. There are, however, some remarkable exceptions, the chief of which is that part of the Deccan Table Land situated between 20° and 15° north latitude within sixty miles of the eastern side of the Western Ghauts, and with an elevation of from 1,700 to 2,300 feet.

4. The cold season, from the middle of November to the end of February, being, throughout India, suitable to the European constitution, is that to which the movement to and from Hill Sanitaria should, as far as practicable, be restricted.

5. The hot season, from March to the middle of June and the month of October, throughout India, in all localities below about 4,000 feet (that is, within the influence of inland hot winds or the relaxing heat of the coast), should, as far as practicable, be avoided.

6. Localities in which the rainy season, from the middle of June to the end of September, is unfavorable, should, as far as practicable, be avoided.

7. The cold season of Hill climates in India is unsuitable in forms and stages of disease, for which a change to the sea coast is often very beneficial.

8. Two great defects have hitherto existed in the application of India Sanitaria,—

(a.) The exposure, to the cold and rainy seasons of Hill climates, of Convalescents from forms of disease for which these seasons of these climates are unsuited.

(b.) The neglect of sea coast Sanitaria for Convalescents in the cold season, for whom the cold season of Hills and of inland Table Lands is unsuited.

9. If from among the Convalescents at Stations with unfavorable hot and rainy seasons a judicious selection be made of those appropriate for a Hill climate, and their arrival at the Hill Station be timed so as to occur early in March, then a residence of one hot season, including October, on the Hills, and one rainy season in a suitable locality, will, in general, be sufficient to fit such Convalescents for return to duty in the succeeding cold season.

10. The Hill climates are not merely to be regarded as conducing to the recovery of suitably selected Convalescents, but also as, when taken in connection with a suitable monsoon climate, materially assisting in maintaining, at a higher standard, the general health of European Soldiers and their families. This object may be effected by transmitting, towards the end of February of each year, such percentage of the men and families of every Regiment, as the contingencies of service may permit, to a hill and suitable rainy season climate, and returning them to their Stations in the succeeding cold season. Thus every Soldier in India with his family would, periodically, and in rotation more or less frequently, according to the available percentage, be saved from the deteriorating influence of the injurious seasons of India.

11. In order to provide for the wants of the sick and Convalescent from those forms and stages of disease for which the cold season of the Hills and inland Table Lands is unsuited, Sanitaria or carefully selected positions on the sea coast should be established.

12. These principles admit of easy application in the Presidency of Bombay, as is shewn in my Official Report, and also, though in less degree, in that of Madras. But in Bengal and the Punjab they are beset with difficulties which, doubtless, further enquiry and observation may most materially abate, and it is most desirable that no effort with this view should be spared, for it may be safely affirmed that they are the only sound principles deducible from past experience and proved physiological data.

13. On the question of acclimatation there can be no doubt that the longer and more continuous the exposure of the European to the adverse action of high temperature, excessive humidity, and malaria, the greater will be the deterioration of his constitution. Therefore, as respects *these* influences, there is no such thing as beneficial acclimatation. But when the change is made from Europe to India, that is, from a temperate to a tropical climate, there the constitution of the European undergoes a modification, in order that the various functions may be brought into harmony with the influence on them of continued high temperature. There are few facts in physiology more satisfactorily proved than this. It is a true acclimatation. It is perfected in a short space of time, in one cycle of the seasons. If the arrival in India has taken place in the cold season, then, with ordinary care as regards diet, dress, exposure, exercise, &c., this modification of constitution, this acclimatation, will be insensibly effected, and the European at the commencement of the second cold season, that after a year's residence in India, will have become acclimatized. But if arrival should take place in the hot season, or if there should be excesses in food, intemperance, undue exposure or fatigue, then forms of febrile disease or biliary derangement are readily excited, and these, in common language, are correctly enough termed seasoning diseases. But this rude process of acclimatizing Europeans to an Indian climate not only for the time fills the Hospitals with sick, but leaves the men shattered in constitution and predisposed to the serious forms of tropical disease. With a good sanitary system it ought to be of very rare occurrence.

VI. It may be well that I should explain more fully why I have not included the cold season in the periods of residence recommended for the European Soldier at Deccan Hill Station,—

1. The cold season throughout India is suitable for the European, and is the only season appropriate for the return of men from the Hill Sanitaria to Stations in the low country.

2. If only cases suitable for a Hill climate be selected, and the use of Hill climates be systematized and judiciously practised, absence from Stations in the Plains for one hot and one rainy season periodically repeated will be sufficient.

3. As the cold season of Hill climates is injurious in some states of constitution, there would always be a risk of a proportion being retained during that season to their injury rather than their benefit.

4. Without a system of employment and amusement far more perfect than any yet thought of, a two years' residence at a Hill Station most generally proves tedious and depressing to the Soldier.

VIII. In conclusion, it may be confidently anticipated that the regular and systematic use of Hill coast and healthy monsoons climates in accordance with principles similar to those suggested in my Report and re-stated in this letter, in connection with a never-failing attention to the position and construction of Barracks, to the dress, rations, duties, amusements, and the other various matters of detail which relate to the health and comfort of the Soldier, must, in a few years, have a marked effect in reducing the proportions of sick, of mortality, and invaliding in the British Army serving in India.

Correspondence relating to the best mode of manufacturing Indigo.

India Office;
London, 24th October 1861.

To His Excellency the Right Hon'ble the Governor General of India in Council.

My Lord,—I forward herewith copy of a letter* which has been addressed to me by Mr. McFarlane, suggesting certain improved processes for the production of Indigo, together with copy of a Memorandum† on the subject by Dr. Forbes Watson, the Reporter on the Products of India, attached to this Office. If these suggestions should appear to your Excellency to have any practical value, I desire that you will take such

* Dated 9th September 1861.

† Dated 7th October 1861.

means as may be available for bringing them under the notice of persons interested in the question.

I have, &c.,
C. Wood.

From WILLIAM McFARLANE, Esq., to the RIGHT HON'BLE SIR CHARLES WOOD, Her Majesty's Secretary of State for India,—(333, Sauchiehall Street, Glasgow, 9th September 1861.)

SIR,—HAVING seen in to-day's telegram that the reports of the Indigo crop in India up till 12th August are unfavorable, I venture, most respectfully, and with much deference, to submit to your Excellency the following suggestions for deriving a larger result from the ordinary crop than has been hitherto obtained:—

The Indigo of commerce is the produce of the yellowish juice of the leaves and twigs of the class of plants named Indigofera by Botanists; it is at present obtained by steeping these in water, then draining off the liquor, and agitating it with paddles, so as to give it as much exposure as possible to the action of the oxygen of the air, which converts the yellow juice into a blue color, and which, by and bye, becomes solid and falls to the bottom of the tank in a solid form, and is afterwards dried and sent home as Indigo.

The improvement I propose is to reduce the leaves and stems of the plant to pulp or shreds by a cylindrical machine made *wholly of iron*, similar in construction to that used by paper-makers in reducing rags to pulp; when the twigs are so treated (in water) let them be put in a wire cloth cylinder made to revolve rapidly in water so as effectually to wash out all the coloring matter of the plants; the liquor then to be treated in the ordinary way with revolving paddles like those of a steam-boat, only suitably small, and to be driven either by steam, wind, or water-power, as may be most convenient. If this method be adopted, it will certainly add *one-third* to the produce of the Indigo crop. If you choose to submit this suggestion to Dr. Faraday, you will find that, although simple, it is correct. It was while, at one period of my life, I was in prospect of proceeding to the East as an Overseer, that I devised this as a future means of raising my salary; but having never gone, it was no more thought of till now.

Trusting you may not deem this presumptuous nor impertinent, I venture very humbly to submit this for your consideration; believing that, when England gives her best men along with millions of her hard-earned sovereigns for India, the humblest in the land may give his thoughts perhaps not unacceptably.

MEMORANDUM.

I AM quite of opinion, that according to the plan presently in use of steeping and simply employing the liquor first obtained, a considerable quantity of coloring matter must be thrown away with the refuse Indigo plant.

2. Mr. McFarlane's proposal, to thoroughly break up or comminute the plant, and then to wash the result in revolving cylinders, so as to ensure the exit of all its juices previously to fermentation, appears to me well worthy of trial.

3. I am inclined to think, however, that in practice it will probably be found better to steep the whole plant and to operate upon it *after* it has yielded one vat full of liquor in the usual way; the steeped plant to be then removed rapidly, passed through heavy rollers, and washed in large revolving cylinders arranged across a tank fitted for the purpose.

4. Instead of washing in this way, strong pressure might be had recourse to either with or without previous crushing; the juice so obtained to be afterwards diluted with water and then subjected to the second process—that of aeration. The pressure plan might be tried in connection with any well-organized experiments on the subject. From the large quantities of material which would have to be operated upon, the washing cylinders would, however, cost much less than presses, and could be much more rapidly fitted and put in action—both points of great importance.

5. By dealing with the steeped plant as here suggested, the present operation of the Planter—that by which he in Bengal now produces an Indigo which takes the first place in the market—would not be interfered with; and, although the article got from these additional applications will probably be inferior in quality, it may still be such as amply to pay for the extra labor and outlay upon the mechanical appliances required.

6. The plan suggested by Mr. McFarlane of using revolving paddles to beat the Indigo liquor in the second operation, instead of employing men for that purpose, has, in some countries, already been adopted, but it is not, in practice, considered to be so effective as the latter method.

7. The object, however, of this beating being to introduce air, so as to ensure the oxygenation of the coloring matter; and by agitation to assist its precipitation in the granular form, I believe that both of these effects could be much more rapidly and effectually accomplished by the forcible injection of air through perforated tubes arranged in the bottom of the vat, means, mechanical or otherwise (one man with a large paddle would probably be sufficient), being at the same time taken to secure the circulation of the mass of fluid. The whole would thus be very quickly exposed to the action of the oxygen of the air, and I am inclined to think that by this means the agitation of the mass throughout its whole bulk would likewise be more completely, as well as rapidly, effected than by the beating process at present adopted.

8. With regard to the extraction of the Indigo from the *dried* leaves of the plant, a plan hitherto chiefly adopted in Madras. In this case suitable mechanical appliances are even more necessary, and as other portions of the plant, besides the leaves, contain coloring matter, they should also be dried. The whole should then afterwards be thoroughly broken up, as by this means only can the solvent action of the water be allowed to produce the necessary effect.

9. It is quite possible that modifications so obvious as some of those above suggested may have already been tried, but if so, I have been unable to find any record of the fact. Their value, or otherwise, can, however, be only determined on the spot by a series of carefully-conducted experiments, and the matter is well worthy of the attention of those specially interested in this important Dye.

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale :—

1*st*.—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd*.—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd*.—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th*.—Each lot shall contain five Chests.

5*th*.—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is	*Deposit.*
less than Rs. 1,200 per Chest	Rs. 300 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	„ 300 „ „
Ditto of Rs. 1,600, but less than Rs. 2,000	„ 400 „ „
And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.	

6*th*.—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th*.—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th*.—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th*.—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in such Certificate or Order.

10*th*.—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th*.—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit, either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities, a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th*.—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz*., two of the season's provision under sale, and two of the previous season, will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

No. 1247.

Notice

It is hereby notified, that a quantity of 780,000 maunds of Pungah Salt, deliverable from Ghaut Narainpore, in Tumlook, of the manufacture of 1267 S. S., is for sale at the regulated fixed price of Rupees 408 per 100 maunds.

Salt.

2. Parties wishing to tender for any quantity of the above Salts will deposit the amount value of their Tender at the Bank of Bengal, either in Government Promissory Notes (subject to the Rules in force in the Loan Department of the Bank), or in Cheques, Coin or Bank Notes. Each Tenderer will receive in lieu of such deposit a receipt for the amount signed by the Secretary and Treasurer of the Bank of Bengal, which will not be transferable. The Receipts for such deposits as may be in Cheques will not be granted until the amount of the Cheques shall have been realized.

3. To compensate the Bank for the additional risk, cost, and trouble arising out of this arrangement, the Tenderers will be charged by the Bank one-eighth per cent. or two annas per 100 Rupees, which must be paid at the time of making the deposit.

4. Tenders must be for even quantities of not less than 100 maunds, and will be received by the Junior Secretary of the Board of Revenue between the hours of 1 and 2 P. M. from Wednesday, the 11th instant, till Friday, the 13th instant, both days inclusive.

5. Each Tender must be on stamped paper of two Rupees value.

6. The Tenderer will present to the Junior Secretary of the Board of Revenue, with the Bank Receipt, his Tender for the Salt he wishes to purchase.

7. After the last day appointed for the receipt of Tenders the Salt will be allotted. Should the total quantity tendered for exceed the available store, a rateable deduction will be made from the quantity specified in each Tender, and the balance of deposit will be returned, payable by the Bank of Bengal upon Cheques signed by the Junior Secretary to the Board of Revenue.

8. Should any of the Salt now advertized not be tendered for within the time allowed, the same will, without further notice, become available to the Public on application in the regular course.

Fort William;
Commissariat Office,
The 1st May 1861.

H. B. Chalmers,
Assistant Commissary General.

ADVERTISEMENT OF SALE.

NOTICE is hereby given, that the Zemindary Right of Government to the several Khas Mehals, situated in the District of Shahabad, and mentioned in the Statement hereunto annexed, will be put up to sale, under orders of Government, in the Shahabad Collectorate, on the 7th March 1862, corresponding with the 21st Fagoon 1269 *F. S.*

The Purchasers of such Mehals will be subject to the Conditions laid down below:—

CONDITIONS OF SALE.

1*st.*—Estates to be sold, with the Sudder Jumma entered against each below, to the highest bidders above the upset price.

2*nd.*—The sale to be subject to existing leases and to the right conferred by the Settlement proceedings and laws in force, and Purchasers to be bound to respect the rights of resident cultivators who have signed the Jummabundee made by the Revenue Authorities.

3*rd.*—When the amount of purchase money does not exceed Rupees 100, the whole amount is to be paid down at once.

4*th.*—When the amount of purchase money exceeds Rupees 100, a deposit to be at once made of Rupees 25 per cent. upon the amount bid; the same to be forfeited to Government and the sale to be cancelled if the whole amount of purchase money be not paid by noon of the fifteenth day after the Sale, reckoning the day of Sale as one.

Home Department.

Supply of Indian Cotton to England.

From MESSRS. MOSLEY AND HURST, Honorary Agents, Cotton Supply Association, to W. GREY, ESQ., Secretary to the Government of India,—(dated the 27th July 1861.)

WE have the honor to acknowledge receipt of your letter* of the 2nd July, communicating to us the opinion of His Excellency the Governor General in Council on the views expressed by G. R. Haywood, Esquire, the Secretary of this Association, in a letter dated the 13th May last, addressed to us, which was submitted, as directed, for His Excellency's information.

2. While gratefully acknowledging the prompt and efficient assistance which has been granted to us by the Government of India on the points referred to in paragraphs 2, 3, 4 and 11 of your letter under reply, and tendering our respectful and cordial thanks for the same, we are still constrained to differ so materially from some of the positions taken in your communication that we trust we may be allowed to express our views thereupon. We shall do so, we hope, with that deferential freedom which is due not more to the high position of the Governor General in Council than to the character and influence of the important body we have the honor to represent.

3. We believe with the Governor General in Council that the Association has been misinformed regarding the operation of the Stamp Act, and have already supplied it with more accurate knowledge on the question. In Bengal at least the law has been regarded as a boon to the capitalist calculated to give increased security to his transactions.

4. We have read with pain the remarks of His Excellency at the conclusion of paragraph 5 of your letter. We should be wanting in our duty, however, to the great interests we represent were we not to assure His Excellency that Mr. Haywood's instructions, as quoted marginally, do faithfully represent the views of a large and increasing section of the English community. These views may be a matter of regret, as His Excellency feels them to be, and, as implied in your letter, they may possibly be wrong in themselves; but that they are growing in extent and force as Mr. Haywood represents is, we believe, a plain statement of fact. But we would respectfully beg to point out that, however open the Association be to your imputation of ignorance on the subject of landed tenure in India, information regarding the details of a system admitted to be so cumbrous and complex is by no means indispensably necessary to a correct judgment on its social or agricultural influences. These latter are to be seen in the actual condition of the people, in its various aspects and relations, and in the state of their husbandry, the distribution of capital among them, and other points needless to specify, but on all of which opinion may confidently be arrived at without any deep knowledge of those intricate tenures which are the growth of centuries of unprogressive civilization. It is because the main results of the land revenue system of India as thus exhibited are in many most important respects productive of effects quite inconsistent with national growth and progress and with some of the highest interests of India and England that the Association desire to see such modifications made in as will alter its present tendencies. We are compelled by the allusions in your letter to add that, in seeking these modifications, the Manchester Cotton Supply Association as a body of honorable Christian

"You cannot too seriously impress the Government of India with the fact that widespread dissatisfaction exists and is daily growing in this country with the present unsound and oppressive system of the land tenure of India."

* For this letter see Supplement No. 44, dated 3rd July.

Gentlemen associated for a great national object do not deserve the imputation of so seeking them as to over-ride established private rights, or to violate the principles of equity and justice towards their fellow Native subjects. Any specific disavowal of such desires would, we conceive, be scarcely consistent with the respect we owe to our constituents and ourselves. But we feel assured that within the limits of law and right such changes might be introduced into the Regulations governing the Revenue system of India as would greatly promote the interests of the mother country and her most important dependancy. With the unrivalled knowledge of detail and administrative skill at the command of the Government of India, we believe that these changes could be made in a manner which would be alike beneficial to the existing proprietor of the soil and the European or Native capitalist.

5. With reference to your paragraphs 6 and 7, we beg, on behalf of the Association, respectfully to express our gratitude for the earnest attention given to the question of the sale of Waste Lands, and venture to hope that a favorable decision may be come to in time to admit of the necessary financial and other arrangements being made for greatly increased sowings of Cotton in June 1862.

6. We are obliged again to differ with regret from the conclusion expressed in paragraph 8 of your letter under reply, because we are satisfied that no system of culture based on traditional and purely empirical practice and carried on without capital can possibly be equal to one resting on thorough scientific knowledge prosecuted with the vigor and with all the appliances which European energy and capital would command. If it were not so, Cotton must be an altogether exceptional case, and we must respectfully submit that the Native cultivator has much to learn from the scientific discoveries in agriculture made during the last few years in England and America.

We can quote no stronger illustration of our conviction on this point than the history of another of the great staples of India, on which the full advantages of European knowledge have been bestowed. It is believed that the original stock of the Carolina Rice was introduced into the States from Bengal. There are no such marked physical or other differences between the Rice swamps of Carolina or the Delta of the Mississippi and those of the Ganges as to account for the fact that in the English market the Carolina Rice brings double the price of Bengal. But there are great and in truth radical differences in the methods of culture, and their differences are due solely to the superior intelligence, freedom from all mere traditional prejudices which the Planters of the Southern States bring to their Rice cultivation. We believe that with Cotton, as with Rice, the same influences would produce similar results; and thinking, as we do, that many of the Indian practices in Cotton cultivation are entirely wrong and uncongenial to the habits of the plant, we would anticipate a marked improvement when European intelligence directed the work.

7. Although the amount of land accessible, unappropriated, and at the disposal of Government may be but small, we submit that great tracts of country admirably suited for Cotton cultivation exist within two or three hundred miles of this port and are already accessible by the Railway, the Rail, and the main Trunk Road in the healthy Districts of Hazareebagh, Palamow, and the Southal country—there is unoccupied land we believe, from some personal enquiries, to grow a million of Bales, and well suited for the purpose, as is proved by the abundance of wild species of Malvaceæ, some of them closely allied to the Cotton plant. The burning down of the jungle would at once free the land for the cultivation, and the sole obstacle to the settlement and investment of capital is the difficulty of obtaining a sufficiently long lease on fair terms from the independent Rajahs who exercise the rights of proprietors of the soil. The Government of India has, in your letter, insisted strongly and justly on the rights of property, with a great national calamity impending over England, and with a future before her as regards her manufacturing interests so uncertain that no possible precautions are likely to be neglected by her Statesmen to guard against the worst events that may happen. It would be right, we respectfully submit, that the Government of India should equally insist on the *duties* of property; and, in such manner as may be consistent with its views of propriety, should bring its aid towards the beneficial occupation of these now useless lands by persuading the proprietors to accept fair and just terms. We greatly fear that the publication of paragraph 12 of your letter will have a most injurious effect in England, as leading to the belief that no land fit for Cotton cultivation by Europeans is procurable in Bengal, whereas we believe that large tracts do exist.

8. In closing this communication we ask permission to express our deep sense of the attention given to all our representations by His Excellency the Governor General, and although it has been our painful duty to take different views on several important points than have been taken by His Excellency, we have the firm conviction that His Excellency fully appreciates the importance of the subject, involving, as it does, the well being of three million of Englishmen and the development of the resources of India, and that he is giving it the consideration it deserves.

From Mr. S. O. Sutton, Interim Secretary of the Cotton Supply Association, to Messrs. Mosley and Hurst, Calcutta,—(dated Manchester, the 3rd September 1861.)

I beg to acknowledge your esteemed favors of May 31st, June 15th, and July 16th and 22nd, and of the valuable documents enclosed therein.

The Committee have read with deep interest the reply of the Indian Government through its Secretary, Mr. Grey, to the communication which you were good enough to lay before His Excellency the Governor General in Council on behalf of the Association. They freely admit that Mr. Grey's letter embodies statements from which they derive encouragement and satisfaction, and which are so many additional evidences of the excellent intention and sense of responsibility which characterise the policy of the present Government of India; but on the other hand certain suggestions, to which the Committee attach considerable importance, are not treated so explicitly as could be desired. Respecting one or two of the more important, the Committee would respectfully offer a few observations, and they would thank you to communicate them in whatever form you deem most advisable to His Excellency the Governor General.

The Committee are glad to learn that great progress has been made and is still being made in the improvement of the local Courts. Though they are undergoing a gradual modification, it is to be feared that they must be subject to much more extensive improvement before they can be said to offer that facility for cheap and speedy justice which is one of the indispensable conditions to a large introduction of the European element into the industrial operations of the country. The Committee take this opportunity of again expressing the hope that in progressive or prospective legal changes unceasing attention may be given to the removal of obstacles which still render contracts between Capitalist and Cultivator all but a dead letter. Till the ryot is taught that he cannot with impunity receive money advances and then wilfully neglect to fulfil his share of the agreement on which such advances are made; till the money lender is made to feel that ready redress is offered to the ryot for any attempt to take unfair advantage of his poverty; till in short good faith the foundation of all commercial morality is compulsorily enforced between the two, there is little hope that the capital of the one will be invested in the culture of the soil, or that the condition of the other can undergo any considerable amelioration.

The Committee are willing to hope that they are misinformed as to the extent of the obstruction offered by the new Stamp Act to commercial transactions. They have, however, before them the following statement from an intelligent gentleman who professes to speak from personal experience. Having referred to the exorbitant rate at which simple Contract Stamps are issued, he says—"As all engagements must be on stamped paper, the Merchant cannot have them printed, because he cannot tell beforehand how many stamped papers will be required, or of what value each is to be, consequently every engagement must be written, and when it is remembered that engagements have to be made with some thousands of ryots and others, the enormous trouble and labor involved, and the time taken up in writing them at the several stages of the Merchant's tour, can be better imagined than described—neither are stamped papers to be had wherever and whenever they are required. The Merchant who invests capital in any article of commerce requires them chiefly at the villages, and at all times, but they must be sent for either to the Collector's or the nearest Tehsildar's Office, where only they are sold by licensed vendors and at stated hours.

The next subject referred to in Mr. Grey's letter is one of vastly greater moment, and the Committee regret to observe that their views and wishes respecting it do not seem to be clearly appreciated. In asking for an improved land tenure they do not become the advocates of spoliation. They seek to encroach upon no man's vested interests, and all that they desire may be accomplished without the slightest improper interference with that "extraordinary variety of private rights and intricate tenures" to which allusion is made. The extent of their requirement is this—that land may be sold or granted in perpetuity by the proprietors as a heritable and transferable property subject to no enhancement of land tax; in other words that any man may be at liberty to purchase land from its present holders with such a title as will give him and his heirs the benefit of improvements made thereon, instead of the fruits of their outlay or industry being appropriated by the tax gatherer. Any measures which the Government may take in order to realize so desirable a result would, the Committee feel assured, receive the cordial approval, not only of the existing class of landowners and those seeking land investments, but of almost every person in India and in this country who has given an unbiassed consideration to the subject.

In connection with this question of land tenure, which they consider the great turning point in the destiny of India, the Committee do not overlook Mr. Grey's welcome intimation that there is a probability of Waste Lands being shortly granted on satisfactory conditions. Though nothing is said as to the precise nature of those conditions, the Committee hope that they are to embrace a permanent tenure, as without that no conditions can be satisfactory, or give that free scope for the investment of European capital which, it is said, they are intended to afford.

There is one statement in Mr. Grey's communication which has (perhaps more than any other) arrested the attention of the Committee, and upon which, with all deference to the source from which it proceeds, they desire to make a few remarks. They refer to the expressed opinion of the Governor General that the Native of India has little or nothing to learn from the Agriculturists of other quarters of the Globe. This they have read with considerable surprise. They thought it was universally admitted that the agriculture of Hindostan was essentially rude and primitive; that the implements by which it is conducted are most inefficient; that as to the use of machinery, the proper rotation of crops, the application of manures, the choice of seed, and, in fact, the entire round of culture, the Natives are deficient, if not in knowledge, at least in practice. This view the Committee formed on the testimony of travellers of repute and of innumerable witnesses, now, or formerly, resident in India, who have spoken and written upon the subject. As evidence in point the Committee may mention that of Major General Tremenheere and others, given before the Select Committee on Indian Colonization and Settlement, the whole moral of which is that advanced science and skill must accompany capital in developing the agricultural resources of India. They would also respectfully submit that as in America 600 lbs. of clean cotton per acre is considered an average crop, whilst in India the average crop does not amount to 100 lbs. per acre, they believe there is full scope for improved culture, and a better development of the industry of that country; and that satisfactory evidence of the result of cultivation is seen in the few thousand bales of a highly improved and excellent class of staple already received from thence. The Committee regarded a backward state of agriculture in India as the natural result of clearly defined causes operating in that country. It would readily be accounted for by the existing laws relating to landed property, and the poverty of the cultivator which deprives him of all incentive to improvement. From such considerations the Committee venture to hope that the opinion of His Excellency the Governor General was not intended to have this wide bearing which appears to be given to it in the letter before them.

The Committee believe that a serious re-consideration by the Government of the points now referred to would greatly tend to the furtherance of the objects which the Cotton Supply Association have in view.

From W. GREY, Esq., Secretary to the Government of India, Home Department, to MESSRS. MOSLEY AND HURST, Honorary Agents of the Manchester Cotton Supply Association,—(dated Fort William, the 9th December 1861.)

GENTLEMEN,—I AM directed to acknowledge your letter of the 27th July, and also a copy of a letter from Mr. Sutton (Interim Secretary to the Cotton Supply Association) of the 3rd September, which, with much correspondence bearing on the same subject and printed in the Cotton Supply Reporter, has been perused by His Excellency the Governor General in Council with great interest.

2. His Excellency in Council advisedly refrained from earlier replying to your letter of the 27th of July. He hopes that some of the measures indicated in my letter of the 2nd of July, and which have since been adopted by the Government of India, may exercise a direct influence in increasing the supply of Indian Cotton sent to England; and that the information which has been largely accumulated and published by the Government will help to show what can, with best chance of success, be done by private persons for the attainment of an object, which all concur in viewing as one of the highest national importance.

3. The Governor General in Council would beg that, in considering the remarks which I am now directed to make, the Cotton Supply Association will bear in mind that there is a distinction to be drawn between measures which are calculated to increase ultimately the permanent supply of Cotton sent from India to England, and measures the first object of which is to increase and improve that supply immediately, so as to meet a sudden and most urgent necessity. Much of the difference between the views of the Government of India and those of the Cotton Supply Association, as expressed in some of the papers before him, may, His Excellency in Council believes, be accounted for if this distinction be kept in view.

4. The Governor General in Council has seen with pleasure the explanation given in Mr. Sutton's letter of the views of the Cotton Supply Association respecting the tenure of lands. Certainly the terms in which, in the enclosure to your letter of the 20th of June, the Association had denounced the perpetuation of what they described as the antiquated, vexatious, complex, and oppressive systems of land tenure in India, had led the Governor General in Council to believe that some much more stringent and sweeping change than that which Mr. Sutton has indicated was desired by the Association. The extent to which, in the opinion of the Governor General in Council, lands already assessed to the State may be made redeemable from Land Tax is set forth in a Resolution of the 17th of October, on the subject of the sale of Waste Lands and the redemption of the Land Tax. The measures therein promulgated the Governor General in Council has deemed to be advisable on the broadest grounds of public policy, and he will be glad if they tend to remove what the Cotton Supply Association consider to be practical and substantial impediments to the improvement and extension of the production of Indian Cotton. His Excellency in Council has no expectation that this result will show itself otherwise than very gradually; but he is confident that the production of Cotton, and of all other great staples, will in the end feel the good effects of any measure which encourages the investment of capital in land, and the application of European energy and science to Indian agriculture.

5. The Cotton Supply Association express surprise at the observation in my letter of the 2nd of July that "the general testimony of the "best qualified observers, American as well as "English, goes to prove that in the details of cul- "tivation, the Native of India has little or nothing "to learn from the agriculturists of other quarters "of the Globe, and that it is only in the gathering, "cleaning, and transport of Cotton, and not in "its cultivation, that much improvement can be "expected;" and they remark that this opinion is opposed not only to their own previous general impressions, but to the recorded evidence of competent witnesses, "the whole moral of which," it is observed, "is that advanced science and skill "must accompany capital in developing the agri- "cultural resources of India."

6. This last proposition, in the general form in which it is put by the Cotton Supply Association, the Governor General in Council sees no reason to dispute; nor does it appear to him at all inconsistent with the statement in my letter of the 2nd of July, at which the Cotton Supply Association express surprise. Much, the Governor General in Council readily believes, may be done by European science and skill accompanied by capital in improving and increasing the production of Indian Cotton; but, judging from the testimony to which he referred, the Governor General in Council would expect far greater and more immediate results from that science, skill, and capital if applied to the "gathering" (including the picking and collection) of the Cotton, to its cheaper, speedier, and more effectual "cleaning" by means of improved machinery, and to its packing and "transport," than from the same science, skill, and capital applied to the ploughing, sowing, harrowing, weeding, and other "details of cultivation."

7. The general testimony on which the Governor General in Council relied, and to which he referred, was that not of Officers of Government, but of numerous practical cultivators and dealers in Cotton, and especially of the large body of American Planters who were brought to India by the Court of Directors about eighteen years ago, distributed to all the best Cotton Districts throughout British India, and employed for several seasons, at great expense, in endavoring to improve the Native cultivation of Cotton. Nothing was omitted which could aid them to effect the purpose for which they came to India; but, as far as the "details of cultivation" went, their operations were attended with hardly any permanent result of practical value. The Governor General in Council believes that the testimony of every one of these gentlemen, and of all who watched their experiments, was very much to the effect stated in my former letter; and that while there was little prospect of any improvement in the agricultural processes which precede the ripening of the Cotton Pod—that is in the "details of cultivation"—there was then, and still is, great room for improvement and for the application of European science, energy, and capital in every subsequent process, from the picking of the Cotton to its final shipment;—*i. e.* in its "gathering, cleaning, and transport."

8. The Governor General in Council believes that these opinions are thoroughly in accordance with the experience of several gentlemen who, since the period when the American Planters were employed by Government, have engaged on their own account in the Cotton Trade in Western and Southern India.

9. The improvement in Dharwar Cotton, to which the Cotton Supply Association refer, is a strong confirmation of the opinion of the Governor General in Council that the advantage to be derived from European science and skill will be found less in the details of cultivation than in the other processes connected with the production of Cotton and its transport.

10. One great improvement has indeed been effected in Dharwar by the general introduction of New Orleans' seed, and inasmuch as the seed is exotic, this may be considered as a result of foreign science or skill. But the New Orleans' Cotton is only one of many kinds of exotic Cotton the seed of which was pressed on the notice of the cultivators of Dharwar with all the influence of the Local Government Officers, and in its selection, as the species best adapted of all to their soil and climate, the cultivators showed no backwardness as compared with intelligent farmers in other countries; while the result, if not retarded, was certainly not accelerated by Government interference.

11. In every other respect, from the sowing to the gathering of the crop, there has been, as far as the Government of India is informed, little change effected of late years in the details of cultivation in Dharwar which can be fairly claimed as due to European science or skill. It is in the subsequent processes, in better and more careful gathering, cleaning, packing, and transport that great improvement has been effected in the Dharwar as well as the Broach Cotton, mainly owing to the capital and enterprize of a few European firms which have established Agencies on the spot.

12. I have been directed to state at some length the reasons of the opinion to which the Cotton Supply Association take exception, not from any doubt of the possible value of the machinery and artificial manures, the drainage, and other modern improvements to which European agriculture has of late years been so largely indebted, nor simply because the opinion is the result of experiments conducted by Government at great expense and with one uniform result, which appears in the lapse of years to have been overlooked; but because while the possibility of real and material improvement in the details of cultivation is at least questionable and distant, there can be no doubt whatever of the immediate and valuable results which must follow the application of European science and skill to the other processes which intervene between the ripening of the Cotton and its final shipment. It is, moreover, only in these latter processes that the co-operation of Government can be of much value. For although, even as regards these, it rests with the purchaser alone to ensure clean picking and freedom from leaf, yet every improved gin or churka, every packing press, every mile of railway, or even of cart road, and every other appliance for facilitating the transport of the Cotton has an immediate and direct influence in cheapening the Cotton, improving its general quality, and increasing its supply; and these are improvements in the introduction of which Government can more or less usefully co-operate with private enterprize. This being so, it seems very desirable that attention should not be diverted from practical objects which are capable of easy and, what is more to the present purpose, of early realization, to the pursuit of doubtful and remote possibilities.

13. In requesting the attention of the Cotton Supply Association to this view of the question, I am directed to point out that every report received and every fact recorded, whether in official or unofficial form, goes to prove—

1*st*.—That there is already grown in India a vast supply of Cotton capable of increase by extended cultivation consequent on increased demand.

2*ndly*.—That the large portion of the existing supply which is now absorbed by the local Manufacturers is, to a considerable extent, capable of diversion if increased prices are offered by exporters.

3*rdly*.—That while the latter result may, to some extent, be immediate, the former requires the lapse of at least one season after the demand arises, and some prospect of a continuance of that demand.

4*thly*.—That every rise in price of Indian Cotton in England, however small, if likely to be permanent, exercises an immediate effect on the export of Cotton from India to England.

5*thly*.—That the quality is capable of great improvement, but by a more tedious process.

14. These considerations lead to the general conclusion that India can, to a far greater extent than heretofore, supply the Cotton required by England, and the Governor General in Council sees no reason to doubt that any permanent diminution of the supply to England from America may be met by an increased export from India.

15. To what extent this result can now be aided by any direct action of Government is a question on which the Governor General in Council would be glad to learn the opinion formed by Mr. Haywood after visiting the Cotton Districts.

16. With reference to the remarks contained in your letter of 16th of July, to the Secretary of the Cotton Supply Association, commenting on my letter of the 2nd idem, I am instructed to forward a copy of the replies of Mr. Wilson, the Deputy Magistrate at Burhee, to questions addressed to him on the subject of your letter as far as it refers to his District. It will be seen that Mr. Hurst is mistaken in supposing that the District offers an exception to the general truth of the assertion that there is very little land fitted for the production of Cotton, and at the same time "unappropriated, accessible, "ready for immediate occupation, and at the dis- "posal of Government;"—such, in fact, as Government could dispose of with any expectation of bringing about a large and rapid increase of Cotton culture.

Published in the Cotton Supply Reporter of the 2nd September 1861.

17. The Governor General in Council does not gather from Mr. Wilson's replies that in the District referred to there is any thing done or left undone by the Government which can in any way check the cultivation of Cotton by any one who chooses to undertake it. It appears that land is to be had from the proprietors on reasonable conditions; and assuredly there is no more room or excuse for the Government to exercise, as suggested by Mr. Hurst, its influence with the Raja of Ramgurh, or with any other Raja, for the obtaining of 5,000 square miles on easy terms, than there would be for a like interference by Her Majesty's Government with an owner of land in England. The suggestion that the Government can, or ought to use its influence for such a purpose could only mislead and disappoint any who attached weight to it. Whether Cotton can be profitably grown in that part of the country or not, is a question for practical agriculturists alone to decide; and probably the experiments now being made there on a large scale by Mr. Blechynden will go far to settle any doubts on that head.

Questions on the Letter of Messrs. Mosley and Hurst, dated 16th July 1861, published in Cotton Supply Report of 2nd September 1861.	*Answers.*
1st.—To what extent does the Grand Trunk Road traverse your Division, and how far does your jurisdiction extend perpendicular to the line of road ?	*1st.*—The Burhee Sub-Division extends from Muddoopore on its Eastern boundary to Dunwa on the West, where it meets the Sherghotty border, and the distance traversed between these points is seventy-three miles. The total area is close upon 3,700 square miles, of which 2,800 are situated to the North, and about 900 to the South of the Grand Trunk Road. The Northern boundary touches the Districts of Monghyr and Behar ; and to give an approximate idea of the borders of the Burhee District an arc might be described with a radius of fifty miles from Bugodhur as a centre to Ganwa Sutganwa to the Northward, and reaching to Dunwa on the West and the neighbourhood of Serampore on the East.
2nd.—Who are the great landowners in your Division, and on what terms are they in the habit of granting lands to persons wishing to cultivate ?	*2nd.*—The most respectable of the landholders in point of property are named in the margin. Land is generally let upon short leases for periods of from three to five years. Moharajah Sinbhonath Sing Bahadoor, Zemindar, Pergunnah Ramgurh, and Rajah Ram Kurrun Dao of Bursote. Rajah Jhundool Sahee of Rampore. Rajah Sibrajkhan of Jugoodee. Thakoor Chooramun Sing of Murkutcho. Baboo Burramnarain Sing of Pudmah. Thakoor Kulkenath Sing of Buggooroo. Landholders within the Moharajah's Estates in Pergunnah Kurruckdeeah. Moharajah Rajbahadoor Narain Dao, Zemindar of Dhunwar Rajah Parisnath Sing, Gadee Palgunjoo. Rajah Giddlower Narain Sing of Gadee Serampore. Teekaeet Chooramun Sing, Gadee Dorundah. Teekaeet Pooh Kurrun Sing of Gadee Gowan. Teekaeet Than Narain Sing of Gadee Sutgowan. Teekaeet Roopmungul Sing, Gadee Kergoo.
3rd.—Is there any land in your Division fit for growing Cotton, *unappropriated*, so as to be at the absolute disposal of Government without reference to any Zemindar or other person having a right to grant or refuse permission to cultivate ; *accessible*, requiring no roads to be made for the transport of the produce ; *ready for immediate occupation*, so as not to require clearance of jungle or other preparation ? If there are such lands, where are they situated ? and what is there estimated extent ? and how should a person wishing to cultivate Cotton on them proceed to get possession of them ?	*3rd.*—No such land is available, or indeed exists in the District.
4th.—What is the extent of lands in your Division fit for growing Cotton, which are more or less defective in one or other of the requisites above specified, and how should any person wishing to grow Cotton on them proceed, in order to obtain possession of them ?	*4th.*—There is a considerable portion of land that might be found suitable for Cotton, but in the absence of sufficiently extended experiments I cannot speak positively on the point. The best method of cultivating would probably be to take leases of Estates that were most suitable and populous and engage with the Ryots to cultivate and deliver Cotton to the Speculator, who would be obliged to offer a remunerative price for it.
5th.—What measures occur to you as in the power of Government and likely to promote the cultivation of Cotton without trenching on the province of the private Capitalist or Cultivator ?	*5th.*—Aid on the part of Government might be afforded by improving the means of transport and providing additional and better roads.
6th.—Is Cotton an ordinary staple production of your Division ? and what are the obstacles to its more extensive cultivation ?	*6th.*—It is not. The principal obstacles are the scanty population, and the fact that other produce pays better and is more suitable to their immediate wants. Also water for irrigation, if necessary, is very scanty, and would prove a serious obstacle.

7th.—Can any parties acquainted with your Division, but who are not in the service of Government, suggest any such measures?

8th.—Would a private person wishing to obtain land for growing Cotton from Native Rajahs or Zemindars be able to do so without the aid of Government, and could Government give such aid without, in some degree, becoming responsible to the Rajah or Zemindar on the one hand, or to the Cotton cultivator on the other, for the conduct of the other party to the bargain, and thus in effect becoming itself a party?

BURHEE CHUTTY,
The 16th November 1861.

7th.—Mr. Blechynden is actively engaged in the cultivation of Cotton in this District, and I doubt not will be prepared to furnish any information in his power that may be required.

8th.—Parties wishing to engage for lands would not, I think, find difficulty in procuring them from the proprietors, with whom it does not seem advisable for Government to interfere.

Deputy Magistrate.

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st*.—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd*.—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd*.—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th*.—Each lot shall contain five Chests.

5*th*.—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per Chest	*Deposit.* ... Rs. 300 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	... „ 300 „ „
Ditto of Rs. 1,600, but less than Rs. 2,000	... „ 400 „ „

And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.

6*th*.—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th*.—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th*.—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th*.—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th*.—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th*.—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit, either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities, a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th*.—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz*., two of the season's provision under sale, and two of the previous season, will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article 6*th*.—"With regard to the Trade in "Opium, it is agreed between the high contracting Parties that, at each of the periodical Sales "of that article, there shall be reserved for the "French Government and delivered upon requisition duly made by the Agents of His Most "Christian Majesty, or by the Persons duly appointed by them, the number of Chests so applied for, provided that such supply shall not "exceed three hundred Chests in each year, and the "price of the same shall be determined by the average rate at which Opium shall have been sold at "every such periodical Sale, it being understood "that, if the quantity of Opium applied for at "any one time shall not be taken on account of "the French Government by the Agents of His "Most Christian Majesty within the usual period "of delivery, the quantity so applied for shall "nevertheless be considered as so much in reduction of the three hundred Chests hereinbefore "mentioned. The requisitions for Opium as "aforesaid are to be addressed to the Governor "General at Calcutta within thirty days after "notice of the intended Sales shall have been "published in the *Government Gazette*."

India Office;
London, 8th January 1861.

My Lord,—I wish to draw your attention to the accompanying Extracts from papers lately received from India, regarding the delay that is experienced in obtaining articles from the Roorkee Workshops, and the high cost of such articles when procured. You will observe that the delay is given as a reason for sending to England for new machinery for the Workshops at Madhopoor on the Baree Doab Canal, and that the cost of certain articles procured for the Furnaces at Dechowree is mentioned with astonishment by Mr. Oldham.

2. The Officer in charge of the Workshops at Roorkee should be called upon to explain what grounds there are for these representations.

I have, &c.,
C. Wood.

Extract from Mr. Oldham's Report on the Kumaon Iron Works, dated 10th May 1860.

The total cost of Blast Engine, &c., from Roorkee for first Furnace was Rupees 15,040, the second Engine being identical, and, therefore, the same patterns answering, its cost ought to be much less, say Rupees 0,000.

"I have, since writing the above, been informed at Roorkee that the second Engine will cost fully as much as the first. As I have already said, this is unintelligible.

"I do not think it fair to take the prices of such iron and castings at Roorkee as a criterion, and yet there is in reality no other market in the neighbourhood with the prices at which we can compare, and, to a certain extent, we are thus unwillingly compelled to take these Roorkee prices as a standard. These prices at the present are for pig iron Rupees 105 per ton, while I have only estimated Rupees 70, and Rupees 280 for castings, while I have only given Rupees 100. Wrought iron now costs at Roorkee Rupees 203 per ton, I have estimated Rupees 140. It must also be remembered that this Dechouree iron is all charcoal cold blast iron, and in all probability will, therefore, be superior to any used at Roorkee, or at least equal to the very best used there."

Extract from a letter from the Director of Canals, to Secretary to Government of Punjab,—(dated 17th August 1860.)

"It does not appear that the Roorkee or Calcutta Workshops are able to assist us sufficiently. Mr. Smithe states that, with his experience of the assistance obtainable from both these places, the necessary work can scarcely be completed under three years.

2. "I beg strongly to recommend that this machinery be procured from England with the least possible delay, and that it be shipped direct to Kurrachee, the Invoices being sent direct to Mr. Smithe, Executive Engineer, Workshops, Madhopoor."

5. I am satisfied that, with the aid of these machines, there will be great economy both of time and money. At present we are very much dependent upon the Roorkee Foundry, which cannot turn out work fast enough to meet our wants. For instance, an Indent for large screws for the Regulating Bridge at the head of the Canal was sent to Roorkee in March 1859, but up to this time only six of these screws have been supplied. The consequence is, we

have had recourse to a temporary expedient for working the Regulator Gates, which, although the best that we could adopt, is very far from convenient, or even perfectly safe during the heavy floods of the rainy season. With machinery these screws could have been cut here in six weeks. Again many castings of various sizes have to be procured from Roorkee. The castings can be made at Roorkee expeditiously enough, but the subsequent process of drilling, boring, planing, and finishing delay them there very much; all these could be done more quickly and conveniently here by the aid of the machines now applied for.

From LIEUTENANT-COLONEL W. E. MORTON, Officiating Secretary to Government of North-Western Provinces, in the Public Works Department, to Secretary to Government of India, Public Works Department,—(dated 21st October 1861.)

Captain Allen's letter No. 286, dated 8th August 1861, with Appendices A. and B. and I. and II., enclosures 1 to 4.

IN forwarding the accompanying letter from the Superintendent General of Irrigation, North-Western Provinces, No. 2168, dated 27th ultimo, with its enclosures, as per margin, being a Report by the Superintendent, Roorkee Worksops, on the charges of excessive delay in issuing articles from the Workshops, and their high prices, adverted to in Secretary of State's Despatch No. 3, dated 8th January 1861, received with your docket No. 444 of the 15th February following, I am directed by the Hon'ble the Lieutenant-Governor to offer the following observations.

2. His Honor is of opinion that if it is worth while to keep up the Roorkee Workshops, of which there cannot reasonably be any doubt, it is certainly desirable to make the working Establishment efficient. Under this view, the recommendation made by Colonel Turnbull in his 9th paragraph that a good Smith and good Turner on Rupees 250 a month each is worthy of serious consideration, and the Lieutenant-Governor feels confident that the pay of these men would be more than compensated by the savings effected on work which, for want of such skilled labor, is now unnecessarily expensive.

3. In regard to the comparison instituted by Colonel Turnbull in his 10th to 12th paragraphs between the prices of articles turned out at the Roorkee Workshops and of those obtained from England, the Lieutenant-Governor observes that, although in favor of the former are the cheaper rates of labor prevalent in this country, yet the difficulties mentioned in paragraph 10 must, in some degree, act as a counterpoise. It is further to be borne in mind that Native labor, though cheaper as far as the individual workmen are concerned, cannot execute the amount of work hand for hand that an English artizan would perform.

4. In his 11th paragraph Colonel Turnbull states that he is not aware whether at the Cossipore Foundry it is the practice to charge to the work turned out a proportion of the cost of the whole Establishment, as is done at the Roorkee Workshops. I am to remark that undoubtedly this should be ascertained before a fair comparison can be instituted between the prices charged at the above places respectively.

5. In reference to Colonel Turnbull's 12th paragraph, I am to observe that if the facts therein stated be accepted, the comparison in favor of Roorkee cannot be questioned.

6. In Appendix A. of Captain Allen's Report, commented on by Colonel Turnbull in his 14th paragraph, the written opinions of various persons who have had work executed at the Workshops are quoted. These opinions, the Lieutenant-Governor thinks, are *quantum valeant* fair testimony in favor of the system pursued by Captain Allen.

7. His Honor, however, considers that the comparison made by Colonel Turnbull (paragraph 15), between the Roorkee machinery and some procured by Mr. Sowerby from England, is not equitable. The mishaps which occurred to the latter, due, in a great measure, as there is every reason to believe, to the dishonesty of individuals in this country, cannot with any justice be charged to the English manufacturer.

8. With reference to Colonel Turnbull's 16th paragraph, I am to observe that no one questions the value of the Roorkee Workshops, and the closure of them, of which Colonel Turnbull (paragraph 24) would seem to be apprehensive, cannot be contemplated. The complaints that have been brought against the Workshops are, that great delay occurs in the execution of work, and that the high prices charged have much contracted their usefulness. The latter imputation would seem to be in some measure at least removed by the explanations and comparisons now given, but the former still continues, and however it may be palliated by the unexpected nature of the orders received, the difficulty of procuring material, &c., &c., it must have the effect of keeping custom, even the custom of the Department of Public Works, away from the Workshops. An Executive Engineer, for instance, having to build a Church, finds that he can obtain from Calcutta, within a reasonable period, and at a moderate cost, galvanised iron tiles for roofing. He very naturally will not wait for the eighteen or twenty months, which will probably elapse before Captain Allen can turn a sufficient quantity of corrugated iron roofing.

9. Colonel Turnbull (paragraph 17) contrasts the prices charged in England and at Roorkee for Drawing and Surveying Instruments. The Lieutenant-Governor observes that the latter prices are certainly much the lower of the two, but he doubts that the articles generally are nearly as good.

10. As to the comparison instituted between *Phowrahs* made at Roorkee and those procured from common Village Smiths (paragraph 10 of Colonel Turnbull's letter), the Lieutenant-Governor observes that it would be very discreditable to the Workshops if their tools were *not* the better of the two.

11. With reference to the iron railing for the Cawnpore Monument, noticed by Colonel Turnbull (paragraph 23) among the articles now being made at the Roorkee Workshops, I am to state that the design for it was approved in February 1860, and the order for its execution given as soon as the Budget for 1860-61 was passed, but it is believed that not a yard of it has yet reached Cawnpore. The design is very creditable, but the price, Rupees 11-8-0 per running foot as roughly estimated, is not by any means small.

12. I am to draw attention to the circumstances detailed by Colonel Turnbull in his 26th paragraph; these, if true, are not to the credit of the Officers who take such advantage of the facilities offered by the Workshops.

13. In regard to Colonel Turnbull's Sketch of the work that the Roorkee Establishment can

perform (paragraphs 27 to 33), the Lieutenant-Governor considers that the proper course for Captain Allen is to take means to let the Public know what he can do. He should publish complete lists of prices of all the articles which he is prepared to supply, and to state in what time, from the date of receiving the orders, such articles can be ready. His Honor has no doubt that all the Civil Departments, including the Public Works, will be willing enough to transfer the whole of their custom to the Roorkee Workshops if these can turn out good work, not costing more than it would cost in *loco*, and if the time required be not unreasonable. But before such work, as Colonel Turnbull mentions, can be undertaken with any hope of punctual delivery, the Workshops must be very largely extended, their working Establishment enlarged, and their means generally much increased.

14. Colonel Turnbull's suggestion (paragraph 28) that Government Agency should be employed in distributing over the country sets of uniform weights and measures, appears to the Lieutenant-Governor a hazardous one. It is not desirable that any interference should be exercised in such a matter authoritatively.

15. In regard to the proposition (paragraph 29) that the heavy iron work of the Postal Department should be made over to the Roorkee Workshops, the Lieutenant-Governor doubts that it could be at present executed with sufficient rapidity to meet existing requirements.

16. The aid which Colonel Turnbull (paragraph 34) considers the Government should give, is not, I am to observe, in any way necessary. Captain Allen should do as the owner of a private Establishment of the same nature would do under similar circumstances. He should advertise and circulate price lists, and take care that, by fulfilling his promises as to quality of work and time of delivery, he gains the confidence of the Public. But if Captain Allen takes two years to execute work that ought to be finished in two months, he cannot expect to obtain the custom which he wants.

17. Colonel Turnbull says (paragraph 35) that the Chief Engineer of the Lahore and Mooltan Railway "had no idea that we could turn out such work" as pumps, water-cranes, &c. But it may be asked, whose fault is this? Captain Allen has taken no means to draw work to his manufactory.

18. The training of Native workmen (paragraph 36) who scatter themselves over the country after completing their apprenticeship at the Roorkee Workshops, is among the highest benefits which have been conferred on the community. The Lieutenant-Governor does not doubt that in a few years more there will not be many artizans in these Provinces who work with any tools but those made on English patterns. The instances which Colonel Turnbull notices of the improvements that have taken place at Roorkee itself in connection with this point are very encouraging.

19. Under the second head of difficulties which he has to encounter, Captain Allen mentions "constant changes in the Office Clerks," which changes necessarily entail on him a large amount of attention to details. I am to call attention to this remark, and to say that, in the Lieutenant-Governor's opinion, the Superintendent of the Workshops should be certainly relieved from such details.

20. In conclusion, I am to observe that, considering the many obstacles to be contended against, Captain Allen's explanations are not unsatisfactory, more particularly in the matter of prices. The Lieutenant-Governor considers that the Workshops are decidedly improving in efficiency; that it is extremely desirable to assist them as asked for by Colonel Turnbull (paragraph 9), or in any other reasonable manner; that the delay in execution stands more in the way of the Workshops than any other circumstance, and that if this evil were removed, they would be far more largely employed by the Public Departments, as well as by associated Companies and private individuals. All that seems necessary in addition is, that Captain Allen should adopt measures to make the Public acquainted with the capabilities of the Workshops by the publication and circulation of complete priced lists, in which should be shewn the periods within which orders of various classes could be executed.

21. Captain Allen will receive a copy of this letter, and be advised to adopt the course here recommended.

From Lieutenant-Colonel A. D. Turnbull, Superintendent General of Irrigation, to Secretary to Government of North-Western Provinces,—(dated 27th September 1861.)

In reply to your predecessor's letter dated the 13th May last, directing me to call upon Captain Allen, the Superintendent of the Roorkee Workshops, to explain what grounds there are for the representations made in Mr. Oldham's Report of the great delay in delivery and high cost of articles provided from the Roorkee Workshops, I do myself the honor to forward herewith a letter, in original, from Captain Allen to my address, received from him on the 1st instant, submitting explanations on the subjects complained of.

2. Captain Allen remarks that the Roorkee Workshops were especially established as a Training School, and as such have been remarkably successful, as many of the best men in the shops have left the Establishment after having learned their trade, and have found ample employment either in setting up for themselves, or in other Departments under Government; but, though in this respect it has been found that the Roorkee Workshops have answered one of the purposes for which they were established, there is no doubt that it has been, and I believe still is, the leading Establishment in the North-Western Provinces in developing the mechanical skill of the country, and as Captain Allen subsequently shews it has turned out work of a nature hardly ever contemplated when first created, and at prices which may be considered fair when compared with the first machinists in England.

3. I believe the difficulties which have been met with in bringing these shops to their present state of perfection are hardly known to the uninitiated, and it has only been by unwearied zeal and attention to his manifold and laborious duties that, instead of being in their present state of usefulness to the country, they have not turned out an utter failure.

4. Captain Allen mentions among his other difficulties the constant changes in his Office Clerks, and the impossibility of filling vacancies with men trained to the duties of a Mechanical Engineer's Office, and states that these changes necessarily entail on him a large amount of attention to details, which could otherwise be carried on by the Clerks. I believe that Captain Allen could be much aided if he were allowed to bring out from England a Clerk trained to the duties of an Engineer's Office, and that the increase of salary which it would be necessary to give to such trained man would not be large.

5. Thirdly, Captain Allen remarks on the total absence of a market at hand for the supply of material, and states that this cannot be obviated by any amount of foresight, as orders of the most unexpected nature and greatest variety come in such as no stock we could keep in hand would meet.

6. I do not quite agree with Captain Allen in the difficulties of keeping a sufficient quantity of stock in hand to meet the demands likely to be made upon him, though certainly he might receive orders for work of a nature which his stock on hand would not allow him to complete. But these orders would be exceptional. The difficulty of keeping stock, or rather of procuring material in Roorkee, are doubtless far greater than in England, where there are so many large Iron Factories, and where the supply is unlimited, and where the competition is so great, that if a firm were to receive a sudden order for a large quantity of machinery, it might be worth its while to give over portions of it to other houses to complete, in order to keep to time, though it might lose actually in money by doing so; such advantages of course Captain Allen has not at Roorkee.

7. Captain Allen states that the specific complaints of delay refer to dates from two to three years back, and were due to the then incomplete state of the working machinery, &c., and enters in his paragraph 3 into some detail on the causes of these delays. Thus, then, whatever the causes, and however much they are to be regretted, I do trust that they have now been removed, and that like complaints may not be heard in future. I would, however, respectfully refer to Colonel R. Baird Smith's letter, quoted by Captain Allen, on the subject of these shops, and state that I hold the same opinion in regard to their efficiency and organization.

8. One of the great impediments to the well working of these shops, *viz.*, the want of an adequate staff of European Assistants, was duly brought to the notice of the Government in the Superintendent's Report, dated 5th June 1859, submitted with my letter dated 7th July 1859. The Despatch by the Secretary of State for India acknowledged the utility of these shops would be increased if the European artizans asked for by Captain Allen were given, but added that the outlay required must be deferred to a more convenient season.

9. I cannot too strongly recommend both a good Smith and a good Turner on a salary of Rupees 250 a month each, as I am confident that such men would more than return the amount of their pay to the Government by the savings which would be effected in the work which is now spoiled by want of them. It must be remembered here also that the want of such artizans is another cause of delay, for, with many orders on hand at a time, it is almost next to impossible to attend to them properly, and some of them must therefore be deferred till a more convenient season.

10. I will now touch upon the second head of complaint, *viz.*, the heavy charge for work performed in the Roorkee Workshops. I can only deal generally with this general charge; but I think, by a reference to the price lists appended, the charges may not be considered high when the difficulties and drawbacks already referred to are taken into consideration. Private individuals, firms, and companies employ the Roorkee Workshops, and do not complain of the charges made for the work turned out from them, and, as I shall hereafter point out, these are chiefly professional men, and should at least be able to pass a judgment upon such a matter. In regard to the particular instance brought forward in Mr. Oldham's Report on the Kumaon Iron Works, *viz.*, of the excessive charge for the Blowing Machines, I would remark that I believe it was chiefly due to its being the first machine of the kind; in fact to its being the largest order of the kind probably that had ever been executed in the North-West Provinces, and being the first was somewhat higher in price than it otherwise should have been; but it will be seen in paragraph 4 of Captain Allen's letter that the bill for the smaller machine was only Rupees 11,651 against Rupees 15,678 for the first one, shewing a difference of Rupees 3,424 in two precisely similar machines. Captain Allen claims to be judged by the cost of the second engine, and in Appendix B. he gives a statement shewing the comparative cost of machinery made at Roorkee and of similar machines delivered in England at various well known Factories, from which it will be seen that the price of work turned out at Roorkee will stand a very fair comparison with that done in England.

Items Nos. 1, 2, *and* 3.—Pair of Bevel wheels, 8 feet diameter, pair of Mortice spur wheels, and the 8-inch pillar pedestal and block are higher at Roorkee than in England.

Items Nos. 4, 5, *and* 6 are, as nearly as possible, the same price in both places.

Item No. 7 contains a list of Printing Presses, some of which are cheaper, and some more costly in Roorkee than in England, and here I would remark that one shop in the North-West Provinces of India, far away from the source of its supply of material, laboring under many disadvantages and underhanded in artificers, is thus brought into comparison as regards several items of manufacture with several shops in England whose business it is more or less to devote their particular attention to the particular article which it manufactures.

11. Thus while the Roorkee Workshops are perhaps called upon to make a few pairs at the utmost of Bevel wheels, Messrs. Fairbairn and Co. would be called upon to supply hundreds of pairs of the same article, so also in the item of miscellaneous tools, yet we see that the Roorkee Workshops can turn out tools which will stand a fair comparison both as to cost and quality with those manufactured by the well known firm of Messrs. Whitworth and Co.; pulley blocks (a distinct article of manufacture) as cheap as Messrs. Moses and Sons, London, and printing apparatus as cheap also. It may be remarked that these are all London houses, and that London prices are proverbially high, yet the articles are good, and so also, I believe, may be said of the Roorkee articles.

Items Nos. 8 *and* 9 are compared with articles of the same description made in Calcutta, and Captain Allen shews that, though the cost of Rifle Targets is cheaper in Calcutta than at Roorkee, the cost of the carriage of the manufactured articles would fully make up, if not exceed, the difference; and here I would specially notice of the fact (as comparisons have been made between the rates of work done at Roorkee and at Cossipore), that the whole of the Establishment pay, including the Staff and Military pay of Captain Allen and his Assistant, Lieutenant Eckford, is charged to the work executed in Roorkee. I am not aware whether such is the practice in the Establishment at Cossipore, or whether the prices of work are freed from the payment of salaries. This should be ascertained before a fair comparison can be made between the two Establishments.

12. In the comparison of cost of work done by private firms in Calcutta and by the Workshops at Roorkee, the difference is considerable and in favor of the latter. In the one instance the cost per maund is 1 Rupee less in Calcutta, while that of the carriage would be more than double; therefore the difference of cost is 1 Rupee per maund in favor of Roorkee. The cost of cast-iron wheel-barrow wheels in Roorkee is Rupees 8 per maund, while in Calcutta it is Rupees 12 per maund; if therefore the cost of the carriage be added at Rupees 2 per maund up to Roorkee, the difference in favor of the

Roorkee will be Rupees 6 a maund, or if the order for the wheels had been given to the Roorkee Workshops, the saving of Rupees 6 per maund would have been effected, which in the 2,000 wheels I calculate would not be less than 625 maunds, costing Rupees 3,750.

13. And this brings me to another part of the enquiry—it is such orders as these, where numbers of the same articles are required which we seek for in Roorkee. The pattern once made (and we have had that in the shops for wheel-barrow wheels for many years) would answer for any number almost of the same article, and while the Government would be a very large gainer by giving such an order to the Roorkee Workshops, they (the shops) would also obtain a profit on the order, instead of languishing, as they now do, "simply for want of work."

14. I will now refer to Appendix A. of Captain Allen's letter, which will, I trust, dispose of the questions of the nature and cost of the work executed at Roorkee. The first thing which strikes one on a perusal of this Appendix, is that the letters referred to are mostly from private individuals or the representatives of Companies, that is, from individuals who depend for their livelihood upon the machinery sent to them from Roorkee. What is the tone which pervades these letters? The Trustee for the Kumaon Iron Works Company writes—"we are very much obliged to you for the assistance you have rendered us in the undertaking. All the work you have sent us has turned out admirably, the large cylinders in particular." It will be seen then that the work turned out from the Roorkee Workshops is highly praised by the Kumaon Iron Works Company, which should know, if any one should, the value of such works.

15. And now with reference to the machinery brought out from England by Mr. Sowerby under the Government auspices. It would appear that the first portion of the machinery arrived only at the same time as the blowing machinery ordered from Roorkee did; that the last portion arrived several months after, so that in point of time the Roorkee Workshops beat the order from England, with this exception that when the Roorkee order reached its destination, the machinery was complete and ready to be put up, while that from England was incomplete in many of its parts, and remains incomplete to this day I believe. I shall notice hereafter the fact of large and expensive machinery arriving in India wanting in many of its parts, and therefore useless to its owner till it has been rendered complete by the Roorkee Shops.

16. The value of the Roorkee Workshops is further seen in the next extract, quoted by Captain Allen, of a letter from the Trustee of the Kumaon Iron Works Company, whereby that Company are enabled to engage for the supply of water piping for the Barrack Department, and for casting as pipes, girders, pillars, &c., to the East Indian Railway. Had the Roorkee Workshops not been in existence, the Barrack supply of water could not (or rather probably would not) have been undertaken, and the East Indian Railway must have been delayed till their Indents on England could have been supplied. The service of the Government and the interests of the country would have suffered accordingly. The Kumaon Iron Works Company further add that they have nothing to complain of as to cost, and yet the rates charged at Roorkee for the cylinders, pistons &c., are the same as those objected to by Mr. Sowerby.

17. In Appendix I. to this letter, it will be seen that many of the Mathematical Instruments made at Roorkee are far lower in price than those made in England, a Prismatic Compass being about one-half, and a Surveying Compass about one-fifth, of the English price; Rolling Parallel Brass Rulers being about 2 to 3 and 1½ to 2 of English prices, while Levelling Staves cost about 1 to 3 of those of English manufacture, and I believe they are fully equal to those made up at home. I may here mention that when the Ganges Canal was commenced, Lieutenant Strachey and myself painted our own levelling rods with our own hands; Lieutenants Dyas and Crofton painted those required for the Baree Doab Canals themselves. I wonder what the cost of those rods would have been to the Government had our pay been included in their value. Yet in no other way could they have been supplied. From the Roorkee Workshops any number can be supplied for the whole country at rates cheaper than we could get them from England.

18. In regard to the workmanship of the levelling instruments made up at Roorkee, we have the testimony of one of the best Opticians and Instrument-makers in London, Messrs. Elliott and Brothers, that much of the "finish" of the work was better than they thought it worth the while of manufacturers to turn out at home

19. I can vouch for the testimony borne by Lieutenant Bagge to the superiority of the phowrahs manufactured at Roorkee. In my inspection tour of the Futtehghur and Boolundshuhur branches in May last, I observed particularly that the Roorkee phowrahs were fairly worn down with use, while those obtained elsewhere generally broke before they were used up. This, however, is merely a comparison between phowrahs made at Roorkee and those made up by ordinary Village Smiths, and if a comparison was made between the Roorkee and English phowrahs, it might be found that the latter were the better, though I am not sure that it would be so.

20. The first Iron Printing Presses manufactured, I believe, in India, at all events in the North-West Provinces, were made at Roorkee. They are, as I have before shewn, in many cases as cheap as those made in England, while the Superintendent of the Government Press, a most enthusiastic man, reported to the Government that they were equal in all respects to those imported from England, and His Lordship in Council considered the statement made regarding the excellence of the Presses to be very satisfactory. I would add here also in respect to Printing Presses, that all the Newspaper Editors of the North-West Provinces applied to the Roorkee Workshops for either the repairs of old, or the supply of new Presses immediately after the mutinies, and that their wants were promptly supplied.

21. The next testimony borne to the Roorkee Workshops is especially valuable, coming, as it does, from a man who had set up the first Foundry in Ferozepore, and who was well up to the tricks and difficulties of the trade, and therefore better able to appreciate these difficulties and the value of the work turned out by another Firm. What does Mr. Coates, the enterprizing Manager of the Ferozepore Iron Business, and then a large Contractor for Government and private work, say in regard to the workmanship of the Boilers sent up to him from Roorkee:—

"The Boiler is very well made * * * * I must again express my satisfaction at the workmanship of the Boilers; it is much beyond what I expected you could have turned out."

Again—

"I have no doubt but that in a year or two more the value of the Roorkee Workshops will be sensibly felt in these Provinces, but for them my present enterprize must have waited for two or three years perhaps. It took me two years to get a cupola mounting and blowing machine * * * I have relinquished my mechanical operations for others less troublesome."

22. Here then Mr. Coates, himself a founder, acknowledges the value of the work done at Roorkee, and states that, had it not been for the Government

Workshops, his work must have been delayed for two or three years perhaps, as it actually took him two years to get out a cupola mounting and blowing machine from England, and since he wrote to the above, he has written to announce that "his machinery has arrived from England;" but as Mr. Sowerby found with his, it was wanting in so many parts, that he has sent them down from Ferozepore to be re-made at Roorkee.

23. I have before referred to the manifold varieties of the orders received in the Roorkee Workshops, the number of sketch Estimates called for, involving, as they do, immense labor and time in drawing out details which are seldom or never given by the persons calling for the information, and being far greater in number than the works actually executed. To place before His Honor the Lieutenant-Governor an idea of what these varieties are, I will proceed to notice in detail some of the chief articles which were in hand during the month of August last in the shops—

A flour mill consisting 6-horse power Engine and Boiler to drive two stones, with the necessary shafting Bevel gearing, sheet iron hoppers, &c., as constructed in the modern English Steam Flour Mill as introduced by Fairbairn. This work is for Swarine Rajah Charri, the family Pundit of Rajah Luchmee Chund.

A Winnowing machine.

A flour dressing machine.

He also wants a large quantity of ornamental railing, which he will hereafter supply a pattern for.

A large copper dome and worm for distilling purposes, as also a cask straining apparatus for Messrs. Hay and Co., Distillers of Simla.

A shaft, Bevel wheel, and various parts of machinery connected with brewing apparatus.

Two iron wharf posts; 5-ton cranes.

Iron girders for a first class choki roof have been despatched; and there are on hand—

Eight cast-iron balance discharge valves and two sets of cast-iron grooves for Rajbuha heads.

A 12-horse power oscillating Steam Engine to drive the Foundry Fan, and a large Lathe for the Roorkee Workshops, which will enable us to make turntables for Railway Companies or other large jobs.

An Engine cylinder, piston and rod with valve and throttle valve, feed pump and pipes with the necessary feed valves and cocks for Mr. Coates of Ferozepore.

This gentleman lately procured from England a small boat to ply upon the Sutlej; but finding that he cannot devote the time to complete the Engines himself, and that he can have them done quicker and cheaper at Roorkee, he has sent down the whole of them and their fittings to Roorkee to have them fitted and completed with paddle-wheels and necessary shafting.

A rope spinning apparatus to make ropes to tie up cotton bales with. We have in hand the drawings of some cotton presses, and have been asked for a design for a wind mill for pumping water.

Nineteen iron box girders of thirty-six feet each in length have just been completed for the Audience Hall of His Highness the Maharajah Sir Nuramdeer Sing, K. S. I., of Puttialla; without these girders His Highness could not have finished his Palace. Each of the beams weighs forty-four maunds, and the man who took them away took also from the shops a light crab-winch for shear legs, and two double sheaved blocks by which the above weight will easily be lifted.

A five-inch pump, which I trust will be the forerunner of many such orders, and lead to their introduction over that part of the Punjab.

Twenty cast-iron forge caps, brackets to support a paddle shaft, a paddle shaft, two mortice wheels, and two pinions for the East Indian Railway. These are for the purpose of bringing the old Thomason (Locomotive) Engine into use on a Tug Steam Boat.

Four large axles and pivot pins, sixteen large axle boxes with plates, eight brackets for locomotive trucks to convey the body of the locomotives from Mooltan to Lahore, fifty-three heavy cast-iron shoes for roofing purposes for the Punjab Railway.

The iron railing for the Cawnpore Monument, which was designed by the Superintendent of the Roorkee Workshops, is now under execution. A great portion of the rails and standards have been cast, and the work is progressing steadily every day. I think this railing will be considered handsome when put up in position, and will do credit both to the designer and to the Roorkee Workshops. The difficulty of bringing out a quantity of such a light rail from England would have been very great, as much of it must have arrived broken at Cawnpore, and must have necessitated a larger extra quantity of the rail than was required being ordered from England.

Designs and Estimates are also being prepared for two girder bridges, one for the Dhoon, and the other for the Umballa Road. A design for a bridge railing has also just been sent to the Umballa Road, and the Officer in charge of this road has expressed a regret that he did not discover sooner what the Roorkee Workshops could turn out, or he would have made more extensive use of it in submitting his designs for bridges, but the day must come, and that not far distant, when numbers of such orders will come in to the Roorkee Shops; wood is becoming so scarce and so expensive, that iron must be employed in its place, and the Roorkee Workshops for some time at all events must be used to work the iron up.

There are also in hand designs for a wrought-iron water wheel, 20-horse power, eighteen feet diameter, six feet breast, with pumping apparatus, for Rundeer Sing, Maharajah of Kuppoortulla.

24. From the foregoing it will be seen that there is a very large amount of very important work going on in the Roorkee Workshops; that wants have been created of late in different parts of the country, and that to stop these shops will tend materially to throw back the improvement of the country for years to come, while to assist them will tend very materially to aid their improvement. It will be seen that the principal customers of the Roorkee Workshops are—

1*st*. Rich Natives of India.

2*nd*. Railway and other Engineers.

Now, of the latter class, many of them have gone through their apprenticeship in workshops in England, and they know well the difficulty, either of procuring machinery from England, or of turning out such work in India, and are able to appreciate it to the full when turned out; yet they always express surprise when they come here at the nature of the work executed and satisfaction with it.

25. The Punjab Railway has a Foundry and Fitting Shop at Kurrachee, yet the Engineers are obliged to come to Roorkee on account of the delay and the risk in communication between those places.

26. That the Roorkee Workshops labor under great disadvantages from want of any regular system of Government aid is much to be regretted; the only competition with these shops comes from England, and with the present internal communication in India, there is little doubt, as has already been shown, that Roorkee is the favorite, yet the Government Engineers seldom give their work to Roorkee, though they often send very rough data for designs, call for completed Drawings and Estimates, and though much pains are bestowed upon them in the Roorkee Workshops, the work is almost always executed elsewhere, either under the supposition they can get it done cheaper, if small work, or that they could not get it done at all, if heavy work, not knowing really what these shops can turn out.

27. There is much work in every Department of the Government Service which could advantageously be executed in the Roorkee Workshops,—in the Civil Department, in the Postal, in the Ordnance, in

the Public Works, in the Barracks, and in the Commissariat.

28. In the Civil Department there will be tools of every description, gates and doors with their fittings, windows, ventilators, air bricks, jail apparatus, such as heckling, benches, rope spinning machines, tread mills for working irrigation pumps, flour mills, sugar mills, weight and measures, weighing machines and scales. These have already been made and supplied to various places at very moderate prices, as the annexed list, entitled "Roorkee Workshops Price List," will shew. If the Government Agency could be employed to distribute these weights and measures over the country, by which a uniform system of weights and measures would be adopted, much good, I think, would result.

29. In the Postal Department weights and weighing machines must be in constant requisition, as also cart wheels, axles, axle boxes, and iron mountings for carts; these are, it is true, at present made in the Government Workshop attached to this Department, but it is a question for consideration whether both places would not profit by a division of work, the Roorkee Workshops doing all "the heavy iron work," such as axles, axle boxes, and straps, while the Postal Department Workshops would do the wood work and fit up the carts.

30. In the Ordnance Department there are required targets, gun-carriages, gun-carriage wheels, axles, axle boxes, set screws, shoes, angle and plain straps, smiths' creeses, blocks, field smithies, tools for ditto, tap, dies, die stocks, lathes, drilling machines, planing machines, bolt screwing machines, wood working machines, such as circular saws, plaining, turning, and morticing machines.

31. In the Public Works Department the range of articles used and consumption of them is very extensive, including tools of every description, phowrahs, picks, hatches, crowbars, jumpers, wheel barrows (and that could be made equally for the several Magazines of the country and the Corps of Sappers and Miners, whose Head-Quarters are at Roorkee, and which now, I believe, indent for their charcoal from the Delhi Magazine, though it is, or can be, manufactured within a few miles of the place), kunkur borers, mortar (kurralies), hods, soorkee and mortar mills, curbs for well foundations for bridges, cast and wrought-iron bridge girders, roof girders, corrugated iron roofs, lightning conductors, pumps, cast-iron air bricks, ornamental cast-iron, ventilation plates, roof beam slides, and tie rods, bolts, nuts, and screws, road rollers, kunkur rammers, &c.

32. In the Barrack Department furniture of every description, night carts, pumps, fire engines, watering carts, cast-iron wash-hand basins with water pipes, cocks, cistern plates, &c.

33. In the Commissariat Department, carriages, boats, vats, barrels, measures, weighing machines, pumps, cranes for loading and unloading stores, &c., &c.

34. I think that if such aid, as is here pointed out, could be afforded by the Government, and if a quarterly, half-yearly, or annual Indent of requirements could be submitted through the Heads of Departments to the Roorkee Workshops, arrangements could then be made by their Superintendent to meet them, and the Government Service would benefit much by the arrangement.

35. In the preceding paragraphs of this letter I have entered into some detail, in order to shew the Government what work is really in progress, and what can be executed in the Roorkee Workshops, and I believe a knowledge only of the latter is required to extend their powers indefinitely throughout the North-Western Provinces and the Punjab. For instance, on the East Indian Line of rail from Allahabad to Cawnpore, the Locomotive is supplied with water from a brick-tank, which is filled by a pair of bullocks working a common churrus. Would this be allowed if it was known either by the Government Consulting or Resident Engineer that iron tanks, pumps, and steam engines could be supplied from Roorkee? On a late occasion Mr. Campbell, the Mechanical Engineer of these shops (and a most valuable servant of the Government), happened to furnish the Chief Engineer of the Punjab Railway at Lahore with a list of articles which could be furnished to him from Roorkee, a copy of which, Appendix H., is herewith given, and it is hoped that most of the articles, as pumps, water-cranes, &c., will henceforth be ordered from Roorkee. Mr. Harrison, the gentleman here referred to, stated that he had no idea we could turn out such work, though his predecessor, Mr. Brunton, patronized the Roorkee Workshops to a considerable extent.

36. And lastly, in regard to the great improvement in the manufacture of iron among the Native workmen as one of the many results of the Roorkee Workshops. The Native Mistry, whenever he can afford them, is quite alive to the superiority of English over Native tools, and there has been no difficulty in disposing of the few lathes which have been made in the shops, men willingly giving as much as Rupees 500 for them; their extreme poverty is the only bar to a large sale of these machines, but this must vanish with a demand for a better description of work, which, as I have before stated, must come in the present improved condition of the country. There is no doubt in the Native Mistry's mind as to the remunerative value of his tools after he has learned to work with them, and I could here mention an instance of a Mistry whose house is conspicuous in Roorkee—from the high chimney he has built to get a draft through his brass smelting furnace, and when inside the shop will be found a fly press for which he has made dies, and with which he punches the faces of lock plates, &c. He has also a metal turning lathe and tools for the same.

37. Another Mistry, the headman of the Pattern Shop, whom I remember as a boy, and who has been brought up entirely in these shops, has had by him for some time the patterns of a 1-horse power engine, which he made at home in his spare hours; he is able and willing to pay for the castings, and to erect such portions as he can at his own house, and the remainder at the shops; but he is too poor at present to pay for a boiler. This is only the beginning of things; if once a 1-horse power engine be set to work at Roorkee, a 5-horse power will assuredly follow it, and I see no reason to doubt that dozens of similar engines will be at work before long at Roorkee and at other parts of the country. Oil and cotton presses must come into use, and so also will, I believe, the light American plough which can be made up at Roorkee for Rupees 15 each.

38. I have little to add in regard to the articles manufactured in the Roorkee Workshops, or to the complaints of high prices and delay. I am convinced that the articles are good; that the prices are not exorbitant; and that complaints in regard to delay are somewhat exaggerated. An English Establishment of the kind would have its regular travellers to push its trade and to receive orders. I trust that the Government will obtain us these orders through its own Officers, and trust to the shops working for its own fair name for future continuance of those orders, remembering, however, that unreasonable complaints should not be attended to, but rather that the disadvantages we have to contend with should be taken into consideration by the Government when hearing such complaints and weighing our shortcomings.

39. I shall do myself the honor hereafter to report especially upon the state of the Roorkee Workshop Accounts; meanwhile I can only assure the Government that Captain Allen and his Office are doing all they possibly can to place the true account of these shops clearly before the Government, and that

the taking of stock now is the principal obstacle in the way of this being done. The taking of stock is now in progress, and I trust to have the necessary papers before me in all October, to enable me to place the financial state of the shops before His Honor.

From CAPTAIN A. ALLEN, Superintendent of Roorkee Workshops, to Superintendent General of Irrigation, North-Western Provinces,—(No. 286, dated 8th August 1861.)

IN reply to your letter No. 226, dated 18th May 1861, I have the honor to submit my explanations regarding the general charges of delay in turning out work and also the high cost of such work when supplied. In the first place, however, I must solicit the attention of the Government to the fact of the Roorkee Workshops being founded to supply the deficiency of skilled artizans, required throughout these Provinces, to carry out public works and private enterprise; that such an undertaking would meet with difficulties was anticipated by its founders, but the extent of these difficulties can only be adequately estimated by those having an intimate knowledge of the detail and working of any Establishment of this kind; that under these circumstances, then, there should be complaints of high prices and delay is not to be wondered at, though I hope to shew that they have been exaggerated.

The following are a few of the difficulties which have been experienced:—

1*st*.—The insufficiency of Establishment. This being essentially a Training School is without any special branch of manufacture, and consequently requires a larger amount of general superintendence than it would otherwise do, and in particular it requires a sufficient staff of Mechanical Draughtsmen and Foremen; every artizan has to be trained, and this difficulty never ceases on account of the unsteadiness and constant changes that take place among the workpeople, of whom numbers, trained at the expense of this Establishment, are to be found leading men elsewhere. The workshops have then answered, as far as this allows me to judge, in an educational point of view.

2*nd*.—Constant changes in the Office Clerks, and the impossibility of filling vacancies with men trained to the duties of a Mechanical Engineer's Office. These changes necessarily entail on me a large amount of attention to details, which would otherwise be carried on by the Clerks.

3*rd*.—A total absence of a market at hand for the supply of material. This cannot be obviated by any amount of foresight, as orders of the most unexpected nature and greatest variety come in such as no stock we could keep up would meet.

The specific complaints of delay refer to dates from two to three years back, and were due to the then incomplete state of the working machinery and sudden calls for work in advance of what had hitherto been required.

I believe these workshops at the present time will bear comparison with any in India, both as regards quality and price, although of such recent origin, in support of which I make an abstract from a letter addressed to me by Lieutenant-Colonel R. B. Smith, C B., dated Mint 1859,—"The more I see of other Establishments of the kind in this part of the world, the higher is my respect for the Roorkee Workshops; they are better provided, better organized, and altogether more workmanlike than any I have yet seen, the Mint Foundry and Workshops are poor affairs in comparison, and they certainly turn out as good work as you could get anywhere else in Calcutta."

2. In a word, the delay has arisen from insufficiency of machinery and appliances, both in quantity and power, to execute simultaneously too large and unexpected orders.

The machinery ordered for the Barce Doab Canals in March 1859 consisted of twenty-four heavy screws for lifting lock gates, worked by worm wheels and tangent screws, together with cross heads, nuts, sockets, &c., &c., and other parts of lock gates, for all of which patterns had to be made, as also for heavy shafting and gearing for the Madhopore Workshops, subsequently ordered. The forgings for the large screws were nearly five inches in diameter and ten feet long, the whole being forged from scrap iron; all appeared sound on being turned, but when nearly completed, several were found defective, and had to be re-made; the depth in the thread was three-fourths of an inch, and on account of this heavy pitch, a powerful screw cutting lathe was required.

The only one fitted for this purpose in my possession was employed for several consecutive months on the machinery for the Kumaon Iron Works, previously ordered; an attempt was more than once made to cut the shorter screws on a smaller lathe, but resulted in the breakage of two sets of change wheels; hence the delay in executing the orders for the Baree Doab Canal (which consisted of many more items than are mentioned by the Officiating Director), was in consequence of my having had two orders at one time for heavy machinery, and only one tool capable of executing the work; this one lathe was consequently kept working overtime on the Kumaon Iron Works Indent, and even if all my machines and appliances had been available, I could not have undertaken to complete this Canal order under four months; three months would not have been an unreasonable time in an English Factory, the work being of a difficult and complicated nature, and requiring several nice patterns.

The order was not in the first instance given as 'urgent'; had it been so, a portion of it might have been supplied earlier; as it was, none of it was despatched till the whole order was on the point of completion; there was also a difficulty and delay of nearly two months on account of not being able to procure carriage. The same want, *viz*., sufficient machinery, delayed the completion of the Kumaon Blowing Machinery (a point not noticed by the Secretary of State, but complained by Mr. Sowerby); as I have said, the only lathe of any size was employed for several consecutive months on this work, and from its being too slight, the time taken to bore andturn the different parts was very much longer than it would have been with more powerful machinery, besides which, the castings were very much delayed owing to there being no sufficiently powerful crane in the Foundry, though, as early as 1856, on my departure for England on Furlough on Medical Certificate, I left the casting of a first class Foundry crane complete, but, for reasons which I cannot explain, it was not erected till after my return in February 1858.

A second crane has since been constructed, and has now been in use about fifteen months. During the construction of the first Blowing Engine, a powerful and very complete boring machine for large work was finished, and used for boring the cylinders of the second engine, as well as four other cylinders for the present Kumaon Iron Works Company, the casting of one of which was witnessed by His Excellency the Governor General and the Hon'ble Mr. Wilson, the latter of whom expressed his surprise and satisfaction that such work could be turned out in India. It will be seen from this that I anticipated wants, and that the workshops have been gradually manufacturing its own much required appliances, which of course could not expedite, in the first instance, the execution of orders. The deficiency in respect of a large lathe will shortly be supplied by one now on hand, and with these tools the capabilities of the workshops will be considerable and will remove one great cause of delay. Another great impediment still remains, *viz*., the want of an adequate staff of European Assistants, which, as the works increase, is daily becoming more urgent.

I brought this to the notice of the Government in 1859 in the following words:—

Extract from Report on the Roorkee Workshops, submitted by the Superintendent, dated 15th June 1859.

"A good Smith Foreman is also much required, there being at present no Mistry Smith capable of superintending the extensive Forge Works. The addition of a Mechanical Draughtsman is indispensable; the successful completion of work in general depends on the completeness of the drawing furnished to the workmen, but with a limited Establishment, it is impossible, in the majority of cases, to furnish Drawings at all beyond a mere Sketch."

Extract from Despatch by the Secretary of State for India, to the Government of India, No. 3 of 1860, dated 12th January. Letter No. 60, dated 14th September 1859.

"12.—From the information here furnished, it is evident that the Roorkee Workshops answer satisfactorily every purpose for which they were designed, and there is no doubt that their utility would be increased if the Establishment were enlarged and supplied with the additional machinery applied for by the Superintendent. The large outlay which this would require must, however, be deferred until a more favorable season."

At present Mr. Angus Campbell, lately transferred from the Kumaon Iron Works, is the only Assistant I have capable of preparing Drawings and Estimates; he is by far the most competent Assistant I have yet had, but one is not sufficient to carry on such works with promptitude or economy while they are still in their infancy, and dependent on accidental orders and urgent demands from every part of the North-West Provinces and the Punjab, such demands being as various as they are numerous, and, as a rule, made on the Roorkee Workshops only when they are beyond the skill of Executive Engineer Workshops or private Establishments.

3. The facts connected with the machinery for Mr. Sowerby are these:—Mr. Sowerby ordered the first Blowing Engine at Roorkee on the 30th April 1858; it was completed and despatched on the 12th May 1859 (the second engine was put on hand in the month of July 1859, and being a continuation of an urgent order, was not put out of hand for the Baree Doab Canal order), and arrived at Dechourie in June 1860, with the exception of one heavy wheel, which was delayed on the road, I believe, one month. The Blast Engine was fixed and completed some considerable time before the furnace was ready, the furnace being put into blast on the 16th February 1860, and then before it was sufficiently dry, as noticed in Mr. Oldham's Report, page 14, so that Mr. Sowerby actually had the engine in his possession about six months before he was prepared to use it; this machinery being the first of its class executed in this Presidency, took twelve months to construct; but under the most favorable circumstances, the like machine could not have been procured from England under eighteen months, and a similar engine with my present means could now be completed in six months, or in one-third the time it would take to procure it from England.

4. As regards the high cost of our work.

Respecting the cost of the first engine, which Mr. Sowerby reported as excessive, I have already explained that its price was very much enchanced from want of suitable machinery, as shewn by comparing the cost of the first engine with the cost of the second.

My bill for the first engine was, exclusive of carriage	Rs.	15,078
My bill for the second engine	„	11,654

shewing a difference in favor of the second engine of Rupees 3,424; the material in both cases was charged at the same rates; both engines were well finished, consequently this reduction was due to construction only; the cost of patterns was charged to the Foundry, and the cost for the castings was the same for both engines, *viz.*, our ordinary rate for castings of that description, quite independent of the actual cost of patterns. Mr. Oldham has placed on record that the cost of the first engine was "certainly most unreasonably high," page 4 of his Report.

I claim to be judged by the cost of the second engine, *viz.*, Rs. 11,654.

With reference to Mr. Oldham's assertion (notes pages 4—13) that he was informed at the Roorkee Workshops that the cost of the second engine would be as much as the first, I have only to say that he did not receive this information from me. Mr. Sowerby, in his Report on the Kumaon Iron Works, page 72, estimated the cost of each engine at Rupees 7,135, page 18 of his Report. Mr. Oldham writes, "with reference to the fact as to the estimated and actual cost of the buildings, and great increase in cost of every portion of the works over the Estimates, that Government has *been in all this matter most seriously misled*," and he is "unwillingly compelled to add that they (the facts, &c.) are such as proved *to his* mind conclusively that the person making the Estimate in the first instance had not mastered even the first elements of the knowledge he claimed to possess." Why then at page 4 (1st paragraph) should Mr. Oldham consider that "Mr. Sowerby is fully entitled to claim a considerable addition to his Estimate (for the Blowing Engine) nearly equal to the difference in amount between actual cost and estimated cost of the (the first) engine?" How is this exception to be reconciled with the sweeping condemnation quoted above, and why should Mr. Sowerby's Estimate of a Blowing Engine be more trustworthy than any other of his Estimates? I have said above that I claim to be judged by the cost of the second engine. I also claim to be judged in the matter by a competent person that Mr. Oldham is not I need only refer for proof to the foot note at page 13, "the total cost of the Blast Engine from Roorkee for first furnace was Rupees 15,940, the second engine being identical, and therefore the same patterns answering, the cost ought to be much less, say Rupees 9,000." From this statement it may fairly be concluded that Mr. Oldham's idea of the cost of the patterns of the Blowing Engine in question was Rupees 6,940, or $\frac{7}{16}$ (nearly one-half) of the whole cost, and therefore if Mr. Sowerby's Estimate of the engine was (as he at page 4 seems to consider) fair, the cost of the patterns would have been $\frac{7}{16}$ of 7,135= Rupees 3,121!

I believe I am correct in stating that the actual cost of the whole of the patterns was under Rupees 500.

Trusting that the explanation, supported by the Comparative Table, shewing cost of similar machinery elsewhere, and the several extracts of letters appended, will at least balance the unfavorable reports that have reached the Government regarding delays and high cost of work executed under my superintendence.

APPENDIX A.

Extracts from letters addressed to Superintendent, Roorkee Workshops and others.

From F. Read, Esq., Trustee, Kumaon Iron Works Company, dated Nynee Tal, 13th May 1861.

"We are very much obliged to you for the assistance you have rendered us in the undertaking; all the work you have sent us has turned out admirably, the large cylinders in particular."

From F. Read, Esq., Trustee, Kumaon Iron Works Company, dated Nynee Tal, 29th September 1860.

"There are some very good and useful machines, but *not one* complete; some portions of each having been lost, I must come to you to re-place them."

Note.—This refers to the machinery brought out by Mr. Sowerby for the purpose of constructing his Blowing Apparatus, the first portion of which, however, only arrived about the same date as the Blowing Engine from Roorkee; the last portion several months later.

From F. Read, Esq., Trustee, Kumaon Iron Works Company.

"I am in receipt of your letter of the 18th instant, and in reply state that we have engaged to execute a small order for water piping for the Barrack Department at Nynee Tal at Rupees 8 per maund, delivered; we have also engaged to deliver castings, such as pipes, girders, pillars, &c., &c., at Cawnpore for the East Indian Railway, at Rupees 8 and Rupees 7 per maund. The cylinders you sent us are in every way unexceptionable, and do their work more satisfactorily, and as we could not get such castings from England at the price you have charged, we have nothing to complain of as to their cost."

Note.—The usual charge for pipes at Roorkee is Rupees 8 per maund. The cylinders, pistons, &c., &c., were supplied to the Kumaon Iron Works Company at precisely the same rates as those included in the machinery supplied to Mr. Sowerby.

From Sir Proby T. Cautley, K. C. B., dated East India House, 26th January 1860.

"I have shewn your instruments to the Council, and they are the admiration of every one who has examined them. I have also called in Mr. Elliott, of the Strand (Optician), whose Report I enclose; my view of the questions is that, as far as workmanship goes, better could not be performed in metal in England, and, as Mr. Elliott remarked, it was really *better*, in so far that for instruments like large levels, it was not worth while for the manufacturer to do so much in finish as you have done.

From Lieut. Bagge, Engrs., Exe. Engr., Boolundshuhur Branch, Ganges Canal.

"I sent you an indent 'for Phowrahs and Picks'; there is not a single phowrah worth digging with, except yours, and the people struggle violently to get hold of them."

From E. H. Longden, Esq., Supdt., Govt. Press, to W. Muir, Esq., Secy. to Govt., N. W. P., dated Agra, 6th April 1858.

PARA 2.—"I take the opportunity of mentioning that these are nearly the first Iron Presses manufactured in India, and that in all respects they are equal to those imported from England."

From W. Muir, Esq., to E. H. Longden, Esq.

"I am to add that His Lordship considers the statement in your 2nd paragraph regarding the excellence of the Presses, to be very satisfactory."

From Mr. C. H. Coates, Contractor, Ferozepore, dated 28th April 1861.

"The Boiler, &c., &c., have just arrived. The Boiler is very well made indeed. * * * * * * * I must again express my satisfaction at the workmanship of the Boilers; it is much beyond what I expected you could have turned out."

From Mr. C. H. Coates, Contractor, Ferozepore, dated 6th May 1861.

"I have no doubt but that in a year or two now the value of the Roorkee Workshops will be sensibly felt in these Provinces; but for them my present enterprise must have waited for two or three years perhaps. It took me two years to get out a cupola mounting and blowing machine * * * * I have relinquished my mechanical operations for others less troublesome."

Minimum rate for iron castings ..	7	5	At Cossipore Foundry.
		8	At Private Firms in Calcutta.
Plain cast-iron wheel-barrow wheels ..	8	12	At Jessop and Co.'s Foundry; this rate was given me by Lieutenant-Colonel Alexander Taylor lately as the price paid by him for 2,000 wheels.

Note.—The prices quoted at Roorkee are the selling prices, those in England or Calcutta the nett price at the Manufactory.

From LIEUTENANT-COLONEL H. YULE, Secretary to Government of India, Public Works Department, to Secretary to Government of North-Western Provinces, in the Public Works Department,—(No. 4242, dated the 29th November 1861.)

I AM directed to acknowledge your letter No. 3261A., dated 21st October, forwarding correspondence regarding the Roorkee Workshop.

The Governor General in Council is glad to have received these papers. He agrees in the views of His Honor the Lieutenant-Governor. The papers do go a long way in establishing a satisfactory case against the charges which some Officers have brought against the workshops, both as to prices and alleged delays. It does not, however, appear to His Excellency in Council that an acquittal can be given on the latter charge, though he admits that some of the causes of delay have been inevitable. The Roorkee Workshop alone is expected to perform a variety of work, such as in England would be distributed among many workshops of different specialities. And these, unless the advantages of the division of labor are altogether illusory, of course stand in a much more favorable position than the Roorkee Shop in carrying on their own specific branches of manufacture.

2. So far as the complaints are just, the source of them is no doubt the fact that Captain Allen's talent for business and methodical arrangement is by no means on a level with his great zeal and mechanical ability, which the Governor General in Council is happy most fully to recognize. But deficiency in one description of usefulness would be a very bad reason for losing eminent capacity in another, and means should be taken to supply the deficiency. The Governor General in Council is of opinion that it will be highly advisable to obtain from England a trained Office Head, accustomed to the business of a Mechanical Establishment, as Captain Allen has proposed. And he requests that the Lieutenant-Governor will be good enough to report what salary can be afforded for such a man on (say) a five-years' engagement, with any more particular suggestions that Captain Allen may desire to make on the subject.

3. The Smith and Turner will be applied for to Her Majesty's Government.

4. Copy of a letter from the Superintendent of the Cossipore Foundry, No. 106C., dated 25th instant, stating what expenses are charged to the work done in that Establishment, is forwarded, with reference to paragraph 4 of your letter under reply.

5. The Governor General in Council observes what Colonel Turnbull has stated in his interesting letter regarding the practice of some Government Engineers, who, after obtaining from Roorkee finished Designs and Estimates, almost always send these for execution elsewhere. Such a thing would not be tolerated if they were dealing with private workshops, and it would be very discreditable to the Officers concerned, but that it has probably arisen from thoughtlessness. The attention of Superintending Engineers should be called to this. The Governor General in Council does not desire to force the Roorkee Workshop into custom because it is a Government Establishment; but neither must its managers be treated with injustice because it is a Government Establishment.

6. In conclusion, His Excellency in Council observes that the testimony quoted from several gentlemen engaged in private undertakings is very favorable and important in behalf of the workshops. So is that of Mr. Elliott, one of the best English Instrument-makers, to the high finish of Captain Allen's Instruments.

7. The papers will, by direction of His Excellency in Council, be published in the *Gazette* Supplement.

No. 1148 of 1861.—The undermentioned Officer is permitted to proceed to Europe on Furlough on urgent private affairs:—

Major John William Carnegie, C. B., of the late 15th Regiment Native Infantry	For six months, under the new Regulations.

Fort William, the 17th December 1861.

No. 1149 of 1861.—The undermentioned Officer is permitted to proceed to Europe on leave of absence on Sick Certificate:—

Surgeon-Major Edward Hare, of the Medical Department	For three years, under the old Regulations.

No. 1150 of 1861.—With reference to General Order No. 984 of the 8th July 1859, His Excellency the Governor General in Council now directs that no advances of Pay shall be made in future from Civil Treasuries to Military Officers and Troops, except when proceeding on public duty from one Station to another, and when the payment of such advances through the Divisional Pay Masters is impracticable. Officers on leave will receive their pay through the Pay Masters of their respective ranges, and the recent allocation of Pay Circles will afford facilities for such arrangements. There are few positions in which an Officer absent from his Corps cannot receive his dues through the Pay Department, and it being absolutely necessary for the clear exhibition and due adjustment of all payments on account of the Military service that they should be made through the prescribed channels. Commanding Officers of Stations and Divisions are especially warned of the responsibility they will incur by authorizing advances directly from Civil Treasuries for Military purposes in contravention of these orders.

No. 1151 of 1861.—Lieutenant William Clephane Liondin Brown, of the Regiment of Artillery, is permitted to resign the Service, with effect from the 20th October last, subject to Her Majesty's approval.

No. 1154 *of* 1861.—With reference to Government General Order No. 1147 of the 13th instant, the following instructions for the preparation and submission of claims for the first payment of Delhi Prize Money are published for general information and guidance:—

1. All Bills and Abstracts of Individuals, Corps or Departments to be prepared in the Forms laid down in duplicate, and submitted to the General Prize Committee. Nos. 1 and 2.

2. The names of Officers and Men are to be returned in the Companies to which they stood posted on the 1st October 1857.

3. Prize Money being admissible only in the ranks in which Individuals actually served, promotion with back rank gives no claim to share in rank higher than that in which service was performed. Officers and Men who died, were killed, or left the Army before Delhi, in consequence of sickness or wounds, are entitled to share in the rank

they actually held on the date they died or left, and those present at the capture of Delhi or Jhujjur are entitled in the ranks they held on the 20th September and 18th October 1857.

4. Officers claiming additional shares in virtue of length of service are to note at the foot of their Bills the dates of their several Commissions, &c.

5. Claims on account of deceased Officers by Executors and others are to be accompanied by Probates and Letters of Administrations granted by the Supreme Court of Judicature in Bengal in in its Ecclesiastical side, empowering the claimants to administer to Estates.

6. To facilitate the payment of the Prize Money payable in England to Officers who have left India, whether by retirement or exchange, and to the representatives of such Officers deceased, and to Soldiers deceased, and to Men discharged or invalided from Regiments now in India, separate Abstracts agreeably to paragraph 1 are to be submitted from Corps serving in India, in view to their shares being at once remitted to the Home Authorities.

Form No. 2.

7. Claims by Agents or others empowered to draw the shares of absent Officers to be accompanied by Powers of Attorney.

8. Station Prize Committees are to be formed for the examination and payment of the claims of European and Native Soldiers invalided, discharged or deceased.

9. Forms for the use of Station Committees are given at foot.

Nos. 3 and 4.

10. Station Prize Committees may include several claims in one Report, and thus save themselves and the General Prize Committee much labor.

11. The Reports are to be submitted to the General Prize Committee in duplicate after audit, the sums admitted will be paid by the Station Prize Committee.

12. Monthly the Station Prize Committee will submit to the General Prize Committee account current of sums received by them and the payments made, also Acquittance Rolls from Recipients.

13. The expenses for a Writer and Stationery incurred by Station Prize Committees to be submitted monthly duly vouched and attested.

14. Annexed is a scale of Shares for classes unprovided for in the Scale. Blank Bills are to be sent.

No. 3033A.

With reference to the Notification by this Government, No. 2522A., dated the 21st September last, relative to the misuse of the Telegraph by Public Officers, the following Extracts, paragraphs 3 to 8, from a letter on the subject, from the Secretary to the Government of India, in the Home Department, are published for general information :—

Para. 3.—The inspection of Service Messages recently undertaken in Calcutta has shewn that it is a most common practice on the part of Secretaries to Government, Heads of Departments, Officers Commanding Regiments, and other Public Officers, to communicate, regarding applications for leave of absence and applications for appointments, by Telegraph on the Public Service.

4. Such communications are, in fact, very rarely required in the interests of the Public Service. In nine cases out of ten they are made for the private convenience of the party concerned, and therefore the Messages ought not to be sent at the public expense.

5. If an Officer seeking leave, or applying for an appointment, desires to receive a reply by Telegraph, he should pay for the reply himself, for no such Message can properly be sent at the public expense unless it be so sent, because it is in good faith believed that the interests of the Public Service required it.

6. The extent of the evil which results from the irregular practice above noted may not readily strike an individual Public Officer who may perhaps send only one or two such Messages in a month. The evil, however, is in reality a very great one, for the irregularity is found to be prevalent throughout India wherever Telegraphic communication is available, and thus probably not a day passes that private Messages which have been paid for and Messages which are really on the Public Service are not delayed in transit by the passage of some of these unpaid private Messages improperly sent as on the Public Service.

7. The difference between the Post Office and the Telegraph in this matter is obvious, though there is reason to suppose that it is not always borne in mind. No one communicating with Government or any public functionary is entitled to expect a reply by Telegraph. The Telegraph is an extraordinary means of communication, which is not intended to be used in the transaction of public business, except on urgent and important occasions, and when the saving of time effected by the Telegraph is of real importance to the public interest ; and it is, I am desired to observe, of the utmost consequence to the interests of the general public, and also as regards the economical working of the Telegraph, that this rule should be rigidly observed by all Public Officers, and especially by those who hold posts of authority.

8. The Governor General in Council has seen with great satisfaction a recent order on the subject of sending orders regarding leave, &c., by Telegraph, published in the *Gazette* by the Lieutenant-Governor of the North-Western Provinces.

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st.*—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd.*—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd.*—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th.*—Each lot shall contain five Chests.

5*th.*—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per Chest	*Deposit.* Rs. 200 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	„ 300 „ „
Ditto of Rs. 1,600, but less than Rs. 3,000	„ 400 „ „
And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.	

6*th.*—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th.*—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th.*—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th.*—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th.*—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th.*—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit, either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities, a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th.*—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz.*, two of the season's provision under sale, and two of the previous season, will be also shown to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article 6th.—"With regard to the Trade in "Opium, it is agreed between the high contracting Parties that, at each of the periodical Sales "of that article, there shall be reserved for the "French Government and delivered upon requisition duly made by the Agents of His Most "Christian Majesty, or by the Persons duly appointed by them, the number of Chests so applied for, provided that such supply shall not "exceed three hundred Chests in each year, and the "price of the same shall be determined by the average rate at which Opium shall have been sold at "every such periodical Sale, it being understood "that, if the quantity of Opium applied for at "any one time shall not be taken on account of "the French Government by the Agents of His "Most Christian Majesty within the usual period "of delivery, the quantity so applied for shall "nevertheless be considered as so much in reduction of the three hundred Chests hereinbefore "mentioned. The requisitions for Opium as "aforesaid are to be addressed to the Governor "General at Calcutta within thirty days after "notice of the intended Sales shall have been "published in the *Government Gazette*."

SUPPLEMENT TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER 18, 1861.

OFFICIAL PAPERS.

Supplement to the Gazette will henceforward be published, weekly or twice a week, according to circumstances, containing such Official Papers and Information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.

Non-Subscribers to the Gazette may receive the Supplement separately, on a payment of six Rupees per annum if delivered in Calcutta, or twelve Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the Gazette is required by Law, or which it has been customary to publish in the Gazette, will be included in the Supplement. For such Orders and Notifications the body of the Gazette must be looked to as heretofore.

Government of Bengal.

Allotment of the Amalgamated District Roads' Fund for 1861-62.

Extract from the Proceedings of the Hon'ble the Lieutenant-Governor of Bengal, in the Public Works Department (Local), under date the 30th November 1861.

Read a letter No. 768, dated the 30th September last, from the Officiating Deputy Auditor and Accountant General of Bengal, with the Statement of the approximate assets of the "Amalgamated District Roads' Fund" for the year 1860-61, available for distribution in the current year.

Read *also* the Returns submitted by the several Commissioners of Divisions, excepting Burdwan, showing the expenditure incurred during the past year from the sums granted for the purpose by the Resolution of 31st October 1860, and the expenditure proposed for the current year, together with other papers on the subject.

Resolution.—The aggregate amount of the sums brought to the credit of the "Amalgamated District Roads' Fund" in 1860-61, as exhibited in the Statement received from the Officiating Deputy Auditor and Accountant General of Bengal is as follows:—

	Rupees.	Rupees.

Deduct a deficit in the accounts of the Tolls in 1859-60 ...	19,665 0 0	
Total of the portion of the Roads' Fund called the "General Fund" ...	...	54,385 0 0
Aggregate amount of the "Amalgamated District Roads' Fund" ...	...	6,88,647 0 0

2. The Returns of the Burdwan Division not having been received as yet, the Lieutenant-Governor is unable to consider its requirements at this time.

The "Local Funds" appertaining to the Districts of the Burdwan Division, which amount to Rupees 82,059, will therefore be held in reserve, pending the receipt of the Returns in question. Deducting this amount from the total of the Local Fund exhibited above at Rupees 6,34,262, the latter is reduced to Rupees 5,52,203; and adding to this amount, and to the General Fund given above at Rupees 54,385, the balances available in the hands of the Local Officers (excluding those of the Burdwan Division), and from the undistributed balance of the General Fund of last year, as shown below, the total amount actually available for expenditure in the current year is Rupees 10,40,441, *viz* :—

	Local Fund.	General Fund.	Total of Amalgamated District Roads' Fund.
Shown in paragraph 1 as above ...	* 5,52,203	54,385	6,06,588
Add balance of last year's General Fund remaining unappropriated ...	...	48,432	48,432
Add balance of allotments unexpended during 1860-61 in the hands of the Magistrates or Committees ...	2,14,473	1,70,948	3,85,421
Total Rs. ...	7,66,676	2,73,765	10,40,441

* Less receipts of the Burdwan Division.

3. In allotting these Funds on the principles which have been followed for the last two years, a contribution has been taken from the Funds of twenty-six Districts, which did not appear to require the full expenditure of their Funds on their own works. This contribution aggregating Rupees 1,84,559 has been added to the General Fund. The Local Funds of ten Districts have been aided by contributions from the General Fund to the aggregate amount of Rupees 56,637. Statement A., appended to this Resolution, exhibits the details of the above changes which leave the "Local Fund" at the aggregate sum of Rupees 6,38,754, the "General Fund," *vide* Statement B., amounting to Rupees 4,01,687.

4. The General Fund has been allotted, as shown in the margin, for the prosecution, during the current year, of the Railway Feeders in course of construction, and of those which have recently been authorized. These assignments amount together to Rupees 3,90,000, leaving an unappropriated balance from the General Fund of Rupees 11,687.

	Rs.
Nuddea Division, for Eastern Bengal Railway Feeders ...	2,00,000
Kuddee Division, for Mutlah Railway Feeders ...	50,000
Rajshahye Division, for Eastern Bengal and East Indian Railway Feeders ...	90,000
Bhaugulpore Division, for East Indian Railway Feeders ...	40,000
Patna Division, for East Indian Railway Feeders ...	30,000
Burdwan Division, for East Indian Railway Feeders ...	40,000
Total Rupees ...	3,90,000

5. The assignment to each Division will be expended on the Feeders within it in such proportions as may seem expedient to the Commissioner, with whom will rest the responsibility attaching to the proper outlay of the entire assignment.

6. The following remarks indicate the progress made with the Railway Feeders, and their present condition generally :—

FOR THE EAST INDIAN RAILWAY.

Old Feeders.

Moorshedabad and Sonthal Pergunnahs.—1. Sooty to Pakour, thirteen and a half miles. Rupees 5,000 were expended last year for earth-work on this Feeder. The road is formed over nine miles, and it is expected that the earth-work will be soon finished.

Moorshedabad.—2. Jungypore to Moradoi, fifteen miles. The earth-work of this road is in fair progress. Rupees 9,191 were spent upon it last year.

Monghyr.—3. Chuckie to Luckesarie, forty-eight miles. Rupees 11,222 were spent for purchase of the land required for this road, and Rupees 10,000 for constructing it in part.

Monghyr and Bhaugulpore.—4. Kurruckpore to Barriarpore, thirteen miles. Rupees 5,000 were advanced to the Railway Engineer by whom it is to be constructed. Rupees 4,352 have been actually expended, and it is expected that the Road will be fit for traffic by the end of January next.

Bhaugulpore.—5. Muddipoorah to Bhaugulpore, sixty miles. Rupees 5,496 were expended for purchase of the land required; and Rupees 15,372 in completing 6¾ millions of cubic feet of earth-work over nine miles, and in surveying and marking out fourteen miles.

Shahabad.—6. Sasseram to Peeroo, forty miles. The earth-work is completed, and the road raised above flood level and opened for traffic as a bridged and unmetalled road. The drainage of the road and turfing of the slopes remain to be completed.

FOR THE EASTERN BENGAL RAILWAY.

Old Feeders.

Nuddea.—7. Kishnaghur to Bagoolah, eleven miles. Rupees 40,619 were spent upon this road

last year. The earth-work has been completed for nearly the whole distance, and the metalling and bridging of it have been commenced. The entire road will, it is expected, be metalled and ready for traffic at the opening of the Railway.

NUDDEA.—8. Santipore to Ranaghât, eleven miles. The earth-work of this road is completed over nearly the entire length, and the money spent upon it last year amounted to Rupees 18,880. The metalling of the Feeder has been postponed for one year.

JESSORE AND NUDDEA.—9. Jessore to Bagoolah, forty miles. Nothing was spent on this road last year. It is now arranged that the line shall be carried from Jessore *vid* Katgurrah to the Kotechandpore Road in a straight line, superseding the road from Katgurrah to Bagoolah. This new line is to be surveyed this year, but no work will be done till 1862-63.

JESSORE AND NUDDEA.—10. Bongong to Chagdah, twenty miles. Rupees 10,642 were spent upon this road last year in making a survey of it and in throwing up earth-work. The Feeder will be proceeded with as quickly as possible in the current year.

JESSORE AND NUDDEA.—11. Kotechandpore to Kissengunge, twenty-three miles. The line has been surveyed, and the earth-work is in progress. Rupees 10,488 were spent upon it last year. The road will be metalled as early as possible. It is to be extended to Kalleegunge over a distance of seven miles.

PUBNA.—12. Comercolly to Kooshtee, twelve miles. Rupees 11,717 were expended last year on earth-work, bridges, and metalling. The metalling remains to be completed this year.

NEW FEEDERS.

NUDDEA AND BERHAMPORE ...	13. Beldangah to Chooadangah.	These two lines are reported by the Offg. Comr. of the Nuddea Division to be under survey.
NUDDEA AND JESSORE ...	14. Ghorakhallee Ferry to ditto.	

24-PERGUNNAHS.—15. Ishapore to Bagher Khall, sixteen miles. This line has been surveyed, and the road ordered to be completed as quickly as possible.

NUDDEA.—16. Sooksangar to Chagdah. This line, which has been recently proposed as a Feeder, has been accepted as such.

FOR THE MUTLAH RAILWAY.

NEW FEEDERS.

24-PERGUNNAHS ...	17. Kŏomarkhally to Sonarpore. 18. Rajpore to ditto. 19. Samookpottah to ditto, *vid* Radhanuggur. 20. Mutlah Road (*vid* Mullung) to Choppatah. 21. Narainpore Road to ditto.	These lines have been accepted as Feeders, and are being surveyed.

7. The following two Roads were authorized in the Resolution of 31st October 1860 as Railway Feeders; but no work is expected to be commenced upon them this year.

MOORSHEDABAD AND NUDDEA.—1. Berhampore to Alumdangah (instead of Kooshtee) through Jellinghee, fifty-five miles.

MOORSHEDABAD AND RAJSHAHYE.—2. Beauleah to Jeeagunge, twenty-four miles.

8. Two other Railway Feeders were also authorized in the Resolution of 31st October 1860, *viz.* from Furreedpore to Kotechandpore, and from Comedpore to Kooshtee. The former has been suspended for the present, and the latter has been ordered to be kept up as a District Road.

9. Instructions have been issued to the Commissioners for the survey of the following five Roads, with a view to their construction as Feeders hereafter:—

1. Jenidah to Chooadangah.
2. Seebpore to Kooshtee.
3. Chandnuggur to Augurparah.
4. Koopenessur to Kanchraparah.
5. Ghoseeparah to Kanchraparah.

ORDER.—*Ordered*, that a copy of this Resolution, and of the two Statements A. and B. alluded to therein, be forwarded for the information and guidance of the several Commissioners, with a request that a copy may be furnished by them to each of the Magistrates or Committees in their respective Divisions, together with such instructions as may seem required.

Also, that a copy of the Resolution and of the two Statements be forwarded to the Officiating Civil Pay Master and to the Officiating Deputy Auditor and Accountant General of Bengal respectively; and to the Officiating Consulting Engineer to the Government of Bengal in the Railway Department, for communication to the Agents of the several Railway Companies.

MILITARY DEPARTMENT.

Fort William, the 19*th December* 1861.

No. 1157 *of* 1861.—It is notified that Cooks of Regiments who served within the Entrenchment during the Siege of the Residency at Lucknow are entitled, having been under fire in the execution of their duty, to share in the Lucknow Prize Money.

Prize Rolls of the Cooks who have claims under this decision are to be submitted through the usual channel without delay.

Fort William, the 20*th December* 1861.

No. 1158 *of* 1861.—His Excellency the Governor General in Council is pleased to direct that, from 1st January inclusive, *i. e.*, beginning with the pay for that month, the monthly diets and travelling allowance or table money, whenever admissible, on account of the following Officers and Establishments, which hitherto have been wholly or partially disbursed in the Commissariat Department, shall be disbursed entirely in the Pay Department, *viz.*:—

I. European Commissioned, Warrant, and Non-Commissioned Officers employed in the Commissariat Department.

2. Office Establishments of Commissariat Officers.

3. Warrant Officers and Hospital Apprentices in the Subordinate Medical Department, and Hospital Writers.

4. Conservancy Establishments under Barrack Masters and Quarter-Masters.

5. Chowkeydars over empty Barracks.

II. Commissariat Officers will draw in one Pay Abstract the entire emoluments of themselves and of the Warrant and Non-Commissioned Officers, and Office Establishments under them.

III. The Pay and Allowances of Subordinate Medical Officers, and of Hospital Writers will be drawn in the same Pay Abstract with the emoluments of the Medical Officers under whom they may be serving.

IV. Conservancy Establishments will be similarly included in the same Pay Abstract with the Pay and Allowances of the Barrack Masters and Quarter-Masters who may have charge of them.

V. The Examiner of Commissariat Accounts will return unadited, or disallow from Disbursement Statements, all Bills for January 1862 and subsequent months, which may be submitted to him for the aforesaid Officers and Establishments.

VI. The Military Finance Department will issue subsidiary instructions to give effect to these Orders.

No. 1159 *of* 1861.—His Excellency the Governor General in Council is pleased to lay down the following Rules to be observed on the transfer of a Pensioner from one Presidency to another:—

1. On a Pensioner of one Presidency being permitted to reside in another Presidency, the Military Accountant of the Presidency to which the Pensioner belongs shall furnish a Register in the annexed Form B. to the Military Accountant of the Presidency to which the Pensioner may be proceeding, in order to the immediate issue of the necessary instructions for the payment of the Pension. Notice of the transfer will also be communicated by the respective Military Accountants to the Officers in the two Presidencies concerned, who pass the accounts of Pensioners.

2. On the Pensioner wishing to return to his own Presidency, the re-transfer will be similarly made.

3. Conformably with the Financial Resolution of 17th November 1860, the Pensioner's Stipend will be adjusted as a debit to his own Presidency in the Books of the Military Accountant of the Presidency in which he may be residing, and on the audit solely of the Local Examiner.

4. Should the Pensioner die, or be otherwise removed from the Pension Establishment, while absent from his own Presidency, the casualty will be reported to the Military Accountant of such Presidency in the same way as if the Pensioner were returning thither, (*vide* paragraph 2 of this Order). The original Pension Roll or Parchment Certificate of the Pensioner (if he be deceased) will accompany the report of the casualty. The Military Accountant of the Pensioner's Presidency will note the casualty in the Register in which he had noted the Pensioner's transfer, and will make over the Roll of the Pensioner, if deceased, to the proper Departments.

5. The Officer in charge of the Statistics of Pensioners in each Presidency will obtain from the Military Accountant a Register of Pensioners transferred to other Presidencies for payment; and from the Examiner in charge of Pension Accounts at the Presidencies where the Pensioners are residing such information regarding them as he may require to enable him to prepare his Annual Returns, thus precluding any inconvenience from the adjustment of accounts directed in paragraph 3 of this Order.

6. The Military Accountants of the two Presidencies concerned in the transfer of payment of any Pension will communicate with each other direct regarding the transfer, which they will arrange without reference to Government.

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st.*—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd.*—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd.*—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th.*—Each lot shall contain five Chests.

5*th.*—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per Chest	*Deposit.* Rs. 200 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	" 300 " "
Ditto of Rs. 1,600, but less than Rs. 2,000	" 400 " "
And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.	

6*th.*—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th.*—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th.*—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th.*—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th.*—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th.*—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit, either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities, a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th.*—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz.*, two of the season's provision under sale, and two of the previous season, will be also shewn to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article 6th.—"With regard to the Trade in "Opium, it is agreed between the high contracting Parties that, at each of the periodical Sales "of that article, there shall be reserved for the "French Government and delivered upon requisition duly made by the Agents of His Most "Christian Majesty, or by the Persons duly appointed by them, the number of Chests so applied for, provided that such supply shall not "exceed three hundred Chests in each year, and the "price of the same shall be determined by the average rate at which Opium shall have been sold at "every such periodical Sale, it being understood "that, if the quantity of Opium applied for at "any one time shall not be taken on account of "the French Government by the Agents of His "Most Christian Majesty within the usual period "of delivery, the quantity so applied for shall "nevertheless be considered as so much in reduction of the three hundred Chests hereinbefore "mentioned. The requisitions for Opium as "aforesaid are to be addressed to the Governor "General at Calcutta within thirty days after "notice of the intended Sales shall have been "published in the *Government Gazette*."

No 1242A.

Camp Mote, the 6th December 1861.

With reference to the Notification of the Government of India, in the Home Department, No. 964, dated the 14th May, the Hon'ble the Lieutenant-Governor, in conformity with Section XLVI of Act V. of 1861, is pleased to direct that the provisions of Act V of 1861, shall be carried into effect in the following Division and Districts in these Provinces from the 1st January 1862:—

The District of Ajmere and Mhairwarah. The Division of Jhansie, comprising the Districts of Humeerpoor, Jaloun, Jhansie, and Lullutpoor.

2. The Inspector General of Police, in communication with the District Officers and Commandants of the Military Police in the Districts of the Jhansie Division, will take such measures as may be necessary for the formation of the Constabulary Force, by incorporating with the new Police the Military, Municipal, Thannah, Ferry, Cantonment, or other Police, which have hitherto existed as separate bodies.

3. The Native Officers and Men belonging to the bodies of Police abovementioned, who are best fitted for service in the reformed Police, will be selected and drafted into the Force. The rest will be discharged according to orders and instructions which have been communicated to the Inspector General of Police.

4. As the Military Police will thus cease to exist as a separate body in the Division of Jhansie from the 1st January 1862, the appointments of Divisional and District Commandant, and of Divisional Adjutant of Military Police will be abolished in the said Division from the same date, namely, 1st January 1862.

5. The Mhair and Mhairwarah Local Battalions having been amalgamated, enrolment of the Constabulary Force required for the District of Ajmere and Mhairwarah will commence on the 1st January 1862. Supernumeraries, attached to the Battalion because of the amalgamation of the Mhair and Mhairwarah Local Battalions, will be absorbed in the Constabulary, the Men or Officers thus absorbed being those selected by the District Superintendent on account of their superior fitness for Civil Police duties.

REVENUE DEPARTMENT.

No. 736.

Allahabad, the 7th December 1861.

Whereas it appears to the Hon'ble the Lieutenant-Governor that land is required to be taken up by the Government in Mouzah Kusbah Murreeahoo khas, Pergunnah Murreeahoo, Zillah Jounpoor, at the public expense, for a public purpose, *viz.*, for the site of the new Tehseeldaree, it is hereby declared that a piece of ground measuring 1 Rood and 32 Poles is required for that purpose.

This Declaration is made under Section 2, Act VI of 1857.

No 1358A.

Camp Jhansie, the 11th December 1861.

With reference to paragraphs 8 to 37 of the Resolution of His Excellency the Viceroy and Governor General in Council, No. 3264, dated the 17th October 1861, relative to the sale of waste lands, the Hon'ble the Lieutenant-Governor is pleased to publish, for the information of all concerned, the following Rules of procedure which have been prepared by the Sudder Board of Revenue, North-Western Provinces, and have received the approval of the Government of the North-Western Provinces.

RULES OF PROCEDURE.

1. The attention of all Officers in charge of Districts containing unassigned waste lands is directed to the first portion of the Revenue Resolution of the Viceroy in Council, No 3264, dated the 17th October, to the provisions of which they are required to give full and immediate effect.

2. The Collector should at once proceed to prepare a Statement of all special tracts, reserved from the operation of this Circular, under paragraphs 23 and 24 of the above orders, as being required for Forest purposes, for grazing or firewood preserves, for building sites, or for any other public object. This Statement should be exposed in his Office, and facilities should be given to intending applicants to make themselves aware of its contents.

3. When an application for the assignment of a special tract of waste land is received, the Collector will first consider whether any objection or special limitation is required by reason of the land being required for any of the abovenamed purposes; and, in the event of such being the case, and the applicant still prosecuting his demand, the Collector will report the matter for the information of the Commissioner.

4. In other cases, he will at once proceed to inquire whether the land applied for is encumbered by any prior claim of property or occupancy.

5. Where it is evident that there exist rights of property or of exclusive occupancy, either active or latent, the applicant will be informed that the case cannot be taken up under the grant rules, excepting in favor of the party originally possessed of those rights, or who has purchased them from such party, "it will be an important part of the Collector's duty to make certain that any transfer of such rights shall have been made with a complete and fair understanding on the part of all concerned."

6. In case of there being any doubt as to whether existing rights are of the exclusive character necessary to bar alienation, the Collector will report the case to the Commissioner.

7. Where no claims of the nature supposed are known to exist, the Collector will advertise the application for a term of thirty days, by an ishtehar to be stuck up in his Office, and in the Police and Revenue posts nearest to the property, as well as in any villages on the land or adjoining thereto. He will also, where he deems it advisable, have the purport of the application verbally explained to the inhabitants of those villages, and to any other parties likely to be interested in the grant.

8. Objections to the grant will be carefully considered, and disposed of on their merits.

9. Where no objections are brought forward within the period specified, or when they have been decided to be invalid, a memorandum will be forthwith given in the Form A, to the applicant, intimating that the land has been allotted to him, subject to fulfilment of the rules laid down by the Supreme Government. Great care will be necessary in defining the land thus allotted in such manner as that no possibility of misunderstanding may exist as to its position and extent, and especially as to its not infringing on the boundaries of adjoining lands held under anterior claims of proprietorship or exclusive occupancy.

10. No allotment as above will be made exceeding 3,000 acres; and in the Hill Districts no grant of tea lands shall exceed 2,000 acres. Where any special reason may exist against the assignment of so large an area, such as proximity

o a Station, &c., and the grantee may not be content with a smaller area, the Collector will report the case for orders, with his opinion as to the degree of farther limitation which is called for.

11. The Collector will next calculate the cost of surveying the grant and of erecting durable pillars of demarcation. This will be at the lowest rate for which land of the nature applied for is ordinarily surveyed in the District. But provisions must be made for the measurement being accurately conducted, on the plane table system, and in such wise that a correct estimate may be formed of the amount of land "uncleared," and of the amount "unencumbered with jungle," as also of the portion which may fairly be held to be unculturable. A scale of charges of survey should be prepared and hung up, in the same way as the Statement referred to in paragraph 2. The Collector will submit a copy of this scale to the Commissioner for the approval of the Board.

12. When the cost of survey has been paid in, the Collector will intimate to the applicant that he is at liberty to take possession of the land.

13. The survey will be proceeded with forthwith, and no time should be lost in the erection of the boundary pillars.

14. Where an estate has been already surveyed and marked off, this portion of the operations will of course be dispensed with, and no charge will be made against the applicant further than is necessary to secure an accurate plan of the new estate, with the requisite boundary marks.

15. Immediately on completion of the survey, or, where a fresh survey is not required, immediately on the allotment having been definitely concluded, the Collector will calculate the purchase money on the amount of culturable land in the grant at the rates of Rupees 2-8 per acre for uncleared land, and Rupees 5 for land unencumbered with jungle.

16. He will then invite the grantee to pay in the full amount, or, at his option, any portion of it, being not less than one-tenth. One-tenth must be paid down at once to warrant the grantee remaining in continued occupation. Immediately on its payment, the Collector will deliver the Deed of grant, Form B, with plan of the estate, to the grantee, and will enter his name provisionally in the District records as proprietor of the grant.

17. Wherever it may seem necessary to make any reservation of the rights of Government, under paragraphs 12 and 13 of the Resolution, the Collector will report the circumstances of the orders of the Commissioner.

18. In any case, in which prior to the delivery of the Memorandum of assignment (Form A), more than one application has been received for the same land, the Collector will, after the necessary survey, advertise the grant for sale, and proceed under the ordinary rules for such sales. He will fix the upset price according to the rule laid down in paragraph 15 of the Resolution, including in the same the cost of survey.

19. The sale will be concluded in favor of the highest bidder, on his paying down one-tenth of the sale price. The Deed of grant, Form B, and plan of the estate, will then be made over to him and possession be immediately given, subject to the conditions laid down in paragraph 27 of the Resolution and paragraph 25 of this Circular.

20. So soon as the grantee's name has been provisionally entered in the proprietary register, he is entitled to apply for the reservation of any adjoining plot, not exceeding the previous grant in area that is available, and has not been already applied for; which can then be surveyed at his expense, and reserved for him; he will in such case be at liberty to obtain possession of the additional tract under the same procedure and conditions as the original grant, "but subject to the obligations that, within five years from the date of his previous grant, he shall fulfil the conditions necessary to his being accorded as proprietor of this further grant, and that two-thirds of the previous grant, that is of its culturable area, shall within the same time have been brought under cultivation. If he should fail in either obligation, the reservation of the plot will cease. There need be no limit to the number of further grants which may be successively taken up in fulfilment of these obligations."

21. Holders of grants under former rules, "who have not yet completed the purchase of their grants," may commute them under the new rules without limitation of area. The purchase money will be calculated at Rupees 2-8 per acre on any portion of the culturable area at the time being "uncleared," and at Rupees 5 on all that is at the same time "unencumbered with jungle." Ten per cent of this sum must be paid down at once, and the balance treated as directed in the present rules for new grants. Provided that the grantee shall have the option of redeeming the Land Revenue by payment of twenty years' purchase of the maximum yearly assessment of his existing grant.

22. This rule will not apply to any grants re-settled, or otherwise concluded, on a Zemindaree footing, at a fixed assessment.

23. Wherever the permission is applicable, it must be acted upon at once; but a period of six months may be allowed for the grantee to make his election between the old and new rules. An intimation should be served on each existing grantee entitled to the option to the above effect. After expiry of the term it will not be open to him to apply for commutation under this Circular.

24. It will be observed that an existing grantee can purchase, under the new rules, any portion of his grant, retaining, if he pleases, the remainder upon the terms of the original grant. It must not, however, be permitted to a grantee to break up his grant into many minute portions under this concession, rejecting, or retaining under different titles, such scattered portions. The tracts selected for purchase must be compact, continuous, and well defined.

25. From the date of the Deed (Form B.) three months will be calculated; and whatever balance of purchase money is found to be then unpaid will be entered as an arrear against the grantee, who is to be charged with 10 per cent per annum on such area. This charge should be treated in the same manner as a demand of Land Revenue, liable on default to the same measures for recovery of arrears.*

"The land will be held liable to resume in default of the regular payment of such interest, should there be no crop or other movable property on the land from which the claim of Government can be satisfied."

The amount should be demanded twice a year with the May and November instalments, and should be entered at the foot of the Pergunnah

Towzee in the same manner as Land Revenue, though the amount (being subject to diminution on each further payment) will not be added to the rent roll of the District.

26. Every grant will be reported, through the usual channel, for the information of Government, immediately on the Deed of grant being delivered to the grantee.

27. Every six months a report will be submitted of any sums that may have been realized within that period as purchase money. This must be carefully drawn up, in order that the provisions of paragraph 56 may be carried into effect. A copy of the six monthly report will be simultaneously sent to the Deputy Auditor and Accountant General.

28. In the annual Administration Report, the amount so realized within the year, and the total amount from the commencement of the system up to date, will be noted; and also the sum realized as interest on unpaid balances of purchase money.

29. The rules for compensation of any rights which may subsequently come to light as having existed on the grants are given in paragraph 19. All such cases will be reported to the Commissioner.

30. The title conveyed by the Deed of grant is a full and complete title, which the Government guarantees against all other claims. The grantees, and their heirs or representatives, are to be regarded the sole legal owners of the land, and no transfer of property in it will be recognized by the Courts or Revenue Officers, unless duly registered. A separate register of all grants made under these rules will be carefully maintained, in the following form, in the Collector's Office, both in English and in the Vernacular.

Number.	Name of Grant.	Name of Grantee.	Purchase Money.	Payment of instalments with date of each.	Date of Deed of Grant.	Subsequent registered transfers, or successions.

The Maps or Plans of all grants sold under these rules will be kept in a series corresponding with the numbers in this register. All previous Circular Orders on the subject of grants of waste land are hereby cancelled. Future applications will be disposed of under the present orders.

MEMORANDUM A.

————having made application for assignment to him of a grant of land in the———— Pergunnah, and no right of proprietorship or of exclusive occupancy having after the prescribed advertisement been found to exist therein, notice is hereby given, that the land specified below has been allotted to————as a grant, subject to fulfilment of the prescribed rules————(Here is to follow a description of the situation of the land, its extent, and the boundaries with which it is to be granted.

FORM OF GRANT B.

Know all Men by these presents, that the Government, North-Western Provinces, has conferred on——his heirs, executors, administrators, and assigns, the grant of a tract of land measuring British Statute acres——situate in———— to be holden by him in full proprietary right, subject to the following conditions:—

I. The purchase money for this grant is Rs. ——— of which Rs.——— have been already paid. On the*————if the entire purchase money has not been paid up, interest at 10 per cent per annum will be charged on the balance; and thereafter, until the entire purchase money be paid up, such interest will be chargeable on all unpaid arrears of the purchase money, and all payments by the grantee shall be first carried to the credit of any outstanding arrear of interest due on such purchase money.

Enter the date calculated three months from date of this Deed.

II. Arrears of interest shall be treated in the same manner as arrears of Land Revenue, and be subject to the same measures of realization.

III No transfer of proprietary right will be recognized by the Civil Courts, or by the Revenue Officers of Government, unless duly registered.

IV. The right of the public to roads in the grant is not to be interfered with. The grantee is to pay a contribution of one Rupee per annum for every 1,000 Rupees of purchase money, in lieu of all demands of the State for aid in repairing the high roads; which payment is commutable at twenty years' purchase. The grantee will have no claim on Government for making or repairing private roads.

V. The grantee is to erect permanent boundary marks round his grant* and to keep them in a state of repair.

* This will ordinarily be done at the time of Survey.

VI. The grant conveys the plenary right to all products both above the surface and below the same. (Here any exceptions which may have been approved by superior authority to be noted.) But wherever any persons have been accustomed to use or consume the spontaneous products of the soil, the grantee shall not interfere with them, so long as they do not trespass upon, or otherwise injure the cultivated portion of the land.

VII. For the preservation of the public peace, the grantee shall, at the requisition of the Magistrate, maintain a Chowkeedar for every sixty houses or families resident in the grant. The Chowkeedar shall receive three Rupees per mensem. For every three Chowkeedars there shall also be maintained by the grantee a goryt or reporter at a salary of two Rupees per mensem.

VIII. Arrears on account of road fund or Chowkeedars' salary may be realized by distraint of the crops or other property of the grantee.

IX. The prescriptive rights of other proprietors in streams running through or bounding the estate will be maintained for purposes of irrigation, or navigation, and for the transport of timber or other property, and for other purposes of general utility. The Government reserves to itself the right which it everywhere possesses over all such streams, whether for purposes of irrigation or navigation; and whenever it sees fit, can assume the control of the waters, and distribute them in such manner and on such conditions as may seem most conducive to the public good.

X. The lands included in this grant are shown in the subjoined table :—

Number on Map.	Number of Grant.	Name of Grant.	Name of Grantee.	Area in Acres.	Deduct irremediably barren Acres.

Remaining culturable Acres.	Area unencumbered with jungle.	Uncleared Area.	Purchase Money.

Boundaries.—North.

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st*.—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd*.—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd*.—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th*.—Each lot shall contain five Chests.

5*th*.—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is less than Rs. 1,200 per Chest	*Deposit.* Rs. 200 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	„ 300 „ „
Ditto of Rs. 1,600, but less than Rs. 2,000	„ 400 „ „

And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.

6*th*.—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th*.—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th*.—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th*.—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th*.—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th*.—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit, either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities, a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th*.—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified, that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz*., two of the season's provision under sale, and two of the previous season, will be also shewn to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article 6th.—"With regard to the Trade in "Opium, it is agreed between the high contracting Parties that, at each of the periodical Sales "of that article, there shall be reserved for the "French Government and delivered upon requisition duly made by the Agents of His Most "Christian Majesty, or by the Persons duly appointed by them, the number of Chests so applied for, provided that such supply shall not "exceed three hundred Chests in each year, and the "price of the same shall be determined by the average rate at which Opium shall have been sold at "every such periodical Sale, it being understood "that, if the quantity of Opium applied for at "any one time shall not be taken on account of "the French Government by the Agents of His "Most Christian Majesty within the usual period "of delivery, the quantity so applied for shall "nevertheless be considered as so much in reduction of the three hundred Chests hereinbefore "mentioned. The requisitions for Opium as "aforesaid are to be addressed to the Governor "General at Calcutta within thirty days after "notice of the intended Sales shall have been "published in the *Government Gazette*."

Notice.

Pleadership Examination.

In answer to numerous enquiries on the subject, the Sudder Court notify for general information—

1*st*.—That the Entrance fees payable by Candidates at the Pleadership Examination to be held at the Town Hall, Calcutta, on Monday, the 27th January 1862, *must be paid by the Candidates on presenting themselves for Examination*.

2*nd*.—That no separate papers of questions will be prepared for the lower grade Examination on this occasion, but Candidates, who obtain three-fifths out of the full number of marks, for their answers, will be entitled to diplomas of the second grade. Candidates for the second grade will only have to pay the Entrance fee of that grade, *viz*. Rupees 10.

3*rd*.—That the Text Books have *not* yet been translated into any vernacular language, and there will consequently be very little use in Candidates who are not *good* English Scholars attempting even the lower standard Examination.

By Order of the Sudder Court,

H. Ulick Browne,
Register.

Calcutta,
The 10th December 1861.

Under the orders of Government, Tenders will be received at this Office until sunset on the 28th of February 1862, for the translation of the following Works into Hindoostanee and Bengalee, respectively, on the conditions specified below :—

1. Mayne's *Commentaries on the Penal Code.
2. Norton on Evidence.
3. Macpherson on Mortgages.
4. A New Work on Contracts by the same Author.
5. Elberling on Inheritance.
6. Second and Third Books of Broome.
7. Kent's Commentaries, Chapters 39, 40, 41, 43, and 44.

The Translator must make his own arrangements with the Authors of the Works as regards copyright or right of translation if any such arrangements are in any case necessary, and the responsibility, on this point, must entirely rest with the Translator.

As there is reason to believe that good translations of the abovementioned Works will meet with an extensive sale among Candidates for Pleaderships and Moonsiffships, the Sudder Court will not engage to take any copies of the translations, but are prepared to give a reasonable sum of money in order to secure the translations being made by the dates hereinafter specified. The Tenders must therefore simply state the sum for which the applicant is willing to translate, *print*, and have ready for sale at least 300 copies. The Tenders must be drawn out in the form given in the margin.

I (name) of residence do hereby tender for the translations of the undermentioned Works on the terms specified below, and on the conditions advertised by the Register of the Sudder Court under date the

The Works shall be translated, printed, and ready for sale by the 1st September 1862, otherwise, I agree to forfeit the remuneration specified below :—

Name of Work.		Language.	Amount of remuneration required for translation.

Signature of Applicant.

A Translator may Tender either for one language or for both, and for one Work or more, as he pleases.

The right of rejecting any Tender, whether it be the lowest or not, is reserved, and none need apply who cannot give satisfactory proof of their competency to undertake the work.

Of the abovementioned Works,

1. Mayne on Criminal Law.
2. Norton on Evidence are most needed at present, and Tenders for their translation are most likely to be first accepted

H. Ulick Browne,

	Total	15,711	13,649	29,360

The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

The following are the Conditions of Sale:—

1*st*.—The Opium will be sold for exportation by Sea only, and no Certificate will be granted except to cover such Export.

2*nd*.—The Opium will be ordinarily offered for sale at an upset price of Rupees 400 per Chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of the Conditions of Sale.

3*rd*.—The Sale shall commence at the hour of 11 A. M. of the day fixed by previous Notification, and shall not be continued after the hour of 5 P. M.; but if at that hour any of the lots advertised for sale shall remain unsold, the Sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a Public Holiday) at the hour of 11 A. M., and so on until the whole of the remaining lots are disposed of, or, if the whole quantity advertised shall not be sold on the day appointed, the Board may dispose of the lots which remain on hand at a future Sale.

4*th*.—Each lot shall contain five Chests.

5*th*.—A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the Purchaser in the Sale Room, and before the lot is registered in the Sale Book, and all such Promissory Notes shall be redeemed on the part of the Purchasers at this Office by Sub-Treasurer's Receipts, or by substitution of other Public Securities of the Bengal Government, on or before 4 o'clock in the afternoon of the fifth day after the Sale; or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Sub-Treasurer's Receipts, or deposit of other Public Securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such Conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

When the amount bid is	*Deposit.*
less than Rs. 1,300 per Chest	Rs. 200 per Chest.
On bids of Rs. 1,200, but less than Rs. 1,600	„ 300 „ „
Ditto of Rs. 1,600, but less than Rs 2,000	„ 400 „ „
And so on, Rs. 100 being added to the Deposit for every additional Rupees 400 bid.	

6*th*.—The Promissory Notes taken on the day of Sale under the last mentioned Condition if remaining unredeemed at 4 o'clock of the fifth day following the day of Sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7*th*.—No tender of Money, Sub-Treasurer's Receipts, or Public Securities, on account of Opium, upon which the prescribed Deposit may not have been made before 4 o'clock of the fifth day following the day of Sale, will be afterwards accepted.

8*th*.—The Opium now advertized for sale shall be paid for within fifteen clear days from the day of Sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the Cash Deposit made under the fifth Condition, or any Public Securities that may have been deposited on account of such lots or Chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first Purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9*th*.—Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or Chests, whether more or less than the number of lots or Chests originally required to be included in each Certificate or Order.

10*th*.—No deposit of Public Securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the Purchaser in the Sale Book, or his authorized Agent. The Receipt for deposit of Public Securities will be granted only in the name of such Purchaser, and the Securities so deposited will be returned when payment in full has been made by the said Purchaser or his order.

11*th*.—The Officer superintending the Sale on the part of the Board of Revenue is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a Deposit, either in Bank of Bengal Notes, Sub-Treasurer's Receipts, or Government Securities, a sum equal to the amount, for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12*th*.—With a view to prevent fictitious biddings designed to obstruct the Sale, it is

hereby notified that the Officer of Government superintending the Sale shall be competent, at any time during the Sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the Purchaser of the said lot; and the Officer of Government superintending the Sale shall also be competent to dispose in the same manner of as many of the subsequent lots as he may think proper; provided always, that no lot shall be sold below the minimum price of 400 Rupees specified in the second of these Conditions.

13*th*.—The Purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots; provided always, that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14*th*.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the Supreme Court of Judicature at Fort William in Bengal, and all and every plea and pleas to the jurisdiction of the said Supreme Court shall be waived.

15*th*.—The following papers, together with samples of the Opium for sale, will be exhibited for inspection on the day of Sale, or may be seen previously to that date by application at the Office of the Junior Secretary to the Board of Revenue:—

No. 1.—Certificate of the Opium advertized for Sale.

No. 2.—Report of the examination of such Opium.

16*th*.—The Public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1860-61, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the drug when packed at Behar and Benares, and a Statement of the average weight of the Chests indiscriminately taken for the purpose of comparison from the dispatches on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue. Four Chests of Behar and Benares Opium, *viz.*, two of the season's provision under sale, and two of the previous season, will be also shewn to the Purchasers in the Sale Rooms on the day of Sale, to enable them to judge of the state of preservation of the drug in the Chests offered for sale.

17*th*.—Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on application at the Office of the Board of Revenue; but, in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to Chests after the sale and delivery of the Opium for shipment.

18*th*.—It is hereby further notified, that, under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand, that, out of the quantities of Behar and Benares Opium declared as above for sale at the twelve Sales of the year 1862, there shall be delivered to them, at the average of the particular Sale or Sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 Chests, and the Agents of the French Government must make requisitions specifying the quantity of Opium required by them at any particular Sale within thirty days from the advertisement of such intended Sale; provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this Notification. If the Agents of the French Government shall not make the requisition for Opium within the time abovementioned, the entire quantity of about 29,360 Chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article 6th.—"With regard to the Trade in "Opium, it is agreed between the high contracting Parties that, at each of the periodical Sales "of that article, there shall be reserved for the "French Government and delivered upon requisition duly made by the Agents of His Most "Christian Majesty, or by the Persons duly appointed by them, the number of Chests so applied for, provided that such supply shall not "exceed three hundred Chests in each year, and the "price of the same shall be determined by the average rate at which Opium shall have been sold at "every such periodical Sale, it being understood "that, if the quantity of Opium applied for at "any one time shall not be taken on account of "the French Government by the Agents of His "Most Christian Majesty within the usual period "of delivery, the quantity so applied for shall "nevertheless be considered as so much in reduction of the three hundred Chests hereinbefore "mentioned. The requisitions for Opium as "aforesaid are to be addressed to the Governor "General at Calcutta within thirty days after "notice of the intended Sales shall have been "published in the *Government Gazette*."

By Order of the Board of Revenue,

A. EDEN,

Junior Secretary.

Notice.

Pleadership Examination.

In answer to numerous enquiries on the subject, the Sudder Court notify for general information—

1*st*.—That the Entrance fees payable by Candidates at the Pleadership Examination to be held at the Town Hall, Calcutta, on Monday, the 27th January 1862, *must be paid by the Candidates on presenting themselves for Examination.*

2*nd*.—That no separate papers of questions will be prepared for the lower grade Examination on this occasion, but Candidates, who obtain three-fifths out of the full number of marks, for their answers, will be entitled to diplomas of the second grade. Candidates for the second grade will only have to pay the Entrance fee of that grade, *viz*., Rupees 10.

3*rd*.—That the Text Books have *not* yet been translated into any vernacular language, and there will consequently be very little use in Candidates who are not *good* English Scholars attempting even the lower standard Examination.

By Order of the Sudder Court,

H. Ulick Browne,
Register.

Calcutta,
The 16th December 1861.

Under the Orders of Government, Tenders will be received at this Office, until sunset on the 28th of February 1862, for the translation of the following Works into Hindoostanee and Bengalee, respectively, on the conditions specified below :—

1. Mayne's *Commentaries on the Penal Code.
2. Norton on Evidence.
3. Macpherson on Mortgages.
4. A New Work on Contracts by the same Author.
5. Elberling on Inheritance.
6. Second and Third Books of Broome.
7. Kent's Commentaries, Chapters 39, 40, 41, 43, and 44.

The Translator must make his own arrangements with the Authors of the Works as regards copyright or right of translation if any such arrangements are in any case necessary, and the responsibility on this point must entirely rest with the Translator.

As there is reason to believe that good translations of the abovementioned Works will meet with an extensive sale among Candidates for Pleaderships and Moonsiffships, the Sudder Court will not engage to take any copies of the translations, but are prepared to give a reasonable sum of money in order to secure the translations being made by the dates hereinafter specified. The Tenders must therefore simply state the sum for which the applicant is willing to translate, *print*, and have ready for sale at least 300 copies. The Tenders must be drawn out in the form given in the margin.

I (name) of residence do hereby tender for the translations of the undermentioned Works on the terms specified below, and on the conditions advertised by the Register of the Sudder Court under date the

The Works shall be translated, printed, and ready for sale by the 1st September 1862, otherwise, I agree to forfeit the remuneration specified below :—

Name of Work.		Language.	Amount of remuneration required for translation.

	Ditto ..	Bengalee ..	0 0 0

Dated

Signature of Applicant.

A Translator may Tender either for one language or for both, and for one Work or more, as he pleases.

The right of rejecting any Tender, whether it be the lowest or not, is reserved, and none need apply who cannot give satisfactory proof of their competency to undertake the work.

Of the abovementioned Works,

1. Mayne on Criminal Law,

2. Norton on Evidence, are most needed at present, and Tenders for their translation are most likely to be first accepted.

H. Ulick Browne,
Register.

* The translation of *all* the Commentaries is not necessary, particulars can be ascertained at the Register's Office.
